MCKENDREE
UNIVERSITY

McKendree University is an affirmative action/equal opportunity employer and admits students of any sex, race, color, national and ethnic origin and age with all rights, privileges, programs, and activities generally accorded its students. In conformance with state and federal regulations, McKendree University does not discriminate on the basis of sex, race, color, religion, disability, national and ethnic origin, or age in the administration of its educational policies, admission policies, scholarship and loan programs, athletic, and other school administered programs. Students, employees, and faculty who believe they may have been discriminated against may contact the Compliance Officer at the University's address or telephone (618) 537-6533. Services of the substance abuse prevention program administered by the Athletic Department are available to all officers, employees, and students of McKendree University. McKendree University is authorized under Federal Law to enroll nonimmigrant alien students.

Policies stated in this catalog are subject to change as required and as the institution deems appropriate. The statements contained herein are not to be regarded as an offer to contract.

While maintaining its reputation for delivering a high quality undergraduate education, McKendree has expanded its academic course offerings to include graduate degree programs in education, business administration, nursing, and professional counseling. To the athletic program, the university has added ice hockey, wrestling, and bowling. McKendree's athletic program boasts Coach Harry Statham, the most successful coach in the history of four-year men's college basketball.

An enhanced academic reputation for the university has accompanied its growth. The university has become more highly selective, attracting more academically talented students, and the student body is more diverse.

McKendree offers a wide variety of co-curricular opportunities, including music, band, athletic teams, debate teams, honor societies, student research opportunities and academic programs that have resulted in a spirited university environment. In November 2006 the university dedicated the Russel E. and Fern M. Hettenhausen Center for the Arts. The "Hett", as the center is known, is home to the music and theater departments. It offers the campus community a state-of-the-art facility in which to enjoy a wide variety of performances and special events. McKendree opened "1828," a restaurant/café to serve commuter students, evening students, and the campus community. In 2011 two new residence halls were constructed to better serve a growing residential student population.

Along with the many advances at the institution, one thing remains constant: McKendree University continues to provide a nurturing environment, offering students opportunities and challenges that lead to unmatched personal and professional growth.

A letter from the **President**

Congratulations on your decision to enroll at McKendree University.

McKendree is committed to providing excellent students with a broad-based, liberal arts education that fosters the critical thinking, leadership, problem-solving, and communication skills necessary to succeed in today's world.

The faculty of McKendree have declared the academic year 2013-2014 the "Year of Diversity." Our Mission expressly calls for "an atmosphere of open dialogue, free inquiry, and mutual respect, conducted among students from diverse backgrounds." Our second Purpose Statement is "to help our students develop an appreciation and understanding of human diversity by providing knowledge of and opportunity for experience with multiple ethnicities, cultures, and societies." To that end, this year will be full of opportunities for you to experience and discuss diversity, including in class, through our many academic and cultural events, and through interaction with your fellow students.

This catalog provides information about our courses of study, policies, and procedures. It is an excellent reference that will help you maximize your time here. If you have any questions or concerns, please feel free to ask any member of our faculty or staff for help.

We are pleased that you have chosen to study here, and are ready to support you on your journey. Welcome, and best wishes for a successful McKendree Experience.

Sincerely,

A handwritten signature in blue ink that reads "James M. Dennis". The signature is fluid and cursive, written over a background image of a campus scene.

James M. Dennis
President • McKendree University

What McKendree University Offers

Conscious of a rich past, McKendree is prepared for a challenging future. The university takes seriously its responsibility as a comprehensive university dedicated to preparing purposeful, effective adults whose intellectual, career, and social skills will make them able contributors in the work place – persons filled with a spirit of free inquiry and a moral commitment to truth. To these ends, McKendree offers over 45 undergraduate academic majors and nine graduate programs leading to six degrees, including the EdD, EdS, MAED, MSN, MAPC, and MBA, along with numerous academic and career-related support services designed to enrich each student's learning experience.

The University Mission

The mission of McKendree is to provide a high quality educational experience to outstanding students. We guide our students in the pursuit of academic excellence which will prepare them for leadership roles in our society. To achieve this end we encourage broader vision, enriched purpose, engagement with community, commitment to responsible citizenship, openness to new ideas and dedication to lifelong learning. In keeping with our history and traditions, we provide our students with a rigorous, broadly based liberal arts curricula joined with specialization in a specific discipline.

We cherish our historical relationship with the United Methodist Church and its tradition of Judeo-Christian ideals. Therefore, we encourage an atmosphere of open dialogue, free inquiry, and mutual respect, conducted among students from diverse backgrounds.

Purposes

1. To offer undergraduate, graduate, and professional programs to develop our students' knowledge, analytical abilities, research capabilities, creativity, and sense of identity.
2. To help our students develop an appreciation and understanding of human diversity by providing knowledge of and opportunity for experience with multiple ethnicities, cultures, and societies.
3. To create an intellectual and technological environment supportive of innovative and effective teaching, research, assessment and communication, excellent writing and oral skills, and decision making.
4. To attract and maintain an excellent faculty and staff committed to teaching, to research, and to service to McKendree and the greater community while also attracting and retaining an outstanding student body.
5. To create a culture of campus life that includes experiences beyond the classroom that allow for the development of the whole person.

The Tradition

Established in 1828 by pioneer Methodists, McKendree is the oldest university in Illinois, and the oldest in the nation with continuous ties to the United Methodist Church. First called Lebanon Seminary, the school opened in two rented sheds for 72 students. In 1830, Bishop William McKendree, the first American-born bishop of the Methodist Church, permitted the Board of Trustees to change the institution's name to McKendree College. Later Bishop McKendree deeded 480 acres of rich land in Shiloh Valley, Illinois, to help support the College.

Reverend Peter Akers, in 1833, was the first president of the newly named college. He was three times president of McKendree College and received its first degree, an honorary Doctorate of Divinity.

In 1835, the College received one of the first charters granted to independent church colleges by the Illinois legislature. The institution still operates under the provisions of a second, more liberal charter obtained in 1839.

McKendree's students have included many who were in industry and business, who became senators and governors and career public servants, who were distinguished military leaders, and who filled pulpits and teaching appointments across the land.

McKendree University Lebanon, Illinois Campus

The Lebanon campus of McKendree University is located in a charming community of about 4,000 people with a downtown business district within easy walking distance of the campus.

McKendree's location is a blend of the rural and the urban. The 100-acre Lebanon campus is within 25 minutes of downtown St. Louis to the west and equally close to the popular Carlyle Lake outdoor recreation area to the east. McKendree students thus get the best of both worlds: the serenity and security of a small town – and the advantages of a large metropolitan area – career opportunities, cultural events and institutions, shopping, professional sports, and entertainment. The Lebanon campus facilities blend well the past and the present. Two buildings – Old Main and Stevenson House, the official residence of the University president – are included in the National Register for Historical Buildings. Several other venerable campus buildings have been renovated in recent years to accommodate increased academic and administrative needs. Our remodeled full-service café and bookstore are two recent examples of our commitment to providing high quality services to our students.

The Marion K. Piper Academic Center, with state-of-the-art, technologically equipped classrooms and offices, opened for classes in May 2000. Other additions to the campus include a fitness center and the Leemon football/track and field complex. These facilities, along with the Melvin Price Convocation Center, support an enthusiastic and growing athletic program. The Russel E. and Fern M. Hettenhausen Center for the Arts opened in Fall 2006 and provides a premiere venue for the performing arts. To support a growing number of Lebanon residential students, the University opened two new residence halls in Fall 2011 and completed a major renovation of Ames Dining Hall.

Kentucky Campuses

The McKendree University Kentucky Campuses are located in Louisville and Radcliff. Programs are offered in convenient scheduling formats, geared to serve busy adults.

The following degrees are offered at the Kentucky Campuses:

- **Associate of Science in Business Administration**
- **Bachelor of Business Administration**
- **Bachelor of Business Administration in Marketing**
- **Bachelor of Business Administration in Accounting**
- **Bachelor of Business Administration in Management**
- **Bachelor of Business Administration in Human Resources Management**
- **Bachelor of Science in Computer Information Systems**
- **Bachelor of Science in Information Technology**
- **Bachelor of Science in Nursing**
- **Bachelor of Arts in Organizational Communication**
- **Master of Business Administration**
(Concentrations available in Human Resources Management and International Business Concentration)
- **Master of Science in Nursing – Management Concentration**
- **Master of Science in Nursing – Education Concentration**

In addition to the above, a student may earn a minor in Management, Marketing, Computer Science, or Accounting.

Accreditations and memberships of the McKendree University Kentucky Campuses are listed on p. i of this catalog. The Kentucky Campuses are licensed by the Kentucky Council on Postsecondary Education, and the programs offered are approved by the Kentucky State Approving Agency for Veterans Educational Benefits. Students enrolling in one three or four credit hour class each month are considered full-time for purposes of tuition assistance and veterans' benefits. A student may attempt to take more than one class per month only by permission of the Executive Director of the Kentucky Campuses.

A personal interview is an integral part of the admissions process. During the interview, the prospective student receives an unofficial academic evaluation based upon high school and college transcripts. The student is also counseled in planning a degree program and is provided with information about the cost of attendance, financial aid, and application procedures. Criteria for admission are stated in this catalog. Exceptions to these criteria, particularly for adults who have not attended school for several years, may be considered on written appeal to the Provost or her designate.

Inquiries and requests for additional information should be addressed to one of the following:

McKendree University/Louisville

10168 Linn Station Road, Suite 100
Louisville, KY 40223
Tel (502) 266-6696
Fax (502) 267-4340

McKendree University/Radcliff

Fax (270) 351-3888

The Center at Scott AFB

McKendree's Center at Scott AFB is located on Scott Air Force Base, Illinois.

The following six degrees may be earned through the Center at Scott AFB:

- **Bachelor of Business Administration**
- **Bachelor of Business Administration in Accounting**
- **Bachelor of Business Administration in Management**
- **Bachelor of Business Administration in Marketing**
- **Bachelor of Science in Computer Science**
- **Bachelor of Science in Computer Information Systems**

The Center at Scott AFB is designed to meet the needs of working adults. Students may receive academic advisement, register for classes, and purchase textbooks in one convenient location. Most courses are offered in an accelerated one-month format and meet three evenings per week for thirteen sessions each month. Some courses are offered in a six-week format. At least one course in each major is offered every month, with a required general education course, so that a student can complete all degree requirements at Scott AFB.

All courses offered at the Center at Scott AFB are approved for veterans' education benefits and military and company tuition assistance. Financial aid benefits are also available to students.

For additional information, call the McKendree at Scott office at (618) 256-2006.

Accelerated Instruction with McKendree (AiM)

McKendree University offers a Bachelor of Business Administration in a blended format at several locations throughout Illinois. This program is designed for adult learners. Classes meet one night per week with additional online assignments, discussions, etc. Courses are 8 weeks in length and students complete two courses during each 8-week session.

Current locations include:

- Flora High School – Flora, IL**
- John A. Logan College – Carterville, IL**
- Joliet Junior College – Joliet, IL**
- Kaskaskia College – Centralia, IL**
- Rend Lake Market Place – Mt. Vernon, IL**
- Southwestern Illinois College – Red Bud, IL**
- Wabash Valley College – Mt. Carmel, IL**

Financial assistance is available to those who qualify. Additional information is available by contacting the Office of External Programs, 618-537-6577, or aim@mckendree.edu.

McKendree Online

McKendree University offers bachelor degrees in an online format with majors in nursing, business administration, human resource management, management, and marketing. These programs are offered in an accelerated format to accommodate the adult learner. Most classes are delivered in an eight week format (some nursing classes are 12 weeks). Financial assistance is available to those who qualify. Additional information is available by contacting the McKendree Online Office, 618-537-6576, or online@mckendree.edu.

F-1 international students are limited to take only one online class per semester (up to three credits).

Servicemembers Opportunity College

McKendree University has been designated as an institutional member of Servicemembers Opportunity Colleges (SOC), a group of over 400 colleges and universities providing voluntary post-secondary education to members of the military throughout the world. As a SOC member, McKendree University recognizes the unique nature of the military lifestyle, and has committed itself to easing the transfer of relevant course credits, providing flexible academic residency requirements, and crediting learning from appropriate military training and experiences. SOC has been developed jointly by educational representatives of each of the Armed Services, the Office of the Secretary of Defense and a consortium of thirteen leading national higher education associations. It is sponsored by the American Association of State Colleges and Universities (AASCU) and the American Association of Community and Junior Colleges (AACJC).

The mission of McKendree is to provide a high quality educational experience to outstanding students.

The Curriculum

A thorough education includes a broad exposure to the classical and modern disciplines which are the foundation stones upon which all specialized career training is built. McKendree's curriculum builds this foundation with its required general education of liberal arts studies. General education courses strengthen reasoning and quantitative skills, develop oral and written communication, and open students to new perspectives by exposing them to the sciences, sociology, history, philosophy, religion, art, language, politics, economics, psychology, and health and wellness. The variety of courses in the general education program provides students with many perspectives on their choices of careers and major concentrations for more advanced study.

By the end of the sophomore year, most students have chosen a major field and perhaps a minor field as well. Interdepartmental combinations such as political science and journalism, management and computer information systems, history and philosophy, or marketing and art are only a few of the possibilities available. Faculty advisers consult at length with students about their academic and career choices.

Holman Library

Holman Library, located at the heart of the Lebanon campus in front of Fountain Plaza, provides outstanding library services and information resources to serve the constantly changing and evolving information needs of the McKendree community. The three floors of the Library house a growing collection of more than 80,000 book volumes in open stacks, along with more than 100,000 other items including government documents, DVDs, videos, CD-ROMs, audio CDs, ebooks, audio cassettes, microforms, and the Dillard, Grauel and Benson Wood special collections. Our electronic databases provide full text and citations to millions of scholarly research articles and other resources for every discipline taught at the university. In addition, our online catalog (I-Share) contains the holdings of Holman Library as well as 65 major academic libraries in Illinois. More than 30 million items are available to our campus community through online requests and delivered via courier service.

The dedicated Library faculty and staff offer individual and group instruction at the Library and in any classroom across McKendree's campuses. The Library's web pages, <http://www.mckendree.edu/offices/library/index.php> provide access to electronic and instructional resources 24 hours per day from offices, homes and residence halls.

The distinctive Bishop McKendree window overlooking campus beckons visitors to the Library. Faculty, students, staff, alumni and the Lebanon community use Holman Library for research and quiet study, as well as for leisurely browsing of books, journals and videos, or just relaxing with a current newspaper.

McKendree Academic Support Center

The Academic Support Center on the Lebanon campus offers assistance to all students in organizing written work, improving skills in reading and study methods, and reviewing mathematics. Free tutoring in all subjects is also available through the center, as are credit courses in basic reading and study skills. The Academic Support Center is located at 509 Stanton Street. Information can be obtained by calling the Director of the Academic Support Center at 618-537-6850. Current hours are listed on the webpage at <http://www.mckendree.edu/offices/academic-support-center/index.php>.

Writing Resource Center

The Writing Resource Center (WRC) is located at 509 Stanton Street on the Lebanon campus. Experienced peer and faculty tutors provide a full range of services to students, staff, and faculty on an appointment or walk-in basis. The Writing Resource Center offers assistance with all aspects of the writing process and research and documentation. The WRC also offers in-class seminars for instructors and supports faculty who are teaching courses designated as Writing Intensive (W). Appointments may be made by calling (618) 537-6858. Current hours are listed on the webpage at <http://www.mckendree.edu/offices/writing-center/index.php>

Center for Public Service

The Center for Public Service on the Lebanon campus supports the development of curricular programs that link community service to academic coursework. The goals of the Center are to contribute to the intellectual development, sense of social responsibility, and active citizenship of students. These goals are pursued by engaging students in meaningful and academically sound service experiences which enhance the understanding of each discipline, provide an opportunity to practice skills specific to the various disciplines, foster personal growth as an active member of a community of learners, and cultivate the intellect and spirit of persons who care for one another and for the world in which they live and work.

For more information about the Center for Public Service visit the webpage at <http://www.mckendree.edu/student-life/involvement/org/service/public-service/index.php> or call 618-537-6900.

We guide our students in the pursuit of academic excellence which will prepare them for leadership roles in our society.

Services for Students with Disabilities

The university maintains a strong commitment to make all services, programs and activities equally available to students with disabilities. To the greatest extent possible, students who have disabilities are integrated into the total student population, regular programs and normal services.

Persons with disabilities who apply are considered for admission in the same manner as non-disabled persons. Since information about disability is not solicited during the admission process, students with disabilities must identify themselves to obtain assistance. This information is totally voluntary and confidential.

Academic support services are provided through the Academic Support Center and other departments in order that this element of the student population may obtain the maximum academic, social and cultural benefit within the university community. The Director of the Academic Support Center is responsible for program implementation and coordination of many of the programs, activities and services for students with disabilities. The director offers guidance and counseling along with referrals to related offices and departments. The director also provides assistance in obtaining specialized equipment, supplies, support sessions and special accommodations.

Further information can be obtained from the Director of the Academic Support Center, 509 Stanton Street, (618) 537-6850.

McKendree University Parent Association

The Parent Association at McKendree University seeks to connect parents, families and friends in meaningful ways to our community. Membership into the Parent Association is free of charge and members receive monthly e-newsletters; invitations to signature events; and connections with other McKendree families. We recognize and appreciate the role families have in their student's success here at McKendree University. Our Parent Association, in conjunction with the Office of Parent Relations seeks to engage parents in interactions with faculty, staff and other parents, intended to enhance their experience(s) with McKendree University. We also strive to connect with parents to offer multiple levels of support to the University while also equipping them to best offer guidance to their student. For more information about the Parent Association, visit the webpage at <http://www.mckendree.edu/parents> or call our office, located in the Alumni House on the Lebanon, IL campus at 618-537-6823.

McKendree University welcomes applications from students who seek a challenging university experience in a stimulating and friendly environment. Academic opportunities exist for emphasis in the liberal arts as well as for professional studies.

All courses of study provide a foundation for a well-rounded education. Applicants are considered on an individual basis without regard to sex, race, disability, nationality, or religion.

MAKE YOUR MARK

A D M I S S I O N

General Information

High school students may apply for admission at the completion of their junior year. Transfer students may apply at any time prior to the semester in which they plan to enroll. The same admission requirements apply to all degree-seeking applicants, whether full or part-time. Students may apply to take individual courses without becoming candidates for a degree. Such students may be admitted with non-degree status and may take up to 21 hours. Any student who wishes to take more than 21 hours must apply for admission to a degree seeking program, except students who are attending McKendree as part of a foreign student exchange program. The university may require an interview as part of the admission process.

Application Procedure

Students seeking admission to McKendree University Lebanon campus must apply through the Office of Admission.

To be considered for admission, an applicant must complete the following steps:

1. Complete and return the application for admission. Students are encouraged to complete the application online at www.mckendree.edu;
2. Submit an official high school or GED transcript and official scores on the American College Testing (ACT) examination or the Scholastic Aptitude Test (SAT) if not posted on the official high school transcript; *and*
3. Submit official copies of transcripts for all post-secondary institutions attended.

Admission to McKendree is selective. Decisions are based on high school records, including rigor of curriculum, test scores, recommendations and evidence of student leadership. McKendree selects students who demonstrate potential and desire to succeed in a rigorous academic environment.

Application for Re-admission

Students who previously attended McKendree University and are seeking re-admission must complete an application for admission and supply up-to-date transcripts if they have been out of school for one year or have attended another institution since they were last enrolled at McKendree University.

Transfer Students

To be considered for admission as a transfer student, a student must have a minimum cumulative grade point average of 2.0 for all university classes taken. (Credit awarded in transfer for post-secondary work completed elsewhere is determined by the Registrar according to policies stated in the Academic Programs and Policies section of this catalog under Transfer Credit.)

Enrolling for Classes

To enroll for classes, a student must:

1. Be admitted to the university;
2. Complete all admission procedures;
3. Lebanon campus students must undergo a physical examination before classes begin and supply the record thereof;

This applies to all first year students and transfer students taking more than five credit hours per semester at the Lebanon campus. A state public health law requires that the immunization portion of the physical be completed and signed by a physician and that all updates of necessary immunizations be noted. The law does not apply to students born before 1957. Students will not be permitted to attend classes until this requirement is met.

4. Take an English placement examination if lacking college credit for English composition;
5. Submit non-refundable deposits as follows:
Commuter: \$200 tuition deposit
Resident: \$400 tuition and housing deposit

Students who have been re-admitted to the university must meet these same requirements.

Students admitted for the Fall Semester may enroll for classes for the preceding Summer Semester at McKendree University. The Office of Admission must be notified prior to summer enrollment.

No student will be permitted to enroll for classes for a second term unless admission and academic files are complete, including the final official high school transcript verifying graduation from that institution, official GED transcripts if applicable, official transcripts from all post-secondary institutions attended if applicable, and all medical and immunization records. (Please note that official transcripts are those that are mailed from institution to institution.)

Admission to Specific Programs

Nursing Program

McKendree University offers an upper level BSN program for registered nurses. The program is accredited by the Commission on Collegiate Nursing Education (CCNE) and the National League for Nursing Accrediting Commission. Admission to the university does not automatically guarantee admission to the Nursing Program. Details regarding admission to the Nursing Program are discussed in the Courses of Study Section of this catalog under Nursing.

Teacher Education

McKendree University offers a teacher education program in both elementary and secondary education. Admission to the university does not automatically guarantee admission to the teacher education program. Requirements for admission to the various programs in teacher education are stated in the Courses of Study Section of this catalog under Education. For teacher certification purposes, no individual may present more than 9 semester hours of professional education credit from junior and community colleges.

Honors Program

McKendree University offers an honors program for students with exceptional academic talents. Requirements for admission to this program are presented in the Additional Course Offerings section of this catalog under Honors Program.

Athletic Training

McKendree University offers an athletic training program for students interested in pursuing a career as certified athletic trainers. The program is accredited by the Commission on Accreditation of Athletic Training Education (CAATE). Admission to the university does not automatically guarantee admission to the Athletic Training Program. Details regarding admission to the Athletic Training Program are discussed in the Courses of Study Section of this catalog under Athletic Training.

McKendree University reserves the right to restrict enrollment in classes designed for certain academic populations to members of those populations. Undergraduate students attending the Lebanon campus may take only one online course during the August-May school year.

International Student Admission

McKendree University welcomes applications for admission by international students. We believe that these students contribute positively to the campus environment.

A student applying for admission as an international student must submit the following documents:

- 1. Application for admission;** \$40.00 application fee. This fee is required for completed paper applications. There is no fee if application is made at www.mckendree.edu;
- 2. Supplemental Application for International Students.** This application is needed for proper issuance of I-20 documents;
- 3. All official secondary transcripts.** If you have attended any secondary school or high school, official secondary transcripts are required. All transcripts must be translated into English;
- 4. All postsecondary transcripts.** If you have attended any college or university after completing your secondary school education, official postsecondary transcripts are required. All transcripts must be translated into English. Postsecondary transcripts from institutions within the United States will be evaluated for credit by McKendree University. All postsecondary transcripts from international institutions must be evaluated by a credential evaluation agency in order for the admissions process to be completed. Please contact Educational Credential Evaluators, Inc. at www.ece.org or (414) 289-3400 or World Education Services at www.wes.org or (800) 937-3895 for more information. Fees may range from \$0-\$200 for a complete credential evaluation. Please allow three to six weeks for the evaluation;
- 5. An official TOEFL score report (Test of English as a Foreign Language).** This exam is required for all students whose native language is not English. Exceptions may be made for those whose native language is not English, yet have completed secondary studies in English. Students may learn more about registering for this test at www.act.org or by calling (609) 771-7100;
- 6. An official SAT I or ACT score report (Scholastic Aptitude Test/ American College Testing).** Only one of these exams is required of all first-year international students. You may learn more about registering for these tests by visiting www.act.org or by calling (319) 337-1270 for the ACT, and www.collegeboard.com or by calling (609) 771-7600 for the SAT;
- 7. A letter from your bank.** This document will verify that the student has the financial ability to fund his or her education for one year. An amount equal to

the cost of attendance, less any institutional aid awarded to the student, must be provided in the letter. The cost of attendance for a campus resident is \$32,140 for the academic year. This letter must be on official bank letterhead;

- 8. A completed medical form.** This document must be filled out by the applicant and his or her medical doctor. Required information is needed from the student's medical history, which should include immunizations and a recent physical examination;
- 9. Letters of recommendation from teachers and coaches.** These letters are not required, but are encouraged from all students.

This school is authorized under Federal law to enroll nonimmigrant alien students.

In addition to these documents, F-1 transfer students from other U.S. colleges must also provide a copy of their current I-20 form. Please send all required materials to:

McKendree University
Office of Admission
701 College Road
Lebanon, Illinois 62254-1229

For more information about International Admission, please contact: Josie Blasdel, International Student Counselor, jlblasdel@mckendree.edu, (800) 232-7228, ext. 6836. For more information about International Student Services, please contact Brent Reeves, Director of Multicultural Affairs and International Student Services, breeves@mckendree.edu, (800) 232-7228, ext. 6938.

Academic Placement

A full academic placement program is provided for McKendree students. The goal of this placement program is to promote students' success in achieving academic and career goals by identifying their skill levels in such areas as writing, reading and mathematics. Based on placement results, advisors assist students to schedule appropriate courses. Students are required to complete the courses into which they are placed.

Credits in Escrow Program

The "credits-in-escrow" program enables academically talented high school students to enroll in McKendree University classes during their junior or senior year in high school and accrue credit to be applied toward a baccalaureate degree.

Students who are in the upper 25% of their class will be considered for admission to the program upon submission of an application to the admissions office, a high school transcript, and a letter of recommendation from the high school principal. The fee per credit hour is one-half the regular tuition.

Concurrent Admissions Program (ConAp)

ConAp is a joint program of the Army, Servicemembers Opportunity Colleges, and participating colleges to admit new soldiers to college at the time of enlistment. McKendree admits eligible soldiers on a full or provisional basis and defers enrollment until completion of active military service. The agreement is in effect for two years following completion of the initial enlistment for active duty soldiers or, for Army Reserve soldiers, two years after completing initial active duty for training.

Home Schooling Admission Policy

McKendree University welcomes applications from home-schooled students.

If you are completing your high school education under the aegis of a diploma-granting organization, you will need to submit evidence of the coursework completed and performance evaluation. For those not completing their diploma with an organization, we require a detailed portfolio of the work you have completed to assess your level of preparation for college-level work at McKendree. This portfolio should include descriptions of books and other curricular material used and mastered in preparation for college-level courses, transcripts from community colleges or other courses, scores from Advanced Placement tests, recommendations from qualified tutors or teachers, examples of independent research, or evidence of completed units in science, English or other academic subjects. We also strongly encourage home-schooled students to provide a sample of their writing.

All McKendree applicants must submit either an ACT or SAT score with their application. These tests are administered independently of school systems and are open to anyone.

Letters of recommendation are particularly important for applicants. Your referees should be qualified to evaluate you not only as a student but also as an individual and member of the community.

If you have additional questions about the McKendree University admissions process, please contact our office.

Financial Information

Payment of Financial Obligations

Prior to the commencement of classes, McKendree University students must pay all tuition, fees, and room and board charges. No student with an unpaid account will be permitted to enroll until the account is paid in full or satisfactory arrangements have been made with the Business Office.

Payment may be made by personal check, debit card, American Express, MasterCard, Discover, or Visa. Grants and scholarship awards may also be applied toward payment of financial obligations. Federal Direct Subsidized Loans, Federal Direct Unsubsidized Loans, Federal Direct Parent (PLUS) Loans, or Perkins Loans may be applied, provided the student has submitted the completed loan application before registration. Students expecting Veterans Administration (VA) benefits or Military Tuition Assistance (TA) should consult with the adviser for military assistance programs to make necessary financial arrangements for enrollment.

McKendree University cooperates fully with banks and other financial institutions that provide student financing. In addition, the university provides an option for interest-free payments on a monthly basis. This option is available through Tuition Management Systems. Payment may be spread over ten months from August 1 to May 1. The enrollment fee is \$65.

For students who register for less than a full semester or for a single one-month session, the same minimum registration payment and requirements as set forth above will apply. In this case, however, payment of the balance is due at the beginning of the session for which the student has registered.

If payment is not made by the last day of registration, the university will charge interest at a rate of one and one-half percent (1.5%) per month from that day, and reserves the right to bar the student from classes, residence halls, the dining hall, and examinations until such payment is made. Furthermore, the university reserves the right to withhold grades or transcripts if the account is not paid in full by the end of the session for which the student has registered. The university will not allow students to participate in the graduation ceremony or have their degree posted or verified in any way until their account is paid in full. Students with delinquent accounts are responsible to reimburse the university for all interest charges, late payment fees, collection fees and court costs resulting from any delinquency.

The Offices of Administration and Finance and Financial Aid will work with students in the event of problems associated with payment of financial obligations. Students anticipating a payment problem should make an appointment with the Business Office to ensure that the requirements of the payment policy are met.

McKendree University reserves the right to change tuition, fees, and room and board charges at any time.

Check Policy

Any check negotiated with the university which is not honored by the individual's bank will be subject to a penalty charge. The student must make payment in cash for the unredeemed check and the penalty charge within five (5) days of receipt of a bad check from the bank by the university.

Financial Aid

McKendree University offers financial aid in the form of grants, scholarships, work-study, loans, or some combination of these. Aid is awarded according to each individual's need in relation to educational costs. Specific awards include Federal Pell Grants, Federal Supplemental Educational Opportunity Grants (FSEOG), Illinois Student Assistance Commission Monetary Award Program (MAP) grants, Federal Work-Study (FWS), Federal Direct Student Loans, Federal Direct PLUS Loans, and McKendree institutional scholarships. In addition, McKendree University is a Post-9/11 GI Bill Yellow Ribbon participant.

Applying for Financial Aid

An application for financial aid cannot be considered until a student is admitted to the university and enrolled in a degree-seeking program. To apply for all federal and state financial aid funds, an admitted student must file a Free Application for Federal Student Aid (FAFSA) annually. This form is available online at www.fafsa.gov. When the FAFSA has been processed, the student will receive a Student Aid Report (SAR) from the Federal Processor. McKendree University (Title IV code number 001722) will receive the SAR electronically if McKendree University is listed as one of the schools on the FAFSA. Once the Office of Financial Aid receives this information, the student will be notified of aid eligibility in a timely manner. A student may be selected for verification by the Federal government. This requires the student to submit additional documentation to verify the FAFSA information. The Office of Financial Aid will notify students of the required documents needed to complete the verification process. Verification must be completed before any financial aid is finalized and disbursed.

Grants

Federal Pell Grant

The Federal Pell Grant is a federally funded financial aid program and usually does not have to be repaid. It is designed to help students pay for their college education. The amount of aid a student may receive from a Federal Pell Grant is based upon financial eligibility, enrollment status (full-time, three-quarter, half-time, or less than half-time), and the level of federal funding. Students apply for a Federal Pell Grant by completing the Free Application for Federal Student Aid (FAFSA) annually as discussed above under Applying for Financial Aid.

Federal Supplemental Educational Opportunity Grants (FSEOG)

The Federal Supplemental Educational Opportunity Grant provides funds to students who have extreme financial need as determined by the FAFSA. FSEOG is gift aid and usually does not have to be repaid. Since funds are limited, priority is given to full-time campus students applying early who have the greatest need and receive a Federal Pell Grant.

ISAC Monetary Award Program (MAP)

The Illinois Student Assistance Commission Monetary Award Program (MAP) provides grants to eligible Illinois residents attending Illinois colleges. Illinois residents automatically apply for the Illinois Student Assistance Commission Monetary Award Program by filing the FAFSA annually. Filing deadlines are printed on the FAFSA.

Loans

Federal Perkins Loan

This is a 5% interest federal student loan. Students must complete the FAFSA annually to determine eligibility. Funds are awarded based upon the financial need of the student and the availability of funds. Priority is given to full-time campus students.

Federal Direct Student Loan (Subsidized and Unsubsidized)

This loan is made available from the government. Students must complete the FAFSA annually to determine eligibility. Loans are only offered to those enrolled at least half-time. The interest rate will not exceed 8.25%. Contact the Office of Financial Aid Office for current interest rates.

Federal Direct PLUS Loan

This loan allows parents to borrow up to the cost of attendance less other financial aid. Students must file their FAFSA annually to determine eligibility. The interest rate will not exceed 9%. Contact the Office of Financial Aid for current interest rate.

Scholarships

Academic Scholarships may be awarded to qualified first year students and only apply to tuition costs. Students must be enrolled full-time to receive their award. The university uses endowed and gift scholarships to help fund these awards. Any student receiving the ISAC MAP Grant as well as an Academic Scholarship may not in combination receive more than the dollar value of tuition and mandatory fees per semester.

Transfer Scholarships are available for qualified students with a minimum of 30 transfer hours.

Athletic Scholarships may be awarded in varying amounts to selected men and women participating in intercollegiate athletics. The individual coaches select recipients.

The Bothwell Scholarship provides tuition assistance during the student's junior and senior year for men and women preparing for various forms of Christian ministry. Applications are available in the Office of Financial Aid.

McKendree University scholarships can only be used for direct costs incurred while enrolled. Information about other outside scholarships may be obtained from the Office of Financial Aid.

Satisfactory Academic Progress Policy

According to the United States Department of Education regulations, all students applying for federal and/or state financial assistance must maintain satisfactory academic progress in his/her course of study to receive these funds. These standards stipulate, but are not limited to, maintaining acceptable grades, completing a sufficient number of credit hours per semester, and completing the first bachelor's degree within a reasonable time frame. A student who does not meet these standards is not eligible to receive federally and/or state funded financial aid including institutional aid. All semesters of attendance are considered for satisfactory progress regardless of whether the student received aid. Adherence to these standards will be necessary for continued financial aid eligibility. Copies of McKendree University's satisfactory academic progress policy are available in the Office of Financial Aid or online.

Withdrawals and Refunds

No student who is suspended or dismissed from the university by university authorities shall be entitled to any refund of tuition, room rent or board. Any student who desires a change in course or withdrawal from one or more classes must sign and date a Change of Course form and have the form signed by the student's Faculty Advisor, the Office of Financial Aid and the Office of Administration and Finance. This form must then be returned to and be validated by the Office of Academic Affairs. In the case of complete withdrawal from the university, the student must fill out a withdrawal form and must have this form approved by the Provost, the student's Faculty Advisor, the Office of Student Affairs, the Library, the Office of Financial Aid, the Office of Administration and Finance, and the Office of Academic Affairs. The date on which such written approval is received by the Office of Academic Records determines the amount of refund. Failure by the student to obtain written approval makes the student ineligible for any refund.

Withdrawing from one or more classes should be carefully considered in terms of graduation requirements as well as financial aid. Financial aid programs have varying rules, and students may make costly mistakes by failing to seek financial aid counseling when adding or dropping courses (particularly one-month terms) after the term has begun. It is recommended that a student seek counsel from an academic adviser and the Office of Financial Aid before changing courses or withdrawing from one or more courses.

Tuition Refunds

Return of Title IV Funds Policy

The Higher Education Amendments of 1998 changed substantially the way funds paid toward a student's education are to be handled when a recipient of Title IV funds withdraws from school. Further details regarding the Return of Funds Policy are available in the Office of Financial Aid.

Semester courses

To the end of the fifth business day of class sessions, 100% of the tuition is refundable. From the sixth business day to the end of the tenth business day, 75% of the tuition is refundable. From the eleventh business day to the end of the twentieth day, 50% of the tuition is refundable. After the twentieth business day, tuition is no longer refundable.

Half-semester courses

To the end of the fifth business day of the half-semester session, 100% of the tuition is refundable. From the sixth business day to the end of the tenth business day of the half-semester session, 75% of the tuition is refundable. From the eleventh business day to the end of the fifteenth business day of the half-semester session, 50% of the tuition is refundable. After the fifteenth business day, tuition is no longer refundable.

One month or six-week courses

Prior to the third class, 100% of the tuition is refundable. After the third class and prior to the fourth class, 50% of the tuition is refundable. After the fourth class, tuition is no longer refundable.

Room Rent Refunds

Once a student has registered and is assigned to a room, payment of the full room rent is required. Consequently, there is no refund for withdrawal.

Board Refunds

There is no refund for temporary absence from the dining hall, including absence for disciplinary reasons. Students who are required to be off campus for athletic participation or instructional purposes such as student teaching or internships are not entitled to any meal refund but will receive box meals upon request for such food service when advance notice is received.

The McKendree University Lebanon Campus offers an extensive program of extracurricular activities. These activities include cultural, educational, recreational, and social programs designed to provide students with opportunities to develop skills of leadership and to understand the responsibilities of campus citizenship.

All students are governed by the rules and regulations of the university and are expected to abide by them at all times.

There are unique activities for students at different campuses.

MAKE YOUR MARK

S T U D E N T L I F E

Career Services

The Office of Career Services on the Lebanon campus provides a variety of services to assist students with career options. Individual career counseling, interest and personality assessment, and career exploration workshops offer students the opportunity to examine possible majors and careers. The Career Services Resource Center provides access to books and other information dealing with career planning, the job search, and graduate school. Information for graduate school admission examinations is available as well. Career Services teaches a one credit hour course, Careers, the Job Search, and Beyond, each fall so that students are well prepared for their job search and life after graduation. Workshops and individual counseling also provide assistance with resume preparation, job search correspondence, and interview skills. There are job fairs and an annual career conference to introduce students to available fields of work and to prospective employers. Students and alumni are encouraged to register with College Central Network, the McKendree University online job board, and to participate in campus interviews.

Greek Life

McKendree has a long and rich tradition of Greek life extending back to 1837. Throughout their history, Greek organizations have encouraged their members to cultivate skills in leadership, scholarship, character development, and service to the community.

A variety of Greek organizations are available for students to join including fraternities, sororities, and co-ed organizations. Recruitment Week is at the beginning of the fall and spring semester and is an opportunity for potential new members to learn about each organization. Membership qualifications of individual organizations vary, but students who decide to join a Greek organization must meet the requirements of the Office of Greek Affairs and the Vice President for Student Affairs.

Health Services and Counseling

McKendree University provides a student health service operated by the Director of Health Services on the Lebanon campus. Health Services provides routine health and first aid treatment, retains student health records, and provides referrals. The Director of Health Services is a registered nurse who is on duty each weekday. The Director is responsible for providing assistance with scheduling appointments with local physicians and processing health insurance claims. (Students are covered for accidents through their student insurance policy only as a second pay policy.)

The university also retains personal counselors who are on campus at 305 Stanton Street. Confidential counseling may be obtained for a wide range of concerns such as difficulties in relating to others, lack of motivation, stress, depression, lack of self-confidence, and personal conflicts. In addition, referrals can be made to outside agencies. Appointments with the counselors may be made through the Director of Health Services.

Students with vocational, social, or personal problems are encouraged to seek the aid of the Student Affairs or Health Services staff, who will help them through counseling or referral. For academic matters, the student's academic adviser, the staff of the Academic Support Center, the staff of the Writing Resource Center, the Director for Student Success and Retention, the Registrar, and the Provost are often in the best position to help.

Honorary Societies

Alpha Psi Omega is the national honorary theater fraternity. McKendree's Alpha Theta cast is one of the oldest in the country. The fraternity exists to honor students who have contributed to the theater program at McKendree and to foster an awareness and appreciation of theater in all McKendree students. Students earn points towards induction by participating in productions as actors or technical crew.

Iota Tau Alpha is the national athletic training education honor society founded in 2005 by John Anderson at Troy University for students pursuing a degree in athletic training. The purpose of the honor society is the promotion and encouragement of scholarly activity in athletic training and the recognition of outstanding achievement among students enrolled in athletic training education programs. Only open to athletic training majors that fulfill specific requirements including specific GPA, number of semesters completed, etc. Membership is open to alumni, faculty and students; however, only regular members may hold chapter offices, vote on chapter membership and represent the chapter or vote at national conventions. McKendree's Alpha Phi chapter was founded in 2009.

Kappa Delta Pi is the international education honor society. Requirements for induction include enrollment in the Teacher Education Program, completion of at least 30 hours at McKendree, a minimum 3.5 cumulative GPA, junior status, outstanding performance in clinical work, and the recommendation of the education faculty.

Lambda Pi Eta is the national speech communication honorary society. The name represents the three modes of persuasion: logic, emotion, and character credibility. All speech communication and organizational communication members are considered general members of the Alpha Upsilon Chapter of Lambda Pi Eta. To be a voting member or to hold office in the chapter, a student must be an honorary member. Honorary members must be a major or minor in speech communication or organizational communication, must have completed 60 credits, and must have earned a 3.0 GPA with a 3.2 GPA in the major.

Nursing Honor Society has student, alumni, and faculty membership. The society recognizes superior achievement and the development of leadership qualities, fosters high professional standards, encourages creative work, and strengthens commitment to the ideals and purposes of the nursing profession. Students are invited to join if they have completed at least 15 hours of the required nursing coursework, have a GPA of at least 3.25 on a 4.0 point scale, and rank in the upper one-third of their class.

Phi Alpha Theta is the international honor society in history. All students who have completed the required number of history courses and maintain high standards in their university studies are eligible for membership. The society promotes the study of history through the encouragement of research, good teaching, publication, and the exchange of learning and ideas among historians.

Phi Kappa Phi is the nation's oldest, largest, and most selective all-discipline honor society. Phi Kappa Phi differs from most other honor societies because it draws its members from all academic disciplines and represents the best and brightest from the community of scholars. Membership is by invitation and is determined by class ranking. Students will be notified in the spring semester if they are eligible to join the McKendree Phi Kappa Phi chapter.

Pi Gamma Mu is the international honor society in social science. The society recognizes good scholarship and promotes excellence by enriching activities, service projects, publications, a scholarship program, and guest lectureship grants

to chapters. Students may be invited or may petition to join an active chapter if they are juniors, seniors, or graduate students; are in the upper 35% of their class; have at least 20 semester hours in one or more of the five core areas (history, political science, economics, sociology/anthropology, international relations), or such related disciplines such as social psychology, criminal justice, or geography; and have a grade point average of "B" or better.

Psi Chi is the National Honor Society in Psychology, founded in 1929 for the purposes of encouraging, stimulating, and maintaining excellence in scholarship, and advancing the science of psychology. Students are eligible to apply for membership if they have completed at least nine semester hours of psychology at McKendree. Students must also have an overall GPA that is in the top 35% of their class based on rankings within sophomore, within junior, and within senior classes; an overall GPA of at least 3.0 on a 4.0 point scale; and a psychology GPA that is at least 3.0 on a 4.0 point scale.

Sigma Beta Delta is an honor society for students pursuing a baccalaureate or master's degree in business, management, or administration. To be eligible for lifetime membership and national recognition, a student must rank in the upper 20% of the class.

Sigma Tau Delta is the international English honor society. Its purposes are to confer distinction for high achievement in English language and literature in undergraduate, graduate and professional studies; to promote interest in literature and the English language on local campuses and their surrounding communities; and to foster the discipline of English in all its aspects, including creative and critical writing.

Sigma Zeta is the national honorary science society. The society encourages and fosters the attainment of greater knowledge in the fields of science and mathematics. It also recognizes outstanding scholastic achievement in these fields through active, graduate, and honorary memberships. Students wishing to join this society must major in any of the natural sciences or mathematics; complete at least 15 semester hours in natural sciences or mathematics; have at least a 3.0 GPA in science and mathematics; and have at least a 2.75 GPA in all subjects including science and mathematics.

Intercollegiate Athletics

McKendree University began competition against NCAA Division II teams in fall 2012 as a member of the Great Lakes Valley Conference (GLVC). The university has a perennial record of success with both men's and women's intercollegiate athletics teams. Men's and women's teams compete in basketball, soccer, tennis, cross country, track and field, golf, and volleyball. Men's teams also compete in baseball, football and wrestling. Women's teams compete in softball, bowling, and lacrosse. Club sports in men's ice hockey, men's volleyball, and men's bowling are also available for interested students. A mascot, cheerleading squad, dance team, pep band and marching band serve to promote school spirit at athletic events. Students are also encouraged to participate in the activities sponsored by "Team Bogey," the general student spirit club.

Intramural Athletics

The Intramural Sports/Recreation (IM) program at the Lebanon campus is designed to offer each student, staff, faculty, and alumni member the opportunity to participate in organized and informal activities as regularly as his/her time and interest permit. The IM program is not in competition with, nor is it intended as a substitute for either the physical education program or the intercollegiate athletics program.

The university has a perennial record of success with both men's and women's intercollegiate athletics teams.

International Community

The Office of Student Affairs serves the needs of international students through advocacy, support, intervention, advising, leadership, and access opportunities. The office provides information and assistance to international students regarding SEVIS; passport and visa extensions; certificates of enrollment; and employment permission. Staff help international students make the adjustment to a new academic and cultural environment and work towards promoting understanding on the McKendree campus.

If you are a prospective international student and have questions about McKendree University, contact Josie Blasdel via email at jlblasdel@mckendree.edu; by phone at (800) 232-7228, ext. 6836; or by mail to: McKendree University, Admissions Office, 701 College Road, Lebanon, Illinois 62254-1229.

Multicultural Life

The McKendree University Office of Multicultural Affairs on the Lebanon campus works in conjunction with the Office of Student Affairs to encourage all students to participate in campus events and leadership opportunities. The department implements cultural activities that are of interest to majority and non-majority students. Special events such as the commemoration of Dr. Martin Luther King, Jr.'s birthday and Black History month are coordinated by the department with the help of student organizations. This office sponsors meetings and workshops that discuss issues of multiculturalism, diversity, leadership development, and academic skills enhancement.

Public Affairs Forum (PAF)

The Public Affairs Forum (PAF) was organized in 1947 as a non-partisan organization of "students and interested faculty members" to promote an appreciation of complex national and international affairs. From the outset, the PAF sponsored such events as "United Nations Week" and a variety of other outreach activities. In recent years PAF members have been important contributors to McKendree's successful Model United Nations program. The PAF routinely holds voter registration drives on campus and sponsors debates and other campus-wide discussions on important contemporary issues.

Religious Life Activities

Students are encouraged to participate in religious activities including Bible studies, discussion groups, chapel services, retreats, mission trips, and community service. All activities are ecumenical and designed to foster an open atmosphere of spiritual growth and discovery and thoughtful discipleship.

Counseling services (personal and ministry-related), scholarships, and church employment information are also available through the university Chaplain on the Lebanon campus. The Chaplain, as an ordained member of the United Methodist clergy, provides a link from the university to the United Methodist denomination. A student-led Catholic program provides opportunities for service and prayer. There is also a student-led Catholic Ministry program which provides opportunities for service and prayer and a regular Mass on campus.

Student Academic Organizations

Extracurricular activities are available for students in a variety of academic areas. Each campus provides appropriate activities and organizations for their students. Student organizations exist for computer science, education, English, history, mathematics,

psychology, natural science, political science, sociology, and speech. Students with an interest in international affairs may join the McKendree Model United Nations, a student organization which conducts the Model United Nations (UN) program. This program, which is held annually on campus, provides the opportunity for local high school students to learn about the functions and operations of the UN by participating in activities modeled on actual UN sessions. Another academic experience available to students through the co-curricular program is participation in the university debate and individual events team. The McKendree debate and individual events team competes in tournaments across the country and has established an outstanding reputation. Other special interest organizations exist for students. To review the entire list of campus clubs and organizations consult the McKendree University website or stop by the Office of Student Affairs.

Student Activities and Programming

The university offers clubs and organizations in a variety of interest areas. Students may choose to join organizations that are social in nature, service oriented, or related to their academic pursuits. An involvement fair is held at the beginning of each new school year to help students become acquainted with the opportunities for involvement that are offered by the university.

Students are directly involved in planning and implementing campus events. The Campus Activities Board (CAB) offers students the chance to gain leadership skills while providing entertaining and enriching programs for their fellow students. Those involved acquire experience while interacting and networking with professional performers, agencies, and other student leaders from across the country. Membership is open to all McKendree students. The Campus Activities Board at McKendree University is a member of the NACA (National Association for Campus Activities) and the APCA (Association for the Promotion of Campus Activities); both professional organizations offering student leadership opportunities. Further information may be obtained from the Office of Campus Activities or the Office of Student Affairs on the Lebanon campus.

Student Governance

Students may participate in the governance and affairs of the university through involvement with groups such as the Student Government Association, Residence Hall Association, Faculty Committee on Student Affairs, Faculty Committee on Academic Affairs, Campus Judicial Board, and the Fine Arts Committee. Information about participating in student governance may be obtained from the Office of Student Affairs. The Inter-Greek Council (IGC) is a peer advisory board that oversees Greek affairs and activities.

Student Housing Facilities

McKendree University opened two new residence halls in fall 2011 on the Lebanon campus. The new halls accommodate 200 students in single and double suites. The complex includes a laundry facility, a fitness center, and a "great room" gathering place with a fireplace and kitchen. Each floor has a lounge and study area. The new halls are accessible by elevator and stairs and protected by a key-car entrance for added security. A spacious courtyard is part of the outdoor landscape.

Additional housing facilities on the Lebanon campus consist of Baker Hall, Barnett Hall, Walton Hall, The Suites, and the McKendree West apartment complex. Baker, Barnett,

and Walton Halls are three stories, corridor-style facilities. All rooms are air-conditioned and have a hookup for cable TV. In addition, each room has a network connection.

Each floor of Baker, Barnett, and Walton Halls has 12-18 double rooms, a common bathroom, and a washer and dryer. Each building also has a furnished lounge area with a large microwave oven, cable TV, and a VCR. Each of the twelve apartments comprising The Suites has three bedrooms, a common bath, and a living room.

McKendree West is a multi-building complex located 0.4 mile from the Lebanon campus. Each building is comprised of twelve apartment-style units, with a living room, kitchen, two bedrooms, and two baths. The complex includes: a clubhouse with a computer center, conference room, large-screen TV, fitness equipment, as well as laundry and kitchen facilities. Outside are a patio and a landscaped swimming pool. Priority for residing in McKendree West is given to upper classmen. Students are strongly urged to purchase renter's insurance or to check their parents' homeowners' policies. McKendree University is not responsible for damage to student personal property.

Housing Policy

It is the policy of the university to require students to reside in the residence halls unless one of the circumstances listed below applies. Primary goals for this policy are to extend the educational experience for students and to create a residential community. Residence hall staffs work with students toward making the residence halls an attractive place to live in order to facilitate student growth and development. Each hall develops its own sense of identity and community spirit which becomes an integral part of the overall campus living environment. McKendree University does not provide family housing.

To be exempt from the housing policy, the student, at the beginning of the term for which the exemption is desired, must be:

1. 21 years of age and hold senior class status, or
2. Married, or
3. A veteran with at least two years active military duty, or
4. Commuting from the permanent residence of a parent or legal guardian.

Permanent residence must be within a 30-mile radius of the university.

Residence Hall contracts are on-going, continuous, and binding. Returning students are expected to request their rooming preference on an annual basis and should understand that until they are officially released from the on-campus living requirement, they are bound by the provisions of their initial contract. Exemptions are cited above and require the student to file the official "Application to Waive the Residency Requirement" form, obtained on the Residence Life web page or from the Office of Student Affairs in Clark Hall, and return it to the Vice President for Student Affairs Office. Residents will not consider themselves released from this policy requirement prior to receiving written approval from the Vice President for Student Affairs. The deadlines for submitting the Application to Waive the Residency Requirement is July 1 (Fall) and December 1 (Spring).

General rules and regulations governing residence on campus are included in the residence hall section of the Student Handbook, which is available on the McKendree web site. It is assumed that students submitting a residence hall contract understand and approve the rules and regulations which govern campus residency, particularly as they apply to McKendree's status as an alcohol-free campus and to its inter-hall visitation program.

Residence Contract and Room Deposit

A residence hall contract is available on the Residence Life web page or upon request from the Office of Residence Life. Students desiring residence hall accommodations must pay a \$200 room damage deposit. The Office of Residence Life will assign and reserve a room only after receipt of a completed residence hall contract, class registration, and confirmation of a paid damage deposit. The room damage deposit will be held until the end of the student's residency at McKendree University when it will be refunded minus damages and/or fines that may occur during the course of the school year.

If a student in a residence hall decides to move off-campus during the school year, he or she must apply to be released from the housing contract. It will be left to the discretion of the Director of Residence Life or higher designate whether the student's damage deposit will be refunded in whole or part. Students are also advised that their financial aid may be adjusted if they vacate campus residence.

Only students who are enrolled for 12 or more hours of academic credit at McKendree are eligible to live on-campus.

Cancellation of Housing Reservations

Students who have paid the room deposit and decide not to enroll, or who enroll and elect not to live in the residence halls, must notify the Office of Residence Life in writing before the following dates in order to secure a full refund:

Fall semester applicants

July 1 or 30 days after official admission to McKendree, whichever occurs later, but prior to the first day of classes.

Spring semester applicants

December 1 or 30 days after official admission to McKendree, whichever occurs later, but prior to the first day of classes.

Failure to submit written notice of cancellation by the dates mentioned above will result in forfeiture of the room deposit unless, in the judgment of the Vice President for Student Affairs, circumstances justify a refund regardless of the cancellation date. Please see the Terms and Conditions of Housing and Meal Plan Contract available on the Residence Life web page for a more detailed explanation of the housing contract.

Student Publications

Opportunities are available for students to participate in a number of on-campus journalistic and publication activities. Students can write for the student newspaper, the McKendree Review. Literary works written by students are published annually in the campus literary magazine, the Montage. Scholarly academic articles are printed in the online publication of Scholars: The McKendree University Journal of Undergraduate Research.

Study Abroad Program

Institute for Study Abroad – Butler University

McKendree, in partnership with the Institute for Study Abroad (IFSA) and Butler University (www.ifsabutler.org), offers students study abroad opportunities at over 90 colleges and universities in 15 countries. The McK Office of Study Abroad works in conjunction with IFSA-Butler staff to prepare students for the academic

and cultural changes that await them. With offices around the world, they can give on-site support to help students make the most of their study experiences, provide academic and personal services, and give assistance from the time students apply until they return. Students from all disciplines can now have this enriching and eye-opening adventure, where learning extends to the world beyond the classroom walls.

Irish American Scholars Program

In 1993, a number of the colleges and universities affiliated with The United Methodist Church, the Presbyterian Church USA, and the Roman Catholic Church agreed to host students from Northern Ireland to study American business during their junior year. This program offers students from the host institutions in the U.S. an opportunity to apply for study abroad opportunities at participating institutions in Northern Ireland, including Queens University, the campuses of University of Ulster, Stranmillis College of Queens University, St. Mary's College, and Belfast Metropolitan College.

International Studies Abroad (ISA)

McKendree University, in partnership with International Studies Abroad, is able to provide students a high quality education abroad opportunity at an affordable price. ISA provides a comprehensive study abroad experience to McKendree students, supporting them every step of the way. With a wide variety of study abroad programs at accredited schools and universities in over 20 countries in partnership, ISA recognizes the value in exposing students to an awareness of cultures and societies outside of their national boundaries. ISA is a Global Partner of NAFSA: Association of International Educators, and supports NAFSA's efforts to advance international education and exchange. For over twenty years, ISA has provided students an opportunity to explore the world. In the age of globalization, having experiences that provide a deeper and more intimate understanding of foreign culture is an asset and an enriching personal experience. ISA is dedicated to providing students with the opportunity to discover, learn, and enjoy a way of life other than their own.

Paris Graduate School of Management

McKendree University and Pole ESG International, a school of business located in Paris, France, have offered students an exchange opportunity since 2001. Approximately four McKendree students may live and study in Paris during the spring semester (preferably of their junior year) while an equivalent number of ESG students attend classes at the Lebanon campus. Through the cooperation of both institutions, students are assured that the classes they take abroad will satisfy requirements for their degrees. Students who take this opportunity receive another benefit beyond the classes they take—they are able to travel widely throughout Europe at prices that are very affordable. When they return to finish their degrees at McKendree, these students see the world differently. No student has ever come home to say that they regretted the experience.

Students may also travel abroad for study (e.g., the Study Abroad Class) or service in selected courses.

For more information on McKendree University study abroad opportunities, contact the Office of Student Affairs.

MAKE YOUR MARK

ACADEMIC PROGRAMS & POLICIES

Academic Calendar

McKendree University offers classes at a variety of sites in Illinois and Kentucky. Classes are offered in the typical semester length or a four, six, or eight-week accelerated format. For semester courses, the Fall semester begins late in August and ends in mid-December while the Spring semester runs from mid-January to early May. For classes in the accelerated program, the Fall semester begins September 1 and ends December 31 during which time four one-month terms are offered. The Spring semester begins January 1 and ends May 31 and includes five one-month terms. The Summer Semester begins June 1 and ends August 31. Three one-month terms are offered during this period along with other terms of varying length depending on the courses offered. Other terms of varying length are also offered in the Fall and Spring semesters.

Academic Honesty

In order to benefit fully from the McKendree Experience, students must exercise integrity and honesty in all aspects of their academic work. Some examples of academic dishonesty are cheating, sabotage, duplicate submission, and plagiarism.

- a. Cheating** involves many forms of misrepresentation such as sharing exam answers, copying another student's answers, presenting another's work as one's own, changing work which has been graded when the work is going to be reevaluated, having a stand-in take an exam, and using unauthorized examination aids.
- b. Sabotage** involves the destruction or deliberate inhibition of another student's academic work or the destruction of materials relied upon by other students such as library materials, computer software and hardware, and computer files.
- c. Duplicate submission** means the submission of the same work in two different courses. This is not permitted except when permission has been given by the instructors in the courses involved.
- d. Plagiarism** consists of presenting the words or ideas of another without proper acknowledgement. This applies to direct quotations, paraphrases, or summarized ideas.

The Violation and Initial Report

When a faculty member suspects or learns of an alleged instance of academic dishonesty on the part of a student, the faculty member will contact the student.

When the faculty member confirms an incident of dishonesty, the faculty member may take any of the following steps:

- a.** Allow the student to resubmit the assignment or re-take the exam, test, or quiz for full credit;
- b.** Reduce the grade earned by the student for the specific assignment, exam, test, or quiz by whatever factor the faculty member deems appropriate;
- c.** Fail the student on the particular assignment, exam, test, or quiz;
- d.** Reduce the grade earned by the student for the course;
- e.** Fail the student for the course;
- f.** In particularly egregious cases, the faculty member may request that the Student Judicial Committee conduct a hearing.

In all confirmed cases, the faculty member must submit an Incident Reporting Form via WebAdvisor.

Evidence

Within two weeks of receipt of the reporting form, and on the basis of the evidence presented, the Provost or his/her designee will determine the appropriate procedure for the disposition of the case and take one of the following actions:

- a. Dismiss the case** if there is insufficient evidence.
- b. Send a disciplinary warning letter** to the student if evidence of dishonesty is uncovered and it is a first offense.
- c. Convene a hearing of the Student Judicial Committee** if it is a second or subsequent offense.

The Student Judicial Committee Hearing

The student is contacted in writing by the Provost or his/her designee.

This notice will include the following:

- a.** Specification of charges.
- b.** Hearing date, time, and location.
- c.** Rights of the accused.
- d.** Invitation to submit a response to the charges in writing or to attend the hearing in person (or remotely via phone or computer). If attending the hearing in person, the student must also submit the names of persons, if any, who will attend the hearing with him or her.

The hearing should be presented in a forum where both parties have a fair opportunity to present whatever they contend is important. Every effort should be made to avoid an adversarial confrontation. The institution is the complaining party, not an individual professor, staff member, or student. These individuals may participate as witnesses, but they should not be cast in the role of prosecutor. Formal hearing procedures are designed to protect the student's rights.

The following rules should be observed:

- a.** The institution should present its case. It has the burden of demonstrating that a rule or rules have been violated. The standard of proof should be clear and convincing evidence. The other extremes – proof beyond a reasonable doubt or proof by a mere preponderance of evidence – should be avoided. One is not possible, and the other may not be fair.
- b.** The accused student has a right to hear all the evidence and testimony considered by the Student Judicial Committee.
- c.** The accused student has a right to present evidence and testimony or to remain silent, with no inference of guilt being drawn from the silence.
- d.** The student has a right to assistance in the preparation and presentation of evidence and witnesses.
- e.** If a member of the Student Judicial Committee is involved in the incident, he/she must recuse him/herself from the hearing process.
- f.** The Provost will not attend the hearing or cast a vote about actions to be taken.

Counsel

The accused is entitled to have the assistance of counsel, who may act as an advisor, during the hearing process, but the student must represent him/herself.

- a. Counsel is limited to a single individual.
- b. Counsel may be any member of the McKendree University community or a legal representative. If the student invites a legal representative, the university's legal representative also will attend the hearing.

Records

A record of the hearing must be maintained. Such a record becomes very important in the event of an appeal. The physical evidence should be received by the Student Judicial Committee and kept with copies of all documents related to the hearing. The simplest way to preserve the testimony is with a tape recorder. The tape and evidence can then be passed along during the appeal process and is available for use before the appellate body.

Possible Sanctions Following a Student Judicial Committee Hearing

The Student Judicial Committee may elect to impose any of the following sanctions:

- a. A disciplinary warning letter from the Provost.
- b. Administrative removal from the class with an automatic "F" grade for the class.
- c. Suspension from the University for at least one full academic semester following the adjudication of the student as academically dishonest.
- d. Expulsion from the University.

In the event that a student does not respond to the charges nor attend the hearing in person or remotely, any of these actions can be taken without the student present.

The Provost's Office will notify the student in writing about actions taken by the Student Judicial Committee.

Appeals

The Provost or his/her designee will consider appeals of sanctions imposed by the Student Judicial Committee. The student must file an appeal in the Provost's Office within one week after the student has received formal notification of actions taken and must indicate which of the following are grounds for the appeal.

- a. **Questions of Fact:** An appellant may appeal on questions of fact by introducing new evidence which would significantly affect the outcome of the case. Evidence which was known to the appellant at the time of the original hearing, but was withheld, shall not constitute a question of fact, nor is it to be considered on appeal.
- b. **Questions of Procedure:** Appeals will be considered on the basis of question of procedure. The appellant must demonstrate that procedural guidelines established in this Academic Integrity Policy were breached, and that these errors affected the outcome of the case.
- c. **Severity of Sanction:** Appeals based on the severity of the sanction shall be considered only when the penalty imposed exceeds the recommended range of sanctions for the specific violation as described in this document. The accused can request leniency in cases where it is clearly demonstrable that the imposition of a sanction is inconsistent with previous judicial practice, even though it may be within the range of acceptable action. Mere dissatisfaction with the sanction is not grounds for appeal.

After the student has filed an appropriate request for an appeal, the Provost may take any of the following actions:

- a.** Deny the appeal,
- b.** Change a finding of guilt to a finding of innocence,
- c.** Modify the penalty,
- d.** Order a new hearing to be held wherein new evidence, testimony, etc. not available at the previous hearing is to be presented and is regarded as being of sufficient importance that it might alter the initial decision. Appeal hearings must be recorded.

The Provost (or his/her designee) will notify the student within one week of the outcome of the appeal.

Subsequent Violations

If the student commits another violation(s) while the appeal is pending, the additional violation(s) cannot be entered into the existing appeal. The additional violation(s) must be treated as separate charge(s) from the appeal. However, previously upheld charges and sanctions in the student's file are compiled as a record, and can be used as a basis to decide future charges and sanctions.

Adding or Dropping Classes

- Students may add or drop courses according to the schedules posted by the Academic Records Office for each semester.
- A course may not be added after one week from the first class meeting.
- Drops and adds are not effective until recorded by the Academic Records Office:
 - Courses may be dropped online until the start of the semester.
 - After the start of the semester a paper or eform must be submitted with the required signatures.

Additional Minor or Major after Graduation

Students who wish to complete the requirements for a minor or another major after graduating from McKendree may do so and have that fact noted on their transcript if they:

- Complete the requirements for the additional major or minor within three (3) years of graduation.
- Take all additional coursework after graduation applied to the minor or major from McKendree.
- Meet the major and/or minor requirements of the catalog for the year in which the additional course work begins.

Advising

Each student is assigned a faculty or staff adviser to provide guidance in developing a course plan that meets curriculum requirements and nurtures the student's own interests and goals. For first year students, this adviser may or may not be from the field of a student's declared interest; but as a major focus develops, a student may choose a new adviser from among faculty members in the appropriate division. A change of advisers is accomplished by completing the appropriate form available from the Office of Academic Records.

McKendree places the relationship between advisers and students at the heart of the university experience, and students seek the guidance of their advisers frequently

as they plan course and career choices. However, the ultimate responsibility for proper completion of all academic requirements rests with the student, not the adviser.

Attendance

Students voluntarily absenting themselves from class meetings assume responsibility for sanctions imposed by the instructor. Each instructor has the responsibility of making clear to the students in writing what the attendance policy will be in each course. Unless otherwise stated, three hours of unapproved absence are the maximum allowable without academic penalty.

Student Absences for Official University Functions

Students shall be excused without penalty from class to participate in official University sanctioned student activities, including intercollegiate athletic competitions, debate meets, band and choir performances, University field trips, and other events approved by the Provost. Students are not to be excused from class to attend practices.

Faculty or staff in charge of such activities shall file with the Provost's Office at least one week in advance, if possible, a list of students and dates they request the students to be excused from class. The Provost shall ensure that notification about approved student activities is communicated to the faculty in a timely manner. In addition, students must give satisfactory notice to their instructors prior to scheduled absences.

Students are responsible for all content and assignments missed while absent from class to attend University sanctioned student activities. Any deviation from this policy must be approved by the Provost.

VA Policy on Class Attendance

According to the "Veterans Education and Employment Assistance Act of 1976," veterans who are absent from a class for an excessive amount of time must be reported for non-attendance to the Veterans Administration. The veteran's last date of attendance is determined by the instructor's roll book.

A veteran or eligible person will receive no benefits for a course audited.

Challenges to Academic Decisions

Students who think that their work has been improperly evaluated or who think that they have been unfairly treated in any academic decision may use the following grievance procedures:

1. A student must first contact and hold a personal conference with the appropriate faculty member, administrator, or decision-making unit involved no later than twenty-one (21) calendar days after the first class day of the next semester (at the off-campus centers, ten (10) days after grades are received) to see if the problem(s) can be resolved.
2. If the problem cannot be resolved through action 1, and if the student wishes to proceed further, he or she must submit a written explanation of the problem to the chair of the appropriate division or Executive Director of the Kentucky Campuses, who will attempt to assist the student and the faculty member, administrator, or decision-making unit in bringing the problem to a satisfactory conclusion. If the

chair of the division or the Executive Director of the Kentucky Campuses is being named in the petition, the student shall proceed to step 3 of the process. This step shall be completed within fifteen (15) calendar days following the completion of step.

3. If the problem cannot be resolved through action 2, and if the student wishes to proceed further, he or she must submit a written petition to the Provost or Designee, who will attempt to assist the student, the faculty member, administrator, or decision-making unit, and the chair of the division in bringing the problem to a satisfactory conclusion. This step shall be completed within fifteen (15) calendar days following completion of step 1 and/or step 2 as appropriate.
4. If the problem cannot be resolved through action 3, and if the student wishes to proceed further, he or she must submit a written petition to the Undergraduate Council through its chairperson, the Provost/or Designee. The student submitting the petition has a right to appear before the Committee, as does the faculty member, administrator, or decision-making unit. The Undergraduate Council will designate the time and place for the meeting. The student has the right of counsel at the hearing, including legal counsel, to act as an adviser, but the student must represent himself/herself. (An education major appealing a matter pertaining to the teacher education program may, however, be represented by legal counsel speaking on behalf of the student.) This step shall be completed within thirty (30) calendar days following the completion of step 3. Records of these proceedings will be recorded as provided by the provisions stipulated in the McKendree University Student Handbook, section 2.00 Records.

A simple majority vote of the Undergraduate Council will constitute a decision. The voting will be by secret ballot. The Provost/or Designee, who serves as Chairperson of the Undergraduate Council, chair of the division, and any member of the Undergraduate Council who is named in the petition, shall not be entitled to vote on the matter. Parties involved in the dispute may not be in attendance whenever the Undergraduate Council discusses and votes on the complaint. Within five (5) calendar days of the meeting, the parties involved in the dispute shall receive written notification of the decision of the Undergraduate Council.

Within fourteen (14) calendar days from the date that the parties involved are informed of the committee's decision, either party may appeal the committee's decision to the President of the university. The President has the authority to rule in favor of the appealing party or accept the committee's decision. However, if the President decides to rule in favor of the appealing party, the President shall schedule a meeting with the Undergraduate Council to discuss the rationale for the ruling. The appealing party may be present at this meeting. This meeting shall take place before official notification of the President's decision is provided in writing to the parties involved. Within fourteen (14) calendar days the President shall provide the parties involved with official notification of the decision.

Every effort shall be made to expedite and complete this process according to the time frames established by this policy. In all cases, students must await written response from the respective action step before proceeding to the next step.

For more information about the university complaint policy please see the website.

Class and Status

Less than half-time	0 – 5 hours
Part-time	6 – 11 hours
Full-time	12 – 18 hours
Overload	18 hours and above

First Year	0 – 27.9 hours
Sophomore	28 – 59.9 hours
Junior	60 – 91.9 hours
Senior	92 hours and above

Continuing Writing Check (CWC)

All McKendree students are subject to continuing writing checks by the faculty. A faculty member who judges a student's writing to be below the standard acceptable for a McKendree graduate may refer the student to the Writing Resource Center for either assistance only or a Continuing Writing Check (CWC). Faculty making referrals for writing assistance only should complete the Referral/Incident Reporting Form via WebAdvisor. A CWC requires completion of the CWC referral form available in the faculty secretaries' offices or online. This form should be forwarded to the director of the Writing Resource Center, who will notify the student, the advisor, the referring faculty member, and the registrar. The student cannot graduate until the CWC has been cleared. A CWC may be cleared only by the director of the Writing Center. A student cleared of a previous CWC remains subject to future CWCs.

Credit for Prior Learning

Credit is awarded for prior learning when such learning can be directly equated to specific subject areas that are regularly offered as part of the McKendree degree programs. The assessment processes described below are intended for use when students claim prior college-level learning that cannot be credited through the normal transfer process because it was not acquired in a college or university setting. These assessment processes, however, are not intended as a "credit for life experience" policy. McKendree does not award credit for life experience. Credit is given only for demonstrated, college-level learning in areas the faculty has judged appropriate as elements of a McKendree education.

Credit by standardized examination

The university recognizes several nationally accepted college level achievement examinations, including:

1. Advanced Placement Examinations of the College Board;
2. The College Level Examination Program (CLEP) of the Educational Testing Service;
3. The Proficiency Examination Program (PEP) of American College Testing; *and*
4. The Defense Activity for Nontraditional Education Support (DANTES) examinations.

These examination programs usually include both general and subject examinations, with the general examinations testing the student's background in a broad area of educational development, and the subject examinations testing

mastery of a specialized field of knowledge. For most subject examinations, the faculty has approved the awarding of credit toward major field and general education requirements, as well as elective credit. For the general examinations, however, only elective credit is awarded.

Credit for approved training programs

Learning gained through military training and experience may be credited when the training experience for which the student seeks credit has been evaluated by the American Council on Education and listed in the Council's Guide to the Evaluation of Educational Experience in the Armed Services. Similarly, learning gained through training and experience in civilian work is creditable if it is listed by the Council's Program on Non-Collegiate Sponsored Instruction (PONSI). McKendree also grants up to 32 hours of credit for successful completion of the Certified Professional Secretary examination, provided that credit awarded for this certification is not duplicated by other academic credit the student may receive for study at McKendree or elsewhere.

Dean's List and President's List

During any term, students demonstrating outstanding academic achievement may qualify for the Dean's List or President's List; the criteria are:

- Completion of at least 12 letter-graded hours
(courses taken using the pass/fail option are not letter-graded)
- Achievement of the required minimum grade point average
 - 3.600 or better for the Dean's List
 - 4.000 for the President's List

Declaration of Major

- Students must officially declare a major area of study no later than the beginning of their Junior year; they should do so by submitting a Change of Major/Minor form to the Academic Records Office.
- Students transferring to McKendree University are advised to declare a major during their first semester so an academic adviser within their major area of study may be assigned.
- Students wishing to change a major or minor may do so by submitting a Change of Major/Minor form to the Academic Records Office.

Degree Requirements

1. Students must declare their intent to graduate by completing a Degree Application (available in the Office of Academic Records and on the Records Office web page) the semester prior to the anticipated graduation term.
2. Complete a minimum of 128 credit hours with a minimum cumulative grade-point average (GPA) of 2.00;
3. Complete all general education curriculum requirements;
4. Pass the writing proficiency examination and clear all continuing writing checks;
5. Meet all requirements and performance standards for the major as contained in the catalog effective at time of matriculation. (Major requirements are presented in the Courses of Study section of this catalog under the appropriate discipline.) Students have the option to change to a subsequent catalog governing their degree requirements, but must meet all requirements of that catalog;

6. Complete a minimum of 40 credits at the junior/senior level (courses numbered 300 or above);
7. Degree seeking students must earn a minimum of 32 hours in residence.
8. Complete all degree requirements within eight (8) years of matriculation; *and*
9. All outstanding transfer work must be received in the form of an official transcript by the university within 30 days of graduation. If the transcript is received after 30 days, the date of graduation will be changed to the next date of graduation following receipt of all outstanding transcripts.

Please note:

- Any course applied toward the completion of one major or minor may not also be applied toward the fulfillment of elective requirements in another major or minor.
- Graduate level coursework from McKendree University or any other institution of higher education may not be applied towards an undergraduate degree at McKendree University.

Degrees Offered

McKendree University awards the following baccalaureate degrees: BA – Bachelor of Arts, BS – Bachelor of Science, BBA – Bachelor of Business Administration, BFA – Bachelor of Fine Arts, B.M.E – Bachelor of Music Education, BSEd – Bachelor of Science in Education and BSN – Bachelor of Science in Nursing.

In addition, McKendree University offers an Associate in Science Degree in Business Administration at the Kentucky campuses. McKendree University also offers Masters degrees in Education, Professional Counseling, Business and Nursing, and Specialist in Education and Doctor of Education degrees in Curriculum Design and Instruction.

Email

Every student is issued a McKendree email account, which is one of the major means of communication from departments such as the Office of Academic Records, Student Affairs and the Business Office. All students are responsible for checking their McKendree email accounts regularly, and are accountable for information disseminated to their email accounts. Failure to read university communications sent to McKendree email accounts does not absolve students from knowing and complying with the content of these communications.

Family Educational Rights and Privacy

McKendree University Notification of Rights under FERPA for Postsecondary Institutions

The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records. These rights are:

1. The right to inspect and review the student's education records within 45 days of the day the University receives a request for access.

Students should submit to the registrar, dean, or chair of the academic division [or appropriate official] written requests that identify the record(s) they wish to inspect. The University official will make arrangements for access and notify the student of the time and place where the records may be inspected.

If the records are not maintained by the University official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.

2. The right to request the amendment of the student's education records that the student believes is inaccurate or misleading. Students may ask the University to amend a record that they believe is inaccurate or misleading.

They should write the University official responsible for the record, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading.

If the University decides not to amend the record as requested by the student, the University will notify the student of the decision and advise the student of his or her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

3. The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent.

The University may disclose education records in the following circumstances:

- to school officials with legitimate educational interests. A school official is defined as a person employed by the University in an administrative, supervisory, academic, or support staff position (including law enforcement unit and health staff); a person or company with whom the University has contracted (such as an attorney, auditor, or collection agent); a person serving on the Board of Trustees; or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility;
- to comply with a judicial order or a lawfully issued subpoena;
- to appropriate parties in a health or safety emergency;
- in connection with a student's request for or receipt of financial aid, as necessary to determine the eligibility, amount, or conditions of the financial aid, or to enforce the terms and conditions of the aid;
- to certain officials of the U.S. Department of Education, the Comptroller General, to state and local educational authorities, in connection with certain state or federally supported education programs;

- to accrediting organizations to carry out their functions;
 - to organizations conducting certain studies for or on behalf of the University;
 - the results of an institutional disciplinary proceeding against the alleged of a crime of violence may be released to the alleged victim of that crime with respect to that crime.
- **As of January 3, 2012, the U.S. Department of Education’s FERPA regulations expand the circumstances under which education records and personally identifiable information (PII) contained in such records — including Social Security Number, grades, or other private information — may be accessed without the student’s consent.** First, the U.S. Comptroller General, the U.S. Attorney General, the U.S. Secretary of Education, or state and local education authorities (“Federal and State Authorities”) may allow access to student records and PII without the student’s consent to any third party designated by a Federal or State Authority to evaluate a federal- or state-supported education program. The evaluation may relate to any program that is “principally engaged in the provision of education,” such as early childhood education and job training, as well as any program that is administered by an education agency or institution. Second, Federal and State Authorities may allow access to student education records and PII without the student’s consent to researchers performing certain types of studies, in certain cases even when we object to or do not request such research. Federal and State Authorities must obtain certain use-restriction and data security promises from the entities that they authorize to receive PII, but the Authorities need not maintain direct control over such entities. In addition, in connection with Statewide Longitudinal Data Systems, State Authorities may collect, compile, permanently retain, and share without consent PII from a student’s education records, and they may track participation in education and other programs by linking such PII to other personal information about students that they obtain from other Federal or State data sources, including workforce development, unemployment insurance, child welfare, juvenile justice, military service, and migrant student records systems.
4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the University to comply with the requirements of FERPA.
- The name and address of the Office that administers FERPA is:*
- Family Policy Compliance Office
 U.S. Department of Education
 400 Maryland Avenue, S.W.
 Washington, DC 20202-4605
5. The University may disclose Directory Information without a student’s prior written consent.
- The University designates the following as Directory Information:*
- | | |
|-----------------------------------|--|
| Name | Dates of attendance |
| Address (local and home) | Degrees and awards received |
| Telephone Number (local and home) | Most recent educational institution attended |
| E-mail address | Participation in activities and sports |
| Date and place of birth | Weight and height of members of athletic teams |
| Major field of study | |

6. Students may restrict the release of Directory Information, except to others as indicated in point #3 above. Requests of non-disclosure of Directory Information must be submitted annually **within two weeks of the start of an academic term (fall, spring or summer)** and will be valid for the remainder of the academic year (fall through summer). A non-disclosure form is available for your use from the Office of Academic Records. You may reach us by visiting the first floor of Old Main on the Lebanon Campus or by calling (618) 537-6819.

For purposes of compliance with FERPA, the University considers all students independent.

Foreign Language Requirements

Students pursuing a major that requires a foreign language must complete a minimum of two semesters of a single foreign language or equivalent (calculated at two semesters of high school language equal to one semester of college language). If high school foreign language courses are used to fulfill this requirement, then they must have been completed within the last five years, or alternatively the student may take an appropriate placement exam.

If a student wishes to use course-work completed before enrollment at McKendree University in order to meet part of the foreign language requirement, the requirement may be completed by taking any needed additional hours in a different foreign language if the courses taken previously are in a language not offered at McKendree. The total semester hours (or the equivalent as stated above) of the requirement would in such a case remain the same, but the stipulation that the work be in a single foreign language would be waived for such a student.

College-level foreign language study showing a grade of C or higher being transferred is acceptable in full or partial satisfaction of the foreign language requirement. The phrase "or equivalent" as used above means that high school foreign language study showing a grade of C or higher in all courses taken in the same language being applied to waiver is acceptable in satisfaction of the foreign language requirement at the rate of one year in high school study for each semester of college study required.

Grade Changes

- No grade may be changed more than sixty (60) days after the end of the grading period in which that grade was assigned.
- A grade may be changed if, and only if, an error was made in the calculation or in the recording of that grade, or as a result of a grade challenge.
- A student has the right to challenge a grade; please see the Challenges to Academic Decisions portion of this catalog.

Grading System

McKendree University uses the following grading system:

A	4 quality points per credit hr.
A-	3.7 quality points per credit hr.
B+	3.3 quality points per credit hr.
B	3 quality points per credit hr.
B-	2.7 quality points per credit hr.
C+	2.3 quality points per credit hr.
C	2 quality points per credit hr.
C-	1.7 quality points per credit hr.
D	1 quality point per credit hr.
F	0 quality points per credit hr.
I — Incomplete	0 quality points per credit hr.
W — Withdrawal without attempted credit	0 quality points per credit hr.
WF — Withdrawal while failing	0 quality points per credit hr.
P — Pass (D or better)	0 quality points per credit hr.
AU — Audit	0 quality points per credit hr.
WA — Administratively withdrawn	0 quality points per credit hr.
WW — Withdrew without permission	0 quality points per credit hr.
NS — Not submitted by instructor	0 quality points per credit hr.

Pass/Fail Option:

- A grade of Pass will indicate a letter grade of D or higher but will not apply toward calculation of grade point average. A grade of F is calculated in the student's grade point average.
- Students may choose a Pass/Fail grading system for courses other than the following: (1) ENG 111, (2) ENG 112, (3) any course taken to fulfill the requirements for a major or a minor, and (4) any course with a catalog description specifying that this system is not applicable.
- A student may take a maximum of three (3) courses using the Pass/Fail option during the course of their studies at McKendree. Courses for zero (0) or one (1) hour of credit are exempt from the three course limit.
- Application for the Pass/Fail grading option must be made prior to the last day of the add period and is irrevocable.

Incomplete Grades:

- A student who will not complete course requirements by the end of the semester may request a grade of Incomplete from the instructor prior to the final examination.
- A student receiving an incomplete has until the end of the next semester, or until an earlier date specified by the instructor to the student in writing, to finish the required work and to have a grade assigned.
- If no grade is assigned at the end of the next semester, the incomplete will revert to a grade of F.

- Any student with an incomplete who has applied for graduation will have until the next date of graduation to complete the course requirements. If an extension is required, the date of graduation will be changed to the next date of graduation following completion of the requirement.

W, WF and WW Grades:

- A student who officially withdraws from a course receives either no grade or a grade of W or WF depending upon the circumstances and timing of the withdrawal (see the section on withdrawals in this catalog).
- A grade of W is not included in computation of the grade point average.
- A grade of WF is included in computation of the grade point average.
- A grade of WW indicates the student did not officially withdraw from the course and is included in the computation of the grade point average; it affects the GPA the same as a grade of F. A grade of WW is permanent and cannot be changed.

Graduation Dates

- McKendree University officially confers degrees three times a year:
 - May 31
 - August 31
 - December 31
- Although a student may complete requirements for a degree prior to those dates, the degree will not be posted to the student's academic record until the actual graduation date.
- Diplomas will be mailed after the degree is posted, providing the student has no outstanding financial obligations to the University.

Honors at Graduation

Students graduating from McKendree University may be awarded Latin honors; the criteria are:

- Completion of 60 or more letter-graded hours at McKendree (courses taken using the pass/fail option are not letter-graded) *and*
- Achievement of the required minimum cumulative grade point average
 - 3.600 for cum laude
 - 3.750 for magna cum laude
 - 3.950 for summa cum laude

Illinois Articulation Initiative (IAI)

McKendree University is a participant in the Illinois Articulation Initiative (IAI), a statewide agreement that allows transfer of the completed General Education Curriculum between participating institutions. Completion of the General Education Curriculum at any participating college or university in Illinois assures transferring students that general education requirements for an associate or bachelor's degree have been satisfied. This agreement is in effect for students entering an associate or baccalaureate degree-granting institution as a first-time student in summer 1998 and thereafter.

Students should be aware that individual colleges have specific courses within general classifications needed for satisfying general education requirements for graduation. In keeping with the McKendree University mission, its status as a liberal arts college, and the 15 hours permitted under the IAI, these requirements are the

following: Literature (3 hours), Computer Literacy (3 hours), Philosophy or Religion (3 hours), Cross Cultural Studies (3 hours), and History (3 hours). Students must also take two writing intensive (W) courses and must pass the Writing Proficiency Examination (WPE).

Additionally, while McKendree will accept grades of D in transfer provided the student has completed the IAI core, certain majors require a grade of C or higher. Courses that may fulfill a general education requirement under the IAI agreement will not satisfy the major requirement if a grade of D is earned and the student is pursuing those majors.

McKendree University strongly recommends that students use its general education curriculum as a guide when selecting courses in social science and fine arts. (See the general education curriculum requirements in this catalog.) Students seeking certification in education should see state requirements listed under Education in this catalog.

Please contact the Kentucky campus for information about Kentucky Articulation agreements.

Independent and Directed Study

1. In order to enroll for independent study, a student must have completed 15 credit hours of study in the subject area and have an overall cumulative GPA and subject area GPA of 3.0.
2. Outstanding underclassmen who may wish to pursue independent study must apply through their faculty adviser, the faculty mentor of the study, and the division chairperson.
3. In addition to the forms required for registration in independent study, an application form which will state the nature of the project for reading, a tentative outline, and bibliography will be required.
4. The request form must be submitted at the time of registration.
5. The approval of the faculty adviser, faculty mentor of the study, the division chairperson, and the Provost is required.
6. No more than nine hours may be taken in independent study.
7. A rather extensive research paper or its equivalent will be required for independent study.
8. Students enrolled in independent study must meet with the faculty on a regular basis for a discussion of their study.

Directed Study is an option by which students can petition a qualified instructor to teach a standing course, at the discretion of the instructor, that is not offered in the schedule of classes in the current semester. Such an option is intended to be used very sparingly and only in cases of a dire need to graduate on time, and every effort should be made by advisers to place students into the courses they need when they are offered. A student may not opt for more than one Directed Study (up to 4 hours) to count toward graduation. Directed Studies require the approval of the faculty member offering the course, the chair of the division in which the course is housed, and the Provost.

Individually Designed Majors

A student may elect to participate in planning those courses which shall constitute his or her major field of concentration. The selection of these courses would reflect the student's educational and vocational objectives.

It will be guided by the following policy.

1. A student who feels that his or her goals can be more adequately served through an individually designed major rather than one of the standing majors will request his/her academic adviser to assist in the planning of that major.
2. The student, in consultation with the academic adviser and the Provost, will select another professor who will also assist in the planning of that major. At least one of the academic advisers must be from the core subject area.
3. Once the major has been planned by the student and academic advisers, the Provost and the academic advisers will meet as a group to grant or deny approval to the tentative program.
4. The major will constitute a total of not fewer than 40 hours with a core of 24 hours in a given subject area. At least 50% of the coursework applied to the major must be taken at McKendree University.
5. The proposal of what constitutes the major must be submitted for final approval to the Provost not later than one year prior to anticipated graduation. Any amendments or changes in the proposal must have the approval of the academic advisers and the Provost.
6. Although students are encouraged to complete the procedures outlined above as early in the university career as possible, the individually designed major must be submitted prior to the accumulation of 92 hours either in residence or transfer.

Internships

The internship program links academic life to the challenges of the world of work. The internship experience complements traditional coursework by providing students the opportunity to apply classroom theory and knowledge in the work environment.

Through the Office of Career Services, students may begin the internship process if they meet the following criteria: have junior level status (60 credit hours); have completed at least 12 credit hours in the major; currently hold a minimum overall GPA of 2.0; have a major GPA consistent with graduation requirements; and not have been on academic probation in the last academic year. Students must work a total of 45 hours per credit hour during the semester and complete required assignments for each credit hour granted. Student interns work with the close supervision of faculty members, on-site supervisors, and Career Services.

Internship credit applied to a major or minor may not exceed the equivalent of one course (three to four semester hours).

Interruption of Studies

If a student interrupts attendance at McKendree University for a period equaling or exceeding three consecutive calendar years, the student must re-enroll under the provisions of the catalog which is current at the time of his or her re-enrollment.

Students reentering McKendree after an absence of ten or more years may elect one of the following options:

1. Treat all previous course work as transfer credit and retain only those courses with grades of C or higher. The previous grade point average would not then be considered in determining academic standing.
2. Retain all previous course work along with the grade point average. The repeat/delete option may be used to improve the grade point average.

Maximum Course Load

- 18 credit hours is the maximum course load for the Fall and Spring terms.
- 14 credit hours is the maximum course load for the Summer term.
- Students may not register for more than the maximum course load without the written permission of his or her academic advisor.
- Students may not register for more than 22 credit hours unless he or she obtains approval from the Provost or, in Kentucky, from the Executive Director of the Kentucky Campuses.

Permission to Register

Students may register for subsequent terms during regular registration periods provided they have done the following:

- Completed their Admission file, including obtaining final, official copies of transcripts from their high school, any other institutions they have attended, and AP and CLEP scores.
- Submitted a medical examination form and proof of required vaccinations.
- Paid their account balance or made arrangements with the Business Office to do so.
- Met and discussed future coursework with their academic advisor.
- Met the conditions of any other registration hold on their account.

Probation, Suspension, Dismissal

The measure of the student's academic performance will be reported to the Provost upon the completion of the Fall and Spring Semesters.

A student will be placed on academic probation when he or she fails to meet the minimum academic standards stated in the following schedule:

12 – 27.9 credit hours attempted	1.75 cumulative grade point average
28 – 59.9 credit hours attempted	1.9 cumulative grade point average
60 – 91.9 credit hours attempted	2.0 cumulative grade point average
92 or above cr. hrs. attempted	2.0 cumulative grade point average

- No student will be placed on probation who has attempted fewer than 12 hours at McKendree University.
- During the probationary term a maximum course load of 15 hours may be attempted.
- A student who remains on probation for two (2) consecutive terms may be placed on suspension upon review of the Academic Standing Committee.
- Suspensions may not be served during the Summer Term.
- Any student whose semester grade point average for one reporting period is less than 1.0 may be subject to review and to action by the Academic Standing Committee.
- Students will be notified of their probationary/suspension status by letter.
- Students may appeal their suspension by submitting a letter to the Provost by the date indicated in the suspension letter.
- The university may suspend or dismiss a student for non-academic reasons.
- Probationary and conditionally admitted students are required to enroll for a study skills class or participate in other programs of the Academic Support Center.

Repeat/Delete

A course taken at McKendree University may be repeated at McKendree University. No course may be taken under the repeat/delete provisions except at McKendree University. Refer to the section on financial aid for impact on level of aid received when repeating courses in which a passing grade was recorded.

The following conditions apply:

1. A student may repeat any course one time (unless the course is deemed not repeatable by the department).
2. A student may repeat a course twice only if the student failed the course (F) both times it was taken before.
3. All grades will appear on the permanent record.
4. For the purpose of computing grade point average and total hours earned, the student taking a repeat/delete will be credited with the highest grade earned for all attempts.
5. If a course has dropped in credit level (for instance from 4 to 3 hours), the residue credit not covered by the repeat will be reflected on the transcript at the grade originally awarded and will be computed in the grade point average, unless extended credit is earned and awarded.

Research Institutional Review Board

The Institutional Review Board (IRB) at McKendree University has been established to review research involving human participants in order to assure adequate safeguards for those who voluntarily choose to engage in research projects. Any faculty members or students who conduct research using human participants should consult the IRB website for more information on the ethical use of human participants and applying for IRB approval.

Residence Requirement

Degree-seeking students at McKendree University must earn their final 32 hours in residence.

All upper-division hours required for the major and minor should be earned in residence.

The major or minor department, on a case-by-case basis, may give credit for upper-division courses prior to matriculation and may pre-approve required upper-division courses to be taken out of residence.

Once students matriculate at McKendree, all courses taken for subject or hourly credit in the Fall and Spring semesters must be taken in residence. Only transfer work that appears on the transfer institution's transcript for a summer semester will be accepted.

In rare circumstances, exceptions to this Fall and Spring enrollment policy and approval to take specific courses out of residence may be granted in advance by the student's major department or, for undeclared students, by the Provost. If permission to take courses out of residence is granted, the major (or minor) department must pre-approve use of the courses for the major (or minor), and use of the courses and use of the courses to fulfill any other requirements must be pre-approved following the usual approval process for transfer courses. Courses to be used as electives must be pre-approved by the closest equivalent department at McKendree. Any such approval must be conferred in writing.

Hours earned in overseas studies programs approved by the Provost and in courses approved by consortial or other institutional agreements are considered to be taken in residence.

For students with their first bachelor's degree from McKendree, 32 hours applicable to the degree beyond the number of hours required for the first McKendree bachelor's degree must be completed in residence.

For students with their first bachelor's degree from another institution, the second bachelor's degree requires 32 hours applicable to the degree completed in residence. Approved dual-degree programs meet the McKendree residence requirement.

Restrictions on enrollment

McKendree University reserves the right to restrict enrollment in classes designed for certain academic populations to members of those populations. Undergraduate students attending the Lebanon campus may take only one online course during the August-May school year.

Second Degree

Students seeking two baccalaureate degrees during a single period of attendance at McKendree University must:

- Complete all the requirements of each degree *and*
- Accumulate an additional 32 McKendree University credits beyond the work taken to earn one degree (*a minimum of 160 total credit hours*).

Students who have earned baccalaureate or masters degree(s) from any other regionally accredited institution of higher education may earn another baccalaureate degree from McKendree University; the student must:

- Complete all general education curriculum and major requirements in effect at the time of matriculation.
- Earn a minimum of 32 hours at McKendree.

Severe Weather Policy

- Under severe weather conditions, university officials will announce whether the university is open, closed, or on a snow schedule.
- Announcements for the Lebanon Campus will be posted on the McKendree web site, KMOX radio (1120 AM), and KMOV television (Ch. 4).

Snow schedule:

- Lebanon classes beginning at 8:00 a.m. and 9:00 a.m. are cancelled.
- 9:30 a.m. classes will begin at 10:00 a.m.
- Normal class schedule resumes beginning with 10:00 a.m. classes.
- All offices open at 10:00 a.m.
- **For severe weather schedules at off-campus sites, if the site is open, then classes will be held.**

Transfer of Credit

The general criteria by which McKendree University evaluates transfer courses presented for degree credit at McKendree are: (1) the educational quality of the sending institution and of the courses themselves; (2) the comparability of the credit and of the courses themselves to be transferred to McKendree; and (3) the appropriateness and applicability of the courses and credits in relation to programs offered at McKendree University.

In general, McKendree University accepts transfer courses from regionally accredited institutions provided that these courses are intended to meet degree requirements at the sending institution. In cases where the quality, comparability, or applicability of a course is in question, before rendering a decision on granting transfer credit, the University reserves the right to request additional information (see

next paragraph). In cases where a student presents transfer work from institutions lacking regional accreditation the University requires the student to present convincing documentation about the quality, comparability, and applicability of the course(s) in question (see next paragraph).

The “additional information” or “convincing documentation” requested or required may include such items as a course syllabus, credentials of the faculty member, and/or a portfolio of work completed for the course. In evaluating the quality and comparability of a course applicable to a McKendree degree, factors such as the following will be considered: comparability of expected student outcomes for the course, evidence of comparable rigor, and the nature of the course experiences (e.g., reading, writing, and research requirements, laboratories, hands-on work, physical education activities).

All transfer credits must meet the following criteria:

1. The student must have earned a grade equivalent to C or higher (2.0 on a 4.0 scale) in every course requested for transfer. Courses taken pass/fail are not accepted in transfer. McKendree University does not give credit for life experience.
2. Credit may be awarded for prior learning (please see Credit for Prior Learning section of this catalog).
3. No more than 70 semester hours may be accepted in transfer from the following combined sources: junior and community colleges offering only two-year degree programs; CLEP, PEP, NLN, APT, IB, and DANTES examination programs; and ACE-approved training programs, military or civilian. Of those 70, no more than 35 will be accepted from examination programs (CLEP, PEP, NLN, APT, IB, and DANTES).
4. No more than 96 credit hours will be accepted toward a degree from any combination of transfer credit (junior and community colleges and four-year institutions) and prior learning assessment. (CLEP, PEP, NLN, APT, IB, and DANTES examination programs; and ACE-approved training programs, military or civilian).
5. Please see the McKendree web site (<http://www.mckendree.edu/offices/academic-records/testing-policy.php>) for acceptable scores for examination programs (CLEP, PEP, NLN, APT, IB, and DANTES).
6. Following matriculation, students are expected to take their coursework at McKendree. A student desiring to take a course at another institution for transfer to McKendree must request to do so by completing the appropriate form supplied by the Office of Academic Records. If the request is approved, the course may be transferred to McKendree within the limits of the university’s normal transfer policies (see 1–4 above).
7. All types of transfer credit earned more than 10 years prior to matriculation at McKendree University will be subject to divisional evaluation to determine acceptability.
8. A student must complete 60 letter-graded hours at McKendree to be considered for Latin honors at graduation.
9. All postsecondary transcripts from international institutions (excluding institutions with which McKendree has an established study abroad program) must be evaluated by a credential evaluation agency. Please contact Educational Credential Evaluators, Inc. at www.ece.org or (414) 289-3400 or World Educational Services at www.wes.org or (800) 937-3895 for more information. Fees may range from \$0-\$200 for a complete credential evaluation. Please allow three to six weeks for the evaluation.

10. Quarter hours transferred to McKendree University will be converted to semester hours by multiplying by a factor of .67.
11. Letter grades earned at other institutions are not used in calculating a student's grade point average at McKendree University.

Undergraduate Students Enrolled in Graduate Level Credit

McKendree undergraduate students may enroll in up to 6 graduate level hours provided they meet the following criteria:

- Completed 90 credit hours toward the completion of a baccalaureate degree.
- Have an overall cumulative GPA of 3.0.
- Be enrolled in at least 12 undergraduate credit hours.
- Pay the undergraduate tuition rate (either flat rate or per credit hour, depending upon on the course load).
- Obtain approval from the student's advisor, Academic Records Office, financial aid director, program director, and provost.

Please Note:

- No graduate level credit hours may be used to fulfill undergraduate degree requirements.
- Enrollment is contingent upon seat availability in the course and may be dropped if space is needed for graduate students.
- Permission to take courses does not imply acceptance into the graduate program; the admission process must be followed.

Withdrawals

Withdrawal from a course is not official until a drop/add form has been received by the Registrar. The University reserves the right to administratively withdraw students for non-attendance. Students may withdraw from courses according to the following schedule.

Full semesters

1. Up to the end of the 5th business day of class sessions, students may withdraw from a class without any notation appearing on the permanent record.
2. From the 6th day to the end of the 50th day, a grade of W will be recorded.
3. After the 50th day, a grade of WF will be recorded unless circumstances merit special consideration by the Provost of the University. For classes meeting less than the full semester, the withdrawal schedule is adjusted accordingly.

One month or six-week classes

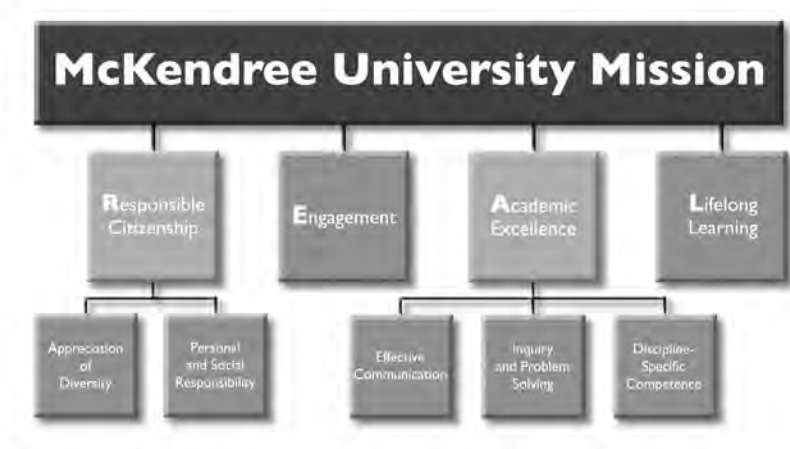

1. Students may withdraw prior to the beginning of the third class without any notation appearing on the permanent record.
2. After the seventh class, a grade of WF will be assigned unless circumstances merit special consideration by the Provost.

A McKendree University education cultivates the intellect and spirit of persons who care for one another and for the world in which they live. The university promotes the highest level of academic, ethical, civic, and career development possible for all students. All students are capable of intellectual and personal growth within a university environment that encourages them to be active members of a community of learners.

MAKE YOUR MARK

THE MCKENDREE EXPERIENCE

The mission of McKendree University is to provide a high quality educational experience to outstanding students. This mission has four integrated components: Responsible Citizenship, Engagement, Academic Excellence, and Lifelong Learning. Student learning outcomes stem directly from the mission and include the following:

Appreciation of Diversity

1. Students will understand and appreciate human and cultural differences.

Personal and Social Responsibility

2. Students will exhibit personal and social responsibility.

Engagement

3. Students will participate actively in classroom, co-curricular, and community experiences to enhance learning.

Effective Communication

4. Students will communicate effectively in oral, written, and creative forms.

Inquiry and Problem Solving

5. Students will use analytical skills and critical thinking to solve problems.

Discipline-Specific Competence

6. Students will demonstrate the knowledge, skills, and attitudes required of their chosen discipline.

Lifelong Learning

7. Students will pursue opportunities to enhance personal and professional growth.

The general education curricula integrated with the disciplinary majors ensure that students develop the knowledge and skills defined by the outcomes. The university-wide Assessment 2.0 initiative provides systematic evidence of McKendree University's high quality educational experience.

McKendree University requires all students to fulfill general education requirements through a liberal arts foundation. The general education program is designed to provide students with skills which are essential to effective learning and scholarship, and to stimulate them to examine their own values and the values of society through a variety of subjects outside their program of study. These requirements are consistent with the university's mission.

MAKE YOUR MARK

GENERAL EDUCATION PROGRAM

Students must complete the general education requirements by taking the specified number of courses in each of the four areas listed below. Any course applied toward the completion of one general education requirement may not be used to fulfill another general education requirement, but may be used to fulfill major or minor requirements. In addition to these general education requirements, prior to graduation all students must successfully complete two “writing-intensive” courses (marked with a “W” in the course listings) and the McKendree Writing Proficiency Exam (see section b under General Education Areas of Study for specific WPE requirements). Division Chairs, or their designees, in consultation with the Registrar and the Program Directors, maintain authority to articulate transfer courses and to issue waivers where exceptions are deemed appropriate.

General Education Areas of Study

C O M M U N I C A T I O N

I. EFFECTIVE COMMUNICATION

a. Requirements: Six to eight credit hours of First Year English

All students must demonstrate achievement of general goals for ENG 111 and ENG 112 regardless of where First Year English is taken.

b. McKendree Writing Proficiency Examination (WPE)

Writing Proficiency Examination (WPE)

Every student must pass a Writing Proficiency Examination (WPE) in order to graduate from McKendree University. Students taking the WPE are given up to three hours to write an essay. This allows sufficient time to write a rough draft and a final copy for grading.

Students who are enrolled in or have completed English II (ENG 112) or equivalent are eligible to take the WPE. All students are required to take the WPE within one semester of completing ENG 112 (unless an extension has been granted by the WPE coordinator). Students who do not fulfill this requirement are subject to restrictions on registration for other courses.

Grades are assigned by the Writing Proficiency Committee as pass, fail, or recommend. A pass satisfies the writing proficiency requirement. A recommend satisfies the requirement but may include a referral for a continuing writing check (CWC). A student referred for a CWC is required to work further on his or her writing through the Writing Resource Center until the Director, in consultation with the WPE coordinator, determines that the student has adequately overcome the designated problem(s) in writing.

A student who has completed both required semesters of English composition (ENG 111 and ENG 112) but fails the Writing Proficiency Examination must register for a two credit-hour course, ENG 114 (or an approved equivalent), in the next semester of enrollment, or registration will be restricted. English 114 is designed to give the student further practice in the basic writing skills required to pass the WPE. Upon completing ENG 114 or equivalent, the student must retake the WPE. Should the student fail the examination a second time, he or she would not be required to enroll again in ENG 114 (unless the student fails ENG 114, in which case he or she would be required to take that course as a repeat-delete). Instead, the student would be required to get extensive tutoring (verified by the Writing Resource Center) before taking the examination for the third (and final) time. A student who fails the WPE a second time must take the exam a third time within one calendar year of the second failure. A third failure of the WPE will entail dismissal from McKendree University.

All students applying for transfer credit equivalent to ENG 111 and ENG 112 must take the WPE within the first semester of enrollment. Students failing to do so will be restricted in registering for courses until the requirement is met. Transfer students who fail the WPE must follow the procedure outlined above. Any student within 32 credit hours of graduation who has not passed the WPE would be classified as a non-degree student until the proficiency requirement is met.

The purpose of the evaluation of the writing proficiency examination is to provide the university at large and the individual student the assurance that those students who have received credit for the English requirement at McKendree University have at least a basic command of written English. In other words, the committee, in evaluating examination papers, will not fail those that have an occasional flaw or a minor weakness but only those which, taken as a whole, show that the writers need additional study and practice in order to achieve the minimum proficiency in writing expected of college students and of college graduates.

Each examination will be rated on a scale of one to four by each reader; thus, the total scores for each paper, ranging from two through eight, will fall into the following categories:

1. Papers with a score of 5 (3 + 2) or higher with a differential of only one: automatic pass.
2. Papers with a score of 4 (2 + 2): student is strongly recommended, but not required, to take ENG 114. The student has only marginally acceptable skills and should work with the Writing Resource Center.
3. Papers with a score of 3 or papers with a score of 5 or less, with a differential of 2 or more (e.g., 3 + 1): paper will be read by a third reader to determine the outcome.
4. Papers with a score of 2: failing paper; the student is required to take ENG 114 and to take the WPE again. The student has failed to demonstrate that he or she has acceptable command of standard written English and the principles of written composition.

c. Completion of two “writing-intensive” courses (designated with a “W”).

These courses are to be completed after successful completion of six hours of first year English (students must successfully pass the WPE prior to enrollment in a 2nd writing-intensive course). The purpose of a writing-intensive requirement is to insure that students continue to practice and develop the writing, reading, and critical thinking skills they learned in the first-year composition courses, and to insure that they learn to use the conventions of discourse and research methodologies of their major discipline.

To meet this requirement, a course should include at least the following elements:

- A minimum of 5,000 words (around twenty typed pages) of assigned writing over the course of the semester.
- A mix of formal and informal writing exercises. Formal writing would include research papers, essays, position papers, and reports that have gone through more than one draft before being presented in the finished form. Informal writing would include study questions, in-class responses, journals, heuristic exercises, and essay examinations.
- A process-oriented approach to the teaching of writing. Simply defined, this means that the writing of a finished product is divided into stages, with oral or written feedback at each stage.

d. Speech: Three credit hours of Speech

Students will develop public speaking skills, applying critical thinking to the processes of researching, organizing and delivering speeches.

Approved Courses

SPC 100	FUNDAMENTALS OF SPEECH COMMUNICATION
SPC 210	ARGUMENTATIVE COMMUNICATION
SPC 220	PUBLIC SPEAKING
SPC 310	BUSINESS AND PROFESSIONAL PRESENTATIONS
SPC 391	PERSUASION

e. Aesthetic Expression: Three credit-hours of Art, Music, Theater, Fine Arts, Dance, or Creative Writing

Students will develop an appreciation of the processes and be able to apply aesthetic principles of artistic creation either through the study of historic developments in an arts discipline or through acquiring the creative skills of an arts discipline. Students will understand and use the basic vocabulary of art, music, theater or creative writing. Students will exercise individual perception and judgment in evaluating creative works, either their own or those of recognized masters. Finally, students will demonstrate an awareness of the role of creative expression in the social development of individuals and cultural groups.

Approved Courses

Any ART, DAN, MUE, MUL, MUS, THE, or FA except education methods courses, THE 215 (Theater Practicum), THE 250 (Dramatic Literature), and MUS 210 (Fundamentals of Dance) MUS 301 (Introduction to the Music Business), MUS 400 (Music Technology), and MUS 402 (Recording Techniques). In addition, the following creative writing courses may be taken for general education credit: ENG 205 (Introduction to Writing Poetry), ENG 206 (Introduction to Writing Fiction), ENG 305 (Advanced Writing of Poetry), ENG 306 (Advanced Writing of Fiction).

II. INQUIRY AND PROBLEM SOLVING

a. **Mathematical Reasoning: Three credit hours of Mathematics**

Students will develop the basic analytical skills that relate to solving practical mathematical problems, and gain skills in the use of mathematics common to work in areas where mathematical methods are employed.

Approved Courses

MTH 142, 210, 220, or 310

b. **Computer Competency: Three credit hours**

Students will gain familiarity with the basics of computer terminology and operation. Through learning the use of certain specialized software packages having wide applicability in the modern work place the student will develop the confidence to master other software tools necessary for his/her personal and professional growth.

Approved Courses

CSI 120 INTRODUCTION TO COMPUTERS
CSI 130 INTRODUCTION TO COMPUTING I

c. **Science and Nature: Seven credit hours of Science (preferably from two different departments), including at least one course with a laboratory requirement**

Students will gain familiarity with the language and terminology of science, the use of the scientific method, and be exposed to various techniques used in data collection. Their skills in problem solving and forming critical judgments will be enhanced by a variety of means including the examination of experimental data, identifying the path between cause and effect, and the manipulation of basic theoretical principles. In this way students will gain an understanding and appreciation of the living universe and the forces underlying it.

Approved Courses

BIO 101 INTRODUCTORY BIOLOGY
BIO 106 INTRODUCTION TO PLANT BIOLOGY
BIO 110 PRINCIPLES OF CELLULAR AND MOLECULAR BIOLOGY*
BIO 111 PRINCIPLES OF ORGANISMAL AND POPULATION BIOLOGY*
BIO 250 INTRODUCTION TO ENVIRONMENTAL SCIENCE
BIO 307 HUMAN ANATOMY AND PHYSIOLOGY*
BIO 350 ANIMAL BEHAVIOR
CHE 100 CHEMISTRY IN THE MODERN WORLD
CHE 102 CHEMISTRY IN THE MODERN WORLD LAB

CHE 105	COLLEGE CHEMISTRY I*
CHE 106	COLLEGE CHEMISTRY II*
ES 105	EARTH SCIENCE
PHY 101	ASTRONOMY
PHY 211	GENERAL PHYSICS I*
PHY 212	GENERAL PHYSICS II*
PHY 221	UNIVERSITY PHYSICS I*
SCE 205	EARTH AND ASTRONOMICAL SCIENCE
SCE 210	CONCEPTS IN SCIENCE

**Students considering these courses towards fulfillment of the general education requirement are cautioned that these courses are intended for students majoring in science and are therefore more comprehensive.*

III. APPRECIATION OF DIVERSITY

a. Philosophy or Religion: Three credit hours of Philosophy or Religious Studies

Students who take a course in Philosophy or Religious Studies will learn more about the diverse beliefs and value systems held by individuals and societies. Students will come to understand why others hold beliefs or values different from their own, and will be encouraged to evaluate their own beliefs and values. Students will also become familiar with the methods used by modern scholars to investigate human beliefs and values. Finally, students will have numerous opportunities to improve their skills in reading, writing, and critical thinking.

Approved Courses

Any PHI or REL course except PHI and REL courses which satisfy the Ethics requirement and which are listed below and REL 367 (Music of the Church).

b. History: Three credit hours of History

Students will develop skills in using historical methodologies to understand historical developments. By studying History students will be able to think chronologically, and use historical categories (political, economic, social, cultural), in analyzing causes or outcomes of historical events. Students will develop skills in interpreting primary source documents, and in interpreting historical problems from multiple perspectives, while developing sensitivity to human values in their own and other cultures.

Approved Courses

HIS 161	WORLD CIVILIZATION TO 1450
HIS 162	WORLD CIVILIZATION SINCE 1450
HIS 163	TWENTIETH CENTURY WORLD HISTORY
HIS 261	UNITED STATES HISTORY TO 1865
HIS 262	UNITED STATES HISTORY SINCE 1865
HIS	
271/371	UNITED STATES WOMEN'S HISTORY
HIS	
276/376	MINORITIES IN THE AMERICAN EXPERIENCE
HIS	
277/377	AFRICAN AMERICAN HISTORY
HIS 311	ANCIENT CIVILIZATIONS

c. Cross Cultural Studies: Three credit hours of Cross Cultural Studies

Cross Cultural studies provide students with an opportunity to investigate non-Western cultures and societies in a comparative manner with either other non-Western societies or with Western society. Students will examine either historical or contemporary cultural diversity in order to better understand our increasingly interdependent world. A McKendree-approved study abroad experience fulfills the cross-cultural course requirement.

Approved Courses

ANT 149	INTRODUCTION TO CULTURAL ANTHROPOLOGY
ENG 253	LITERATURE OF POST-COLONIAL CULTURES
ENG 309	WORLD LITERATURE I
ENG 310	WORLD LITERATURE II
ENG 330	LATIN AMERICAN AND CARIBBEAN LITERATURE
GLS 101	INTRODUCTION TO GLOBAL STUDIES
HIS 161	WORLD CIVILIZATION TO 1450
HIS 162	WORLD CIVILIZATION SINCE 1450
HIS 163	TWENTIETH CENTURY WORLD HISTORY
HIS 343	HISTORY OF LATIN AMERICA
HIS 363	HISTORY OF THE MIDDLE EAST
MGT 340	INTERNATIONAL BUSINESS
MKT 340	INTERNATIONAL BUSINESS
MUS 265	MUSIC IN WORLD CULTURES
NSG 345	TRANSCULTURAL NURSING
PHI 202	INTRODUCTION TO PHILOSOPHIES OF ASIA, AFRICA AND LATIN AMERICA
PSI 210	INTRODUCTION TO WORLD POLITICS
PSI 220	INTRODUCTION TO COMPARATIVE POLITICS
PSY 304	CROSS CULTURAL PSYCHOLOGY
REL 210	LIVING RELIGIONS OF THE EAST
REL 250	RELIGIONS OF THE WORLD
SOC 240	CROSS CULTURAL PRACTICUM
SPA 300	SPANISH/LATIN AMERICAN CULTURE AND BEGINNING CONVERSATION

SPA 302	ADVANCED CONVERSATION
SPA 310	SPANISH/LATIN AMERICAN HISTORY AND CIVILIZATION
SPA 311	SPANISH/LATIN AMERICAN FILMS
SPA 312	LATIN AMERICANS IN THE U.S.
SPA 320	SPANISH/LATIN AMERICAN LITERATURE AND CULTURE
SPA 350	LANGUAGE EXPERIENCE IN A SPANISH SPEAKING COUNTRY I
SPA	
380-389	TOPICS IN SPANISH/LATIN AMERICAN LANGUAGE AND CULTURE
SPC 353	INTERCULTURAL COMMUNICATION
STA 380	STUDY ABROAD

d. Literature: Three credit hours of Literature

The study of literature speaks both to the knowledge and understanding of the Western Tradition and to Global Awareness, or the understanding of other cultures. In addition, literature courses focus on critical analysis and reasoning. All literature courses require a prerequisite of Eng 111 and Eng 112 (or equivalents).

Students must take one literature course from either the Literature and Culture cluster or the Literary Genres and Topics cluster.

Literature and Culture (Choose one of the following courses)

ENG 235	GENDER IN LITERATURE
ENG 236	YOUNG ADULT LITERATURE
ENG 252	ETHNIC LITERATURE
ENG 253	LITERATURE OF POST-COLONIAL CULTURES
ENG 254	AFRICAN AMERICAN LITERATURE
ENG 255	LITERATURE AND THE ENVIRONMENT
ENG 303	AMERICAN LITERATURE TO 1900
ENG 304	AMERICAN LITERATURE FROM 1900 TO PRESENT
ENG 309	WORLD LITERATURE I
ENG 310	WORLD LITERATURE II
ENG 311	MEDIEVAL AND RENAISSANCE ENGLISH LITERATURE
ENG 315	SEVENTEENTH CENTURY ENGLISH LITERATURE
ENG 316	EIGHTEENTH CENTURY ENGLISH LITERATURE
ENG 317	ROMANTIC ENGLISH LITERATURE
ENG 318	VICTORIAN ENGLISH LITERATURE
ENG 319	TWENTIETH CENTURY ENGLISH LITERATURE
ENG 330	LATIN AMERICAN AND CARIBBEAN LITERATURE
ENG	
280-289	TOPICS IN LITERATURE
ENG	
380-389	TOPICS IN LITERATURE

or

Literary Genres and Topics (Choose one of the following courses)

ENG 247	THE MODERN NOVEL
ENG 250	DRAMATIC LITERATURE
ENG 261	POETRY
ENG 271	SHORT FICTION

ENG 301	SHAKESPEARE'S COMEDIES AND HISTORIES
ENG 302	SHAKESPEARE'S TRAGEDIES AND ROMANCES
ENG 280-289	TOPICS IN LITERATURE
ENG 380-389	TOPICS IN LITERATURE

Students who are not English majors, English minors, or Elementary Education majors (with English concentration) must obtain the permission of the instructor to take English 390 Major Authors.

R E S P O N S I B I L I T Y

IV. PERSONAL AND SOCIAL RESPONSIBILITY

a. Health and Wellness: Three credit hours of health and wellness

Approved Courses

HPE 158 HEALTH AND WELLNESS

b. Ethics: Three credit hours of Ethics

Students who take a course in Ethics can expect to become more sensitive to the ethical implications of human actions. Students will learn to recognize the diversity of approaches to moral decision-making, including the similarities and differences among these approaches, and to apply ethical theories to a variety of practical problems.

Students will also be challenged to critically evaluate their own approaches to moral and ethical issues. Finally, students will have numerous opportunities to improve their skills in reading, writing, and critical thinking.

Approved Courses

CSI 369	SOCIAL, LEGAL AND ETHICAL ISSUES OF COMPUTING
MGT 424	BUSINESS ETHICS AND SOCIAL RESPONSIBILITY
MKT 424	BUSINESS ETHICS AND SOCIAL RESPONSIBILITY
NSG 405	ETHICAL/LEGAL ISSUES IN NURSING
PHI 206	INTRODUCTION TO ETHICS
PHI 332	ETHICAL THEORY
PHI 390	ETHICS AND PUBLIC POLICY
PHI 391	BIO-MEDICAL ETHICS
REL 335	CHRISTIAN ETHICS
SPC 372	ETHICS AND COMMUNICATION

c. Economics/Psychology/Sociology/Political Science: Nine credit hours divided among three of the four disciplines Economics, Political Science, Psychology, and Sociology

By completing this section, students will become more aware of how they influence and are influenced by other individuals and the larger society. Students will also develop the skills to critically analyze themselves and the society of which they are a part.

Approved Courses

ECO 211	PRINCIPLES OF MICROECONOMICS
ECO 212	PRINCIPLES OF MACROECONOMICS
NSG 355	HEALTH POLICIES AND ECONOMICS
PSI 101	AMERICAN POLITICS
PSI 102	STATE AND LOCAL GOVERNMENT
PSY 153	INTRODUCTION TO PSYCHOLOGY
SOC 150	PRINCIPLES OF SOCIOLOGY
SOC 270	SOCIAL PROBLEMS

Only teacher education majors who leave the Education program may substitute EDU 210, Foundations of American Public Education, for one of the above.

d. University 101 (one credit hour)

Approved Course: UNI 101

University 101 is required of Lebanon on-campus students who are first year students.

MAKE YOUR MARK

The College of Arts & Sciences houses the following majors and minors:

- Actuarial Science
- Art
- Art History
- Art Education
- Biochemistry
- Biology
- Chemistry
- Computing (Computer Science, Computer Information Systems, Computational Science, Information Technology, and Interactive Media)
- Creative Writing
- Dance
- Economics
- English
- Engineering Transfer Program*
- Environmental Studies*
- Ethnic Studies*
- Gender Studies*
- Gerontology
- Global Studies*
- History
- Journalism
- Mathematics
- Music
- Music Business*
- Music Education
- Organizational Communication
- Philosophy
- Physics (Engineering)
- Political Science/ International Relations
- Pre-professional studies
- Psychology
- Religious Studies
- Science Education
- Social Science
- Sociology
- Spanish
- Speech Communication
- Sport Psychology*
- Theater

* Please see the Interdisciplinary Majors & Minors section of the catalog

Art (ART)

David L. Ottinger, M.F.A., Professor of Art;

dlottinge@mckendree.edu; (618) 537-6987; Benson Wood Art Building

Amy MacLennan, M.F.A., Assistant Professor of Art;

asmacLennan@mckendree.edu; (618) 537-6986; Benson Wood Art Building

Students may earn a Bachelor of Fine Arts Degree with a major in art. Art majors are offered a broad range of courses to prepare them for commercial production in design, layout, illustration and photography, as well as preparation for teaching and graduate school studies in fine arts. Many options are possible through a balanced selection of courses within the requirements listed.

The curriculum in Art is intended to develop an appreciation of how the human creative process can ultimately be translated into a work of art, while providing hands-on experience in the various forms of art with participation in the studio process as a medium. It is also intended to develop a solid understanding of the major developments in Art History and the role of individual artists in influencing significant artistic movements. For art majors the curriculum is geared toward developing functional skills in all primary media, including drawing, painting, printmaking, sculpture, photography, and design.

Work in progress, or completed assignments, are subject to critique by the instructor individually or in a class forum. This process provides the students with developmental instruction and comparative information. Work can benefit from both the information derived from comparison and the degree of development between works. Student sensitivities also benefit by involvement in the process to which all artists are subject, and from which constructive benefits, in terms of growth, are achieved. At the end of each semester student works are exhibited at a central location on campus, completing the process of the creative work emerging from the studio to be placed on display.

Each student majoring in art must complete a minimum of six semester hours of a single foreign language or equivalent (calculated at two semesters of high school language equal to one semester of college language) and must meet with an art adviser each semester for planning and approval of art courses appropriate to the student's goals and interests.

All courses for the major and minor must be completed with a grade of C or higher. The university has the right to retain one example of the student's work from any class, suitably framed and matted by the student.

Art majors with a marketing minor may substitute MTH 310 (Statistics) for the foreign language requirement.

ART MAJOR REQUIREMENTS:		48 crs.
ART 101	BEGINNING DRAWING	(3)
ART 111	SURVEY OF ART HISTORY (WESTERN ART – BEGINNING TO END OF GOTHIC)	(3)
ART 112	SURVEY OF ART HISTORY (WESTERN ART – RENAISSANCE TO PRESENT)	(3)
ART 122	BEGINNING FIGURE	(3)
ART 231	SCULPTURE I	(3)

Courses of Study

ART 232	CERAMICS I	(3)
ART 241	2D DESIGN AND LAYOUT I	(3)
ART 242	DESIGN AND COLOR II	(3)
ART 251	BEGINNING PAINTING	(3)
ART 321	ADVANCED DRAWING	(3)
ART 331	SCULPTURE II	(3)
ART 341	MODERN ART HISTORY AND PAINTING	(3)
ART 343	DESIGN III – ELEMENTS (3-DIMENSIONAL)	(3)
ART 350	ADVANCED PAINTING	(3)
ART 360	PRINTMAKING	(3)
PHI 334	PHILOSOPHY OF ART	(3)

All studio courses may be repeated for additional credit.

ART MINOR REQUIREMENTS **18 crs.**

ART 111	SURVEY OF ART HISTORY (WESTERN ART – BEGINNING TO END OF GOTHIC)	(3)
ART 112	SURVEY OF ART HISTORY (WESTERN ART – RENAISSANCE TO PRESENT)	(3)
ART 101	BEGINNING DRAWING	(3)
<i>or</i>		
ART 122	BEGINNING FIGURE 9 credits in one category (such as photography or ceramics)	(3) (9)

(The 9 credits in the chosen category must include a minimum of 6 credit hours of upper level work.)

ART HISTORY MINOR REQUIREMENTS **20 crs.**

ART 111	SURVEY OF ART HISTORY I	(3)
ART 112	SURVEY OF ART HISTORY II	(3)
ART 311	HISTORY OF FILM & PHOTOGRAPHY	(3)
<i>or</i>		
ART 314	SURVEY OF AMERICAN ART	(3)
ART 490	SEMINAR IN ART	(1)
HIS 310	SEMINAR IN HISTORICAL RESEARCH	(1)
PHI 334	PHILOSOPHY OF ART	(3)
	FOREIGN LANGUAGE	(6)

Art Education (ART)

David L. Ottinger, M.F.A., Professor of Art;

dlottinge@mckendree.edu; (618) 537-6987; Benson Wood Art Building

Students may complete coursework leading to an Initial Special Certificate in Visual Arts, which permits the holder to teach art in grades K-12.

To major in art education the student must complete a total of 48 credits, at least 30 of which must be upper level. The student must complete all the requirements for the major in art plus EDU 402 Methods of Art Education (K-12).

General education and other professional education requirements must also be met for certification. These are listed under "Initial Special K-12 Certificate" in the Courses of Study Section of this catalog under Education. Art class descriptions are listed above under the Art major. All studio courses may be repeated for additional credit.

Biochemistry (BCH)

Feza Ozturk, Ph.D., Professor of Chemistry;

fozturk@mckendree.edu; (618) 537-6935; Voigt Science Hall 228

Robb D. Van Putte, Ph.D., Associate Professor of Biology;

rdvanput@mckendree.edu; (618) 537-6930; Voigt Science Hall 223A

Biochemistry is the study of life processes at the molecular level through structural and functional relationships. Biochemical research provides insights into the deeper understanding of living systems at the most fundamental level, and allows our culture to manipulate this knowledge towards the betterment of humanity. A strong background in biochemistry is of utmost importance to those students who go on to the medical and other health related fields. The biochemistry minor aims to prepare these students for their future careers through a well-balanced curriculum of interdisciplinary courses.

Students majoring in Biology or Chemistry may elect to have a minor in Biochemistry by completing the following courses in addition to their major/degree/track requirements.

Biology majors seeking a BS degree, general track, must complete BCH 303, BCH 310, and CHE 300 beyond their biology major requirements. Biology majors seeking a BS degree, pre-professional track, should complete CHE 300 beyond their biology major requirements. Biology majors seeking a BA degree must complete CHE 205, CHE 206, BCH 303, BCH 310, and CHE 300 in addition to their biology major requirements. If two minors (Chemistry and Biochemistry) are declared. Chemistry minor. Chemistry majors must complete BIO 110, BCH 303, BCH 310, and BCH 313L beyond their chemistry major requirements. The same requirement regarding minimum cumulative grade point average and the Pass/Fail option that apply to the major apply to the minor.

BIOCHEMISTRY MINOR REQUIREMENTS

36 crs.

BIO 110	PRINCIPLES OF CELLULAR AND MOLECULAR BIOLOGY	(4)
CHE 105	COLLEGE CHEMISTRY I	(5)
CHE 106	COLLEGE CHEMISTRY II	(5)
CHE 205	ORGANIC CHEMISTRY I	(5)
CHE 206	ORGANIC CHEMISTRY II	(5)
CHE 300	ANALYTICAL CHEMISTRY	(5)
BCH 303	PRINCIPLES OF BIOCHEMISTRY	(4)
BCH 310	INTRODUCTION TO MOLECULAR MODELING AND BIOINFORMATICS	(2)
BCH 313L	CELL BIOLOGY LAB	(1)

Recommended Electives:

BCH

380-389 SPECIAL TOPICS IN BIOCHEMISTRY

(1-3)

Biology (BIO)

Benjamin Jellen, Ph.D., Assistant Professor of Biology;bcjellen@mckendree.edu; 618-537-6096, Voigt Science Hall 217A**Michele Schutzenhofer, Ph.D., Assistant Professor of Biology;**mrschutzenhofer@mckendree.edu; 618-537-6934, Voigt Science Hall 217**Robb D. Van Putte, Ph.D., Associate Professor of Biology;**rdvanput@mckendree.edu; (618)-537-6930; Voigt Science Hall 223A

Within the Division of Science and Mathematics, our primary mission is to develop a community of lifelong learners dedicated to scholarship in which the search for and discovery of truth are primary objectives. We seek to provide a broad-based education joined with a specialization in a major field of study that prepares graduates to be scientifically and mathematically knowledgeable, with research/analytical abilities, an understanding of social responsibilities, and the capability to be professionally successful.

As a biology department, our mission to provide students with an integrative knowledge of content, an understanding of the practice of science, the ability to communicate scientific knowledge to a broader community, and professional awareness of the opportunities that await them.

More specifically, we have established the following goals for our graduates:

- **Content:** Graduates should understand major biological concepts and integrate that understanding across levels of biological organization from cellular and molecular biology, to organismal biology, to ecology, and evolutionary biology.
- **Practice:** Graduates should understand the process of scientific inquiry and develop the ability to independently design and conduct scientific investigations.
- **Communication:** Graduates should be able to access existing scientific knowledge and effectively communicate their own work to a broader community.
- **Professional and Social Awareness:** Graduates should develop personal and professional goals, the tools to achieve these goals, and an understanding of professional and social responsibilities.

Biology is presently one of the most exciting and active areas of scientific advancement. Rapid advances in genetic and cellular biology, and the development of biotechnology, have led to improved crops, new medical treatments, and a wealth of new information that will drive continuing advances. Ecological studies continue to elucidate the myriad, and often unsuspected, links between ecosystems on the Earth and will prove essential if we are to better understand global climate change and its likely effects. Evolutionary biology not only continues to inform us about the history of life, but has also proven essential in the battle against drug resistance in microbes. In short, the biological sciences are rapidly advancing and are central to many of society's most pressing problems and debates.

The biology major at McKendree is designed to provide majors a broad-based education, but still allow students room for some specialization. A major in biology prepares students for work in many different areas, including conservation, or wildlife biology, biological education, research in government, business, or academia, laboratory work in the medical setting or work in biotechnology. Graduates are also prepared to enter graduate school in preparation for careers in research or teaching or to pursue professional studies in fields such as medicine, pharmacy, dentistry, optometry, or veterinary science. Students interested in majoring in biology and pursuing professional studies in the aforementioned fields after graduation should refer to the Bachelor of Science: Pre-Professional Track program of study in this section of the catalog. A similar option also exists for students interested in majoring in chemistry.

Students may earn a bachelor of arts (BA), a bachelor of science (BS), or a minor in biology. Both majors are designed to provide students flexibility to take a number of different elective courses in the major. Therefore, students are given the option of concentrating their studies in one or more areas of biology. To graduate with a major in biology, the student must maintain a minimum 2.50 cumulative grade point average in the courses required for the major. No course taken to satisfy a major requirement may be taken using the Pass/Fail grading option. A maximum of 20 credit hours from lower division courses in biology may be applied toward the credit hour total in the major. Additionally, students must successfully complete an online portfolio as well as a standardized pre-test and post-test prior to graduation.

McKendree University is a member of the Reis Biological Station Consortium and strongly encourages its biology students to enroll in a field station course during their undergraduate careers. The Reis Biological Station, operated by Saint Louis University, is located in the northern Ozark Mountains near Steelville, Missouri.

Students seeking secondary certification to teach biology must fulfill all of the requirements for Science Education: Biology Emphasis. These requirements are listed in the Courses of Study section of this catalog under Science Education. General Education and other professional education requirements must also be met for certification and are listed in the section entitled "Initial Secondary Certificate" in the Courses of Study section of this catalog under Education, Health, and Human Performance.

To complete a major in biology, students must satisfy the major requirements listed below plus additional requirements listed under Bachelor of Arts or Bachelor of Science (General or Pre-Professional Track) headings.

BIOLOGY CORE REQUIREMENTS

48 crs.

All students majoring in biology must complete the following:

BIO 110	PRINCIPLES OF CELLULAR AND MOLECULAR BIOLOGY	(4)
BIO 111	PRINCIPLES OF ORGANISMAL AND POPULATION BIOLOGY	(4)
BIO 211	GENETICS	(4)
BIO 220	EVOLUTION	(3)
BIO 303	ECOLOGY	(4)
BIO 313	CELLULAR BIOLOGY	(4)
CHE 105	COLLEGE CHEMISTRY I	(5)
CHE 106	COLLEGE CHEMISTRY II	(5)
MTH 310	STATISTICS	(4)
	BIO ELECTIVES	(11)

Students must take elective courses from biology or biochemistry that satisfy each of the following three areas: cell/molecular, organismal, ecology/evolution. Courses that satisfy these areas are indicated below in the course descriptions under biology and biochemistry. Students are free to take additional elective courses as long as the minimum requirements for elective courses are met.

BACHELOR OF ARTS**57 crs.**

Complete the core requirements, plus the following:

BIO 451	READINGS IN BIOLOGY	(2)
BIO 455	BIOLOGY RESEARCH METHODS	(2)
CHE 150	PRINCIPLES OF ORGANIC CHEMISTRY	(4)
CHE 151	PRINCIPLES OF ORGANIC CHEMISTRY LAB	(1)

BACHELOR OF SCIENCE: General Track**68-78 crs.**

Complete the core requirements, plus the following:

BCH 303	PRINCIPLES OF BIOCHEMISTRY	(4)
BIO 455	BIOLOGY RESEARCH METHODS	(2)
BIO 470	INTERNSHIP IN BIOLOGY	(3-8)
MTH 210	CALCULUS I	(4)
PHY 211	PHYSICS I	(4)

Complete one of the two following options:

Option 1:

CHE 150	PRINCIPLES OF ORGANIC CHEMISTRY	(4)
CHE 151	PRINCIPLES OF ORGANIC CHEMISTRY LAB	(1)

Option 2:

CHE 205	ORGANIC CHEMISTRY I	(5)
CHE 206	ORGANIC CHEMISTRY II	(5)

BACHELOR OF SCIENCE: Pre-Professional Track**77-82 crs.**

Complete the core requirements, plus the following:

BCH 303	PRINCIPLES OF BIOCHEMISTRY	(4)
BIO 455	BIOLOGY RESEARCH METHODS	(2)
BIO 470	INTERNSHIP IN BIOLOGY	(3-8)
CHE 205	ORGANIC CHEMISTRY I	(5)
CHE 206	ORGANIC CHEMISTRY II	(5)
MTH 210	CALCULUS I	(4)
PHY 211	PHYSICS I	(4)
PHY 212	PHYSICS II	(4)

Recommended Electives:

BCH 310	INTRODUCTION TO MOLECULAR MODELING AND BIOINFORMATICS	(2)
BIO 307	HUMAN ANATOMY AND PHYSIOLOGY	(5)
BIO 311	MICROBIOLOGY	(5)
BIO 330	INVERTEBRATE BIOLOGY	(4)
BIO 340	DEVELOPMENTAL BIOLOGY	(3)
BIO 370	PATHOPHYSIOLOGY	(4)

McKendree University 2013/2014 Undergraduate Catalog

BIO 410	ANIMAL PHYSIOLOGY	(4)
BIO 420	COMPARATIVE VERTEBRATE ANATOMY	(5)
MTH 211	CALCULUS II	(4)

To complete a minor in biology, students must complete the requirements listed below. The same requirements regarding minimum cumulative grade point average and the Pass/Fail grading option that apply to the major apply to the minor.

BIOLOGY MINOR REQUIREMENTS:		30 crs.
BIO 110	PRINCIPLES OF CELLULAR AND MOLECULAR BIOLOGY	(4)
BIO 111	PRINCIPLES OF ORGANISMAL AND POPULATION BIOLOGY	(4)
BIO 303	ECOLOGY	(4)
	BIO ELECTIVES (300 OR 400 LEVEL)	(8)
CHE 105	COLLEGE CHEMISTRY I	(5)
CHE 106	COLLEGE CHEMISTRY II	(5)

Chemistry (CHE)

Feza Ozturk, Ph.D., Professor of Chemistry;

fozturk@mckendree.edu; (618) 537-6935; Voigt Science Hall 218

Myron C. Reese, Ph.D., Professor of Chemistry;

mreese@mckendree.edu; (618) 537-6814; Voigt Science Hall 207

Within the Division of Science and Mathematics, we seek to provide a broad-based education that prepares graduates to be scientifically and mathematically literate, socially responsible, and professionally successful.

The major program goal in chemistry is to make students competent in the following areas.

- **Content:** Graduates should have a mastery of the core concepts of chemistry and be able to integrate them across the major areas of chemistry.
- **Practice:** Graduates should comprehend the process of scientific inquiry and have the skills and ability to undertake and conduct original research in chemistry.
- **Communication:** Graduates should be able to conduct searches of the chemical literature and to communicate their work to the larger chemical community. They should also be able to communicate the value of chemistry and its applications to the citizenry in general.
- **Professional and social awareness:** Graduates maintain professional awareness by engaging in activities such as attendance at professional meetings and participation in workshops designed to keep them current in the discipline and social awareness by promoting appreciation of the role of chemistry in our society and economy.

Majors in chemistry complete a curriculum designed to prepare them for employment in chemical and biochemical research and technology upon graduation or for pursuing a terminal degree in a certain specialty area of chemistry.

Prior to graduation, qualified students have an opportunity for internships with local companies and/or for summer research fellowships nationwide, earning academic credit while gaining experience in the field of chemistry. Pre-medical students acquire the background in chemistry required for applying to medical school. The same is true for other pre-professional programs such as dentistry, pharmacy, or veterinary science.

Students majoring in chemistry may elect a minor in biochemistry. (See the description of this minor under Biochemistry.)

The chemistry curriculum also serves the needs of majors in related fields such as biology. Students not majoring in science may complete Chemistry 100 and 102 toward fulfillment of general education requirements.

To major in chemistry, the student must complete the requirements listed below for the Bachelor of Science degree, maintaining a 2.50 cumulative grade point average for the chemistry, mathematics, and physics components. No course, including support courses, taken to satisfy a major requirement or number of hours requirements may be taken using the Pass/Fail grading option.

Students seeking secondary certification to teach chemistry must fulfill all of the requirements for the Science Education Major: Chemistry Emphasis. These requirements are listed in the Courses of Study section of this catalog under Science Education. General education and other professional education requirements must also be met for certification and are listed in the section entitled "Initial Secondary Certificate" in the Courses of Study section of this catalog under Education, Health and Human Performance.

CHEMISTRY MAJOR REQUIREMENTS		63-65 crs.
CHE 105	COLLEGE CHEMISTRY I	(5)
CHE 106	COLLEGE CHEMISTRY II	(5)
CHE 205	ORGANIC CHEMISTRY I	(5)
CHE 206	ORGANIC CHEMISTRY II	(5)
CHE 300	ANALYTICAL CHEMISTRY/CHEMICAL ANALYSIS	(5)
CHE 305	PHYSICAL CHEMISTRY I	(5)
CHE 306	PHYSICAL CHEMISTRY II	(5)
CHE 491	JUNIOR SEMINAR IN CHEMISTRY (W)	(3)
CHE 493A	SENIOR RESEARCH IN CHEMISTRY A	(3)
CHE 493B	SENIOR RESEARCH IN CHEMISTRY B (W)	(2-4)
MTH 210	CALCULUS I	(4)
MTH 211	CALCULUS II	(4)
MTH 212	CALCULUS III	(4)
PHY 211	GENERAL PHYSICS I	(4)
PHY 212	GENERAL PHYSICS II	(4)
Courses recommended as electives		7-9 crs.
BCH 303	PRINCIPLES OF BIOCHEMISTRY	(4)
BCH 310	INTRODUCTION TO MOLECULAR MODELING AND BIOINFORMATICS	(2)
CHE 380-389	SPECIAL TOPICS IN CHEMISTRY	(1-3)

CHEMISTRY MAJOR REQUIREMENTS: PRE-PROFESSIONAL TRACK

Students who are interested in pursuing professional studies in fields such as medicine, pharmacy, dentistry, optometry, or veterinary science upon graduation are strongly advised to enroll in the Pre-professional Track program. Students majoring in Chemistry who are enrolled in the pre-professional track program should complete the required courses listed below. Students majoring in Biology should refer to the Pre-Professional Track program of study in Biology section of this catalog.

PRE-PROFESSIONAL TRACK
75-77 crs.

Major Requirements: Same as Chemistry Major Requirements

BIO 110	PRINCIPLES OF CELLULAR AND MOLECULAR BIOLOGY	(4)
BIO 111	PRINCIPLES OF ORGANISMAL AND POPULATION BIOLOGY	(4)
BCH 303	PRINCIPLES OF BIOCHEMISTRY	(4)

PRE-PROFESSIONAL TRACK
Recommended Electives:
8-9 crs.

BCH 310	INTRODUCTION TO MOLECULAR MODELING AND BIOINFORMATICS	(2)
BCH 380	SPECIAL TOPICS IN BIOCHEMISTRY	(2-3)
BIO 410	ANIMAL PHYSIOLOGY	(4)

To complete a minor in chemistry, students must complete the requirements listed below. The same requirements regarding minimum cumulative grade point average and the Pass/Fail grading option that apply to the major apply to the minor.

CHEMISTRY MINOR REQUIREMENTS
29 crs.

CHE 105	COLLEGE CHEMISTRY I	(5)
CHE 106	COLLEGE CHEMISTRY II	(5)
CHE 205	ORGANIC CHEMISTRY I	(5)
CHE 206	ORGANIC CHEMISTRY II	(5)
CHE 300	ANALYTICAL CHEMISTRY/CHEMICAL ANALYSIS	(5)

Plus either one of the following courses:

BCH 303	PRINCIPLES OF BIOCHEMISTRY	(4)
CHE 300	PRINCIPLES OF PHYSICAL CHEMISTRY	(4)

Computing (CSI)

Kian L. Pokorny, Ph.D., Professor Division of Computing;

klpokorny@mckendree.edu; (618) 537-6440; Clark Hall TA-201

Jie Du, Ph.D., Assistant Professor Division of Computing;

jdu@mckendree.edu; (618) 537-6924; Clark Hall TA-202a

James D. Feher, Ph.D., Professor Division of Computing;

jdfeher@mckendree.edu; (618) 537-6956; Clark Hall TA-207

Mostafa G. Mostafa, Ph.D. Assistant Professor Division of Computing

mmostafa@mckendree.edu; (270) 351-5003, Ext 13; Radcliff, KY

Fred W. Underwood, M.S., Assistant Professor Division of Computing;

funderwo@mckendree.edu; (618) 537-6852; Clark Hall LL-4

Nathan A. White, M.S., M.B.A., Instructor Division of Computing;

nawhite@mckendree.edu; (618) 537-6588; Clark Hall TA-208

The Division of Computing provides students with an opportunity to obtain the knowledge of computing necessary to succeed in today's increasingly technical world. The division's curriculum focuses on both theoretical knowledge and practical applications that enrich analytic, creative and research capabilities essential to success in various computing fields. Our curriculum provides students the opportunities to pursue individual interests through special topic courses, internships and projects that further enhance their learning experience outside the traditional classroom setting. Introductory courses in various computer-related topics are offered for non-major students.

Students may obtain a Bachelor of Science degree with a major in Computer Science (CS) Computer Information Systems (CIS), Computational Science (COS), Information Technology (IT) or Interactive Media (IM). These majors focus on the scientific and business views of computing. Students in these majors develop the skills essential to become quality programmers. In addition, the upper-division requirements available to each of the majors provide the necessary specialized knowledge and skills.

Computer Science majors are provided with the systems programming and problem solving skills commonly expected in technical positions at employers that require strong analytical and interpersonal skills. In addition, they obtain the necessary theoretical background required to pursue further education and advanced degrees. Majors in Computer Science should expect employment in both the industrial sector and scientific lab environments.

Computer Information Systems majors study a variety of business-related topics in addition to their programming skills and formal course work in database management, networking, and systems analysis. The course work ensures that the students obtain a thorough view of the modern business world and the impact of information technology on modern business practices. CIS majors are prepared for further education in a graduate program or for employment in one of many jobs such as Database Administration, Network Administration, or Applications Programming.

The Computational Science major emphasizes the use of computers and mathematics in the development of solutions to complex problems. Students majoring in Computational Science take a variety of mathematics and computer science courses that provide the needed theoretical foundation. Additionally, students take courses in a field of specialization, which provides an application area. Students may specialize in Economics and Finance, Biology, Chemistry, Mathematics, or Physics. Students in consultation with a faculty member may also develop a field of specialization that meets individual interests. Computational Science majors are prepared for variety of careers in industry, research labs and engineering facilities. Computational Science majors are also prepared to pursue advanced degrees in areas such as Computer Science, Mathematics, Bioinformatics, Mathematical Finance and Computational Science.

Information Technology majors study the practical applications of computing and communications technology. Most organizations have become dependent on networked computing infrastructure to the degree that they could not function

without the infrastructure. Information Technology majors are prepared to select, manage and maintain the technology of an organization. Students with a major in Information Technology obtain positions in organizations planning and managing the organization's technology.

The Interactive Media major provides students with a strong theoretical foundation and specializes in software development such as Web tools, artificial intelligence, graphics and other interactive software techniques. Students majoring in Interactive Media are prepared for careers in application software development and to pursue further education and advanced degrees.

Students within all majors experience a variety of programming environments including many microcomputer systems as well as multi-user environments. Students are exposed to a number of modern programming languages appropriate to their selected majors and gain valuable experience with a wide-selection of computer hardware and resources. This variety of resources coupled with elective courses allows students to personalize the specialized knowledge they wish to obtain.

Students with majors in IM, IT, COS, CIS and CS must complete all courses required for the major with a minimum of a 2.25 cumulative grade-point average. All courses must have a grade of C- or higher to fulfill the prerequisite requirement. In addition, all courses for the major and minor must be completed with a grade of C- or higher. No courses required for the major may be taken with the Pass/Fail grading option. All students completing one of the division's majors must pass a Computing Proficiency Examination (CPE). The exam is offered twice a year, in late-August and mid-January. Students may repeat the exam as many times as necessary. The core of the exam will cover topics from the courses CSI 130, CSI 230, CSI 235 and CSI 300. Students majoring in Information technology will also have topics from CSI 260 included. Students in one of the other majors will have topics from CSI 330 included. Students may take the CPE once they have completed the coursework that is covered for the exam.

The division also offers minors in both CIS and CS. Students who complete the required courses for the minor can expect to obtain programming skills and general computing knowledge.

Creative Writing (ENG)

Jenny Mueller, Ph.D., Associate Professor of English

jmueller@mckendree.edu: (618) 537-6459; Carnegie Hall 215

The Creative Writing minor benefits students who wish to develop their own voices of writers of poetry and/or fiction. Students pursuing a Creative Writing minor will undertake intensive study of the forms and techniques of writing genres, emerging as writers of poetry or fiction that shows increasing originality, interest, technique, and confidence. Through their coursework, students will gain greater understanding of the literary history and practices of poetry and fiction, while also learning to develop their own distinct writer's voice by producing a body of work of their own.

Students enrolled in the Creative Writing minor will take courses that introduce them to the aesthetic standards by which poetry and fiction are read, written, and evaluated. Coursework in the minor includes study of the work of major writers of poetry and fiction; classes focusing on discussion, development, and improvement of student-written work; and classes that develop understanding of the forms and history of language, the writer's medium. Students pursuing a Creative Writing minor must complete a senior thesis containing a substantial, polished sample of their own poetry or fiction.

The Creative Writing minor promotes individual creativity while building strengths in writing, critical thinking, editing and revising, and sensitivity to language. While particularly beneficial to those who wish to pursue graduate study and careers as writers of poetry or fiction, the Creative Writing minor is invaluable for students interested in pursuing careers in a variety of fields. Many employers value creative thinkers highly, and creative writing students find work in such fields areas as the fine arts, teaching, publishing, communications, and law.

To minor in Creative Writing:

1. Students must take 19 credit hours from among the following courses. At least 7 credit hours must be 300-level or above.
2. All students in the Creative Writing minor will be required to take the following courses (totaling a minimum of 13 credit hours):
 - ENG 205 (Introduction to Writing Poetry)
or ENG 206 (Introduction to Writing Fiction)
 - ENG 305 (Advanced Writing of Poetry)
or ENG 306 (Advanced Writing of Fiction)
 - ENG 261 (Poetry)
or ENG 271 (Short Fiction)
 - ENG 300 (The Nature of Language)
or ENG 307 (English Grammar)
 - ENG 460 (Creative Writing Thesis)
3. The remaining 6 credit hours may be selected from among the following courses: ENG 247, ENG 301, ENG 302, ENG 303, ENG 304, ENG 311, ENG 315, ENG 316, ENG

Courses of Study

- 317, ENG 318, ENG 319, ENG 280-9 (with permission of creative writing advisor), ENG 320-9 (with permission of creative writing advisor).
4. English majors who are enrolled in the English Literature/Writing track as well as the Creative Writing minor may not use ENG 205, ENG 206, ENG 305, or ENG 306 to fulfill their Literature/Writing writing requirements.
 5. Students must earn a cumulative G.P.A. of 2.25 or better in courses applied to the minor.

Dance (DAN)

**Nancy S. Ypma, D.Mus., Professor of Music, Director of Music;
Chair, Division of Visual and Performing Arts;**

nyypma@mckendree.edu; (618) 537-6922; Hettenhausen Center for the Arts 1112

Dance courses are available to all students and are particularly useful to students majoring in theatre or music. Students may choose to complete a minor in Dance. This minor requires 18 credits of course work and at least two semesters of ensemble participation. The minor is primarily performance oriented with a secondary emphasis on the history and theory of dance. Dance minors must complete the required course work with a minimum 2.25 grade point average in dance and must enroll in DAN 200 for a grade.

DANCE MINOR REQUIREMENTS		18 crs.
DAN 110	BEGINNING MODERN DANCE	(3)
DAN 120	BEGINNING BALLET	(3)
DAN 130	BEGINNING JAZZ DANCE	(3)
DAN 200	DANCE ENSEMBLE (TWO SEMESTERS)	(0-1)
DAN 210	INTERMEDIATE / ADVANCED MODERN DANCE	(3)
DAN 220	INTERMEDIATE / ADVANCED BALLET	(3)
DAN 350	DANCE COMPOSITION	(3)

Economics

Eric Abrams, Ph.D., Associate Professor of Economics;

ebabrams@mckendree.edu; (618) 537-6553; 907 Royse Street

Frank Spreng, Ph.D., J.D., Professor of Economics, Director of the MBA Program;

fspreng@mckendree.edu; (618) 537-6902; Piper Academic Center 100

John Watters, Ph.D., Assistant Professor of Economics;

jswatters@mckendree.edu; (618) 537-6406; Piper Academic Center 105

Economics students focus on the study of the allocation of resources with an emphasis on personal, business, and public sector decision making. Students will be able to use economic tools like opportunity costs, supply, demand, marginal analysis, the equation of exchange, and the theory of trade. To be effective in these activities, students will develop their oral and written communication skills, their critical thinking skills, and their numerical skills.

The major in economics provides a solid academic base and opens a number of career options. These career options include position in commercial banking, the securities business, financial planning, governmental agencies and consulting. The economics major also provides a sound foundation for post graduate studies in economics, business administration, law, and public policy. Students interested in graduate studies in economics are advised to complete a number of upper level mathematics courses beyond calculus or complete an undergraduate major in mathematics.

ECONOMICS MAJOR REQUIREMENTS **40 crs.**
REQUIRED COURSES **22 crs.**

ECO 211	MICROECONOMICS	(3)
ECO 212	MACROECONOMICS	(3)
ECO 309	MONEY AND BANKING	(3)
ECO 353	MANAGERIAL ECONOMICS (MTH 310 IS A PREREQUISITE FOR ECO 353)	(3)

English (ENG)

John R. Greenfield, Ph.D., Professor of English; Chair, Division of Humanities
jgreenfi@mckendree.edu; (618) 537-6890; Carnegie Hall 205

Brenda Boudreau, Ph.D., Professor of English;
bboudreau@mckendree.edu; (618) 537-6971; Carnegie Hall 210

Nichole DeWall, Ph.D., Assistant Professor of English;
nbdewall@mckendree.edu; (618) 537-6495; Carnegie Hall 211

Jenny Mueller, Ph.D., Associate Professor of English;
jimueller@mckendree.edu; (618) 537-6459; Carnegie Hall 215

Martha Patterson, Ph.D., Associate Professor of English;
mhpatterson@mckendree.edu; (618) 537-6881; Carnegie Hall 206

Joy Santee, Ph.D., Assistant Professor of English;
Jmsantee@mckendree.edu; (618) 537-6858, 509 Stanton

**Gabriel Shapiro, M.A., Assistant Professor of Journalism and English;
Faculty Advisor, McKendree Review;**
gishapiro@mckendree.edu; (618) 537-6946; Carnegie Hall 104

The faculty in English offer a wide range of courses in literature and writing to prepare students for graduate study and careers in teaching and other professions. English is recognized as an excellent pre-professional major in such fields as law, medicine, business, federal service, and publishing. The skills in writing, critical thinking, and analysis learned by the English major provide a solid preparation for the prospective writer, editor, lawyer, teacher, public relations worker, and advertising or business executive.

English majors take a variety of courses in writing, literature, and language – all of which are designed to enhance students' skills in oral and written communication. Literature courses help students develop the ability to read and interpret literature critically as well as the ability to appreciate literature and respond to it intellectually, aesthetically, and affectively. The study of literature will help students understand their own cultural heritage as well as the cultural heritage of others. Language and writing courses will enhance students' sensitivity to and understanding of language as well as improve their skills in written communication: invention, drafting, revising, editing, and polishing.

To major in English the student must complete between 42 and 45 credit hours in English (depending on the track and excluding ENG 111 and 112) of which at least 24 credit hours must be taken at McKendree. Students majoring in English may elect one of the following three tracks: Literature Track; Literature/Writing Track; or English/Secondary Education Track. At least 21 hours of the English major (all tracks) must be taken from courses numbered 300 or above. Students must earn at least a 2.25 average in the major with no course grades below a C-. In addition, students must complete a minimum of two semesters of a foreign language or equivalent (foreign language in high school is computed on the basis of one year equals one semester of college language). Thus majors must complete the equivalent of 102 (second semester) of whichever language they chose.

To minor in English a student must include at least 22 credits in the area (excluding ENG 111 and 112); at least 15 of these hours have to be at the 300 level or above. A student must earn at least a 2.25 average in the minor with no course grades below a C-.

In addition to the courses required for the English/secondary education track, it is also recommended that students in secondary education take one or more journalism courses as journalism is considered part of the English Language Arts certificate. In addition, it is recommended that secondary education English majors with an interest in teaching drama and theater take English 250 Dramatic Literature and/or any Theater course as electives as well as participate in the university's theater productions. General education and professional education requirements must also be met for certification. These are listed in the section titled "Initial Secondary Certificate" in the Courses of Study section of this catalog under Education.

Students who are considering graduate school in English should make an effort to take as many of the following courses as possible: ENG 303, ENG 304, ENG 311, ENG 315, ENG 316, ENG 317, ENG 318, and ENG 319. These courses should enhance students' performance on the English Graduate Record Examination.

ENG 111 and ENG 112, or permission of the instructor, are PREREQUISITES for all ENGLISH COURSES NUMBERED 200 AND HIGHER. Students should check the general education portion of the catalog to determine which English courses will satisfy the general education core literature requirement and the core cross cultural requirement.

ENGLISH MAJOR REQUIREMENTS: Literature Track 42 crs.

ENG 290	INTRODUCTION TO LITERARY THEORY (W)	(3)
ENG 390	MAJOR AUTHORS	(3)
ENG 490	SEMINAR IN ENGLISH	(4)
ENG 301	SHAKESPEARE'S COMEDIES AND HISTORIES	(3)
<i>or</i>		
ENG 302	SHAKESPEARE'S TRAGEDIES AND ROMANCES	(3)
ENG 303	AMERICAN LITERATURE TO 1900	(4)
ENG 304	AMERICAN LITERATURE FROM 1900 TO PRESENT	(4)
ENG 300	THE NATURE OF LANGUAGE	(3)
<i>or</i>		
ENG 307	ENGLISH GRAMMAR	(3)

Four of the following English literature courses (one must be taken from 311, 315, and 316, and one must be taken from 317, 318, and 319.)

ENG 311	MEDIEVAL AND RENAISSANCE ENGLISH LITERATURE	(3)
ENG 315	17TH CENTURY ENGLISH LITERATURE	(3)
ENG 316	18TH CENTURY ENGLISH LITERATURE	(3)
ENG 317	ROMANTIC ENGLISH LITERATURE	(3)
ENG 318	VICTORIAN ENGLISH LITERATURE	(3)
ENG 319	TWENTIETH CENTURY ENGLISH LITERATURE	(3)
Additional English electives as needed		

Literature/Writing Track: Literature Requirements 42 crs.

ENG 290	INTRODUCTION TO LITERARY THEORY (W)	(3)
ENG 390	MAJOR AUTHORS	(3)
ENG 490	SEMINAR IN ENGLISH	(4)

Courses of Study

ENG 301	SHAKESPEARE'S COMEDIES AND HISTORIES	(3)
<i>or</i>		
ENG 302	SHAKESPEARE'S TRAGEDIES AND ROMANCES	(3)
ENG 303	AMERICAN LITERATURE TO 1900	(4)
<i>or</i>		
ENG 304	AMERICAN LITERATURE FROM 1900 TO PRESENT	(4)

One from the following:

ENG 311	MEDIEVAL AND RENAISSANCE ENGLISH LITERATURE	(3)
ENG 315	17TH CENTURY ENGLISH LITERATURE	(3)
ENG 316	18TH CENTURY ENGLISH LITERATURE	(3)

One from the following:

ENG 317	ROMANTIC ENGLISH LITERATURE	(3)
ENG 318	VICTORIAN ENGLISH LITERATURE	(3)
ENG 319	TWENTIETH CENTURY ENGLISH LITERATURE	(3)

**Writing requirements. Twelve hours from the following courses:
(ENG 300 or 307 must be included.)**

ENG 205	INTRODUCTION TO WRITING POETRY	(3)
ENG 206	INTRODUCTION TO WRITING FICTION	(3)
ENG 212	ADVANCED COMPOSITION	(3)
ENG		
220-229	TOPICS IN WRITING, LANGUAGE AND RHETORIC	(3)
ENG 300	THE NATURE OF LANGUAGE	(3)
ENG 305	ADVANCED WRITING OF POETRY	(3)
ENG 306	ADVANCED WRITING OF FICTION	(3)
ENG 307	ENGLISH GRAMMAR	(3)
ENG		
320-329	TOPICS IN WRITING, LANGUAGE AND RHETORIC	(3)
ENG 360	TECHNICAL WRITING	(3)
ENG 361	WRITING PEDAGOGY	(3)
JRN 251	NEWSPAPER WRITING	(3)
JRN 352	ADVANCED NEWSPAPER WRITING	(3)
JRN		
380-389	SPECIAL TOPICS IN JOURNALISM	(3)
	Additional English electives as needed	

English/Secondary Education track:**44-45 crs.**

ENG 290	INTRODUCTION TO LITERARY THEORY (W)	
ENG 301	SHAKESPEARE'S COMEDIES AND HISTORIES	(3)
<i>or</i>		
ENG 302	SHAKESPEARE'S TRAGEDIES AND ROMANCES	
ENG 303	AMERICAN LITERATURE TO 1900	(3)
<i>or</i>		
ENG 304	AMERICAN LITERATURE FROM 1900 TO PRESENT	(4)
ENG 390	MAJOR AUTHORS (W)	(3)
ENG 490	SEMINAR IN ENGLISH (W)	(4)

One from the following:

ENG 311	MEDIEVAL AND RENAISSANCE ENGLISH LITERATURE	
	<i>or</i>	
ENG 315	17TH CENTURY ENGLISH LITERATURE	
	<i>or</i>	
ENG 316	18TH CENTURY ENGLISH LITERATURE	(3)

One from the following:

ENG 317	ROMANTIC ENGLISH LITERATURE	
	<i>or</i>	
ENG 318	VICTORIAN ENGLISH LITERATURE	
	<i>or</i>	
ENG 319	20TH CENTURY ENGLISH LITERATURE	(3)

Multicultural requirements: One from the following three:

ENG 252	ETHNIC LITERATURE	
ENG 253	POSTCOLONIAL LITERATURE	
ENG 254	AFRICAN AMERICAN LITERATURE	(3)
ENG 309	WORLD LITERATURE I	
	<i>or</i>	
ENG 310	WORLD LITERATURE II	(3-4)
ENG 236	YOUNG ADULT LITERATURE	(3)

Writing and Language requirements: all of the following:

ENG 212	ADVANCED COMPOSITION (W)	(3)
ENG 300	THE NATURE OF LANGUAGE	(3)
ENG 307	ENGLISH GRAMMAR	(3)
ENG 361	WRITING PEDAGOGY (W)	(3)

ENGLISH MINOR REQUIREMENTS:

15 UPPER LEVEL HOURS (SEE COURSES LISTED BELOW) 22 crs.

ENG 303	AMERICAN LITERATURE TO 1900	
	<i>or</i>	
ENG 304	AMERICAN LITERATURE FROM 1900 TO PRESENT	(4)
ENG 311	MEDIEVAL AND RENAISSANCE ENGLISH LITERATURE	
	<i>or</i>	
ENG 315	17TH CENTURY ENGLISH LITERATURE	
	<i>or</i>	
ENG 316	18TH CENTURY ENGLISH LITERATURE	(3)

Courses of Study

ENG 317	ROMANTIC ENGLISH LITERATURE	
	<i>or</i>	
ENG 318	VICTORIAN ENGLISH LITERATURE	
	<i>or</i>	
ENG 319	20th CENTURY ENGLISH LITERATURE	(3)
ENG 301	SHAKESPEARE'S COMEDIES AND HISTORIES	
	<i>or</i>	
ENG 302	SHAKESPEARE'S TRAGEDIES AND ROMANCES	(3)
ENG 390	MAJOR AUTHORS	(3)
	ADDITIONAL ENGLISH ELECTIVES AS NEEDED	

* Unless otherwise noted, ENG 111 and ENG 112, or permission of the instructor, are prerequisites for all English courses numbered 200 and higher.

Gerontology (GRN)

Linda Hoffman, Ph.D., Associate Professor of Psychology;

lehoffman@mckendree.edu; (618) 537-6886; Carnegie Hall 204

Gerontology is the study of the psychological, sociological, and physiological facets of human aging. The minor in gerontology is designed to give a background and context for those who wish to enter positions that deal with meeting the needs of the elderly. To minor in gerontology, a student must complete 21 hours in gerontology courses. If PSY 321, PSY 322 and PSY 302 are used toward a psychology major or psychology minor, they may not also be counted toward meeting the 21-hour requirement for the gerontology minor.

All courses for the minor must be completed with a grade of C- or higher. A student majoring in psychology may concentrate his/her studies in courses which reflect a gerontological track. For specifics on this alternative, see the requirements in the Courses of Study section of this catalog under Psychology.

Gerontology Minor Requirements		21 crs.
PSY 153	INTRODUCTION TO PSYCHOLOGY	(4)
	PSY/	
GRN 322	PSYCHOLOGY & SOCIOLOGY OF HUMAN AGING	(4)
PSY 321	PSYCHOLOGY & SOCIOLOGY OF DEATH & DYING	(4)
GRN 495	SENIOR ESSAY IN GERONTOLOGY (W)	(3)

Additional 6 credits from the following:

PSY 302	ADULT DEVELOPMENTAL PSYCHOLOGY	(3)
SOC 260	SOCIOLOGY OF THE FAMILY	(3)
SOC 270	SOCIAL PROBLEMS	(3)

Other courses as announced each semester.

History (HIS)

Patrick A. Folk, Ph.D., Professor of History;

Deneen Professor of Early American History;

pfolk@mckendree.edu; (618) 537-6988; Carnegie Hall 102

Irwin Halfond, Ph.D., Professor of History;

ihalfond@mckendree.edu; (618) 537-6891; Carnegie Hall 103

Shelly Lemons, Ph.D., Assistant Professor of History;

slemons@mckendree.edu; (618) 537-6457, Clark Hall 308

History is clearly the broadest and most inclusive of all the academic disciplines, since it properly includes the development of all other areas of study. The study of history is a solid preparation for life in an increasingly unpredictable modern world. Its study sharpens abilities to analyze and evaluate information critically, to interpret relationships, to translate ideas into different forms, to apply concepts to varying situations, to synthesize new concepts from given information, and to evaluate alternate courses of action or interpretations of historical data. A history major will also develop strong writing and research capabilities, leading in the senior year to a major original research paper based on primary source materials. History has proven to be an outstanding preparation for successful careers in law, teaching, business, writing, and other fields.

Social Science secondary education students who are interested in procuring a history concentration may pursue a B.S. in History Education. The requirements for this degree include 27 history hours that are prescribed plus an additional 6 upper level hours in history, 3 of which must be in American history and 3 of which must be in either European or world history. This degree, while not as comprehensive as the traditional History B.A., will nevertheless enable the holder to compete for teaching positions outside of the state of Illinois, seek a variety of business and non-profit professional careers in which the traditional liberal arts are valued, and pursue graduate studies in history.

Students seeking the traditional B.A. in history must complete at least 38 hours, with a minimum of a 2.5 cumulative grade point average and all courses for the major must be completed with a grade of C- or higher. At least 18 credit hours must be completed at the 300 level or above. All history majors must take six hours of European history at the upper division level and six hours of American history at the upper division level. History majors must also complete six semester hours of a single foreign language or equivalent (calculated at two semesters of high school language equal to one semester of college language).

Students seeking a minor in history must complete at least 20 credit hours in history, at least 12 hours of which must be at the 300 level or above. Students must complete the minor with a minimum of a 2.5 cumulative grade point average and all courses for the minor must be completed with a grade of C- or higher.

The History Education major may be selected by students interested in teaching at secondary or middle schools as well as by those students who may wish to pursue advanced degrees in History. At least 18 of the 55 required hours in Social Science must be at the 300 level or above. All courses for the major and minor must be completed with a grade of C- or higher.

Courses of Study
B.S. HISTORY EDUCATION MAJOR REQUIREMENTS **55 crs.**
Required History Courses **33 crs.**

HIS 161	WORLD CIVILIZATION TO 1450	(3)
HIS 162	WORLD CIVILIZATION SINCE 1450	(3)
HIS 163	TWENTIETH CENTURY WORLD HISTORY	(3)
HIS 261	UNITED STATES HISTORY TO 1865	(3)
HIS 262	UNITED STATES HISTORY SINCE 1865	(3)
HIS 309	HISTORICAL METHODS AND REGIONAL INQUIRY (W)	(3)
HIS 372	AMERICAN ECONOMIC HISTORY	(3)
HIS 373	HISTORICAL GEOGRAPHY	(3)
HIS 376	MINORITIES IN THE AMERICAN EXPERIENCE	(3)
<i>or</i>		
HIS 371	U.S. WOMEN'S HISTORY	(3)
	Additional History electives	(6)

Required Social Science Courses **22 crs.**

ANT 149	INTRODUCTION TO CULTURAL ANTHROPOLOGY	(3)
SOC 150	PRINCIPLES OF SOCIOLOGY	(3)
ECO 212	PRINCIPLES OF MACROECONOMICS	(3)

HIS 161	WORLD CIVILIZATION TO 1450	(3)
<i>and</i>		
HIS 162	WORLD CIVILIZATION SINCE 1450	(3)
<i>or</i>		
HIS 261	UNITED STATES HISTORY TO 1865	(3)
<i>and</i>		
HIS 262	UNITED STATES HISTORY SINCE 1865	(3)
	Additional History Electives	(14)
(12 credits must be at the 300 level or above.)		

Journalism (JRN)

**Gabriel Shapiro, M.A., Assistant Professor of Journalism and English;
Faculty Advisor, McKendree Review;**

gshapiro@mckendree.edu; (618) 537-6946; Carnegie Hall 104

Journalism practices and the media landscape regularly undergo major changes. Despite radical transformations, writing and researching skills remain the two core skills required to create excellent journalism. That is why they are at the heart of McKendree's journalism minor.

The journalism minor prepares students to be proficient and ethical professionals in a wide variety of media and related careers. Students learn to write well-developed articles for internet, newspaper, magazine, and other outlets. Students also learn the editing, revising, and researching skills required of media professionals.

Our courses develop a strong understanding of communication theory, media ethics, and the legal issues that arise when covering the news. All journalism minors also receive solid training in media design.

Involvement with the student newspaper, online radio outlet, university communications operations, and other on-campus opportunities significantly broaden classroom-based learning. A well-developed internship program provides real-world journalism experience, with many site choices available locally and in the St. Louis area.

JOURNALISM MINOR REQUIREMENTS		21 crs.
JRN 237	INTRODUCTION TO MASS COMMUNICATIONS	(3)
JRN 351	WRITING FOR THE NEWS MEDIA (W)	(3)
JRN 353	FEATURE WRITING (W)	(3)
JRN 372	WEB AND PRINT PUBLICATION DESIGN	(3)
JRN 470	INTERNSHIP IN JOURNALISM	(3)
	Plus electives	(6)

ELECTIVES LIST:

ART 245	PHOTOGRAPHY	(3)
JRN 215	PRACTICUM I	(1-2)
JRN 216	PRACTICUM II	(1-2)
JRN 375	TRAVEL WRITING (W)	(3)

Courses of Study

PSI 102	STATE AND LOCAL GOVERNMENT	(3)
PHI 390	ETHICS AND PUBLIC POLICY	(3)
SPC 401	FREEDOM OF SPEECH	(3)
	and other electives approved by journalism faculty.	

Mathematics (MTH)

**J. Alan Alewine, Ph.D., Associate Professor of Mathematics;
Chair, Division of Science and Mathematics;**

jaalewine@mckendree.edu; (618) 537-6931; Voigt Science Hall 115

Heather A. Dye, Ph.D., Associate Professor of Mathematics

hadye@mckendree.edu; (618) 537-6932; Voigt Science Hall 120 A

Dennis Ryan, Ph.D., Professor of Mathematics;

dryan@mckendree.edu; (618) 537-6937, Voigt Science Hall 119

Within the Division of Science and Mathematics, we seek to provide a broad-based education that prepares graduates to be scientifically and mathematically literate, socially responsible, and professionally successful.

Within the program in mathematics, we have established the following goals for our graduates:

- **Content:** Graduates should have a broad-based understanding of core mathematical concepts as well as an understanding of concepts and techniques specific to their specialization.
- **Practice:** Graduates should be able to formulate and solve problems relevant to their area of specialization.
- **Communication:** Graduates should be able to access existing mathematical knowledge and effectively communicate their own work to a broader community.
- **Professional Awareness:** Graduates should develop personal and professional goals, the tools to achieve these goals, and an understanding of professional responsibilities.

An undergraduate degree in mathematics prepares a student for a wide variety of career opportunities. Besides pursuing graduate degrees or teaching, graduates may be employed by government agencies and private industries. Moreover, an increasing number of employers are hiring mathematics majors for careers not usually considered mathematical because the problem solving skills developed by the mathematics student can be applied to other areas.

The mathematics major may seek a Bachelor of Arts or a Bachelor of Science degree in the general or secondary education track, or a Bachelor of Science degree with a finance/actuary concentration. For the Bachelor of Arts degree, the student must complete the mathematics, computer and/or economics courses listed below. For the Bachelor of Science degree, the student must satisfy these same requirements and must, in addition, complete either four science courses from two science areas, or a sequence of business courses. The student must complete all major requirement courses with a minimum cumulative grade point average of 2.25 and with no grade lower than C-. No course, including support courses, taken to

satisfy a major requirement or number of hours requirements may be taken using the Pass/Fail grading option.

The general concentration is designed for students interested in mathematics for graduate school or computing (with computer science as a second major).

Students preparing for a career as mathematics teachers in secondary schools should complete the secondary education track. The mathematics courses in this track constitute a mathematics degree with course work selected to be of use in secondary education. However, in order to obtain secondary school certification, students must also complete the general and professional education coursework required for certification. These courses are listed in the section entitled "Initial Secondary Certificate" in the Courses of Study section of this catalog under Education. If student teaching conflicts with one of the required mathematics courses, another course may be substituted with approval of the student's advisor and the Provost. The secondary education track when combined with the additional general and education coursework meets both the requirements of the State of Illinois and the standards set by the National Council of Accreditation of Teacher Education (NCATE), in conjunction with the National Council of Teachers of Mathematics (NCTM) for certification in secondary mathematics education. Please note that students pursuing this track are not precluded from taking the actuarial exams or pursuing a graduate degree in mathematics.

Students interested in mathematical finance, or in taking actuarial exams, should pursue the finance/actuary track. Students have the option of either a senior seminar or an internship as a capstone experience. Upon finishing the track, a graduate should be prepared to immediately seek employment with a variety of companies and/or to take the first two actuarial exams.

Students should be mindful that some 300-level courses are offered during alternate years and should plan accordingly.

BACHELOR OF ARTS MAJOR REQUIREMENTS: General track		44 crs.
MTH 210	CALCULUS I	(4)
MTH 211	CALCULUS II	(4)
MTH 212	CALCULUS III	(4)
MTH 300	TRANSITION TO ADVANCED MATHEMATICS	(3)
MTH 330	COMPLEX VARIABLES	(3)
MTH 360	LINEAR ALGEBRA	(3)
MTH 392	INTRODUCTION TO ANALYSIS	(3)
MTH 393	MODERN ALGEBRA I	(3)
MTH 490	SEMINAR IN MATHEMATICS	(3)
CSI 130	INTRODUCTION TO COMPUTING I	(4)
CSI 230	INTRODUCTION TO COMPUTING II	(4)

Two additional courses selected from:

MTH 301	COLLEGE GEOMETRY	(3)
MTH 320	FINANCIAL MATHEMATICS	(3)
MTH 340	PROBABILITY	(3)
MTH 341	APPLIED STATISTICS	(3)
MTH 343	NUMBER THEORY	(3)
MTH 366	NUMERICAL ANALYSIS	(3)
MTH 370	DIFFERENTIAL EQUATIONS AND MODELING	(3)

Courses of Study

MTH 372	PARTIAL DIFFERENTIAL EQUATIONS	(3)
MTH 375	DISCRETE MODELS	(3)
MTH 376	GRAPH THEORY	(3)
MTH 394	MODERN ALGEBRA II	(3)

Recommended electives

PHI 204	LOGIC	(4)
ENG 360	TECHNICAL WRITING (W)	(3)

BACHELOR OF ARTS MAJOR REQUIREMENTS:

Secondary Education Track 42 crs.

MTH 210	CALCULUS I	(4)
MTH 211	CALCULUS II	(4)
MTH 212	CALCULUS III	(4)
MTH 300	TRANSITION TO ADVANCED MATHEMATICS	(3)
MTH 301	COLLEGE GEOMETRY	(3)
MTH 330	COMPLEX VARIABLES	(3)
MTH 340	PROBABILITY	(3)

ACC 262	PRINCIPLES OF ACCOUNTING II	(4)
ECO 211	PRINCIPLES OF MICROECONOMICS	(3)
ECO 212	PRINCIPLES OF MACROECONOMICS	(3)
FIN 308	PRINCIPLES OF BUSINESS FINANCE	(3)
FIN 355	INVESTMENTS	(3)
FIN 360	FINANCIAL MANAGEMENT	(3)

Recommended electives

CSI 230	INTRODUCTION TO COMPUTING II	(3)
ENG 360	TECHNICAL WRITING (W)	(3)

BACHELOR OF SCIENCE MAJOR REQUIREMENTS: General Track **52-60 crs.**

Same as above for Bachelor of Arts with one of the following two options in addition;

1. Four science courses from at least two of the following sciences: biology, chemistry (except CHE 100) and physics (except PHY 101).
2. Four business courses including ACC 261, ECO 211, but not including BUS 310.

To obtain a minor in mathematics, the student must complete one of the following tracks. The same requirement regarding minimum cumulative grade point average and the Pass/Fail grading option which applies to the major applies to the minor. Students majoring in Accounting or Economics and Finance may obtain a minor in actuarial sciences. The same requirement regarding minimum cumulative grade point average and the Pass/Fail grading option which applies to the major applies to the actuarial sciences minor.

MATHEMATICS MINOR REQUIREMENTS **18 crs.**

MTH 210	CALCULUS I	(4)
MTH 211	CALCULUS II	(4)
MTH 212	CALCULUS III	(4)

Plus a minimum of six additional credits in mathematics from courses numbered 300 or higher, excluding MTH 310.

ACTUARIAL SCIENCES MINOR REQUIREMENTS **67 crs.**

MTH 210	CALCULUS I	(4)
MTH 211	CALCULUS II	(4)
MTH 212	CALCULUS III	(4)
MTH 320	FINANCIAL MATHEMATICS	(3)
MTH 340	PROBABILITY	(3)
MTH 341	APPLIED STATISTICS	(3)

ECO 212	PRINCIPLES OF MACROECONOMICS	(3)
FIN 308	PRINCIPLES OF BUSINESS FINANCE	(3)
FIN 355	INVESTMENTS	(3)
FIN 360	FINANCIAL MANAGEMENT	(3)

Music (MUS)

**Nancy S. Ypma, D. Mus., Professor of Music, University Organist Chair,
Division of Visual and Performing Arts;**

nypma@mckendree.edu; (618) 537-6922; Hettenhausen Center for the Arts 1112

Phillip Wilhelm, Ph.D., Assistant Professor of Music Education,

pewilhelm@mckendree.edu; (618) 537-6428, Hettenhausen Center for the Arts 1090

David Boggs, M.Mus., (staff), Director of Bands,

dgboggs@mckendree.edu; (618)537-4692; Hettenhausen Center for the Arts 1092

The Bachelor of Arts degree with a major in music is a program designed for qualified students who wish to complete a concentrated study of music within a liberal arts curriculum. In addition, students who pursue a bachelor's degree in music will receive an appropriate background for graduate study not only in music but in related fields in the arts and humanities. For a description of the Bachelor of Music Education degree leading to a special teaching certificate in music, see Music Education. For a description of the Bachelor of Arts degree in Music Business, see Music Business.

The music curriculum currently offers the Bachelor of Arts degree in Music in three different areas of emphasis. Qualified students of piano, organ, voice, brass, woodwind or percussion may choose an emphasis in performance; a jazz performance emphasis is also available to students of trumpet, trombone, saxophone, guitar, string bass or piano. Students with an interest in religion and directing music in a church may choose a church music emphasis.

Students must earn at least a 2.5 grade point average in courses applied toward the major with no course grades below a C. No course taken to satisfy a major requirement, including performance ensembles, may be taken using the Pass/Fail grading option. Music majors must earn at least 30 hours of music credits at McKendree University.

All music majors are expected to participate in at least one major performing ensemble each semester of enrollment at McKendree and to attend performance classes, concerts and recitals as determined by the Music Faculty. In addition, students completing a BA in church music, jazz performance, or solo performance are also required to take two semesters of a foreign language or have the high school equivalent with a grade of C or higher.

There are two music minor tracks. One is designed for the traditional music minor and the other is designed specifically for Elementary Education majors. (Elementary Education majors may choose either music minor track.) The student completing a minor in music must complete the required course work with a minimum of 8 credits at the 300-400 level and must participate in a McKendree ensemble for 4 semesters. Minors must complete the required course work with a minimum of 2.25 grade point average in music, and are required to enroll in performance ensembles for a grade and to attend performance classes, concerts and recitals as determined by the Music Faculty. Students are expected to participate in ensembles in which they will perform on their primary instrument.

McKendree University 2013/2014 Undergraduate Catalog

MUSIC MAJOR REQUIREMENTS:	28 crs.
MUL 198	FIRST YEAR GATE JURY (0)
MUS 100	PERFORMANCE LAB (every semester of enrollment) (0)
MUS 255	MUSIC THEORY I (3)
MUS 255L	AURAL SKILLS LAB I (1)
MUS 256	MUSIC THEORY II (3)
MUS 256L	AURAL SKILLS LAB II (1)

MUS 356L	AURAL SKILLS LAB IV (1)
MUS 364	MUSIC HISTORY I (W) (not required of Jazz Performance majors) (4)
MUS 365	MUSIC HISTORY II (W) (4)
MUS 366	MUSIC HISTORY III (W) (4)

Additional requirements for emphasis in Church Music: (Total hours in major: 53)	25 crs.
MUL 289	PIANO PROFICIENCY GATE (0)
MUL 367	ADVANCED CONDUCTING (2)
MUS 322	INTRODUCTION TO CONDUCTING (2)
MUS 358	SACRED CHORAL LITERATURE (3)
MUS 367	MUSIC OF THE CHURCH (3)
MUS 372	ARRANGING (3)
	Applied lessons on primary instrument (10)
	(1.5 crs./first 4 semesters; 1 cr./last 4 semesters)
	Applied lessons on secondary instrument (1 cr. per semester) (2)

Students majoring in Church Music are required to take REL 230 to fulfill the General Education Religion requirement and are also required to pass a piano proficiency exam.

All church music majors are also required to pass a piano proficiency exam and must take applied piano lessons every semester until the piano proficiency exam is passed.

Requirements for emphasis in Jazz Performance: (Total hours in major: 49)	25 crs.
MUE 148	JAZZ ENSEMBLE (every semester) (0)
MUE 258	JAZZ COMBO (every semester) (0-1)
	One upper level course in specialized pedagogy (MUS 304, 306, 308, 310, 318) (3)
MUL 398	JUNIOR RECITAL (0)
MUL 498	SENIOR RECITAL (0)
MUS 369	HISTORY OF JAZZ (3)
MUS 372	ARRANGING (3)
	Applied lessons on primary instrument (2 cr. per semester) (16)

Jazz performance majors are strongly encouraged to participate in Concert Band each semester. All jazz performance majors are required to perform a junior and a senior recital.

Requirements for emphasis in Solo Performance:**(available in brass, woodwinds, percussion, organ, piano or voice)****(Total hours in major: 47-50)****19-22 crs.**

	One upper level course in specialized pedagogy (MUS 304, 306, 308, 318, 329, 335)	(3)
	One course in vocal diction (vocal majors only) (MUS 328)	(3)
	Applied lessons on primary instrument (2 cr. per semester)	(16)
MUL 298	PIANO PROFICIENCY GATE (vocal and keyboard majors only)	(0)
MUL 398	JUNIOR RECITAL	(0)
MUL 498	SENIOR RECITAL	(0)

All performance majors are required to perform a junior and senior recital. All vocal and keyboard performance majors are also required to pass a piano proficiency exam and must take applied piano lessons every semester until the piano proficiency exam is passed.

Requirements for the Traditional Music Minor**20 crs.**

MUS 100	PERFORMANCE LAB (each semester of required applied lessons)	(0)
MUS 255	MUSIC THEORY I	(3)
MUS 255L	THEORY LAB I	(1)
MUS 256	MUSIC THEORY II	(3)
MUS 256L	THEORY LAB II	(1)
	2 consecutive semesters of Music History (MUS 364-365-366)	(8)
	4 consecutive semesters of applied lessons in voice or one instrument	(4)

Requirements for the Music Minor designed specifically for Elementary Education Majors**21 crs.**

MUS 100	PERFORMANCE LAB (each semester of required applied lessons)	(0)
MUS 110	FUNDAMENTALS OF MUSIC	(3)
MUS 165	MUSIC APPRECIATION	(3)
MUS 265	MUSIC AND WORLD CULTURES	(3)
MUS 322	INTRODUCTION TO CONDUCTING	(2)
MUS 353	MUSIC AND THE CHILD	(4)
MUS 357	DEVELOPING THE VOICE	(2)
	4 consecutive semesters of applied lessons in voice or one instrument. (One semester must be at the 300 level)	(4)

All music minors are required to participate in a performing ensemble for at least four semesters and to attend concerts and recitals as determined by the Music Faculty. Those completing the minor designed for the Elementary Education Majors must participate in a choral ensemble at least two semesters, preferably before or while taking MUS 353 or MUS 357. Minors must take a minimum of 8 music credits at the 300-400 level at McKendree University.

Music Education (MUED)

Phillip Wilhelm, Ph.D., Assistant Professor of Music Education

pewilhelm@mckendree.edu; (618) 537-6428, Hettenhausen Center for the Arts 1090

**Nancy S. Ypma, D. Mus., Professor of Music, University Organist, Chair,
Division of Visual and Performing Arts;**

nypma@mckendree.edu; (618) 537-6922; Hettenhausen Center for the Arts 1112

David G. Boggs, M.Mus., (staff), Director of Bands;

dgboggs@mckendree.edu; (618) 537-6492, Hettenhausen Center for the Arts 1092

The bachelor's degree in Music Education reaches beyond the core skills and understandings of the music major to address the full scope of competencies required by the Illinois Content Area Standards in Music. Students who successfully complete the music education curriculum will be eligible to receive the Initial Special K-12 Certificate in Music, qualifying them to teach both instrumental and vocal music in elementary and secondary schools. Please refer to the School of Education section of this catalog for the Teacher Education Conceptual Framework and the specific requirements for admission to the Teacher Education Program. The Bachelor of Music Education degree course of study is a five-year program.

The following section lists specific course requirements for the Special K-12 Certificate in Music. A cumulative grade point average of 2.75 must be maintained in all coursework attempted. All courses for the major must be completed with a grade of C- or higher.

All Music Education majors are expected to participate in at least one major performing ensemble each semester and to attend performance classes, concerts and recitals as determined by the Music Faculty. Students are expected to participate in ensembles in which they will perform on their primary instrument.

A. GENERAL EDUCATION	43-48 crs.
1. Basic Skills	9-11 crs.
ENGLISH (ENG 111 & 112)	(6-8)
SPEECH (SPC 220)	(3)
2. Mathematics and Science	10 crs.
MATHEMATICS (MTH 142 recommended)	(3)
SCIENCE (1 laboratory science)	(4)
COMPUTER SCIENCE (MUED 200)	(3)
3. Humanities	12-13 crs.
LITERATURE	(3)
ETHICS	(3)
PHILOSOPHY or Religion	(3-4)
U. S. History	(3)

4. Social Sciences **9-10 crs.**

AMERICAN POLITICS (PSI 101)	(3)
PSYCHOLOGY (PSY 153)	(3-4)
CROSS CULTURAL STUDIES (MUS 265)	(3)

5. Health and Physical Development **3-4 crs.**

HEALTH (HPE 158)	(2-3)
RECREATIONAL ACTIVITIES (2 different activities)	(1)

B. COMPLETION OF MAJOR REQUIREMENTS **68 crs.**

MUS 100	PERFORMANCE LAB (every semester of enrollment)	(0)
MUS 255	MUSIC THEORY I	(3)
MUS 255L	AURAL SKILLS LAB I	(1)
MUS 256	MUSIC THEORY II	(3)
MUS 256L	AURAL SKILLS LAB II	(1)
MUS 322	INTRODUCTION TO CONDUCTING	(2)
MUS 355	MUSIC THEORY III	(3)
MUS 355L	AURAL SKILLS LAB III	(1)
MUS 356	MUSIC THEORY IV	(3)
MUS 356L	AURAL SKILLS LAB IV	(1)

Organizational Communication

Betsy Gordon, Ph.D., Professor of Speech Communication;
begordon@mckendree.edu; (618) 537-6889, Carnegie Hall 114

James Petre, Ph.D., Assistant Professor of Speech Communication;
jtpetre@mckendree.edu; (618) 537-6895, Piper Academic Center 109

One of the most widely sought skills in organizations today is the ability to communicate effectively. Meeting the communication challenges of organizations requires an understanding of an expanded body of knowledge related to individual behaviors, group behaviors and the organizational context within which these behaviors occur. Research reveals mastery of communication skills contributes to successful job performance. Students will develop a theoretical base on which to build problem-solving, organizational strategies, listening, rhetorical sensitivity, confidence, and presentational skills.

The major blends the traditional disciplines of business and speech communication to meet contemporary organizational communication needs. In its exploration of the interrelationship between organizations and communication, organizational communication represents one of the most rapidly expanding fields of study going into the twenty-first century. Experience in the classroom is broadened by an internship program that is designed to give "on-the-job" training.

The major consists of a core of five speech communication courses, one technical writing course, a sequence of three courses which emphasize marketing, management, or professional communication or human resources and three elective courses. A minimum of 45 credits is needed to complete the major, with at least 24 credits earned at McKendree University. Students must complete the major with a minimum of a 2.25 cumulative grade point average.

The minor consists of any six core courses and two elective courses. Students must complete the minor with a minimum of a 2.25 cumulative grade point average.

All organizational communication majors must complete a minimum of six semester hours of a single foreign language (calculated at two semesters of high school language equal to one semester of college language).

CORE COURSES:**27 crs.**

SPC 100	FUNDAMENTALS OF SPEECH COMMUNICATION	(3)
SPC 252	INTERPERSONAL COMMUNICATION	(3)
SPC 310	BUSINESS AND PROFESSIONAL PRESENTATIONS	(3)
SPC 351	ORGANIZATIONAL COMMUNICATION	(3)
MGT 204	PRINCIPLES OF MANAGEMENT	(3)
MGT 314	ORGANIZATIONAL BEHAVIOR	(3)
MKT 205	PRINCIPLES OF MARKETING	(3)
ENG 360	TECHNICAL WRITING	(3)
SPC 490	SEMINAR IN SPEECH COMMUNICATION	(3)

Select one of the following sequences: 9 designated + 9 elective hrs.

A. MARKETING AND SALES COMMUNICATION

MKT 305	CONSUMER BEHAVIOR	(3)
MKT 320	PERSONAL SELLING	(3)
<i>or</i>		
MKT 330	PRINCIPLES OF RETAILING	(3)
MKT 354	ADVERTISING AND PROMOTION	(3)
Electives must include at least two speech communication courses (9)		

B. MANAGEMENT COMMUNICATION

MGT 334	HUMAN RESOURCES MANAGEMENT	(3)
MGT 340	INTERNATIONAL BUSINESS	(3)
MGT 354	MANAGEMENT COMMUNICATIONS	(3)
	Electives must include at least two speech communication courses	(9)

C. PROFESSIONAL COMMUNICATION

SPC 200	SMALL GROUP COMMUNICATION	(3)
SPC 370	TRAINING AND DEVELOPMENT	(3)
SPC 391	PERSUASION	(3)
	Electives must include at least two MKT/MGT courses	(9)

D. HUMAN RESOURCES COMMUNICATION

MGT 334	HUMAN RESOURCES MANAGEMENT	(3)
MGT 354	MANAGEMENT COMMUNICATIONS	(3)
SPC 370	TRAINING AND DEVELOPMENT	(3)

Electives: Take three of the four classes listed below

SPC 200	SMALL GROUP COMMUNICATION	(3)
PSY 405	INDUSTRIAL PSYCHOLOGY	(3)
ECO 352	LABOR ECONOMICS	(3)
MGT 376	PRODUCTION/OPERATIONS MANAGEMENT	(3)

Elective options

The student may select any of the above courses not previously chosen and/or any of the following courses:

SPC 220	PUBLIC SPEAKING	(3)
SPC		
380-390	TOPICS IN SPEECH COMMUNICATION	(3)
SPC 470	INTERNSHIP IN SPEECH COMMUNICATION	(3)
MKT 310	MARKETING RESEARCH	(3)
MGT 376	PRODUCTION/OPERATIONS MANAGEMENT	(3)
MGT 424	BUS. ETHICS/SOCIAL RESPONSIBILITY	(3)

Other courses may be substituted upon consultation with the adviser.

Philosophy (PHI)

Kevin Zanelotti, Ph.D., Associate Professor of Philosophy;
kzanelotti@mckendree.edu; (618) 537-6896; Carnegie Hall 105

Philosophy, the oldest and most basic of the liberal arts disciplines, continues to provide the broad intellectual foundation essential to assuming leadership roles within a quickly changing society. Additionally, a major or minor in philosophy serves to balance the increasingly narrow specialization typical of many of today's majors in professional areas. The abilities to analyze and synthesize ideas are developed;

one's critical thinking skills are sharpened; and moral and aesthetic sensitivities are given greater depth. A major in philosophy serves as a most appropriate pathway to law school, divinity school and various graduate programs in management and administration, as well as the graduate study of philosophy itself. A major or minor in philosophy, in tandem with a major in a narrower professional field, will serve the student well as career advancement comes to require flexibility of mind, and insight into the essentials of a situation, as well as technical skills.

Among specific objectives, the study of philosophy is intended to develop in the student familiarity with a basic philosophical vocabulary through which discussion of central questions has occurred, as well as an ability to recognize relationships between past philosophies and basic presuppositions of Western culture today, and an ability to analyze and discuss primary source material. Philosophy also seeks to develop the sensitivity to recognize philosophical issues and to critically assess the response of various individuals or schools to those issues, while developing empathic skills in entering the "mind set" of given thinkers after examining historical and intellectual settings. Majors will emerge with the tools and experience in diagnosing their own intellectual presuppositions and those of their culture, thus moving them to develop and express their own careful thinking about central philosophical questions.

To major in philosophy, the student must complete 32 credit hours in philosophy. (Only one course from PHI 206 and 332 and one from PHI 390 and 391 will count toward the major.) In addition, the student must complete a minimum of six semester hours of a single foreign language or equivalent (calculated at two semesters of high school language equal to one semester of college language).

To minor in philosophy, the student must complete 16 credit hours in philosophy to include PHI 201. All courses for the major and minor must be completed with a grade of C- or higher.

It is suggested that the student consider a major or minor in a second field. The following courses, many of which also fulfill core curriculum requirements, are suggested but not required for the major in philosophy: ART 111 and/or 112; ECO 211 and/or 212; ENG 212; HIS 161, 162; PSI 202; PSY 153, 401; REL 320; SOC 149, 150, 407; SPC 210.

PHILOSOPHY MAJOR REQUIREMENTS **32 crs.**

PHI 201	INTRODUCTION TO PHILOSOPHY	(4)
PHI 204	LOGIC	(4)
PHI 363	HISTORY OF PHILOSOPHY: ANCIENT AND MEDIEVAL	(4)
PHI 364	HISTORY OF PHILOSOPHY: RENAISSANCE AND MODERN	(4)

And at least 16 credits from among the following:

PHI 206	INTRODUCTION TO ETHICS	(3)
PHI 325	PHILOSOPHY OF RELIGION	(3)
PHI 331	SOCIAL AND POLITICAL PHILOSOPHY	(3)
PHI 332	ETHICAL THEORY	(3)
PHI 333	METAPHYSICS AND HUMAN NATURE	(3)
PHI 334	PHILOSOPHY OF ART	(3)
PHI 336	EXISTENTIALISM	(3)
PHI 345	PHILOSOPHY OF SCIENCE	(3)
PHI 390	ETHICS AND PUBLIC POLICY	(3)

PHI 391	BIOMEDICAL ETHICS	(3)
PHI 480	INDEPENDENT STUDY IN PHILOSOPHY	(1-4)
PHI 490	SEMINAR IN PHILOSOPHY	(1-4)
	Any PHI topics course	(1-4)

PHILOSOPHY MINOR REQUIREMENTS	16 crs.
--------------------------------------	----------------

PHI 201	INTRODUCTION TO PHILOSOPHY	(4)
	12 credits of electives in Philosophy (Only one course from PHI 390 and 391, and one course from PHI 206 and 332, will count toward the minor.)	(12)

Physics (PHY)

Adam G. Tournier Ph.D., Assistant Professor of Physics

agtournier@mckendree.edu; (618) 537-2140; Voigt Science Hall 221

Within the Division of Science and Mathematics, we seek to provide a broad-based education that prepares graduates to be scientifically and mathematically literate, socially responsible, and professionally successful.

Within the program in physics, we have established the following goals for our graduates:

- **Content:** Graduates should have a broad-based understanding of core physical science concepts as well as an understanding of concepts and techniques specific to their specialization.
- **Practice:** Graduates should be able to formulate and solve problems relevant to their area of specialization.
- **Communication:** Graduates should be able to access existing physical science knowledge and effectively communicate their own work to a broader community.
- **Professional Awareness:** Graduates should develop personal and professional goals, the tools to achieve these goals, and an understanding of professional responsibilities.

The foundations of physics can be traced back to the ancient Greeks (600–200 BC), who sought order within the physical events that were understood as either chaotic or mystical. The idea of atoms as the fundamental particles of matter had a major influence over much of the scientific investigation that occurred over the course of the next few millennia.

The laws of physics apply from the subatomic through the cosmic levels, an idea whose development can be traced through the history of the science. The contributions of Democritus, Galileo, Kepler, Newton, Faraday, Maxwell, Planck, Curie, Hubble, Einstein, Heisenberg, Schrödinger, Feynman, Bardeen, Brattain, and Shockley provide insights to pivotal moments in our field. The physics of today is based upon the achievements of the past. Students should appreciate the significance of these accomplishments and teachers should foster this appreciation.

The Engineering Physics minor was designed to prepare students for study in mechanical, civil, or electrical engineering. The curriculum develops a strong foundation of mathematical analysis, scientific inquiry, and engineering design, to pose questions, seek answers, and develop solutions to complex problems.

To obtain a minor in engineering physics, the student must complete the following courses.

ENGINEERING PHYSICS MINOR REQUIREMENTS		22 crs.
PHY 221	UNIVERSITY PHYSICS I: MECHANICS	(4)
PHY 222	UNIVERSITY PHYSICS II: ELECTRICITY AND MAGNETISM	(4)
PHY 223	UNIVERSITY PHYSICS III: THERMAL AND QUANTUM PHYSICS	(4)
PHY 251	ENGINEERING MECHANICS I: STATICS	(3)
PHY 252	ENGINEERING MECHANICS II: DYNAMICS	(3)
PHY 253	ELECTRONIC CIRCUITS	(4)

Political Science / International Relations (PSI)

Brian Frederking, Ph.D., Professor of Political Science;
Chair, Division of Social Sciences;

bfrederk@mckendree.edu; (618) 537-6913; Piper Academic Center 204

Joseph Blasdel, M.A., Instructor of Political Science;
Director of the Forensics Program;

jblasdel@mckendree.edu; (618) 537-6815; Clark Hall 301

Ann V. Collins, Ph.D., Assistant Professor of Political Science;
avcollins@mckendree.edu; (618) 537-6897; PAC 203

The Political Science Department offers a major in political science and international relations. The department teaches courses that present competing perspectives on politics. Given the pervasive influence of politics on the daily lives of all citizens, it is indispensable for well-educated persons to gain an understanding of politics to enable them to critically analyze the world around them and to more effectively exercise their civic responsibilities.

Both the political science and international relations majors include introductory courses in each of the subfields of political science. Upper level courses build on the theory and framework provided by the 100 and 200-level courses. Both majors culminate with a capstone experience which provides students with the opportunity to do extensive research and present their findings in a seminar setting.

Degrees in political science and international relations are a strong foundation for careers in a number of areas, including local, state or national government, law, transnational governmental or non-governmental organizations, labor and industrial relations, city management and urban planning, political consulting and campaign management, interest groups and social interest lobbying, and journalism.

The majors in political science and international relations require a minimum of 36 credit hours. At least 18 credit hours must be at the 300 level or higher. At least 18 credit hours must be taken at McKendree University.

The minor in political science requires a minimum of 21 credit hours and at least 12 credit hours must be at the 300 level or higher. At least 12 credit hours must be taken at McKendree University.

All courses for the major and minor must be completed with a grade of C- or higher.

POLITICAL SCIENCE MAJOR REQUIREMENTS **42 crs.**

PSI 101	AMERICAN POLITICS	(3)
PSI 496	RESEARCH METHODS	(3)
PSI 498	SENIOR SURVEY IN POLITICAL SCIENCE	(3)
	FOREIGN LANGUAGE	(6)

At least 6 credits from the following:

PSI 210	INTRODUCTION TO WORLD POLITICS	(3)
PSI 220	INTRODUCTION TO COMPARATIVE POLITICS	(3)
PSI 230	INTRODUCTION TO POLITICAL THEORY	(3)

At least 15 credits from among the following:

PSI 102	STATE AND LOCAL GOVERNMENT	(3)
PSI 300	CONGRESS	(3)
PSI 301	PRESIDENCY	(3)
PSI 305	CONSTITUTIONAL LAW	(3)
PSI 307	CAMPAIGNS AND ELECTIONS	(3)
PSI 309	PUBLIC POLICY	(3)

At least 6 credits from among the following:

PSI 311	INTERNATIONAL ORGANIZATIONS	(3)
PSI 312	INTERNATIONAL LAW	(3)
PSI 313	INTERNATIONAL POLITICAL ECONOMY	(3)
PSI 314	UNITED STATES FOREIGN POLICY	(3)
PSI 315	GENDER AND INTERNATIONAL RELATIONS	(3)

INTERNATIONAL RELATIONS MAJOR REQUIREMENTS **42 crs.**

PSI 210	INTRODUCTION TO WORLD POLITICS	(3)
PSI 496	RESEARCH METHODS	(3)
PSI 498	SENIOR SURVEY IN POLITICAL SCIENCE	(3)
	FOREIGN LANGUAGE	(6)

At least 6 credits from the following:

PSI 101	AMERICAN POLITICS	(3)
PSI 220	INTRODUCTION TO COMPARATIVE POLITICS	(3)
PSI 230	INTRODUCTION TO POLITICAL THEORY	(3)

At least 15 credits from among the following:

PSI 311	INTERNATIONAL ORGANIZATIONS	(3)
PSI 312	INTERNATIONAL LAW	(3)
PSI 313	INTERNATIONAL POLITICAL ECONOMY	(3)
PSI 314	UNITED STATES FOREIGN POLICY	(3)
PSI 315	GENDER AND INTERNATIONAL RELATIONS	(3)

At least 6 credits from among the following:

PSI 300	CONGRESS	(3)
PSI 301	PRESIDENCY	(3)
PSI 305	CONSTITUTIONAL LAW	(3)
PSI 309	PUBLIC POLICY	(3)

POLITICAL SCIENCE MINOR REQUIREMENTS **21 crs.**

PSI 101	AMERICAN POLITICS	(3)
---------	-------------------	-----

At least 6 credits from the following:

PSI 210	INTRODUCTION TO WORLD POLITICS	(3)
PSI 220	INTRODUCTION TO COMPARATIVE POLITICS	(3)
PSI 230	INTRODUCTION TO POLITICAL THEORY	(3)

At least 12 credits from among the following:

PSI 102	STATE AND LOCAL GOVERNMENT	(3)
PSI 300	CONGRESS	(3)
PSI 301	PRESIDENCY	(3)
PSI 305	CONSTITUTIONAL LAW	(3)
PSI 307	CAMPAIGNS AND ELECTIONS	(3)
PSI 309	PUBLIC POLICY	(3)

Pre-Professional Studies

Robb D. Van Putte, Ph.D., Associate Professor of Biology;

rdvanput@mckendree.edu; (618) 537-6930; Voigt Science Hall 223A

Feza A. Ozturk, Ph.D., Professor of Chemistry;

fozturk@mckendree.edu; (618-537-6935); Voigt Science Hall 218

McKendree University offers pre-professional tracks in biology and chemistry for students wishing to pursue a post-baccalaureate degree in areas such as medicine, optometry, dentistry, pharmacy, physical therapy, physician's assistant, podiatry, chiropractic, and veterinary medicine.

See the Biology or Chemistry Pre-Professional tracks for course requirements.

Note: students not planning on majoring in biology or chemistry, but still wish to apply to a professional program after graduation, should consult one of the above named faculty members for advice on which courses should be taken in preparation for application to their program of choice.

In addition, specific requirements of the desired graduate program should be considered when selecting courses.

Psychology (PSY)

Guy Boysen, Ph.D., Associate Professor of Psychology;
gaboysen@mckendree.edu; (618) 537-6882; Carnegie Hall 201

Tami Eggleston, Ph.D., Professor of Psychology;
tegglest@mckendree.edu; (618) 537-6859; Carnegie Hall 202

Linda Hoffman, Ph.D., Associate Professor of Psychology;
lehoffman@mckendree.edu; (618) 537-6886; Carnegie Hall 204

J. L. Kemp, Psy. D., Associate Professor of Psychology;
jl Kemp@mckendree.edu; (618) 537-6580; Carnegie Hall 203

Psychology is the scientific study of behavior and mental processes. It develops theories and discovers laws to understand, explain, predict, and change behavior. Students in psychology will develop the ability to express themselves in oral and written form and to think critically about human behavior, including causes, development, and outcomes. Also, students will gain a greater self-awareness, an understanding of others, and some fundamental skills relevant to behavior change. The degree prepares students to enter graduate school in psychology and other relevant areas (for example, Industrial Organization, School/Community, Child, Social, Health Psychology, Counseling, Clinical social work, Occupational Therapy, Sport Psychology, Law, Divinity, and Criminal Justice.) Psychology majors go on to a variety of careers, including mental health clinics, crisis centers, substance abuse programs, social work agencies, eldercare facilities, human resources and personnel departments, criminal justice facilities, and the educational system.

The psychology major offers three tracks:

- 1. General** – A broad overview of psychology oriented toward students who plan to attend graduate school or who have general career plans in the field.
- 2. Gerontology** – An emphasis on work with the elderly, a rapidly growing field in our society.
- 3. Social Work** – An overview of the field of social work with an emphasis on social service agencies and clinical social work.

To major in psychology, the student must complete PSY 153, 315, 498, 450, and 496W and an additional 16 credit hours in psychology for a total of 35 hours in psychology. Eighteen of the 35 credit hours required for the major must be upper division hours. No more than 4 credit hours of internship credit may be accepted toward a psychology major, including the psychology major with an emphasis in gerontological psychology or social work.

The psychology program also offers a minor which emphasizes current theoretical perspectives on the development of personality and personal growth. To minor in psychology, the student must complete 20 credit hours in psychology and at least 9 of the 20 credits taken to meet minor requirements must be upper division credits. No more than four credit hours from EDU/PSY 350, EDU/PSY 355 and EDU/PSY 404 may be counted toward a psychology major or minor, including the psychology major with an emphasis in gerontology or social work.

All courses for the major and minor must be completed with a grade of C- or higher.

PSY 153 is a PREREQUISITE TO ALL PSYCHOLOGY COURSES.

PSYCHOLOGY MAJOR REQUIREMENTS: General Track **35 crs.**

PSY 153	INTRODUCTION TO PSYCHOLOGY	(4)
PSY 315	ABNORMAL PSYCHOLOGY	(4)
PSY 450	CLINICAL AND COUNSELING PSYCHOLOGY	(4)
PSY 494	STATISTICS AND STATISTICAL SOFTWARE FOR THE BEHAVIORAL SCIENCES	(4)

Religious Studies (REL)

Duane L. Olson, Ph.D., Professor of Religious Studies;

dolson@mckendree.edu; (618) 537-6961; Carnegie Hall 216

The discipline of Religious Studies analyzes the human relationship to what is conceived as ultimate reality or the highest reality. It studies the beliefs, practices, and behaviors that are expressions of this relationship, examining them in their individual and corporate, historical and contemporary forms.

Human history displays established patterns of the relationship to ultimate reality in the world's major religious traditions. Religious studies courses at McKendree explore the world's religions in all their diversity, while also focusing in a special way on the Christian tradition.

The Religious Studies Major introduces students to the major world religions, while also focusing on Christianity, its sacred texts, and Christian theology. Within this framework, students have significant freedom to shape their program of study in the direction of their interest. Students can choose a more general analysis of the world religions or they can make a more intensive study of Christianity with their electives.

The Religious Studies Major helps prepare students for seminary studies and/or a career in Christian ministry. It also helps prepare students for academic graduate work in religious studies. The Major stresses the development of skills in critical thinking, and oral and written communication. It involves significant use and analysis of diverse methodological perspectives to understand the phenomenon of religion, and to interpret religious texts. Students can use this degree in any career that values critical thinking and sensitivity to human motivation, and involves encounter with diverse communities of belief in our increasingly global society.

The Religious Studies Major requires 33-34 hours for completion. Religious Studies majors must also fulfill the general Humanities requirement of six credit hours in a single foreign language. Students who took a foreign language in high school and earned a C or higher in the highest course taken may be exempted from this requirement at the rate of three credit hours for every two semesters of high school work. Students pursuing seminary studies or Christian ministry often elect to take New Testament Greek (GRK 370 and 371) to satisfy their language requirement.

To receive a minor in Religious Studies, a student must complete 18 credit hours of course work in the department and maintain a GPA of 2.0 or higher.

All courses for the major and minor must be completed with a grade of C- or higher.

RELIGIOUS STUDIES MAJOR REQUIREMENTS		33-34 crs.
REL 210	LIVING RELIGIONS OF THE EAST	(3)
REL 211	LIVING RELIGIONS OF THE WEST	(3)

Science Education

Feza Ozturk, Ph.D., Professor of Chemistry;

fozturk@mckendree.edu; (618) 537-6935; Voigt Science Hall 228

Myron C. Reese, Ph.D., Professor of Chemistry;

mreese@mckendree.edu; (618) 537-6814; Voigt Science Hall 207

Michele Schutzenhofer, Ph.D., Assistant Professor of Biology;

mrschutzenhofer@mckendree.edu; 618-537-6934, Voigt Science Hall 217

Robb D. Van Putte, Ph.D., Associate Professor of Biology;

rdvanput@mckendree.edu; (618) 537-6930; Voigt Science Hall 223A

This major prepares teachers for certificates to teach all introductory or first level science courses in the secondary schools of Illinois. Students completing the major with an emphasis in biology may teach advanced placement biology as well.

Science Education Major Requirements

To major in Science Education, the student must complete the science education core as listed below and the courses required for specialization in biology or chemistry. This major prepares teachers for certification to teach all introductory or first level science courses in the secondary schools of Illinois. Students completing

the major with an emphasis in biology may also teach advanced placement courses in biology. Students completing the major with an emphasis in chemistry may also teach advanced placement courses in chemistry. All courses for the major must be completed with a grade of C or higher.

The student must complete the major with a minimum of a 2.75 grade point average.

SCIENCE EDUCATION CORE REQUIREMENTS **32 crs.**

BIO 110	PRINCIPLES OF CELLULAR AND MOLECULAR BIOLOGY	(4)
BIO 111	PRINCIPLES OF ORGANISMAL AND POPULATION BIOLOGY	(4)
CHE 105	COLLEGE CHEMISTRY I	(5)
CHE 106	COLLEGE CHEMISTRY II	(5)
PHY 211	GENERAL PHYSICS I	(4)
PHY 212	GENERAL PHYSICS II	(4)
SCE 205	EARTH AND ASTRONOMICAL SCIENCE	(3)
SCE 210	CONCEPTS IN SCIENCE	(3)

SCIENCE EDUCATION MAJOR REQUIREMENTS: Biology Emphasis **30 crs.**

The core requirements plus the following:

BIO 211	GENETICS	(4)
BIO 303	GENERAL ECOLOGY	(4)
BIO 313	CELLULAR BIOLOGY	(4)
BIO 220	EVOLUTION	(3)
CHE 150	PRINCIPLES OF ORGANIC CHEMISTRY	(4)
MTH 310	STATISTICS	(4)

Biology Electives **6 crs.**

SCIENCE EDUCATION MAJOR REQUIREMENTS: Chemistry Emphasis **33-34 crs.**

The core requirements plus the following:

CHE 205	ORGANIC CHEMISTRY I	(5)
CHE 206	ORGANIC CHEMISTRY II	(5)
CHE 300	ANALYTICAL CHEMISTRY/CHEMICAL ANALYSIS	(5)
CHE 303	PRINCIPLES OF PHYSICAL CHEMISTRY	(4)
CHE 305	BIOCHEMISTRY I	(3)
BIO 250	INTRODUCTION TO ENVIRONMENTAL SCIENCE	(3)
<i>or</i>		
BIO 303	GENERAL ECOLOGY	(4)
MTH 210	CALCULUS I	(4)
MTH 211	CALCULUS II	(4)

Social Science

**Brian Frederking, Ph.D., Professor of Political Science;
Chair, Division of Social Sciences;**

bfrederk@mckendree.edu; (618) 537-6913, Piper Academic Center 204

The Social Science Divisional Major may be selected as a general social science option or secondary and middle school teaching certification option. Specific tracks exist for secondary education students who want a designation in a particular discipline. The general option may be selected by students who may later wish to pursue advanced degrees in areas such as social work, work with federal and state agencies, the law or divinity school. All courses for the major must be completed with a grade of C- or higher. Normally this major will require ten semesters to complete.

SOCIAL SCIENCE MAJOR REQUIREMENTS **56-65 crs.**

Common Core **50 crs.**

ANT 149	CULTURAL ANTHROPOLOGY*	(3)
ECO 212	MACROECONOMICS	(3)
HIS 161	WORLD CIVILIZATION TO 1450	(3)

PSY 401	SOCIAL PSYCHOLOGY	(4)

* Also fulfills general education requirements

Sociology (SOC)

Melissa Barfield, Ph.D., Associate Professor of Sociology;

mabarfield@mckendree.edu; (618) 537-6899; Carnegie Hall 111A

Stephen Hagan, Ph.D., Assistant Professor of Sociology;

sphagan@mckendree.edu; (618) 537-6904

Lyn Huxford, Ph.D., Professor of Sociology;

lhuxford@mckendree.edu; (618) 537-6901; Carnegie Hall 110

Neil Quisenberry, Ph.D., Associate Professor of Sociology;

nquisenberry@mckendree.edu; (618) 537-6849; Carnegie Hall 111b

Students majoring in sociology develop a greater appreciation for how society influences individual behavior and an understanding of how societies are structured. Majors develop the skills to think more critically about their own lives and the many social issues confronting us in society today. A sociology major prepares students for graduate school in sociology, social work, and criminal justice in addition to law school and divinity school. Our graduates pursue many different career opportunities including social services, criminal justice, community organizing, health care administration, and urban planning, among others.

The sociology program offers a Bachelor of Arts degree in Sociology, within a liberal arts context, by providing three tracks that a student may follow:

- 1. General Program:** This is geared to students who have more general career plans and for those who plan to attend graduate school in sociology. It is also intended for those who wish to develop a general understanding of society.
- 2. Criminal Justice Emphasis:** This is for students who wish to pursue careers in the criminal justice field such as law enforcement, corrections, and court services. This program is designed to provide students with a broad knowledge of the workings of the agencies that make up the criminal justice system.
- 3. Social Work Emphasis:** This is for students who wish to pursue careers in the general area of social work. This program will provide students with a broad overview of the history, agencies, and philosophy of social work.

All courses for the major and minor must be completed with a grade of C- or higher. No more than four credits of cross listed courses may count toward a major or minor in sociology. In addition to any prerequisites listed, SOC 150 is a prerequisite for all 300 or 400 level sociology courses.

SOCIOLOGY MAJOR REQUIREMENTS: General Track **38 crs.**

ANT 149	INTRODUCTION TO CULTURAL ANTHROPOLOGY	(3)
SOC 150	PRINCIPLES OF SOCIOLOGY	(3)
SOC 270	SOCIAL PROBLEMS	(3)
SOC 395	CLASSICAL SOCIAL THEORY (W)	(3)
SOC 410	CONTEMPORARY SOCIAL THEORY	(3)
SOC 496	METHODS OF/SOCIAL RESEARCH (W)	(4)
SOC 498	SOCIOLOGICAL ANALYSIS	(4)
MTH 310	STATISTICS	(4)
	Additional Sociology electives (for general track only)	(15)

SOCIOLOGY MAJOR REQUIREMENTS: Criminal Justice Emphasis **38 crs.**

Requirements for the general track plus:

SOC 170	INTRODUCTION TO CRIMINAL JUSTICE	(3)
SOC 220	JUVENILE DELINQUENCY	(3)
SOC 350	SOCIOLOGY OF GENDER	(3)
	<i>or</i>	
SOC 360	RACE AND ETHNIC RELATIONS	(3)
SOC 371	SOCIOLOGY OF DEVIANCE	(3)
SOC 440	POLICE AND URBAN SOCIETY	(3)
	<i>or</i>	
SOC 445	CORRECTIONAL INSTITUTIONS	(3)
MTH 310	STATISTICS	(4)

SOCIOLOGY MAJOR REQUIREMENTS: Social Work Emphasis **38 crs.**

Requirements for general track plus:

SOC 190	INTRODUCTION TO SOCIAL WORK	(3)
SOC 279	COMMUNITY ACTION/ORGANIZATION	(3)
SOC 350	SOCIOLOGY OF GENDER	(3)
	<i>or</i>

Spanish (SP)

Aurélie C. Capron, Ph.D., Assistant Professor of Spanish;

accapron@mckendree.edu; (618) 537-6914; Carnegie Hall 305

In order to prepare students for a world that is becoming more economically interdependent and culturally diverse, the study of foreign languages allows students to communicate with persons from other cultures in professional and personal settings. Students gain an understanding and appreciation of cultures other than their own. Foreign language courses emphasize learning grammar and vocabulary, improving conversation skills, and improving students' ability to read and write another language. It has been proven that students studying a foreign language are better test takers and gain a better overall language awareness and an understanding of English grammar.

All incoming students with prior Spanish learning experience need to take a placement exam prior to registering for any course (contact the Foreign Language Department).

Up to 3 credit hours of CLEP or Advanced Placement Examination credit will be accepted toward the 18-hour minor requirement or the 30-hour major requirement. Credits for SPA 101 and SPA 102 do not count towards the minor or the major. Students can CLEP out of 101 and 102, but only CLEP credits for SPAN 220 would count towards the minor and the major. For information regarding transfer of credits see *Transfer of Credit* in this catalog.

For a language teaching endorsement to teach middle school, students need to take two courses from the School of Education: EDU 403 and EDU 404 and 18 hours of the language. The School of Education does not accept credits from CLEP. The School of Education does not offer a teaching endorsement for Secondary Education in Spanish.

In order to major in Spanish, students must complete a minimum of 30 credit hours (10 courses) at the 200-level and above. Prior to taking those 30 credits, all students need to have either taken or tested out of SPA 101 and SPA 102. In order minor in Spanish, students need to obtain 18 credit hours (6 courses) at the 200-level and above. Prior to taking those 18 credits, all students need to have either taken or tested out of SPA 101 and SPA 102.

SPANISH MAJOR REQUIREMENTS		30 crs.
SPA 220	SPANISH LANGUAGE AND CULTURE III	(3)
SPA 300	SPANISH/LATIN AMERICAN CULTURE AND BEGINNING CONVERSATION	(3)
SPA 301	ADVANCED GRAMMAR AND COMPOSITION	(3)
SPA 302	ADVANCED CONVERSATION	(3)

Six of the following Spanish courses

SPA 303	ADVANCED GRAMMAR AND COMPOSITION II	(3)
SPA 310	SPANISH/LATIN AMERICAN HISTORY AND CIVILIZATION	(3)
SPA 311	SPANISH/LATIN AMERICAN FILMS	(3)
SPA 312	LATIN AMERICANS IN THE U.S.	(3)

Speech Communication (SPC)

Betsy Gordon, Ph.D., Professor of Speech Communication;

begordon@mckendree.edu; (618) 537-6889; Carnegie Hall 114

James Petre, Ph.D., Assistant Professor of Speech Communication;

Jmpetre@mckendree.edu; (618) 537-6895, Piper Academic Center 109

Speech communication is the field of study for those who enjoy the challenge of communicating effectively with people. More than ever, the skills associated with speech communication are being emphasized in fields such as business, law, education, training and development, social services and religion. Students explore a wide range of communication topics and theories considered essential for competing successfully in today's world. Students will develop a theoretical base on which to build problem-solving, organizational strategies, listening, rhetorical sensitivity, confidence, and presentational skills.

Experience in the classroom is broadened by an internship program which is designed to give "on-the-job" training. The liberal arts, career-oriented curriculum at McKendree University further enriches the program.

To major in speech communication, a student must complete a minimum of 30 hours in speech communication courses and six semester hours of a single foreign language or equivalent (calculated at two semesters of high school language equal to one semester of college language). At least 12 hours in speech communication must be completed at the 300-400 level.

Students must complete the major with a minimum of a 2.25 cumulative grade point average. A student with a public relations emphasis must complete all required courses in that area with a minimum of a 2.25 cumulative grade point average. Speech Communication majors will take either SPC 100, Fundamentals of Speech

Communication, or SPC 220, Public Speaking, as one of the required core courses in the major.

To minor in speech communication, students must complete a minimum of 18 credit hours in speech communication courses including SPC 100. At least 6 credits must be at the 300 level or above. Students must complete the minor with a minimum of a 2.25 cumulative grade point average.

SPEECH COMMUNICATION MAJOR REQUIREMENTS: General Pattern **30 crs.**

SPC 100	FUNDAMENTALS OF SPEECH COMMUNICATION	(3)
<i>or</i>		
SPC 220	PUBLIC SPEAKING	(3)
SPC 200	SMALL GROUP COMMUNICATION	(3)
SPC 252	INTERPERSONAL COMMUNICATION	(3)
SPC 391	PERSUASION	(3)
SPC 490	SEMINAR IN SPEECH COMMUNICATION	(3)
	Additional Speech electives	(15)

**SPEECH COMMUNICATION MAJOR REQUIREMENTS:
Public Relations Emphasis** **42 crs.**

SPC 100	FUNDAMENTALS OF SPEECH COMMUNICATION	(3)
<i>or</i>		
SPC 220	PUBLIC SPEAKING	(3)
SPC 200	SMALL GROUP COMMUNICATION	(3)
SPC 252	INTERPERSONAL COMMUNICATION	(3)

SPC 470	INTERNSHIP IN SPEECH COMMUNICATION	(3)
<i>or</i>		
JRN 470	INTERNSHIP IN JOURNALISM	(3)
	(A 3 credit elective approved by the adviser can be substituted for an internship)	
SPC 490	SEMINAR IN SPEECH COMMUNICATION	(3)

SPEECH COMMUNICATION MINOR REQUIREMENTS **18 crs.**

SPC 100	FUNDAMENTALS OF SPEECH COMMUNICATION	(3)
	Plus 15 additional hours of speech communication courses	

Theater (THE)

Michelle Magnussen, M.F.A., Associate Professor of Theater;

mlmagnussen@mckendree.edu; (618) 537-6586; Eisenmayer Hall 105

The major in theater gives students background in acting, technical work, directing, and dramatic literature. The combination of practical and theoretical preparation forms a basis for graduate or professional work in theater or for high school drama coaching. Students in theater also participate in McKendree University Theater productions on campus, thus learning to apply the skills gained in course-work and gaining valuable experience. A theater major can help prepare the student for a variety of professions in the arts, education, and business.

Students will learn advanced techniques in acting, directing, and stage and lighting design and be able to apply those techniques in production. They will also know the major historical periods and genres of world drama and be able to analyze a script from both the performance and production perspective. Courses in the theater major build skills in movement, voice, interpretation, design, production, analysis, critical thinking, and writing.

To Major in Theater, students must complete a minimum of 44 hours in the major and six hours of a single foreign language or equivalent (calculated at two semesters of high school language equal to one semester of college language), and maintain at least a 2.25 cumulative grade point average.

To minor in theater, students must complete 22 hours and maintain at least a 2.25 cumulative grade point average.

All students pursuing the major or minor must enroll in THE 215 Theater Practicum for each semester of enrollment. The course may be taken for zero or one credit in any given semester; four credits are required for a theater major, two for a minor.

THEATER MAJOR REQUIREMENTS		45-47 crs.
COURSES REQUIRED OF ALL MAJORS		33-35 crs.
THE 100	INTRODUCTION TO THEATER	(3)
THE 111	ACTING I	(3)
THE 215	THEATER PRACTICUM	(4)
THE 219	PLAY PRODUCTION-SET AND LIGHTS	(3)
THE 221	PLAY PRODUCTION-COSTUME AND MAKE-UP	(3)
THE 250	DRAMATIC LITERATURE	(3)
THE 320	DIRECTING	(3)
THE 350	THEATER HISTORY I (W)	(3)
THE 351	THEATER HISTORY II (W)	(3)
THE 390	JUNIOR PROJECT	(2-4)
<i>or</i>		
THE 490	SENIOR PROJECT	(3-4)
ENG 301	SHAKESPEARE'S COMEDIES AND HISTORIES	(3)
<i>or</i>		
ENG 302	SHAKESPEARE'S TRAGEDIES AND ROMANCES	(3)

Electives – minimum of 12 credit hours

THE 212	ACTING II	(3)
THE 280-289	SPECIAL TOPICS	(3)
THE 313	ACTING WORKSHOP	(1)
THE 330	MOVEMENT	(3)
THE 380-389	SPECIAL TOPICS	(3)

SCHOOL OF BUSINESS

MAKE YOUR MARK

The School of Business offers a Bachelor of Business Administration degree in:

- Accounting
- Business Administration
- Economics
- Economics and Finance
- Human Resource Management
- Management
- Marketing
- Sport Management

(Please see the Interdisciplinary Majors & Minors section of the catalog)

Please note that the School of Business also offers a Master of Business Administration (MBA) degree. Please see a graduate catalog or visit the website for more information regarding the MBA.

MCKENDREE
UNIVERSITY

Accounting (ACC)

Sandra S. Lang, Ph.D., C.P.A., C.F.E.,

Associate Professor of Accounting; Chair, School of Business;

sslang@mckendree.edu; (618) 537-6892; Piper Academic Center 102

Jeffry Brasel, Instructor of Accounting and Finance;

jlbrasel@mckendree.edu; (618) 537-6441; Royse 907

Terese Kasson, C.P.A., M.S.B.A., Instructor of Accounting;

mtkasson@mckendree.edu; (618) 537-6893; Piper Academic Center 104

Nancy Starnes, Instructor of Accounting;

nsstarnes@mckendree.edu; (618) 537-6894; Piper Academic Center 108

Because the accountant plays a key role in management decisions, the accounting field is one of the fastest growing in education and business. The accounting program is designed to prepare the student for a professional career in industrial, public, or government accounting.

Accounting students are instructed in using the accounting model and developing the balance sheet, the income statement, the statement of changes in owners' equity, and the cash flow statement. This basis will enable students to make decisions about the presentation of financial data, the analysis of managerial and cost data, auditing and the reliability of data, and the preparation of personal and simple business tax returns.

To be effective in these activities, students will develop their oral and written communication skills, their critical thinking skills, and their quantitative skills.

Students who plan to sit for the CPA examination are required to have 150 credit hours. This is 22 credit hours beyond McKendree's graduation requirements. Three of these 22 hours must be in a non-accounting business elective. The other 19 hours can be in any classes of the student's choosing. Students taking the additional credits at McKendree have the option of completing a second major, beginning the MBA Program, or taking relevant courses.

To receive a Bachelor of Business Administration degree in Accounting, the student must successfully complete the business core and the major requirements listed below. The student must complete all work applied to the major with a minimum cumulative grade point average of 2.25. Any business course outside of the business core may be applied toward the completion of requirements for only one business major or minor. The Pass/Fail option may not be chosen for a course fulfilling a major or minor requirement.

ACCOUNTING MAJOR:		63 crs.
Business core requirements		39 crs.

Business Administration (BUS)

Alice W. Lehnhoff, J.D., Assistant Professor of Business Administration;
awlehnhoff@mckendree.edu; (618) 537-6988; Piper Academic Center 107

Peter C. Will, Ph.D., Associate Professor of Management;
pcwill@mckendree.edu; (618) 537-6939; Piper Academic Center 103

The major in business administration is the most flexible program offered within the business division. It is intended for students whose careers are well-established and who desire to add business knowledge to their professional credentials. Students may choose their required electives from accounting, business, economics, management, or marketing. This allows a student, with the assistance of an adviser, to design a program of study to prepare for a career in business, industry, or government. The

major also provides a broad foundation for those preparing for graduate school in one of the business areas.

Business administration students focus on general skills which make them flexible practitioners in the job market. Students in this major should choose their electives from no more than two of the functional areas of business (Accounting, Marketing, Management, Economics, and Finance).

To receive a Bachelor of Business Administration degree in Business Administration, the student must successfully complete the business core and the major requirements listed below. The student must complete all work applied to the major with a minimum cumulative grade point average of 2.25. Any business course outside of the business core may be applied toward the completion of requirements for only one business major or minor. The Pass/Fail option may not be chosen for a course fulfilling a major or minor requirement.

BUSINESS ADMINISTRATION MAJOR: 54 crs.

Business core requirements 39 crs.

ACC 261	PRINCIPLES OF ACCOUNTING I	(4)

BUS 410	MANAGEMENT INFORMATION SYSTEMS	(3)

or

ACC 321	ACCOUNTING INFORMATION SYSTEMS	(3)
BUS 450	BUSINESS STRATEGY AND POLICY	(3)

Business Administration major requirements 15 crs.

MGT 334	Human Resources Management	(3)
	Plus four electives from accounting, business, economics, finance, management, marketing, SPM 320, or two of the following HRM courses (HRM 410, HRM 430, or HRM 440). At least one half of the elective credits must be at the 300-400 level.	(12)

BUSINESS ADMINISTRATION MINOR: 22 crs.

The minor in business administration is available only to students majoring in a non-business area. To receive a minor, the student must complete the required courses listed below and nine hours of electives from three of the functional areas of business (Accounting, Economics, Finance, Human Resource Management, Management, Marketing, and Sport Management).

Courses of Study

ACC 261	PRINCIPLES OF ACCOUNTING I	(4)
ECO 211	PRINCIPLES OF MICROECONOMICS	(3)

Additionally, a minimum of one of the concentrations listed below must be completed. To teach any of the specific subjects below, however, the courses listed for that area of instruction must be fulfilled.

CONCENTRATIONS

Accounting		3 crs.
ACC 301	INTERMEDIATE ACCOUNTING I	(3)
<i>or</i>		
ACC 303	COST ACCOUNTING I	(3)
Basic Business		3 crs.
MGT <i>or</i> MKT upper level elective		(3)
Business Computer Systems		11 crs.
CSI 130	INTRODUCTION TO COMPUTING I	(4)
CSI 230	INTRODUCTION TO COMPUTING II	(4)
and one additional course selected from the following:		
ACC 321	ACCOUNTING INFORMATION SYSTEMS	(3)
CSI 295	SYSTEMS ANALYSIS (W)	(3)
CSI 320	INFORMATION TECHNOLOGY MANAGEMENT	(3)

Marketing		9 crs.
MKT 320	PERSONAL SELLING	(3)
<i>or</i>		
MKT 330	PRINCIPLES OF RETAILING	(3)
MKT 354	ADVERTISING AND PROMOTION	(3)
	MKT upper division elective	(3)

General education and other professional education requirements must also be met for certification and are listed in the section entitled "Initial Secondary Certificate" in the Courses of Study section of this catalog under Education, Health, and Human Performance.

Economics (ECO)

Eric Abrams, Ph.D., Associate Professor of Economics;

ebabrams@mckendree.edu; (618) 537-6553; 907 Roysse Street

Frank Spreng, Ph.D., J.D., Professor of Economics, Director of the MBA Program;

fspreng@mckendree.edu; (618) 537-6902; Piper Academic Center 100

John Watters, Ph.D., Assistant Professor of Economics;

jswatters@mckendree.edu; (618) 537-6406; Piper Academic Center 105

Economics students focus on the study of the allocation of resources with an emphasis on personal, business, and public sector decision making. Students will be able to use economic tools like opportunity costs, supply, demand, marginal analysis, the equation of exchange, and the theory of trade. To be effective in these activities, students will develop their oral and written communication skills, their critical thinking skills, and their numerical skills.

The major in economics provides a solid academic base and opens a number of career options. These career options include position in commercial banking, the securities business, financial planning, governmental agencies and consulting. The economics major also provides a sound foundation for post graduate studies in economics, business administration, law and public policy. Students interested in graduate studies in economics are advised to complete a number of upper level mathematics courses beyond calculus or complete an undergraduate major in mathematics.

To receive a Bachelor of Business Administration degree in Economics, the student must successfully complete the business core and the major requirements listed below. The student must complete all work applied to the major with a minimum cumulative grade point average of 2.25. Any business course outside of the businesscore may be applied toward the completion of requirements for only one business major or minor. The Pass/Fail option may not be chosen for a course fulfilling a major or minor requirement.

ECONOMICS MAJOR: 60 crs.**Business core requirements 39 crs.**

John Watters, Ph.D., Assistant Professor of Economics;

jswatters@mckendree.edu; (618) 537-6406; Piper Academic Center 105

Economics and Finance students focus on the study of the allocation of resources with an emphasis on community, business and financial resources. In particular, students will be able to develop and interpret operating budgets, capital budgets, investment portfolios, and develop and manage capital structure. After studying economics, students will be able to use tools like opportunity costs, supply, demand, marginal analysis, the equation of exchange, and the theory of trade. To be effective in these activities, students will develop their oral and written communication skills, their critical thinking skills, and their numerical skills.

The major in Economics and Finance provides a solid academic base and opens a number of career options. Such career options include positions in commercial banking, the securities business, financial planning, government agencies, and financial consulting. The major also provides a sound foundation for post graduate studies in finance, economics and business administration.

To receive a Bachelor of Business Administration degree in Economics and Finance, the student must successfully complete the business core and the major requirements listed below. The student must complete all work applied to the major with a minimum cumulative grade point average of 2.25. Any business course outside of the business core may be applied toward the completion of requirements for only one business major or minor. The Pass/Fail option may not be chosen for a course fulfilling a major or minor requirement.

Human Resource Management (HRM)

The Human Resource Management program focuses on integrated learning experiences in which students develop problem solving and team building skills. The program is designed for students who desire a broad understanding of business operations with an intense focus on the area of Human Resource Management. This specific course of study will equip students with the highly sought after skills required for success in HR while completing the strategic circle through courses in organizational management. Throughout the Human Resource Management program, students will gain insight into ethical and business problem solving issues through courses incorporating individual and group work, written assignments, and oral presentations.

The McKendree University Bachelor of Business Administration in Human Resource Management (BBA-HRM) program is designed to meet the needs of the working adult.

The course work component of the degree in Human Resource Management (HRM) presents the building blocks of theory and application that focus on core business principles, personnel management and retention, employee and labor relations, diversity management, and organizational development.

There are three components of the Human Resource Management Degree Program:

1. The Undergraduate Core Curriculum (Liberal Arts/General Education)
2. The Business Division Core Requirements (Business Administration)
3. The Human Resource Management Degree Major Requirements

Management (MGT)

Rick Bonsall, D.Mgt. Assistant Professor of Marketing;

wrbonsall@mckendree.edu; (618) 537-2143; 907 Royse Street

Jean M. Sampson, D.Mgt., Associate Professor of Management;

jmsampson@mckendree.edu; (618) 537-6884; Piper Academic Center 105

Peter C. Will, Ph.D., Associate Professor of Management;

pcwill@mckendree.edu; (618) 537-6939; Piper Academic Center 103

Management skills are necessary in every organization. Study of the four major management functions of planning, organizing, leading, and controlling prepares students to succeed in a variety of personal and professional pursuits – businesses,

government, and non-profit organizations. Management students examine management decision making at various levels of the organization, from high-level strategic decisions to day-to-day operations and human resource issues.

The management curriculum comprises the study of both management theory and application. Students gain knowledge of the broad concepts concerning how individuals and organizations function, and some of the decision-making tools that managers use in business settings. Team-building, effective communications, and how to deal with cross-cultural challenges are topics which bridge several courses. Students who are approaching the completion of their course work may choose to further their knowledge through internships in which they participate in the actual operation of a commercial organization.

To receive a Bachelor of Business Administration degree in Management, the student must successfully complete the business core and the major requirements listed below. The student must complete all work applied to the major with a minimum cumulative grade point average of 2.25. Any business course outside of the business core may be applied toward the completion of requirements for only one business major or minor. The Pass/Fail option may not be chosen for a course fulfilling a major or minor requirement.

MANAGEMENT MAJOR:		60 crs.

Marketing (MKT)

Rick Bonsall, D.Mgt. Assistant Professor of Marketing;

wrbonsall@mckendree.edu; (618) 537-2143; 907 Royle Street

Jean M. Sampson, D.Mgt., Associate Professor of Management;

jmsampson@mckendree.edu; (618) 537-6884; Piper Academic Center 105

The American Marketing Association defines marketing as “the process of planning and executing the conception, pricing, promotion and distribution of goods, services, and ideas to create exchanges that satisfy individual and organizational objectives.” The McKendree University marketing curriculum is based on a customer satisfaction model known as the marketing concept that is consistent with this definition. Business core courses provide students with the necessary foundation studies in economics, accounting, finance, management, and business strategy. Specialty courses in the marketing major focus on specific topics in marketing such as marketing research, advertising, personal selling, and distribution through channels. This curriculum is designed to prepare students for careers in marketing that include eventual marketing management responsibilities.

Students who successfully complete the curriculum for this major will have developed skills in the application of marketing theory and achieved the general education objectives of competence in critical thinking, quantitative analysis, and oral and written communication. Careers in marketing include personal selling and marketing management in retail and commercial environments, new product planning in manufacturing firms and service providers, and marketing research for large advertisers, research firms, and advertising agencies.

To receive a Bachelor of Business Administration degree in Marketing, the student must successfully complete the business core and the major requirements listed below. The student must complete all work applied to the major with a minimum cumulative grade point average of 2.25. Any business course outside of the business core may be applied toward the completion of requirements for only one business major or minor. The Pass/Fail option may not be chosen for a course fulfilling a major or minor requirement.

MARKETING MAJOR:		60 crs.
Business core requirements		39 crs.
ACC 261	PRINCIPLES OF ACCOUNTING I	(4)
ACC 262	PRINCIPLES OF ACCOUNTING II	(4)
ECO 211	PRINCIPLES OF MICROECONOMICS	(3)
ECO 212	PRINCIPLES OF MACROECONOMICS	(3)
BUS 303	BUSINESS LAW I	(3)
<i>or</i>		
BUS 304	BUSINESS LAW II	(3)
FIN 308	PRINCIPLES OF BUSINESS FINANCE	(3)
BUS 310	QUANTITATIVE ANALYSIS FOR BUSINESS DECISIONS	(3)

MKT 490	SEMINAR IN MARKETING	(1-4)

SCHOOL OF EDUCATION

MAKE YOUR MARK

The School of Education offers the following undergraduate majors:

- Initial Teacher Certification
- Elementary Education
- Secondary Education
- Special Areas K-12 Education
- Educational Studies

Please note that the School of Education also offers Master's, Specialist, and Doctoral degrees. Please see a graduate catalog or visit the website for more information regarding these programs.

The Teacher Education Program at McKendree University offers applicants the opportunity to prepare for teaching licensure in the State of Illinois. Applicants may choose to major in Elementary Education, or may elect a major in Business Education, English Language Arts, Health, Mathematics, Science (Biology Emphasis or Chemistry Emphasis), or Social Science (History Emphasis [may be completed as a major in History or a major in Social Sciences] Political Science Emphasis, Psychology Emphasis) to teach at the Secondary level. Applicants majoring in Art, Music and Physical Education may choose to complete the specialist program for licensure at grade levels K-12.

Because the Teacher Education Program at McKendree assumes that the education of teachers occurs most successfully in the context of a liberal arts program, a broad background of courses in general education is required of all majors. The Education Unit also believes that candidates who are interested in a teaching career must develop the necessary skills of teaching through a sequence of professional education courses in theory and methodologies. A series of clinical experiences in a variety of diverse school settings help candidates transfer university classroom instruction into practical teaching skills.

School of Education Conceptual Framework

Although different program areas are offered within the Education Unit, one Conceptual Framework document guides all programs. The faculty of the university and the educational community served by McKendree University are engaged in continuing discussions concerning the Conceptual Framework, including consideration of changes and modifications to the curriculum and programs. Accordingly, as this group works together to articulate the Conceptual Framework, one framework emerges which embraces the aspects related to the knowledge base, skills, and dispositions valued and promoted within each program.

School of Education Unit Mission, Candidate Dispositions and Vision:

It is the mission of the School of Education Unit at McKendree University to prepare teachers and other education professionals as lifelong learners (analytical abilities, research capabilities, lifelong learning), caring practitioners (creativity, service to community, mutual respect), and knowledgeable professionals (academic excellence, knowledge, analytical abilities, development of the whole person).

School of Education Unit Philosophy, Core Beliefs, Purpose and Outcomes:

The philosophy of the School of Education Unit at McKendree University encompasses the basic concepts of many educational philosophies. However, traditions and approaches found within the School of Education Unit find their roots primarily in a progressivist experience with teaching and learning that is based upon the approach of John Dewey. The teacher education program at McKendree University uses an experiential approach that enables teacher candidates to increase their ability to grow and adapt to a constantly changing and dynamic society.

The School of Education Unit believes that educators it prepares:

1. Have a strong foundation in content knowledge.
2. Acquire and use specific skills to enhance teaching and learning.
3. Apply the use of current technology to teaching and learning.
4. Are effective communicators.
5. Are prepared to teach within a diverse society.
6. Exhibit dispositions appropriate to the profession.
7. Practice personal reflection on their teaching.
8. Are collaborative professionals.
9. Are active members of the community.

In light of these beliefs, it is the philosophy of the program to use an approach that prepares educators who are professionals with a strong foundation in knowledge, practice the profession in a caring manner, and consider learning to be a basic foundation to their lifelong experience.

Thus, primary purposes and goals of the Unit are to: (1) prepare educators for P-12 public, private and parochial schools as identified in the unit's Conceptual Framework, (2) who display the characteristics identified in dispositions, (3) who are prepared in competencies identified by the Unit which meet the expectations of state and national standards. The core standards are listed with the competencies below. With the addition of graduate studies in education, the purpose of the Unit is further expanded to develop these dispositions and competencies as they relate to the professional development of experienced teachers, and through advanced level programs. Thus, as stated in the vision for the Unit, the primary goal of the McKendree University School of Education Unit is to prepare educators who are able to address the educational needs of the region it serves at all levels.

In light of this, the Unit purpose and goal is to prepare candidates who meet these outcomes and competencies:

Knowledgeable Professional

- Possess content and pedagogical knowledge.
- Create learning experiences that make content meaningful to all learners.
- Integrate theory and practice in design and delivery of lessons.
- Understand instructional planning and designs and delivers instruction based on the discipline, student needs, community expectations, and curricular goals.
- Understand formal and informal assessment and utilizes them to support student development.
- Apply appropriate technology, media, and materials in instructional design and practice.

Caring Practitioner

- Respect cultures, values, beliefs, and talents of all people.
- Understand that self-esteem influences achievement.
- Recognize and address cultural differences in communication.
- Establish communication and productive relationships with students, parents, colleagues, and other community members.
- Exhibit appreciation of the responsibility of educators.
- Apply pedagogical theory to diverse educational settings.
- Use technology as a tool to meet the diverse needs of students.

- Practice professional ethics which are mirrored in McKendree University's tradition of Christian values.

Lifelong Learner

- Understand, apply, and integrate research into teaching and learning.
- Use various resources and technology as tools for professional growth.
- Possess knowledge of schools as a social and political system.
- Illustrate a commitment to teaching, learning, and service through professional development.
- Recognize that careers in education require lifelong reflection.
- Recognize the contextual and interactive roles between the profession and the community.

Assessment Process

The McKendree University School of Education Unit created a standards-based curriculum and assessment system for all programs. The programs incorporate standards that reflect the integration of content, pedagogy and professional studies. The Unit's Conceptual Framework links course work and the assessment system. A portfolio evaluation system was created as a systematic way of monitoring a candidate's progression through the programs. A screening step takes place as candidates apply to the program. Candidates are required to meet gate criteria successfully through program assessment points that define their progression through the program.

There are four assessment points or Gates for candidates in both initial and advanced programs leading to initial licensure as required by Illinois Administrative Rules.

GATE 1

Admission to the Teacher Education Program

Minimum requirements are verified by the Field Experience/Certification Office before submission for approval by the Council on Teacher Education (COTE). Candidates also complete a technology competency assessment (CAT 1) administered by the university during enrollment in EDU 115. The CAT 1 technology assessment is a web-based technology assessment and tutorial based upon International Society for Technology in Education standards. The certificate awarded upon successful completion of the assessment is inserted as an artifact within the portfolio.

Before admission to the McKendree University Teacher Education Program, each applicant must complete the requirements listed below:

1. Pass the Test of Academic Proficiency.
2. Have a minimum cumulative 2.75 G.P.A. for all coursework accepted in transfer and all coursework completed at McKendree University.
3. Complete ENG 111, ENG 112 with a grade of C or higher.
4. Complete two Mathematics courses, one must be at least at the level of Finite Math (MTH 142), with a grade of C or higher.
5. Complete EDU 210 (Foundations of American Education) and EDU 115 (Technology in the Classroom) or MUED 200 (Music Classroom Technology), with a grade of C or higher.
6. Successfully complete a criminal background check* in all states of residence for the past seven years and submit results of TB Test**.

7. Successfully complete Portfolio Evaluation and Dispositions Evaluations by instructors of EDU 115 and EDU 210.
8. Complete the Application for Admission to the Teacher Education Program in LiveText.
9. Successfully complete faculty review process.***
10. Receive an affirmative vote by the COTE to admit to the program. Candidates may be permitted to continue in selected professional education courses with conditions for one semester.

***Background Check Procedure**

Before any teacher candidate participates in a field experience, they must submit to the Field Experience/Certification office an "Affidavit of Moral Character", a "Request for Criminal Records Check and Authorization", a fingerprint card administered by an appropriate official, and the background check fee. All candidates for admission to the teacher education program shall have passed a criminal background check conducted in all states of residence for the past seven years as a prerequisite requirement.

****TB Test Policy**

Proof of a negative TB test is required before any teacher candidate participates in a field experience. This test may be taken and the results read at any private physician's office or at a public health office. A form signed by the healthcare professional who administered the test stating the date and the result of the test must be given to the Field Experience Coordinator.

*****Faculty Review Process**

Following the deadline for application to the Teacher Education Program or student teaching, a list of candidates seeking admission to the Teacher Education Program or student teaching shall be distributed to the faculty of the university (full- or part-time) and the office of the Provost for review, comment and challenge. If an admission is challenged, the Director of Teacher Education will ask each of the faculty members involved to submit supporting documentation or evidence.

This information shall be included with the materials submitted to the Council on Teacher Education (COTE), and the Director of Teacher Education or his/her designee will counsel the pre-candidate on the challenge and the ramifications it may have on the candidate's admission.

If a candidate's application for admission is challenged by three or more members of the faculty, that candidate's application must be reviewed by the Admissions Sub-committee of the COTE and a recommendation made to the COTE for consideration before that candidate can be admitted. The Admissions Sub-committee of the COTE will review the materials submitted, and may ask the candidate and faculty members involved to meet with them to clarify or gather additional information. The committee will then make a recommendation to the COTE in regard to the Teacher Education Program or student teaching to admit, admit with conditions, or not admit the candidate.

Reasons for challenging a candidate's admission to the program include but are not limited to:

- Evidence of issues of moral turpitude.
- Weak oral and/or written communication skills.
- Unethical behavior, including plagiarism.

- Poor classroom attendance.
- Dispositions inappropriate to teaching.
- Performance in the content field.

GATE 2

Pre-Student Teaching Assessment

Prior to enrolling in Student Teaching each Candidate is assessed a second time.

The following assessments are completed by the appropriate evaluators listed below and submitted to the Field Experience/Certification Office with a recommendation to continue, continue with conditions, or removal from the teacher education program:

1. Maintain minimum 2.75 G.P.A. in all coursework attempted. (Advisor)
2. Pass appropriate Illinois Content Area Examination. (Field Exp. Office)
3. Complete Professional Education courses with a grade of C or higher. (Advisor)
4. Portfolio Evaluation and Dispositions Evaluations. (Course Instructor)
5. Complete application for Student Teaching at least one year in advance.
6. Successfully complete faculty review process.***
7. Approval by COTE to permit or not permit candidate to enroll in Student Teaching.

GATE 3

Completion of Student Teaching

Upon completion of Student Teaching Candidates are assessed by the Cooperating Teacher and University Supervisor. The assessment is aligned with the Conceptual Framework and Illinois Professional Teaching Standards. The evaluation is submitted to the Field Experience Office via LiveText and becomes part of the Candidate's file.

GATE 4

Prior to Entitlement for Licensure and Program Completion

Candidates undergo a final assessment prior to recommendation for entitlement by the university.

The following assessments are completed by the appropriate evaluators listed below and submitted to the Field Experience/ Certification Office with a recommendation to either submit for entitlement or not submit for entitlement:

1. Maintain minimum 2.75 G.P.A. in all coursework attempted. (Advisor)
2. Pass Illinois Assessment of Professional Teaching (APT) Exam (EDU 499). (Field Experience Office and Registrar's Office)
3. Complete all Professional Education courses with a grade of C or higher.
4. Portfolio evaluation and Dispositions Evaluations. (University Supervisor and Faculty Advisor)
5. Approval by COTE to permit or not permit candidate for entitlement.

Administrative Hearing Process

If a Candidate is recommended for removal from teacher education, denial of student teaching, or denial of entitlement, the Director of Teacher Education shall convene, at the request of the candidate, an impartial hearing panel consisting of the following members:

1. The Director of Teacher Education – Chair of Hearing Panel.
(votes only in the case of a tie)
2. A Faculty member outside of Teacher Education.

3. The Candidate's Faculty Advisor. (unless the Advisor is making the recommendation, then another member of the Teacher Education faculty shall serve)
4. A Practicing Teacher.
5. A Teacher Candidate seeking the same licensure level.

The Teacher Candidate is afforded due process rights with this administrative hearing. Upon hearing the testimony and evidence from both sides, the panel shall make a decision to support the recommendation for removal or denial, or apply conditions to allow the candidate to continue, or allow the candidate to continue without conditions.

Criteria for Dispositions Evaluations:

The dispositions of a candidate completing the program are grounded in the mission of McKendree University.

A graduate of McKendree University education program:

1. Respects cultures, values, beliefs, and talents of all people.
2. Believes that all students can learn.
3. Values the importance of diversity in an ever changing world.
4. Values the use and application of technology in teaching and learning.
5. Appreciates the responsibility of educators to motivate and affect student learning.
6. Reflects professional ethics that are mirrored in McKendree University's tradition of Christian values.
7. Believes that professional development is essential for growth in teaching, learning, and service.
8. Is committed to a career in education that is based upon lifelong reflection.
9. Values the contextual and interactive roles between the profession and the community.
10. Believes that educators must be effective oral and written communicators.
11. Values the tenets and responsibilities of the education profession by dressing appropriately.
12. Values the tenets and responsibilities of the education profession by meeting attendance requirements appropriately.
13. Values the tenets and responsibilities of the education profession by completing professional responsibilities promptly.
14. Values the tenets and responsibilities of the education profession by conducting one's self in a professional manner.

Supported by the mission of the Unit, it is the vision of the School of Education Unit at McKendree University that in its preparation of educators who are Knowledgeable Professionals, Caring Practitioners, and Lifelong Learners, the Unit will provide the leadership to enable graduates to meet the ever changing diverse demands placed upon the schools in the region it serves.

Teacher Education Portfolio

All teacher candidates are required to maintain a developmental portfolio in electronic format throughout the program of study. The portfolio contains artifacts that show evidence of each teacher candidate meeting required Illinois Professional,

Content, Technology and Core Language Arts Standards in alignment with the School of Education Conceptual Framework, and accreditation standards.

Portfolios are maintained using the LiveText web-based portfolio and course development program. A McKendree University Portfolio Template is located on the web site and is to be used for the developmental portfolio since it meets McKendree University requirements and needs. The portfolio template may be modified to meet an individual's particular program needs by adding pages or sections, but template items may not be deleted.

Instructors for each Professional Education course will indicate required items to be included in the portfolio as artifacts. It is the responsibility of the teacher candidate to add artifacts showing that appropriate Content Area standards have been met. In addition, candidates may add other artifacts as desired. The portfolio is to be "shared" with the candidate's faculty advisor, field supervisor, instructors and cooperating teacher as a Reviewer. Failure to share the portfolio may result in lowered or incomplete grades resulting from an inability to review and assess the portfolio contents.

The Portfolio is developed by the candidate throughout the program and is reviewed and assessed at the completion of the program. This type of assessment provides for a sustained reflection of candidates' academic work in a systematic way. The purpose of the teacher candidate's portfolio is to evaluate the achievement of the intended learning standards as established by the Unit. Additional goals of the portfolio include assisting the candidate to understand his/her own learning and to celebrate the achievement of learning.

The Portfolio is assessed at least four times throughout the program in accordance with the Conceptual Framework Assessment Policy. At each assessment point a decision will be made regarding continued enrollment in the program based upon the portfolio and other evidence.

Procedure for Admission to Student Teaching

One year prior to the semester of student teaching, the candidate will apply to the School of Education for admission to student teaching and must complete the following requirements prior to beginning student teaching:

1. Submit an application to be accepted into Student Teaching. This application can be found on the Education website at <http://www.mckendree.edu/academics/info/education/handbooks-forms.php>. Deadlines for submitting applications are: October 1 for student teaching the following fall and March 1 for student teaching the following spring. Applications should be word-processed, signed by an Advisor, and submitted to the Field Experience Coordinator.
2. Have a minimum cumulative 2.75 G.P.A. for all coursework accepted in transfer and all coursework completed at McKendree University.
3. Complete, prior to Student Teaching, the courses noted below that provide professional background considered necessary before a student receives a student teaching assignment. These courses are:
 - a. For EDU 495, Student Teaching (Elem.): EDU 115, 210, 309, 350, 358, 401, 429, 430, 441, 442, 445, 446, 460 and PSY 406.
 - b. For EDU 496, Student Teaching (Sec.): EDU 115, 210, 310, 350, 358, 412, content methods course, and PSY 406.
 - c. For EDU 497, Student Teaching (Spec.): EDU 115, 210, 311, 350, 358, 412, all methods courses required in major, and PSY 406.

4. Any referral for a Continuous Writing Check (CWC) must be cleared by the Writing Proficiency Committee in the semester preceding student teaching. (Refer to section of catalog stipulating Writing Proficiency Requirement.)
5. Satisfy any grade point requirements for the major.
6. All student teachers must have taken and passed the appropriate Illinois Content Area Test prior to beginning the student teaching experience.
7. Successfully complete the faculty review process.
8. Receive a majority vote of the Council on Teacher Education for acceptance into Student Teaching.

Student teaching carries 14 credits and must be taken with EDU 498 Portfolio Assessment (1 hour). These 15 hours will be is considered a full-time course load. Transfer candidates must have completed at least 24 credits of work at McKendree, including a teaching methods course and a field experience, prior to student teaching.

Student teaching is to be considered a full-time commitment by teacher candidates in the same manner as though it were full-time employment. Teacher candidates enrolled in student teaching are required to follow the schedule of the respective school and cooperating teacher. This includes the specified workday, required activities beyond the school day, planning, preparation, grading, conferences, etc. Thus, teacher candidates are not permitted to participate in any university or employment related activity that interferes with the requirements of student teaching. If any extra-curricular activities or responsibilities interfere with a student teacher's abilities to fulfill student teaching obligations in a satisfactory manner, the student teacher will be given the option of ceasing participation in the extra-curricular activities or postponing student teaching until a later semester when the student teacher can devote the required time and energy. Teacher education candidates participating in any intercollegiate activities such as athletic teams, non-athletic teams, band, etc., are advised to arrange for the student teaching semester to take place when the activity is not in season. In order to participate in any extra-curricular activities during student teaching, the candidate is responsible for securing approval, approval with conditions, or denial from the Council on Teacher Education the semester before the student teaching experience. The full policy may be found on the Education website. If permission is granted, it is required that the candidate follow all policies of student teaching and thus may not leave the school site early for any reason related to the sport or activity to include competition, practice or travel. Candidates may not make any individual arrangements with cooperating teachers or university supervisors regarding this policy. If participation in the sport or activity with permission is negatively impacting student teaching performance, the candidate may be removed from the student teaching assignment.

Student teaching will take place in schools selected by the McKendree University Education Unit based upon a number of factors that include, but are not limited to, contractual arrangement, distance, quality of experience, compliance with the Unit's Conceptual Framework and availability of qualified cooperating teachers. Except in extreme circumstances beyond the control of the teacher candidate, student teaching must take place in Illinois within a 25-mile radius of the university. Exceptions to this policy require the approval of the Director of Teacher Education.

Teacher candidates are not permitted to complete any intensive field experience in a school where relatives of the first or second degree are attending or employed. Teacher candidates also may not complete any intensive field experience in a school or school district where a relative of the first or second degree is in a position

of authority over cooperating clinical teachers (i.e., principal, superintendent, or member of the board of education).

Note: A relative of the first or second degree by consanguinity or affinity includes:

Parent	Grandparent	Spouse's Grandchild
Sibling	Uncle or Aunt	Sibling's Spouse
Spouse	Spouse's Parent or Sibling	Parent's Spouse
Child	Spouse's Child	Grandparent's Spouse
Grandchild	Spouse's Grandparent	Grandchild's Spouse

Teaching Certificate Requirements

McKendree University teacher education candidates who complete an approved Teacher Education Program and meet all of the requirements established by the State Board of Education may qualify for an Initial Certificate in the areas of Elementary Education, Secondary Education, and Special K-12 (Art, Music and Physical Education).

Teacher education candidates completing an approved Illinois teacher education program qualify for an Initial Certificate by passing the Test of Academic Proficiency, the appropriate test(s) of subject matter knowledge and the Illinois Assessment of Professional Teaching (APT) Exam (EDU 499). Each Initial Certificate shall be endorsed according to the approved program completed, the coursework presented, and/or the applicable examination(s) passed. A remediation plan will be individually developed for any candidate who has not passed one or more of the required tests. This plan will be developed by the candidate and advisor and may include, as examples, additional courses, tutoring, referral to the writing center, etc. Candidates who do not pass the tests are also advised to seek assistance through the McKendree Academic Support Center for the area(s) of the test with low scores.

All Initial (Elementary, Secondary and Special K-12) Certificates shall be valid for four (4) years of teaching. Upon completion of four (4) years of teaching within eight (8) years after the issue date of that certificate, individuals may qualify for a comparable Standard (Elementary, Secondary, and Special K-12) Certificate valid for five (5) years and renewable with proof of continuing education or professional development. These individuals may qualify for a comparable Standard Certificate by successfully passing the required Standard Certificate requirements and completing other requirements established by the Illinois State Board of Education. (NOTE: "Four (4) years of teaching experience means the equivalent of four (4) years of full-time employment.")

Candidates who qualify for the Initial Elementary and Secondary Certificates and who wish to teach in departmentalized grade five (5) through grade eight (8) may obtain a Middle School Endorsement by completing the required coursework as specified in the section titled Middle School Endorsement.

Initial Elementary Certificate (Type 03)

Because McKendree University must meet the requirements issued by the Illinois State Board of Education and the Illinois State Licensure and Preparation Board, their requirements take precedence over the catalog of record for individuals seeking teacher licensure recommendation. A candidate must have earned a grade of "C" or better in all course work applied toward endorsements/certificates issued after February 2012.

The Initial Elementary Certificate is valid for teaching in kindergarten and the lower nine (9) grades in the public schools. All candidates for licensure are required

to successfully pass state-mandated examinations in basic skills, content area exam and the Assessment of Professional Teaching (APT) Exam (EDU 499) before licensure is granted. It is required that students pass the Test of Academic Proficiency prior to admission to the Teacher Education Program, and pass the content area exam before the student teaching semester. It is required that students pass the Assessment of Professional Teaching (APT) Exam (EDU 499) exam for program completion. **Registration information and study guides for the examinations are available on the Illinois Certification Testing System web site (www.icts.nesinc.com).**

In order to graduate with a major in elementary education, the candidate must complete EDU 115, 210, 309, 350, 358, 401, 429, 430, 441, 442, 445, 446, 460, 495, 498, 499 and PSY 406 with a cumulative grade point average of at least 2.75 in all courses accepted in transfer and all coursework completed at McKendree University. A candidate must receive a grade of C or higher in all professional elementary education courses.

The sequence of courses for the major in elementary education once the candidate is admitted into the Teacher Education Program is as follows:

- First Semester: EDU 309 and 429, Second Semester: EDU 441 and 442,
- Third Semester: EDU 430, 445 and 446, Fourth Semester: EDU 495, EDU 498 and EDU 499.

A. GENERAL EDUCATION	57-63 crs.
1. Basic Skills	9-11 crs.
ENGLISH (ENG 111 & 112)	(6-8)
SPEECH (SPC 220)	(3)
2. Mathematics and Science	16-17 crs.
(2) MATH COURSES (one must be MTH 142 or higher.)	(6)
SCIENCE (Both biological and physical science must be represented. One class must be a lab class.)	(7-8)
COMPUTER SCIENCE (EDU 115)	(3)
3. Humanities	18-20 crs.
LITERATURE	(3-4)
PHILOSOPHY <i>or</i> RELIGION	(3-4)
ETHICS	(3)
ART, MUSIC, THEATER <i>or</i> DANCE	(5-6)
(Coursework must be in at least two of the four areas of visual and performing arts)	
U.S. HISTORY	(3)
4. Social Sciences	9-10 crs.
AMERICAN POLITICS (PSI 101)	(3)
INTRODUCTION TO PSYCHOLOGY (PSY 153)	(3-4)
CROSS CULTURAL STUDIES	(3)

5. Health and Physical Development 3-4 crs.

HEALTH (HPE 158)	(2-3)
RECREATIONAL ACTIVITIES	(1-2)
(2 different activities – All teacher candidates must complete this requirement)	

6. Area of Specialization 18 crs.

In addition to the above requirements, candidates will choose an 18 hour area of specialization, at least 9 hours of which must be taken at the 300 level or above. These concentrations may include: ART, BIOLOGY, CHEMISTRY, ENGLISH, GENERAL SCIENCE, HISTORY, LITERATURE, MATHEMATICS, MUSIC, PHILOSOPHY, PSYCHOLOGY, POLITICAL SCIENCE, SOCIAL SCIENCES (coursework in two or more areas – Anthropology, Economics, Geology, History, Political Science, Psychology, Sociology) SOCIOLOGY, and SPANISH. All work in a single area must be in addition to any coursework already required by that area to meet General Studies requirements.

B. PROFESSIONAL EDUCATION (Elementary) 54 crs.

EDU 115	TECHNOLOGY IN THE CLASSROOM (fulfills General Studies requirement)	(3)

Requires registration on the (www.icts.nesinc.com) website

(NOTE: A candidate must receive a grade of C or higher in all courses applied towards a certificate or endorsement.)

C. ELECTIVES

Additional credits are electives and must be enough to reach a total of 128 hours (the number required for a degree). This includes additional credits which may be required by the State that are not met by those listed under Parts A and B above.

Initial Secondary Certificate (Type 09)

Because McKendree University must meet the requirements issued by the Illinois State Board of Education and the Illinois State Licensure and Preparation Board, their requirements take precedence over the catalog of record for individuals seeking teacher licensure recommendation. A candidate must have earned a grade of "C" or better in all course work applied toward endorsements/certificates issued after February 2012.

The Initial Secondary Certificate is valid for teaching in grades six (6) through twelve (12) in the public schools.

All candidates for licensure are required to successfully pass state-mandated examinations in basic skills, content area exam, and the Assessment of Professional Teaching (APT) Exam (EDU 499) before licensure is granted. It is required that candidates pass the Test of Academic Proficiency prior to admission to the Teacher Education Program, and pass the content area exam before the student teaching semester. It is required that candidates pass the Assessment of Professional Teaching (APT) Exam (EDU 499) for program completion. **Registration information and study guides for the examinations are available on the Illinois Certification Testing System web site (www.icts.nesinc.com).**

In order to graduate with licensure in secondary education, the candidate must complete EDU 115, 210, 310 (Sec.), 350, EDU 358, Content Methods in Area of Teaching Major, EDU 412, 496 (Sec.), 498, 499 and PSY 406 with a cumulative grade point average of at least 2.75 in all courses accepted in transfer and all coursework completed at McKendree University. A candidate must receive a grade of C or better in all courses applied towards licensure or endorsements.

A. GENERAL EDUCATION	54-60 crs.
1. Basic Skills	9-11 crs.
ENGLISH (ENG 111 & 112)	(6-8)
SPEECH (SPC 220)	(3)

EDU 496	STUDENT TEACHING (SEC.) OR EDU 497 (SPE.)	(14)
EDU 498	PORTFOLIO ASSESSMENT	(1)
**EDU 499	ASSESSMENT OF PROFESSIONAL TEACHING EXAM	(0)

Requires registration on the (www.icts.nesinc.com) website

(NOTE: A candidate must receive a grade of C or higher in all professional education courses.)

C. ELECTIVES

Additional credits are electives and must be enough to reach a total of 128 hours (the number required for a degree). This includes additional credits which may be required by the State that are not met by those listed under Parts A and B above.

D. TEACHING MAJOR

The teaching major must include a minimum of 32 credits and must be from one of the state-approved teaching areas identified below. The 32 credits must be distributed within the selected teaching major area according to the degree requirements for that major stated in the Courses of Study section of this catalog.

1. Business Education
2. English Language Arts
3. Health Education
4. Mathematics
5. Science (Biology Emphasis or Chemistry Emphasis)

6. Social Science (History Emphasis [May be completed as a major in History or a major in Social Sciences], Political Science Emphasis, Psychology Emphasis)

Initial Special K-12 Certificate (Type 10)

Because McKendree University must meet the requirements issued by the Illinois State Board of Education and the Illinois State Licensure and Preparation Board, their requirements take precedence over the catalog of record for individuals seeking teacher licensure recommendation. A candidate must have earned a grade of “C” or better in all course work applied toward endorsements/certificates issued after February 2012. The Initial Special K-12 Certificate is valid for teaching in grades kindergarten through grade twelve (12) in public schools.

McKendree University has been approved by the Illinois State Board of Education and the Illinois State Licensure and Preparation Board to offer courses leading to the Initial Special K-12 Certificates in the areas of Visual Arts, Music and Physical Education.

All candidates for licensure are required to successfully pass state-mandated examinations before licensure is granted. It is required that candidates pass the basic skills exam prior to admission to the Teacher Education Program, and pass the subject matter exam before the student teaching semester. It is required that candidates pass the Assessment of Professional Teaching (APT) Exam (EDU 499) for program completion.

Registration information and study guides for the examinations are available on the Illinois Certification Testing System web site (www.icts.nesinc.com).

In order to graduate with licensure in Special (K 12) education, the candidate must complete EDU 115, 210, 311 (Spe.), 350, EDU 358, Content Methods in Area of Teaching Major, EDU 412, 497, 498, 499 and PSY 406 with a cumulative grade point average of at least 2.75 in all courses accepted in transfer and all coursework completed at McKendree University. A candidate must receive a grade of C or better in all courses applied towards licensure or endorsements.

The general education and professional education course programs leading to the Initial Special K-12 Certificate are identical with those delineated in the requirements for an Initial Secondary Certificate except for the following differences:

1. In lieu of the ordinary methods courses, appropriate methods courses must be completed on elementary and secondary levels. The required methods course for Art is EDU 402. The required methods course for Physical Education is EDU 451. The required methods courses for Music Education are MUED 353, MUED 423, and MUED 424.
2. Candidates seeking special licensure in physical education and art education are required to take EDU 115, 210, 311, 412, 497, 498, and 499. Candidates seeking special licensure in music education are required to take MUED 200, EDU 210, 412, 497, 498, and 499. Field experiences are done at both the elementary and secondary levels.
3. In addition to item one above, the requirements for the teaching majors in Art Education, Music Education and Physical Education are those outlined in the Courses of Study section of this catalog under Art Education, Music Education and Physical Education.
4. The student must earn a minimum of 128 credit hours for graduation and meet all degree requirements for their chosen major.
5. Physical Education majors fulfill the core curriculum recreational activities requirement through the professional program.

Educational Studies

This major is especially appropriate for students with a broad interest in educational matters; in educational departments of hospitals, correctional institutions, museums, zoos, mental institutions, and churches; or for those with a specialization in one of the disciplines with an obvious relationship to a particular career, e.g., art history or biology and outdoor education. The major is independently based and the student with his/her advisor will develop a course of study which emphasizes course work appropriate to the academic/professional goals of the student for a career as an educator in a setting that does not require nor lead to teaching certification.

The program is not intended to have a narrow vocational focus. Rather, it is designed with the recognition that the liberal arts can be related to the real world of informed citizenship and can provide the preparation and context within which numerous careers in education may be developed.

There are three assessment points or Gates for candidates in the Educational Studies Program.

GATE 1

Admission to the Program

Minimum requirements are verified by the Field Experience/Certification office. Candidates complete a technology competency assessment (CAT 1) administered by the university during enrollment in EDU 115. The CAT 1 technology assessment is a web-based technology assessment and tutorial based upon International Society for Technology in Education standards. The certificate awarded upon successful completion of the assessment is inserted as an artifact within the portfolio.

Before admission to the McKendree University Education Studies Program, each applicant must complete the requirements listed below:

1. Have a minimum cumulative 2.75 G.P.A. for all coursework accepted in transfer and all coursework completed at McKendree University.
2. Complete ENG 111, ENG 112 with a grade of C or higher.
3. Complete two Mathematics courses, one must be at least at the level of Finite Math (MTH 142), with a grade of C or higher.
4. Complete EDU 210 (Foundations of American Education) and EDU 115 (Technology in the Classroom) or MUED 200 (Music Classroom Technology), with a grade of C or higher.
5. Successfully complete a criminal background check* in all states of residence for the past seven years and submit results of TB Test**.
6. Successfully complete Portfolio Evaluation and Dispositions Evaluations by instructors of EDU 115 and EDU 210. (Completed evaluation submitted to Field Experience/Certification Office and advisor.)

*Background Check Procedure

Administered by an appropriate official, and the background check fee. All candidates for admission to the teacher education program shall have passed a criminal background check conducted in all states of residence for the past seven years as a prerequisite requirement.

****TB Test Policy**

Proof of a negative TB test is required before any educational studies candidate participates in a field experience. This test may be taken and the results read at any private physician's office or at a public health office. A form signed by the healthcare professional who administered the test stating the date and the result of the test must be given to the Field Experience Coordinator.

GATE 2**Pre-Internship Assessment**

Prior to enrolling in the Educational Studies Internship each Candidate is assessed a second time.

The following assessments are completed by the appropriate evaluators listed below and submitted to the Field Experience/Certification Office with a recommendation to continue, continue with conditions, or removal from the educational studies program.

1. Maintain minimum 2.75 G.P.A. in all coursework attempted. (Advisor)
2. Complete Professional Education courses with a grade of C or higher. (Advisor)
3. Portfolio Evaluation and Dispositions Evaluations. (Course Instructor)
4. Complete application for Educational Studies Internship at least one semester in advance.
5. Final review for admission to the internship (Advisor and Internship Supervisor)

GATE 3**Completion of Educational Studies Internship**

Upon completion of the Educational Studies Internship Candidates are assessed by the Internship Site Supervisor and University Supervisor. The assessment is aligned with the Conceptual Framework. The candidate must at least meet all items assessed. The evaluation is submitted to the Field Experience Office via LiveText and becomes part of the Candidate's file.

The following assessments are completed by the appropriate evaluators listed below and submitted to the Field Experience/ Certification Office with a recommendation to either submit for entitlement or not submit for entitlement:

1. Maintain minimum 2.75 G.P.A. in all coursework attempted. (Advisor)
2. Complete all Professional Education courses with a grade of C or higher.
3. Portfolio evaluation and Dispositions Evaluations.
(University Supervisor and Faculty Advisor)

A. General Education	57-63 crs.
1. Basic Skills	9-11 crs.
ENGLISH (ENG 111 & 112)	(6-8)
SPEECH (SPC 220)	(3)
2. Mathematics and Science	16-17 crs.
(2) MATH COURSES (MTH 142 or higher.)	(6)
SCIENCE (Both biological and physical science must be represented. One class must be a lab class.)	(7-8)
COMPUTER SCIENCE (EDU 115 or MUED 200)	(3)

3. Humanities **18-20 crs.**

LITERATURE	(3-4)
PHILOSOPHY <i>or</i> RELIGION	(3-4)
ETHICS	(3)
ART, MUSIC, THEATER <i>or</i> DANCE	
(Coursework must be in at least two of the four areas of visual and performing arts)	(6)
U.S. HISTORY	(3)

4. Social Sciences **9-10 crs.**

AMERICAN POLITICS (PSI 101)	(3)
INTRODUCTION TO PSYCHOLOGY (PSY 153)	(3-4)
CROSS CULTURAL STUDIES	(3)

5. Health and Physical Development **3-4 crs.**

HEALTH (HPE 158)	(2-3)
RECREATIONAL ACTIVITIES (2 different activities required)	(1-2)

6. Area of Specialization **18 crs.**

In addition to the above requirements, candidates will choose an 18 hour area of specialization, at least 9 hours of which must be taken at the 300 level or above. These concentrations may include: ART, BIOLOGY, CHEMISTRY, ENGLISH, FRENCH, GENERAL SCIENCE, GERMAN, HISTORY, LITERATURE, MATHEMATICS, MUSIC, PHILOSOPHY, PSYCHOLOGY, POLITICAL SCIENCE, SOCIAL SCIENCES (coursework in two or more areas – Anthropology, Economics, Geology, History, Political Science, Psychology, Sociology) SOCIOLOGY, SPANISH, and THEATER. All work in a single area must be in addition to any coursework already required by that area to meet General Studies requirements.

B. PROFESSIONAL EDUCATION **12 crs.**

EDU 115	TECHNOLOGY IN THE CLASSROOM (fulfills General Studies requirement)	(3)
EDU 210	FOUNDATIONS OF AMERICAN EDUCATION	(3)
EDU/ PSY 350	EDUCATIONAL PSYCHOLOGY	(3)
EDU 494	INTERNSHIP IN EDUCATIONAL SERVICES	(3)

C. EDUCATIONAL STUDIES CONCENTRATION **15 crs.**

Select from the following courses.

*(Courses marked with * require admission to the Teacher Education Program)*

EDU 309	METHODS OF TEACHING IN THE ELEMENTARY SCHOOL*	(3)
EDU 310	METHODS OF TEACHING IN THE SECONDARY SCHOOLS*	(3)
EDU 355	PSYCHOLOGY OF INSTRUCTIONAL STRATEGIES	(3)
EDU 358	TESTS AND MEASUREMENTS	(3)
EDU 380-389	TOPICS IN EDUCATION	(1-3)
EDU 401	METHODS OF TEACHING IN FINE ARTS (ELEM.)	(3)

EDU 403	MIDDLE SCHOOL: PHILOSOPHY AND PRACTICES	(3)
EDU 404	EARLY ADOLESCENTS AND SCHOOLING*	(3)
EDU 429	CHILDREN'S LITERATURE*	(3)
EDU 460	MOVEMENT CONCEPTS FOR ELEMENTARY TEACHERS*	(2)
EDU		
480-489	TOPICS IN EDUCATION	(1-3)
PSY 259W	CHILD AND ADOLESCENT PSYCHOLOGY (W)	(4)
PSY 302	ADULT DEVELOPMENTAL PSYCHOLOGY	(3)
PSY 404	EARLY ADOLESCENTS AND SCHOOLING	(3)
PSY 406	PSYCHOLOGY OF THE EXCEPTIONAL CHILD	(4)

D. ELECTIVE COURSES

24-28 crs.

Courses to be selected from at least two fields of study.

This major requires a minimum of 30 upper level hours (9 in the area of specialization, 9 in professional education and 12 in the concentration).

Endorsements

Middle school endorsement (Grades 5-8)

Teachers with either elementary or secondary education certificates who wish to teach in departmentalized grade 5 through grade 8 must complete additional coursework in the nature and needs of early adolescents and middle school philosophy, curriculum and instructional methods.

The Minimum Requirements for Teachers of Middle Grades are:

1. Eighteen (18) semester hours in the subject matter area of major teaching assignment (e.g., language arts, mathematics, general science, social science, music, etc.).

In addition:

2. The equivalent of 3 semester hours of specific coursework in the middle school philosophy, middle school curriculum, and instruction and instructional methods for designing and teaching developmentally appropriate programs in middle schools including content area reading instruction. (EDU 403. Middle School: Philosophy and Practices)
3. The equivalent of 3 semester hours of specific coursework in educational psychology focusing on the developmental characteristics of early adolescents, the nature and needs of early adolescents, and the advisory role of the middle grade teacher in assessing, coordinating and referring students to health and social services. (EDU/PSY 404. Early Adolescents and Schooling)

SCHOOL OF NURSING & HEALTH PROFESSIONS

MAKE YOUR MARK

The School of Nursing and Health Professions offers the following majors and minors:

- Athletic Training
- Health and Wellness
- Health Education
- Nursing
- Occupational Therapy*
- Leadership in Sport and Exercise Science
- Coaching
- Sport Management*
- Sports Performance

* Please see the Interdisciplinary Majors & Minors section of the catalog)

Please note that the School of Nursing and Health Professions also offers Master's degrees in Nursing and Professional Counseling. Please see a graduate catalog or visit the website for more information about these programs.

McKendree University's Athletic Training Education Program is accredited by the Commission on Accreditation of Athletic Training Education (CAATE).

Athletic Training is recognized by the American Medical Association as an allied healthcare profession. As such, athletic trainers may work in a variety of settings which can include: secondary schools, colleges and universities, hospitals, sports medicine clinics or other athletic healthcare settings. The athletic trainer works in cooperation with the team physician or other allied healthcare professional to provide complete care for athletes and/or patients. As specialists in prevention, recognition and rehabilitation of injuries, athletic trainers administer immediate emergency care and provide follow-up care to develop a treatment program based on medical, exercise, and sports sciences. A Bachelor of Science degree with a major in athletic training can prepare a student to enter graduate study in preparation for a career in teaching or to pursue professional fields such as exercise physiology, physical therapy, or physician's assistant. Students are encouraged to seek a teaching certification, which will require a second major and may require an additional year of

study. Students who choose to participate in intercollegiate athletics will be on a five year curriculum plan. The Pass/Fail option may not be chosen for a course fulfilling a major requirement.

Mission Statement

The mission of the McKendree University Undergraduate Athletic Training major is to provide a comprehensive, progressive educational and clinical foundation to prepare the multi-skilled professional for a career in athletic training.

The educational program encompasses current research and formal instruction in the prevention, recognition, evaluation, and rehabilitation of the physically active. This preparation along with successfully passing the BOC certification examination will qualify students for entry-level careers in athletic training.

In order to become certified athletic trainers, students must show proficiency in twelve different content areas. Within each content area are specific tasks students must be able to perform. These tasks comprise cognitive and psychomotor competencies as well as clinical proficiencies which provide students with opportunities to show expert correctness and facility at combining skills in “real life” and simulated scenarios. Through advisement, coursework, and clinical experiences, students are provided with the necessary exposure for successful completion of these tasks.

Associated Program and Educational Learning Outcomes for all students:

1. Build a strong foundation on which all students can grow cognitively through the development of higher level thinking skills.
2. Demonstrate psychomotor skills required of an entry-level athletic trainer.
3. Practice personal reflection pertaining to the discipline of athletic training.
4. Preparation to meet the needs of a diverse population including the needs of those engaged in everyday activity.
5. Demonstration of effective verbal and written communication skills.
6. Demonstrate learning over time through clinical proficiencies.
7. Establish research skills to encourage continued growth over the course of the student's professional career.
8. Provide comprehensive learning experiences.
9. Graduates will be adequately prepared to pass the Board of Certification (BOC) Examination and become certified athletic trainers.

The overall health of the student must be adequate to enable the student to demonstrate the specific knowledge, skills, foundational behaviors and clinical integration proficiencies (CIP) required by the NATA Education Council in order to enter and complete the program. After acceptance into the program all students must undergo a physical examination sponsored by the university. The exam will include, but may not be limited to: vision, height, weight, blood pressure, past and present medical history, documentation of immunizations for measles, mumps, rubella and tetanus vaccination, orthopedic and general medical evaluation. Every student will have the opportunity to undergo HBV testing sponsored by the university after acceptance into the program.

Students who are considering application are directed to read the “Technical Standards” provided within the application packet for admission to the Athletic Training program.

Procedures for acceptance in the athletic training program

Deadline for application for admission to the program is April 1. Students generally enter as sophomores; however transfer student admission is possible. Students wishing to transfer to McKendree University and the Athletic Training Program must apply for the program and submit to the same selection process as other candidates. Transfer students must have their transcript evaluated by the Registrar and the Program Director. Acceptance of transfer pre-requisite coursework is subject to the approval of the Program Director pending review of content (appropriate syllabus, proficiencies, etc.). Students interested in admission as transfer students should review the Transfer Policy located on the McKendree University Athletic Training website.

Application pre-requisites:

1. Application form.
2. Three recommendations: Two from faculty who have had the student in class (non ATEP faculty) and one personal recommendation (not immediate family).
3. Current GPA of 2.75 and a cumulative GPA of 2.75.
4. Complete the following four courses with a grade of C or higher HPE 158 Health, PED 206 First Aid (all applicants must provide a copy of CPR/PR card as well as First Aid card), ATH 208 Principles of Athletic Training, and BIO 307 Human Anatomy and Physiology.
5. Complete 35 hours of directed observation through ATH 100 (applicants must provide a copy of BPT card).
6. Complete a comprehensive written exam prior to admittance and pass with a minimum of 80%. (Examination given last Friday in April)
7. Complete an interview with the Athletic Training Selection Committee.

Acceptance into the program is selective and based on the above criteria and space available in the program. Each of the above items is weighted separately. Students are accepted on total points achieved and their chronological ranking of total points in relationship to space available in the program.

ALL APPLICANTS WILL BE NOTIFIED IN WRITING BY JUNE 1st (postmarked) REGARDING ACCEPTANCE INTO THE PROGRAM.

All students who receive acceptance into the program are accepted provisionally until a background check is completed. The process is completed online through www.certifiedbackground.com (domestic students) or Castlebranch (international students). Costs are incurred by students for this process. For complete policy information visit the athletic training education program website.

Procedures to remain in the athletic training program:

1. All students must maintain a minimum of 3.00 current grade point average, cumulative grade point average of 2.75 and grades of C or better in the major courses (hours may be restricted if GPA is below 2.75).
2. All students must renew their Red Cross CPR/PR every two years.
3. All students must obtain a total of 1200 clinical hours. These hours are obtained through the following clinicals: ATH 306, 307, 308 or 309, 250A, 251A, 315, 402 as well as optional clinicals. Students are encouraged to participate in clinical experiences outside of McKendree University requirements by participating in

sport camps, sport tournaments, State Game Competitions, etc. (a maximum of 200 hours may be used to fulfill the 1200 hours required by the program; however, all hours must be under the direct supervision of a BOC ATC and the student must receive approval from the Program Director prior to the event).

4. All students are encouraged to become members of the NATA at least one year prior to taking the certification examination.
5. All students must complete a minimum of 3 mock practical exams with a minimum of 70%. Exams will begin in the fall of the 2nd Professional Year. Exams must be completed in order beginning with ATH 230. Students are allowed a maximum of two attempts per exam each semester and must register for these exams through the registration process.

Deanne Riess, Ph.D, Associate Professor of Health Promotion and Wellness and Physical Education;
driess@mckendree.edu; (618) 537-6983; CH 202B

Health and wellness issues pose great challenges to each individual, our nation, and the world. Developing a sense of personal responsibility for one's wellbeing, an understanding of the basic principles of health and wellness, an awareness of the multidimensionality of health and wellness, and the importance of the interrelationship of those dimensions is critical to addressing health and wellness concerns. The disciplines in health and wellness draw from biological, social, and behavioral sciences to foster knowledge, create awareness, and facilitate healthy lifestyle changes. The degree programs in Health Promotion and Wellness prepare students to become knowledgeable and skillful professionals, who are able to cultivate an understanding of critical health and wellness concepts that support healthy lifestyles and behavioral change.

Health Education majors seeking teacher education certification must complete the requirements for the Illinois Initial Secondary (Type 09) Certificate which can be found in the Education section of this catalog. Upon completion of the required course work, the student is prepared for teaching health education in grades 6 through 12 in the State of Illinois, as well as for a number of other professional and wellness-related positions.

Both Health Education and Health and Wellness students must complete the major with a minimum of a 2.50 cumulative grade point average and grades of "C" or better in the major courses. The Pass/Fail option may not be chosen for a course fulfilling a major or minor requirement.

Students majoring in Health and Wellness must complete the required major core classes and then choose one of the following four track options:

The **Fitness** track will prepare students who wish to work in a gym or training facility, YMCA, or skill development setting. They will work with groups or individuals. It will prepare students to sit for a variety of certification exams including CSCS, ISSNS, and wellness coach. The focus of this professional would be primarily fitness, nutrition, and performance.

The **Worksite** track will prepare students who are interested in working in a corporate or other work environment. They will be prepared to work within a business setting to establish a program that benefits the employees as well as helping the company to increase productivity, reduce health-related costs, absenteeism, and presenteeism. In addition, it will prepare students to sit for a variety of certification exams including CSCS, ISSNS, and wellness coach.

The **Government/Community** track will prepare students to work in the public health arena. They might seek jobs with local, state, or national health departments, in programs on military facilities, or internationally. In these settings, they may be working with diverse populations to plan, implement, and evaluate programs of all types.

The **Clinical** track is for students who are planning to work in hospitals, clinics, voluntary health agencies, or who are planning to continue their education to become nurses, physical therapists, and dietitians.

Mission

The Health Promotion and Wellness program includes undergraduate studies toward degrees in both Health Education and Health and Wellness. The mission of the Health Promotion and Wellness department is 1) to provide quality educational experiences both in the classroom and in the field; 2) to offer educational programs which are designed to facilitate and support student development so that students will become proficient in their knowledge and understanding of health promotion and wellness content and theory, and competent in their ability to plan, implement, lead, and evaluate strategies designed to promote health and wellness with diverse populations; and 3) to prepare graduates for careers in schools, health care facilities, worksites, colleges and universities, and other health and wellness-related venues or for continued educational pursuits at the graduate level upon successful completion of the educational programs.

Educational Outcomes

Students will:

1. Demonstrate an understanding of the multiple dimensions of health and wellness and the interrelationship of those dimensions.
2. Demonstrate an awareness and understanding of the uniqueness of diverse populations in regard to health and wellness needs and priorities.
3. Comprehend concepts related to health promotion, disease prevention, and wellness to enhance overall health and wellbeing.
4. Analyze the influence of family, peers, culture, media, technology, and other factors on health and wellness behaviors.
5. Demonstrate the use of decision-making and goal-setting skills to enhance health and wellbeing.
6. Be able to assess individual and community needs for health education.
7. Be able to plan, implement, and administer health education and wellness strategies, interventions, and programs based upon sound health and wellness philosophical and theoretical constructs.
8. Be able to conduct evaluation and research related to health education and wellness.
9. Be able to demonstrate the ability to access valid information, products, and services to enhance health and wellness in order to serve as a health education and wellness resource person.
10. Demonstrate the ability to use interpersonal communication skills to enhance health and wellness and to avoid or reduce risk to wellbeing.
11. Be able to communicate and advocate for personal, family, and community health, health education, and wellness.
12. Demonstrate the ability to practice health and wellness-enhancing behaviors and avoid or reduce risk to wellbeing.

Kelli Whittington, M.S.N., R.N., Instructor of Nursing

kdwhittington@mckendree.edu; (618) 537-8645; 1st Floor Division of Nursing

Janice Wiegmann, Ph.D., R.N., Professor of Nursing;

jwiegman@mckendree.edu; (618) 537-6842; 1st Floor Division of Nursing

The Division of Nursing offers a Bachelor of Science in Nursing (BSN) degree accredited by the Commission on Collegiate Nursing Education (CCNE). Information regarding CCNE accreditation may be obtained from the American Association of Colleges of Nursing, One Dupont Circle, NW, Suite 530, Washington, DC 20036. Phone (202) 463-6930.

The BSN degree is offered exclusively as a baccalaureate completion program for graduates of associate degree or diploma nursing programs. Nursing courses are offered in various formats at the Lebanon, Louisville, and Radcliff campuses, as well as various off-campus sites in Illinois and Kentucky.

The goal of the RN to BSN program at McKendree University is to facilitate the educational advancement of Registered Nurses to further enhance safe, quality patient care. Graduates are prepared for careers that positively impact society, both locally and globally. The BSN completion program builds on the core competencies and core knowledge the student brings from previous academic nursing programs, and expands on professional nursing values and practices resulting in a deeper and broader scope of professional practice and professional role identity. Graduates of the program are generalists with the necessary base for graduate education and continuing professional development to be leaders in practice and the nursing profession.

Procedures for acceptance into the nursing program

The applicant must submit the following:

1. Application for admission to the university as a transfer student (a maximum of 70 hours will be accepted from a community college);
2. Application for admission to the Division of Nursing;
3. Copy of active unencumbered license as a registered nurse;
4. Current CPR certification;
5. Proof of immunizations against Tdap, measles, mumps, rubella, varicella, and hepatitis B (influenza is highly recommended);
6. TB skin test or chest x-ray results.
7. Successfully completed state background check in all states of residence for the past seven years.

Applicants must meet the following prerequisites:

1. An Associate Degree or Diploma in Nursing with a minimum 2.0 GPA.
2. An active unencumbered RN license.

Those awaiting results of examinations for licensure (NCLEX-RN) may be admitted on a conditional basis and enroll in non-clinical courses for one semester until notified of licensure.

Nursing students enrolled in community colleges that have entered in to an articulation agreement with McKendree University and have a GPA of 3.25 or greater may enroll in the following courses prior to completion of the Associate Degree in Nursing:

- NSG 315 Theoretical Models of Nursing Practice**
- NSG 345 Transcultural Nursing**
- NSG 370 Pathophysiology**

Continued enrollment

Students must be in good standing within the nursing program to continue with nursing coursework. To participate in nursing practicum, students must provide a copy of current RN license, yearly TB skin test or chest x-ray results, current CPR certification, proof of an approved criminal background check, and proof of required immunity/immunizations. All courses for the major and must be completed with a

grade of C or higher. Any required nursing course for which a grade of C- or lower is received must be repeated. Required nursing courses may be repeated only one time. Students may only repeat a maximum of two required nursing courses to remain in the program. Students must successfully complete HIPAA training prior to participating in any clinical courses.

Degree requirements

The Bachelor of Science Degree in Nursing will be awarded after completing the following Division of Nursing requirements:

1. Complete a Degree Application (available in the Office of Academic Records) the semester prior to the anticipated graduation date;
2. Complete two writing intensive courses.
3. Complete a minimum of the final 32 credits from McKendree University;
4. Complete a minimum of 40 credits at the junior/senior level (courses numbered 300 or above);
5. Complete a minimum of 128 credit hours with a minimum cumulative grade point average (GPA) of 2.0;
6. Complete all degree requirements within eight (8) years of matriculation; *and*
7. Complete the following general education and nursing major requirements:

BEHAVIORAL SCIENCES	6 crs.
PSYCHOLOGY	(3)
SOCIOLOGY	(3)
MATHEMATICS AND SCIENCE (in addition to Pathophysiology) (INCLUDING ONE LAB COURSE)	16 crs.
STATISTICS	(3-4)
COMPUTER SOFTWARE (3 COMPUTER APPLICATIONS)	(3)
ANATOMY <i>and</i> PHYSIOLOGY, MICROBIOLOGY <i>or</i> COMPETENCY <i>and</i> , CHEMISTRY <i>or</i> COMPETENCY (INCLUDING ONE LAB COURSE)	(9-10)
Ethics	3 crs.
PHI 391 BIOMEDICAL ETHICS	(3)
<i>or</i>	
NSG 405 ETHICAL/LEGAL ISSUES IN NURSING	(3)
Additional general education requirements	18 crs.

RN to MSN Program

The nursing division also offers an RN to MSN program. Students must have a minimum of a 3.25 GPA for admission into the RN to MSN program. Students will be admitted as undergraduates and will shift to graduate status at the appropriate point in the curriculum. Students must meet all the procedures for acceptance into the undergraduate program. Students may participate in graduation at the BSN and MSN levels as they successfully complete each program. Students will be allowed to complete 6 hours of graduate studies during the undergraduate level with the graduate studies meeting the MSN requirements. Students may choose to opt out of the program at the BSN level without penalty. A student must have a 3.0 GPA to continue in the MSN program following BSN course completion. Students successfully admitted into the RN to MSN program will not be required to apply to the MSN program.

Physical Education (PED) and Leadership in Sport and Exercise Science

Scott M. Colby, M.S., Instructor of Physical Education;

scolby@mckendree.edu; (618) 537-6933; Clark Hall LL06

Deanne Riess, Ph.D., Associate Professor

of Health Promotion and Wellness and Physical Education;

driess@mckendree.edu; (618) 537-6983; Clark Hall 202B

Harry M. Statham, M.S., Assistant Professor of Physical Education;

Athletic Director;

hstatham@mckendree.edu; (618) 537-6871; MPCC 1st Floor

Students interested in teaching physical education will develop skills, knowledge and techniques required of contemporary physical educators. The development and continued well-being of the human body also lies within the domain of physical education. Physical Education majors must complete the teacher education certification requirements for both the Initial Secondary (Type 09) and the Initial Special K-12 (Physical Education) Certificate (Type 10). Upon completion of the required course work, the student is prepared for teaching physical education in elementary and secondary schools in the State of Illinois.

The student must complete the physical education major with a minimum of a 2.50 cumulative grade point average and grades of "C" or better in the major courses. All majors must achieve an 80% (B) or better on all activity course skills tests in addition to the required achievement of a grade of "B" or better in each activity course. These classes include PED 114-125. All majors must also complete professional education requirements listed in the School of Education including successful completion of EDU 499 "Assessment of Professional Teaching Exam".

Students not interested in seeking teacher certification will complete a major in Leadership in Sport and Exercise Science. This major will build the foundation for students interested in careers in the field of Sport and Exercise Science. Completion of this major will also make students eligible to receive the following additional certifications: American Red Cross First Aid/CPR Instructor, Strength and Conditioning (CSCS) through the National Strength and Conditioning Association and American College of Sports Medicine (ACSM) Personal Trainer as well as the Health Fitness Specialist certification. Students may also be eligible for Clinical Certifications through the ACSM. The Pass/Fail option may not be chosen for a course fulfilling a major or minor requirement.

Mission Statement

The mission of the Department of Physical Education is to facilitate the teaching of concepts, the development of skills, and the provision of opportunities for students to become physically-educated persons who respect and value wellness and lifelong learning. This is achieved through the study and application of human movement principles via coursework and experiences related to physical activity, exercise and sport.

Educational Learning Outcomes*All students will:*

1. Demonstrate knowledge of rules, strategies and appropriate behaviors for physical activity.
2. Be empowered to identify the benefits and responsibilities associated with regular participation in physical activity.
3. Be encouraged to participate in health-enhancing lifetime physical activity.
4. Be able to recognize risk and safety factors associated with participation in physical activity.
5. Comprehend that wellness is multidimensional and involves more than being physically fit.
6. Perceive the affective benefits of life-long participation in physical activity which include; self-expression, enjoyment and social interaction with others.
7. Be able to integrate materials from all three learning domains: psychomotor, cognitive and affective.
8. Demonstrate and communicate organization and planning skills which address the ever-changing diversity within our global culture.

LEADERSHIP IN SPORT AND EXERCISE SCIENCE**65 hrs.**

INTERDISCIPLINARY MAJORS & MINORS

Engineering Transfer Program

Adam Tournier, Ph.D., Assistant Professor of Physics

agtournier@mckendree.edu; (618) 537-2140; 221 Voigt Science Hall

James Feher, Ph.D., Professor of Computer Science

jdfeher@mckendree.edu; (618) 537-6956; 207 Clark Hall

Engineering is the study of the art of the creative application of scientific and technological principles to the solution of problems. Although McKendree University does not award an engineering degree, students who wish to prepare themselves for transfer to an engineering program are advised to take the following foundational courses during their first 2-3 years at McKendree.

ENGINEERING TRANSFER CURRICULUM 47 crs.

Mathematics 15 crs.

MTH 210	CALCULUS I *	(4)
MTH 211	CALCULUS II **	(4)
MTH 212	CALCULUS III	(4)
MTH 370	DIFFERENTIAL EQUATIONS AND MODELING	(3)

Science 24 crs.

CHE 105	COLLEGE CHEMISTRY I *	(5)
PHY 221	UNIVERSITY PHYSICS I: MECHANICS	(4)
PHY 222	UNIVERSITY PHYSICS II: ELECTRICITY AND MAGNETISM	(4)
PHY 223	UNIVERSITY PHYSICS III: THERMAL AND QUANTUM PHYSICS	(4)
PHY 251	ENGINEERING MECHANICS I: STATICS	(3)
PHY 253	ELECTRONIC CIRCUITS	(4)

Programming 8 crs.

CSI 130	INTRODUCTION TO COMPUTING I *	(4)
CSI 230	INTRODUCTION TO COMPUTING II **	(4)

Recommended Second Semester Courses 3 or 5 crs.

CHE 106	COLLEGE CHEMISTRY II	(5)
or		
CSI 235	MATHEMATICS OF COMPUTING ***	(3)

* Courses in Calculus, Chemistry and Computing are required for all engineering majors and are often pre-requisites for other requirements. It is strongly encouraged that students take these three courses their first semester at McKendree.

** It is strongly recommended that students take these courses in their second semester at McKendree.

*** Mathematics of Computing is required for both the Computer Science and Computational Science degrees at McKendree.

Engineering offers a wide variety of disciplines including but not limited to: Aeronautical, Biomedical, Ceramic, Chemical, Civil, Computer, Electrical, Environmental, Geological, Industrial, Management, Materials, Mechanical, Metallurgical, Nuclear and Petroleum. Requirements in addition to those mentioned above vary among the different disciplines, so please seek the advice of an advisor when planning a schedule. Students can obtain a Bachelor of Science degree in Computer Science, Computational Science or Mathematics from McKendree University while completing these requirements. Students are also urged to consult the requirements for the Computer Science, Computational Science and Mathematics majors that are found in this catalog.

Environmental Studies (ENS)

Duane L. Olson, Ph.D., Professor of Religious Studies;

dolson@mckendree.edu; (618) 537-6961; Carnegie Hall 216

Michele Schutzenhofer, Ph.D., Assistant Professor of Biology;

mrschutzenhofer@mckendree.edu; 618-537-6934, Voigt Science Hall 217

Environmental issues such as climate change, pollution, water availability, sustainable energy, sustainable waste management, species extinction, and genetic engineering are currently at the forefront of many scientific, social, ethical, religious, and economic analyses, as well as public policy decisions. As human impact on the natural world and its resources reaches unprecedented levels, a broad range of disciplines are addressing human responsibility for environmental problems and investigating potential sustainable solutions to them. Environmental Studies is an interdisciplinary program that gives students the knowledge to understand and to develop informed positions on current environmental problems from a variety of perspectives. The program provides students with critical thinking and communication skills to address these problems constructively and work toward their resolution.

As an interdisciplinary program in biology, economics, ethics, and social science, students in Environmental Studies take courses in the natural sciences, humanities, and social sciences to gain a broad perspective on issues of environmental concern. Students understand the scientific basis of environmental problems, and analyze potential solutions to these problems. Further, students examine a variety of philosophical, societal, and religious worldviews that shape attitudes and actions toward the natural environment in both positive and potentially troubling ways.

The Environmental Studies program prepares students for a number of careers, including those in the areas of environmental science, business, economics, policy, law, public health, global warming, energy systems, and other interdisciplinary avenues. As society and business embrace the green movement, we see more careers that are focused on environmental awareness and concerns.

The Environmental Studies major requires 45-47 credit hours to complete. Students must obtain a grade of C or higher and maintain a cumulative GPA of 2.25 or better in all courses applied to the major. Students are highly encouraged to complete an internship or independent study.

The Environmental Studies minor complements a variety of majors in the humanities, social sciences, natural sciences, business, education, and health and

wellness. Because the program is interdisciplinary, it deepens student knowledge in a range of fields, while preparing students to understand the interconnectedness between human activity and the natural environment.

The Environmental Studies minor requires 25-26 credit hours to complete. Students must obtain a grade of C or better and maintain a cumulative GPA of 2.25 or better in courses applied to the minor. It is recommended that students choose electives outside of their major to help broaden their knowledge surrounding environmental studies. Students pursuing the minor are encouraged to take an internship or independent study.

BACHELOR OF ARTS MAJOR REQUIREMENTS **45-47 crs.**

Core Requirements **30 crs.**

BIO 250	INTRODUCTION TO ENVIRONMENTAL SCIENCE	(3)
CHE 100	CHEMISTRY IN THE MODERN WORLD	(3)
CHE 102	CHEMISTRY IN THE MODERN WORLD LAB	(1)
ECO 211	PRINCIPLES OF MICROECONOMICS	(3)
ECO 333	ENVIRONMENTAL ECONOMICS	(3)
ENS 490	SEMINAR IN ENVIRONMENTAL STUDIES	(3)
ES 105	EARTH SCIENCE	(4)
MTH 310	STATISTICS	(4)
PHI 208	ENVIRONMENTAL ETHICS	(3)
PSI 309	PUBLIC POLICY	(3)

Additional Requirements **9-10 crs.**

Students must take 3 of the following courses. Students may take all of these courses and use the additional course as an elective.

BIO 320	CONSERVATION BIOLOGY	(3)
BIO 325	FIELD BOTANY	(4)
ENG 255	LITERATURE AND THE ENVIRONMENT	(3)
REL 355	RELIGION & CONCERN FOR THE NATURAL ENVIRONMENT	(3)

Elective Requirements **6-7 crs.**

Students must take 2 of the following courses.

Each course must be from a different discipline.

One course must be upper-level.

BIO 303	ECOLOGY	(4)
BIO 350	ANIMAL BEHAVIOR	(3)
PHI 390	ETHICS AND PUBLIC POLICY	(3)
PSI 210	INTRODUCTION TO WORLD POLITICS	(3)
PSI 313	INTERNATIONAL POLITICAL ECONOMY	(3)
ENS		
280-289	SPECIAL TOPICS IN ENVIRONMENTAL STUDIES	(3)
ENS		
380-389	SPECIAL TOPICS IN ENVIRONMENTAL STUDIES	(3)
ENS 470	INTERNSHIP	(3-8)
ENS 480	INDEPENDENT STUDY	(1-4)

ENVIRONMENTAL STUDIES MINOR REQUIREMENTS **25-26 crs.****Core Requirements** **19 crs.**

BIO 250	INTRODUCTION TO ENVIRONMENTAL SCIENCE	(3)
ECO 211	PRINCIPLES OF MICROECONOMICS	(3)
ECO 333	ENVIRONMENTAL ECONOMICS	(3)
ES 105	EARTH SCIENCE	(4)
PHI 208	ENVIRONMENTAL ETHICS	(3)
PSI 309	PUBLIC POLICY	(3)

Additional Requirements **6-7 crs.**

Students must take 2 of the following courses.

BIO 320	CONSERVATION BIOLOGY	(3)
BIO 325	FIELD BOTANY	(4)
ENG 255	LITERATURE AND THE ENVIRONMENT	(3)
REL 355	RELIGION & CONCERN FOR THE NATURAL ENVIRONMENT	(3)

ENS 480	INDEPENDENT STUDY	(1-4)
ENS 490	SEMINAR IN ENVIRONMENTAL STUDIES	(3)

Ethnic Studies

Shelly Lemons, Ph.D., Assistant Professor of History;

sllemons@mckendree.edu; (618) 537-6457; Clark Hall 308

The Ethnic Studies minor complements McKendree's more traditional liberal arts majors as well as its professional courses of study. This minor benefits students in professional programs seeking knowledge to enhance a selected career path just as much as students in traditional liberal arts contemplating graduate study in their fields. Students from all majors would thrive with an Ethnic Studies minor. Individuals who complete this program will gain comparative insight into how scholars from different disciplines—including history, religion, sociology, literature, writing, communication, and psychology—pose and answer questions about race and ethnicity.

Students who minor in Ethnic Studies will enroll in a variety of courses designed to help them understand the construction and functioning of ethnicity both in the United States and in a global context. By the end of their studies, students should be able to (a) analyze diverse ethnic communities in a sympathetic and even-handed manner; (b) explain how racial/ethnic heritage can influence the way people understand and relate to the world around them; (c) discuss the effects of racial/ethnic prejudice in American society, including their own lives; (d) function more effectively as citizens in our increasingly pluralistic society; and (e) relate more empathetically to people from diverse racial/ethnic backgrounds.

To minor in Ethnic Studies:

1. Students must take six courses for a total of eighteen credit hours. Students must also earn a cumulative GPA of 2.25 or better in courses applied to the minor.
2. Students can take no more than six hours from any one discipline.
3. At least six hours must be at the upper division level.
4. Relevant internship hours may be substituted for three hours of the minor requirements.

ETHNIC STUDIES MINOR REQUIREMENTS

18 crs.

HIS 276

or

HIS 376 MINORITIES IN THE AMERICAN EXPERIENCE (3)

Additional 15 hours from the following:

ANT 149	CULTURAL ANTHROPOLOGY	(3)
AND 345	MARRIAGE AND THE FAMILY CROSS CULTURALLY	(3)
ENG 252	ETHNIC LITERATURE	(3)
ENG 253	THE LITERATURE OF POST-COLONIAL CULTURES	(3)
HIS		
277/377	AFRICAN-AMERICAN HISTORY	(3)
MGT/		
MKT 340	INTERNATIONAL BUSINESS	(3)
MUS 265	MUSIC IN WORLD CULTURES	(3)
NSG 345	TRANSCULTURAL NURSING	(3)
PSI 210	INTRODUCTION TO WORLD POLITICS	(3)
PSI 220	COMPARATIVE GOVERNMENT	(3)
REL 312	RELIGION AND RACE	(3)
REL 320	RELIGIONS OF THE WORLD	(3)
SOC 360	RACE AND ETHNIC RELATIONS	(3)

Gender Studies

Shelly Lemons, Ph.D., Assistant Professor of History;

sllemons@mckendree.edu; (618) 537-6457; Clark Hall 308

The Gender Studies minor complements McKendree's more traditional liberal arts majors as well as its professional courses of study. This minor benefits students in professional programs seeking knowledge to enhance a selected career path just as much as students in traditional liberal arts contemplating graduate study in their fields. Students from all majors would thrive with a Gender Studies minor. Individuals who complete this program will gain comparative insight into how scholars from different disciplines – including history, sociology, literature, writing, communication, and psychology – pose and answer questions about gender.

Students who minor in Gender Studies will enroll in a variety of courses designed to help them understand the multiple experiences and viewpoints of women and men in contemporary society and in history, the gendered constructions of power in America and in the world, the representations of gender in literature, and the

psychology and sociology of gender. As a result of this focused study, students should be able to (a) describe the varied and complex relations among social ideology, social structures/hierarchies, gender roles, and sexuality in various cultures; (b) identify the presence and effects of gender discrimination in the United States and other societies; (c) analyze cultural artifacts and texts using the interdisciplinary methods of gender criticism; (d) summarize the basic elements of a feminist critique of Western society, including its political implications; (e) evaluate various theories about the inherent similarities and differences among and between women and men; (f) recover the long-neglected history and viewpoints of women in various cultures around the world; and (g) relate more effectively to individuals of the other gender in their social and professional lives.

To minor in Gender Studies:

1. Students must take six courses for a total of eighteen credit hours. Students must also earn a cumulative GPA of 2.25 or better in courses applied to the minor.
2. No more than six (6) hours can be taken from any one discipline.
3. Six hours must be at the upper division level.
4. Relevant internship hours may be substituted for three hours of the minor requirements.

GENDER STUDIES MINOR REQUIREMENTS

18 crs.

HIS 271

or

HIS 371 U.S. WOMEN'S HISTORY (3)

Additional 15 hours from the following:

SOC 260 SOCIOLOGY OF FAMILIES (3)

SOC 350 SOCIOLOGY OF GENDER (3)

ENG 235 GENDER IN LITERATURE (3)

PSI 315 GENDER AND INTERNATIONAL RELATIONS (3)

PSY 265 PSYCHOLOGY OF GENDER (3)

PSY 370 PSYCHOLOGY OF HUMAN SEXUALITY (3)

REL 235 RELIGION AND GENDER (3)

SPC 375 GENDER AND COMMUNICATION (3)

Other courses as announced each semester.

Global Studies (GLS)

Brian Frederking, Ph.D., Professor of Political Science;

bfrederk@mckendree.edu; (618) 537-6913; Piper Academic Center 204

Global Studies is an interdisciplinary major that studies the world as an interacting human community, including the movement of goods, the migration of people, the spread of technologies, and the mixing of cultures. Today's global world leads to such interdependence that the greatest issues faced by humanity – climate change, economic stability, disease, terrorism, hunger, poverty, war and conflict, etc.

– require global solutions. The Global Studies program focuses on these processes and problems.

Students in the Global Studies program study how the world works now that it is a very small place. Career opportunities for students with global studies degrees include international organizations, international business, economic development, international law, human rights, humanitarian groups, health, the environment, mass communication and a wide variety of government agencies.

The major in global studies requires a minimum of 45 credit hours. The minor in global studies requires a minimum of 24 credit hours. At least 12 credit hours must be taken at McKendree University. All courses for the major and minor must be completed with a grade of C- or higher. Students who study abroad may be allowed to fulfill major/minor requirements with courses taken abroad. Other courses, including special topics courses, may be allowed to fulfill major/minor requirements.

GLOBAL STUDIES MAJOR REQUIREMENTS		45 crs.
GLS 101	INTRODUCTION TO GLOBAL STUDIES	(3)
GLS 498	SENIOR SEMINAR IN GLOBAL STUDIES	(3)
	FOREIGN LANGUAGE	(6)

Nine credits from the following:

PSI 210	INTRODUCTION TO WORLD POLITICS	(3)
BIO 250	INTRODUCTION TO ENVIRONMENTAL SCIENCE	(3)
PSI 220	INTRODUCTION TO COMPARATIVE POLITICS	(3)
ECO 212	MACROECONOMICS	(3)

Nine credits from the following:

HIS 163	20TH CENTURY WORLD HISTORY	(3)
HIS 373	HISTORICAL GEOGRAPHY	(3)
REL 210	RELIGIONS OF THE EAST	(3)
PHI 325	PHILOSOPHY OF RELIGION	(3)
PHI 202	INTRODUCTION TO PHILOSOPHIES OF ASIA, AFRICA, AND LATIN-AMERICA	(3)
SPC 353	INTERCULTURAL COMMUNICATION	(3)

Fifteen credits from the following:

SOC 354	URBAN SOCIOLOGY	(3)
PSI 311	INTERNATIONAL ORGANIZATIONS	(3)
PSI 312	INTERNATIONAL LAW	(3)
PSI 313	INTERNATIONAL POLITICAL ECONOMY	(3)

Leadership Studies (LDR)

Sarah G. Klucker, J.D. Director of Leadership and Student Development;
sgklucker@mckendree.edu; (618) 537-6562; Clark Hall

Leadership is broadly defined and can be studied from various theoretical perspectives. The McKendree University Leadership Studies Program purports that leaders are made and not born. Therefore, through education, reflection, group work, and activities, individuals can learn the skills, habits, and characteristics that fit their unique leadership styles. The McKendree University Leadership Studies Program also encourages participation in co-curricular and extracurricular activities and promotes the idea that the best way to learn leadership is through hands-on activities and actual experiences.

The Minor in Leadership Studies at McKendree University complements McKendree's more traditional liberal arts majors as well as its professional courses of study. The Leadership Studies Minor is designed to be completed concurrently with earning a baccalaureate degree from McKendree University. The minor benefits students in their future careers, graduate school aspirations, and personal development. The primary objective of the program is to teach students about leadership and prepare them to take on future leadership positions by providing hands-on leadership experiences while a student at McKendree.

To Minor in Leadership Studies:

1. Students must take a total of 18 credit hours.
2. Students must earn a cumulative GPA of 2.50 or better in courses applied to the minor.
3. At least six hours must be at the upper division level.

LEADERSHIP STUDIES MINOR REQUIREMENTS **18 crs.**

LDR 101	RECOGNIZED LEADERSHIP	(3)
LDR 201	ENGAGED LEADERSHIP	(3)
LDR 301	ADAPTIVE LEADERSHIP	(3)

Additional 9 hours from the following:

LDR 470	LIFELONG LEADERSHIP INTERNSHIP	(3-8)

Legal Studies

Tami Eggleston, Ph.D., Professor of Psychology;

tegglest@mckendree.edu; (618) 537-6859; Carnegie Hall 202

Brenda Boudreau, Ph.D., Professor of English;

bboudreau@mckendree.edu; (618) 537-6971; Carnegie Hall 210

Patrick A. Folk, Ph.D., Professor of History;

Deneen Professor of Early American History;

pfolk@mckendree.edu; (618) 537-6988; Carnegie Hall 102

Brian Frederking, Ph.D., Professor of Political Science;

Chair, Division of Social Sciences;

bfrederk@mckendree.edu; (618) 537-6913; Piper Academic Center 204

Stephen Hagan, Ph.D., Assistant Professor of Sociology;

sphagan@mckendree.edu; (618) 537-6904. Carnegie Hall 106

Alice W. Lehnhoff, J.D., Assistant Professor of Business Administration;

awlehnhoff@mckendree.edu; (618) 537-6988; Piper Academic Center 107

Frank Spreng, Ph.D., J.D., Professor of Economics, Director of the MBA Program;

fspreng@mckendree.edu; (618) 537-6902; Piper Academic Center 100

Kevin Zanelotti, Ph.D., Associate Professor of Philosophy;
 kzanelotti@mckendree.edu; (618) 537-6896; Carnegie Hall 105

While obtaining admission into law school is very competitive, McKendree University has an excellent reputation preparing students for taking the LSAT and for gaining admission to prominent law schools.

No single major is required to gain admission into law school. However, law schools look for specific courses in political science, philosophy, sociology, and history on transcripts. Law schools also look for applicants with quantitative courses such as economics, business, math, logic, and finance. Law schools expect excellent writing and research skills.

Law schools require applicants to complete a standardized test, the Law School Admissions Test (LSAT). Logic and other courses that emphasize critical thinking will help performance on the LSAT.

The Legal Studies minor complements many majors. This minor benefits students in their future careers, graduate school aspirations, and personal development.

Students who minor in Legal Studies will enroll in a variety of courses designed to help them understand multiple perspectives and to give them courses that will help prepare them for law school or professions related to the law.

To minor in Legal Studies:

1. Complete 22 credit hours. Students must also earn a cumulative GPA of 2.50 or better in courses applied to the minor.
2. No more than two courses can be taken from any one discipline.
3. Nine hours must be at the upper division level.
4. Relevant internship hours may be substituted for three hours of the minor requirements.

LEGAL STUDIES MINOR REQUIREMENTS		22 crs.

Music Business (MUS/BUS)

***Nancy S. Ypma, D. Mus., Professor of Music, Director of Music;
Chair, Division of Visual and Performing Arts;***

nyypma@mckendree.edu; (618) 537-6922; Hettenhausen Center for the Arts 1112

This Bachelor of Arts degree in Music Business is designed to prepare students for a variety of career opportunities in the music business. Students must complete the core requirements of the music major, a core of business courses recommended by the business faculty and courses which blend the two fields, including an internship.

Students must earn at least a 2.5 grade point average in music courses applied to the major, with no grade below a C and at least a 2.25 average in all business courses applied to the major. No courses taken to satisfy major requirements, including performance ensembles, may be taken using the Pass/Fail grading option.

All Music Business majors are expected to participate in at least one performing ensemble each semester and to attend performance classes, concerts and recitals as determined by the Music Faculty. Music Business majors are not required to take a foreign language. For course descriptions, please see the Music and Business sections of the catalog.

MUSIC BUSINESS MAJOR REQUIREMENTS **79-82 crs.**

Occupational Therapy

Tami Eggleston, Ph.D. Professor of Psychology;

tegglest@mckendree.edu; 618-537-6859; Carnegie Hall 202

***Dawn Michele Hankins, Ph.D., ATC, LAT, Professor of Athletic Training,
Curriculum Director for Athletic Training;***

dhankins@mckendree.edu; (618) 537-6917; MPCC

Linda Hoffman, Ph.D., Associate Professor of Psychology;

lehoffman@mckendree.edu; (618) 537-6886; Carnegie Hall 204

Robb D. Van Putte, Ph.D., Associate Professor of Biology;

rdvanput@mckendree.edu; (618)-537-6930; Voigt Science Hall 223A

Occupational therapy is an applied social and biological science dedicated to assisting people in developing skills and attitudes to adapt to disabilities so that their lives become more productive and meaningful. McKendree University is affiliated with the Program in Occupational Therapy, Washington University school of Medicine, and offers students the opportunity to complete a Bachelor of Science (BS) degree with a major in Occupational Therapy from McKendree University, and a Masters of Science in Occupational Therapy from Washington University. The student completes three years at McKendree University, and transfers to Washington University for two years of work in Occupational Therapy. Admission to the Program in Occupational Therapy is competitive, and students pursuing this degree program should work with their McKendree adviser to plan an alternative major in case they are unsuccessful in obtaining admission to Washington University (*see suggested additional courses that students electing to major in either Biology or Psychology should complete during their first three years).

Students applying to the Washington University Program in Occupational Therapy must take the Graduate Record Examination (GRE), and must complete at least 30

hours of volunteer time in an occupational therapy related setting. Proficiency in medical terminology and computers is also required. Applicants must have CPR certification when they apply, which may be obtained by enrolling in PED 206 (First Aid) or by enrolling in an American Red Cross Adult CPR class. Transfer students to McKendree University must complete at least 45 credit hours at McKendree before being admitted to the Program in Occupational Therapy. The application deadline for admission to the Washington University Program in Occupational Therapy in the Fall semester is February 15.

OCCUPATIONAL THERAPY MAJOR REQUIREMENTS		48-50 crs.

PHI 391	BIOMEDICAL ETHICS	(3)

Successfully complete (and transfer) 32 credit hours in Occupational Therapy coursework at Washington University. Students must have completed the McKendree University general education requirements and at least 96 credit hours prior to entering the Washington University Program in Occupational Therapy.

Strongly recommended courses:

ATH 200	MEDICAL TERMINOLOGY	(3)
HPE 158	HEALTH AND WELLNESS	(3)
PED 206	FIRST AID	(2)
PED 348	ADAPTIVE PHYSICAL EDUCATION (W)	(3)
PED 403	KINESIOLOGY (W)	(3)

** Students who wish to complete a four year degree from McKendree University and then apply to Washington University or other graduate programs in OT may major in any field (e.g., biology, psychology, athletic training, health, etc.). Students planning to major in biology if they do not enter the Washington University Program in Occupational Therapy should also complete BIO 111, CHE 105, and CHE 106 and either BIO 303 or BIO 313 during their first three years. Students planning to major in psychology should complete PSY 450, PSY 494, PSY 496, and PSY 498.*

Sport Management (SPM)

Dawn Michele Hankins, Ph.D., ATC, LAT, Professor of Athletic Training, Curriculum Director for Athletic Training;
dhankins@mckendree.edu; (618) 537-6917; MPCC

Peter C. Will, Ph.D., Associate Professor of Management;
pcwill@mckendree.edu; (618) 537-6939; Piper Academic Center 103

Scott M. Colby, M.S., Instructor of Physical Education;
scolby@mckendree.edu; (618) 537-6933; Clark Hall LL06

The management of sport organizations and programs is a recognized area of management and is accredited by the Commission on Sport Management (COSM). The B.B.A. in Sport Management is appropriate for students who wish to manage sport-related businesses, not-for-profit organizations such as fitness centers, community organizations such as the YMCA, and sport facilities such as stadiums.

The Sport Management major consists of the School of Business Core courses supplemented with courses in sport management and athletic equipment management. The program is based on a set of principles covering key content areas: the social, psychological and international foundations of sport; sport management; ethics; sport marketing; finance; accounting; economics; the legal aspects of sport; and integrative experiences involving strategic policies, internships, and a capstone experience. Students in the Sport Management major choose one of two tracks for their career development: General track or Athletic Equipment Management track. The General track closely follows the COSM accreditation requirements, while the Athletic Equipment Management track focuses on the management of athletic equipment.

The General Track in Sport Management is designed to provide students with additional education and training in key areas important for sport management. These include the basic economic and social environment of sport business, the financing and operations of facilities, the marketing and managing of events, and an internship to apply the Sport Management courses to the solution of management problems in sport.

The Athletic Equipment Managers' Association (AEMA) was founded in 1974 in response to questions by professional equipment managers who were concerned with the manner in which sports participants were equipped. The need for individuals qualified as equipment managers has grown as the number of sports participants has grown. Because of this increased participation, the possibility for ill-fitted equipment and possible injury has grown. The Athletic Equipment Management track involves five domains of specific knowledge and performance: purchasing, fitting, maintenance and repair, management, and accountability. It is designed to enable students to develop a broad perspective on issues concerning athletic equipment management. Students must understand the scientific basis of the five domains identified above, and be able to analyze and demonstrate solutions to problems related to the use of sports equipment.

The Athletic Equipment Management track is the only program of its type in the United States. This program will prepare students for careers as athletic equipment managers in professional sports teams, college and university athletic departments, and in secondary schools.

The General track requires 66 credits to complete and the Athletic Equipment Management track requires 69 credits to complete. In both tracks, students must obtain grades of C or higher in all courses, and must maintain a GPA of 2.25 or better in all courses applied to the major. The culminating experiences for each student are completion of a capstone course (BUS 450) and a practicum or internship at the end of the program. Internships are conducted at the college or professional level (minor or major league).

SPORT MANAGEMENT MAJOR

Business Core 39 crs.

ACC 261	PRINCIPLES OF ACCOUNTING I	(4)

Sport Psychology

Tami Eggleston, Ph.D. Professor of Psychology;

teggles@mckendree.edu; 618-537-6859; Carnegie Hall 202

Applied sport psychology is the study of the psychological and mental factors that influence and are influenced by participation and performance in sport, exercise, and physical activity. Applied sport psychology professionals are interested in how participation in sport, exercise, and physical activity may enhance personal development and well-being throughout the life span (Information from the Association for Applied Sport Psychology website – AASP).

Although there are many specific concepts within applied sport psychology (e.g., stress management, teamwork, goal setting, concentration, relaxation, imagery), the general goal is to teach athletes the mental skills necessary to perform consistently in training and competition and to help them realize their potential as people and athletes. Sport psychology draws upon the following areas of research: Health Psychology, Performance Enhancement / Intervention, and Social Psychology.

Sport psychology is a growing field as a number of elite, amateur, and professional athletes are currently working with applied sport psychology professionals. Coaches also seek sport psychology professionals to work with their teams.

The sport psychology minor would be beneficial to students interested in occupations such as exercise specialists, athletic trainers, youth sport directors, or coaching. Moreover, students interested in pursuing graduate study in psychology, education, physical education, athletic training, or occupational therapy could benefit from this minor.

The sport psychology minor emphasizes current theoretical and applied research in the fast growing field of sport psychology. The courses are a combination of primarily psychology and physical education courses. To minor in sport psychology, the student must complete 20 credit hours of the approved courses. Please note that some of the courses may have prerequisites. For a course to be accepted toward a sport psychology minor, a grade of C- or better is required.

To minor in Sport Psychology:

1. Students must complete 20 credit hours and earn a cumulative GPA of 2.25 or better in courses applied to the minor.
2. At least nine hours must be at the upper division level.
3. Relevant internship hours (or field experience for their major) may be substituted for three hours of the minor requirements.

(A student will need a written summary of the internship or field experience with approval from their advisor and the sport psychology minor coordinator)

SPORT PSYCHOLOGY MINOR REQUIREMENTS		20 crs.
HPE 158	HEALTH	(3)
PSY 153	INTRODUCTION TO PSYCHOLOGY	(3-4)
PSY 465/		
PED 465	SPORT AND HEALTH PSYCHOLOGY	(3)

Additional 10-11 credits from the following:

PSY 200	APPLIED SPORT PSYCHOLOGY May be repeated for up to (3) credits	(0-1)
---------	---	-------

A student must take at least one course from each of the clusters:

Biology/PED Cluster

BIO 101	INTRODUCTORY BIOLOGY	(4)
BIO 307	HUMAN ANATOMY AND PHYSIOLOGY	(5)
ATH 349/ PED 349	PHYSIOLOGY OF EXERCISE	(3)

- Army ROTC
- Domestic Study and Travel
- Honors Program
- McKendree Academic Support Center
- Study Abroad
- University 101, 201, and 202

MAKE YOUR MARK

ADDITIONAL COURSE OFFERINGS

Aerospace Studies (AES)

(314) 977-8227

Participation in AFROTC is not required to take Aerospace Studies courses but students must call the above number before registering for an AES course. Please note these courses are not offered at the McKendree campus, but at other sites.

NOTE: Air Force ROTC course descriptions are subject to change by the USAF and the Air Force ROTC as the program continues to grow and develop.

The Aerospace Studies curriculum (AFROTC) consists of the General Military Course (GMC) at the first year/sophomore level and the Professional Officer Course (POC) at the junior/senior level. The GMC covers two main themes: The Foundations of the United States Air Force and The Evolution of USAF Air and Space Power. The POC, which emphasizes the professional development of the future Air Force Officer, covers Air Force Leadership and Management and Preparation for Active Duty. Field trips to Air Force bases supplement classroom instruction and familiarize the student with Air Force operations and organizations.

Leadership laboratory

Leadership laboratory is taken two hours per week throughout the student's enrollment in the AFROTC. Instruction is conducted within the framework of an organized cadet corps with a progression of experiences designed to develop each student's leadership potential. The first two years of Leadership Laboratory include a study of Air Force customs and courtesies, drill and ceremonies, issuing military commands, instructing, directing and evaluating the preceding skills, studying the environment of an Air Force officer and learning about areas of opportunity available to commissioned officers. The last two years of consist of activities classified as advanced leadership experiences. They involve the planning and controlling of military activities of the cadet corps, the preparation and presentation of briefings and other oral and written communications, and the providing of interviews, guidance, and information which will increase the understanding, motivation, and performance of other cadets.

Other courses

AFROTC cadets must also successfully complete supplemental courses to enhance their utility and performance as commissioned officers. These include university courses in English composition and mathematical reasoning. Specific courses are designed by the Professor of Aerospace Studies.

Field training

Field training provides leadership and officership training in a military environment, which demands conformity to high physical and moral standards. Within this structured environment, cadets are screened for officer potential as measured against field training standards. Motivation and professional development is achieved through various programs such as flight orientation, marksmanship, and survival training. Cadets in the four-year program participate in four weeks of field training. Cadets in the two or three year programs (exception for prior AF service) must attend the five week FT session, which is identical to the four week program

plus 90 hours of the GMC curriculum. Field training is offered during the summer months at selected bases throughout the United States, usually between a student's sophomore and junior years. Major areas of study include Air Force Orientation, Officer Training, aircrew/aircraft orientation, survival training, base functions and physical training.

Students applying for entry into the two or three year program must successfully complete five weeks of field training prior to enrollment in the Professional Officer Course. The major areas of study included in the five week Field Training program are essentially the same as those conducted at four-week Field Training, plus the academic curriculum of the General Military Course including Leadership Laboratory.

No direct academic credit is awarded for Field Training.

Scholarships

Federal scholarships are available for "in-college" students and for high school seniors who apply prior to 1 December of their senior year. The Air Force has increased the number and dollar amounts of scholarships available, particularly for students already in college; in most cases, Air Force federal scholarships will cover all tuition for McKendree University. Contact the Unit Admissions Officer toll-free at 1-888-4AFROTC for more information.

Information

Further information about aerospace studies may be obtained by calling (314) 977-8311 or toll-free 1-888-4AFROTC.

Army ROTC (MSC)

(618) 650-2500

Students must call the above number before registering for an MSC course. Please note these courses are not offered at the McKendree campus, but at other sites.

All MSC courses include a leadership laboratory once per week.

Army ROTC may be completed in several different ways as outlined below.

- 1. Four-year Option.** Military Science is traditionally offered as a four-year option. It is best to start as a first year student, but special arrangements can be made for those who start as sophomores. The first two years of Military Science are voluntary without service obligation and are designed to give students a perspective on their leadership ability and what the Army can offer them. Students who decide to continue in ROTC and pursue a commission sign an agreement with the Department of the Army to accept a commission upon completion of the last two years of Military Science. In return, the Army agrees to provide a subsistence allowance (up to \$3000) and to provide all necessary uniforms and Military Science books.
- 2. Two-year Option.** The two-year option is designed to provide greater flexibility in meeting the needs of students desiring commissions in the United States Army. McKendree students who do not participate in the four-year option or community college transfer students are eligible for enrollment. Basic prerequisites for the two-year option are as follows:

- a. Students must be in good academic standing (minimum 2.0 GPA) and pass an Army medical examination.
- b. Students must have two academic years of study remaining (undergraduate or graduate).

Undergraduate students must have junior status.

Students attend a six-week summer camp to obtain the knowledge acquired by students in the four-year option. Attendance at the basic camp DOES NOT obligate students in any way and is only intended to provide experience with Army life and its opportunities. Students earn up to 10 credit hours and are paid approximately \$750 for attendance at basic camp.

Simultaneous membership

Students who qualify for simultaneous membership (members of the Army Reserve or National Guard) can complete the military science program in two years and earn more than \$6,500 at the same time. Upon graduation, a student may request to stay in the reserve or select active duty.

Veterans

Veterans of any of the Armed Forces who are academically aligned may qualify for advanced placement and should contact the Military Science office for details.

Domestic Study and Travel

Ann V. Collins, Ph.D., Assistant Professor of Political Science;
avcollins@mckendree.edu; (618) 537-6897; PAC 203

Tami Eggleston, Ph.D. Professor of Psychology;
tegglest@mckendree.edu; (618) 537-6859; Carnegie Hall 202

Duane L. Olson, Ph.D., Professor of Religious Studies;
dolson@mckendree.edu; (618) 537-6961; Carnegie Hall 216

Domestic Study and Travel Special Topics Courses

These courses include on-campus study and travel within the United States. During the spring semester, students meet in a classroom setting to gain context and knowledge on a topic. In May, following graduation, they travel with the Instructor within the United States to a site or sites that provide first-hand experience to enhance what was learned in the classroom. A fee is charged for this course. Prerequisite: Consent of the instructor. As needed. This course may be taken more than once.

Honors Program (HON)

Brian Frederking, Ph.D., Professor of Political Science; Director, Honors Program;
bfrederk@mckendree.edu; (618) 537-6913; Piper 204

The mission of the McKendree Honors Program is to foster a unique community of intellectually curious critical thinkers and global citizens.

The McKendree Honors Program offers academically talented students on the Lebanon campus a qualitatively different educational experience. Specifically, the program provides students an opportunity both to explore a wide range of disciplines in depth and to complete an independent research project developed in conjunction with a faculty mentor.

The Honors experience provides a number of benefits to students, including: 1) participation in six general education honors classes filled only with other honors students; 2) the opportunity to enroll in seminar courses mutually designed by faculty and honors students; 3) development of a senior thesis with a faculty mentor and presentation to the campus community; and 4) a competitive advantage for students interested in graduate school, medical school, or law school.

The goals of the program include:

1. To enable honors students to explore the liberal arts in greater depth and variety than the traditional general education curriculum.
2. To provide honors students with an exceptional level of student-faculty interaction that helps them develop into knowledgeable and ethical critical thinkers.
3. To provide honors students with ongoing opportunities to attend cultural events and other educational activities relevant to the honors program.
4. To provide honors students with an opportunity to engage in independent research, preparing them for graduate study or employment in their major fields.
5. To provide honors students a competitive advantage when applying for graduate schools and searching for employment opportunities.
6. To enhance the academic experience of the campus community by integrating scholarship and service to the university and the broader community.

Incoming first year students are eligible to join the honors program if they meet the following criteria: 1) a high school GPA of 3.6 or more (A=4.0); and 2) a minimum composite ACT score of 27 (or a combined SAT score of 1200 or more). Other McKendree students and transfer students with a minimum of four semesters remaining may also apply to join the honors program. Students with at least a 3.6 college GPA may apply to the program by submitting a faculty letter of recommendation and a written letter of application to the Honors Program director.

Honors students enroll in at least one honors course each semester. Students generally take honors courses that fulfill general education requirements in their first six semesters. They may instead enroll in one credit seminars mutually designed by faculty and honors students. Students who enter the honors program as second semester students, sophomores or transfer students also must enroll in at least one honors course each semester they are in the program.

During the final two semesters students enroll in HON 401 and HON 402 and complete a research thesis or a creative product under the mentorship of a full-time faculty member. Each project must be approved in advance by both a faculty mentor

and the director of the McKendree Honors Program. The honors thesis may expand upon a student's major capstone project. The thesis, however, must be a distinct and separate project from any capstone requirement in a student's major. Students cannot complete one project and fulfill both the major capstone and the honors thesis requirement. The honors thesis should go beyond the ordinary requirements of a major capstone project.

To remain in the honors program, all honors students must: 1) maintain an overall 3.0 GPA; 2) earn a minimum grade of C in each honors course; and 3) successfully complete at least one honors course each semester, including HON 401 and HON 402 in their final two semesters. Students must also take a minimum of 16 hours of honors courses to complete the program.

Honors courses are designated with an "H" on student transcripts.

The Director of the Honors Program will be an academic advisor for all honors students.

Students who successfully complete all requirements in the program and who meet all other graduation requirements of McKendree University will be identified on their transcripts and diplomas as graduates of the McKendree Honors Program.

HONORS PROGRAM REQUIREMENTS	16 crs.
HON 401 HONORS THESIS I	(2)
HON 402 HONORS THESIS II	(2)
Other honors courses totaling a minimum of 12 hours	

McKendree Academic Support Center (LRC)

Clarissa Melvin, M.A., McKendree Academic Support Center;

(618) 537-6850; Clark Hall 302

McKendree University offers two courses to help students develop skills in reading and studying.

Study Abroad (STA)

Nichole DeWall, Ph.D., Assistant Professor of English

nbdeWall@mckendree.edu; (618) 537-6495; Carnegie Hall 211

Unlike our current semester-long study abroad programs, this course combines both on-campus study and one-to-two-week international experiences led by McKendree University faculty members. Students fulfill a cross-cultural general education requirement with this spring-semester class; travel occurs after the semester ends in May. Advantages include small-group settings and familiar faculty. Trips have included travel to Ecuador, London and Paris. STA 380 provides an excellent introduction to the study-abroad experience. A fee is charged for this course; approval of the Study Abroad office and consent of the instructor are required.

University 101, 201, and 202 (UNI)

***Ann V. Collins, Ph.D., Assistant Professor of Political Science;
Co-coordinator of University 101;***

avcollins@mckendree.edu; (618) 537-6897; PAC 203

***Darryn Diuguid, Ph.D., Assistant Professor of Education;
Co-coordinator of University 101;***

drdiuguid@mckendree.edu; (618) 537-6559; Piper Academic Center 109

James H. Cook, Jr., Ph.D., Assistant Professor of Counseling;

jhcook@mckendree.edu; (618) 537-6875; Stanton House

Jennifer Pickerell, M.A., Director of Career Services

jpickerell@mckendree.edu; (618) 537-6806; Clark Hall 103

The University classes are designed to help students succeed in all levels of their academic career. The University 101 course is designed for first year students to ease the transition to the University and focuses on personal and social responsibility. University 201 is a small group class designed to help students understand their values and beliefs and career possibilities. This course is very valuable for the undecided student. And University 202 helps juniors and seniors with the job search and the transition of leaving the University.

Course Descriptions

- ACC 261 PRINCIPLES OF ACCOUNTING I (4)**
An introductory course emphasizing financial accounting principles and concepts. Areas studied include information processing and accounting for assets, liabilities, revenue, expenses, and owner's equity. Annually, Fall.
- ACC 262 PRINCIPLES OF ACCOUNTING II (4)**
A continuation of Accounting I. Topics covered include bonds, investments, corporate equity, cash flow, and analysis of statements. The course also includes an introduction to the managerial accounting topics of budgets, cost systems, product costing, cost-volume-profit analysis, and performance evaluation. Prerequisite: ACC 261. Annually, Spring.
- ACC 301 INTERMEDIATE ACCOUNTING I (3)**
An in-depth expansion of fundamental accounting processes and an introduction to accounting theory followed by an analysis of all current accounts and long term assets excluding investments. Cash, temporary investments, receivables, inventories, current liability accounts, plant assets and intangibles are studied in detail. Prerequisite: ACC 262. Annually, Fall.
- ACC 302 INTERMEDIATE ACCOUNTING II (3)**
Accounting for long term debt, stockholders equity, earnings per share, investments, pensions, leases, income taxes, accounting changes, financial reporting under changing prices, as well as preparation of the statement of cash flows and the statement of changes in equity. Prerequisite: ACC 301. Annually, Spring.
- ACC 303 COST ACCOUNTING I (3)**
Fundamental principles and practices developed in accounting for costs of production. Types of cost systems in current use for planning and controlling business operations, cost-volume-profit analysis, budgets, standards, and variance analysis are emphasized. Prerequisite: ACC 262. Annually, Fall.
- ACC 304 COST ACCOUNTING II (3)**
A study of special concerns of the management accountant with emphasis on internal control, the performance evaluation and reporting process and plan revisions. The controller's role in budget preparation, cost analysis and performance measurement is stressed. Problems and authentic case studies are used to complement textbook assignments. Prerequisite: ACC 303. Annually, Spring.
- ACC 321 ACCOUNTING INFORMATION SYSTEMS (3)**
Provides a conceptual foundation in accounting systems and control. Emphasis on business process, using accounting applications and information technology. Topics include transaction cycles, use of AIS applications, internal control, and information technology. Hands-on experience with accounting software is provided. Prerequisites: ACC 262 and either CSI 102 or 120. Each semester.
- ACC 341 INTRODUCTION TO AUDITING (3)**
Principles, procedures and techniques used by independent certified accountants and internal auditors in analysis and verification of accounting records and financial statements, financial and administrative internal controls, working papers, audit reports, auditing standards and professional ethics. Prerequisite: ACC 302. Annually, Spring.
- ACC 352 FEDERAL INCOME TAX (3)**
An overview of federal income tax for both individuals and businesses. Course covers the calculation of taxable income for individuals, proprietorships, partnerships, and corporations. Distinctions between ordinary income and capital gains and between deductible and nondeductible expenses are emphasized. Prerequisite: ACC 262. Annually, Fall.
- ACC 354 TAXATION OF BUSINESS ENTITIES (3)**
A study of business taxation including the tax consequences of various forms of business organization, corporate tax compliance issues, corporate distributions, and corporate reorganizations. The course emphasizes the role of taxation in business decision making. Prerequisite: ACC 352. As needed.
- ACC 380-389 TOPICS IN ACCOUNTING (1-3)**
As needed.
- ACC 401 ADVANCED ACCOUNTING (3)**
Theory and problems involved in preparation and interpretation of consolidated statements and may include additional topics such as trusts, estates, and partnerships. Also included are segmental and interim financial reports and accounting for multinational firms and foreign transactions. Prerequisite: ACC 302. Annually, Fall.

Course Descriptions

- ACC 431 ACCOUNTING THEORY (W) (3)**
A study of the evolution of accounting theory emphasizing the work of the Financial Accounting Standards Board. The influence of government taxing and regulatory bodies on accounting theory and practice is considered. The course also includes current developments in accounting. Prerequisite: ACC 302. Annually, Spring.
- ACC 440A SEMINAR IN PROFESSIONAL EXAMINATIONS (1)**
This seminar investigates the professional designations for accounting professionals and their related examinations. The requirements to earn these designations are discussed as are the professional expectations related to each. Prerequisite: ACC 262. As needed.
- ACC 440B SEMINAR IN GOVERNMENTAL ACCOUNTING (1)**
This course is designed to present an overview of the unique accounting and financial reporting principles that have evolved for government organizations. Prerequisite: ACC 262. As needed.
- ACC 440C SEMINAR IN FRAUD INVESTIGATION (1)**
This seminar is designed to establish a classification system to explain fraud schemes used by employees, owners, managers, and executives to defraud their companies. How to spot "red flags" of fraud, and develop and implement effective preventative measures are major topics of discussion. Prerequisite: ACC 262. As needed.
- ACC 440D SEMINAR IN FINANCIAL STATEMENT ANALYSIS (1)**
This course looks at how to calculate the various financial statement analyses available and how to apply them to informed, directed decision-making. Prerequisite: ACC 262. As needed.
- ACC 440E SEMINAR IN ANNUAL REPORT ANALYSIS (1)**
This course provides an overview of the basic tools, methods and techniques used in the interpretation of annual reports of publicly held corporations. The reporting differences among industries, including manufacturing, retailing, service firms, regulated and non-regulated industries are examined. Prerequisite: ACC 262. As needed.
- ACC 440F SEMINAR IN ACCOUNTING FOR NOT-FOR-PROFIT ORGANIZATIONS (1)**
This course provides an overview of the accounting and reporting requirements for colleges and universities, hospitals, healthcare organizations and other similar entities. Prerequisite: ACC 262. As needed.
- ACC 440G SEMINAR IN BALANCED SCORECARD (1)**
This course explores techniques for using nonfinancial as well as financial performance measures as an integrated means of supporting the organization's overall strategies. Nonfinancial performance is evaluated from four perspectives: financial, customer satisfaction, internal processes, and learning and growth. Prerequisite: ACC 262. As needed.
- ACC 440H SEMINAR IN BUDGET PLANNING AND CONTROL (1)**
This seminar studies how budgets can be used as a tool for planning and for control. Other topics considered include management compensation as it relates to the budget and participatory and authoritative budgeting processes. Prerequisite: ACC 262. As needed.
- ACC 440I SEMINAR IN ACCOUNTING FOR PARTNERSHIPS (1)**
This seminar examines the characteristics of general partnerships, limited partnerships, and joint ventures. The drawing and capital accounts are explained as are various methods of allocating partnership net income. Prerequisite: ACC 262. As needed.
- ACC 440J CASES IN ACCOUNTING (2)**
This course focuses specific attention on problem solving in the business context through cases depicting a variety of business situations. Techniques learned in prior accounting classes are applied to management issues requiring students to go "beyond the numbers" in their analyses. Prerequisite: ACC 262. As needed.
- ACC 470 INTERNSHIP IN ACCOUNTING (3-8)**
- ACC 480 INDEPENDENT STUDY IN ACCOUNTING (1-4)**
- ACC 490 SEMINAR IN ACCOUNTING (1-4)**
- AES 101 FOUNDATIONS OF THE UNITED STATES AIR FORCE 1 (2)**
A survey course designed to introduce students to the United States Air Force and Air Force Reserve Officer Training Corps. Featured topics include: mission and organization of the Air Force, officership and professionalism, military customs and courtesies, Air Force officer opportunities, group leadership problems, and an introduction to communication skills. Leadership Laboratory is mandatory for AFROTC cadets, and it complements this course by providing students with followership experiences and prepares them for Field Training. Classroom activity, one hour per week; Leadership Laboratory two hours per week. Aerospace Studies courses (AES 101 through AES 202) are basic courses designed to acquaint students with the United States Air Force and the opportunities available as an officer. Each semester.

AES 102 FOUNDATIONS OF THE UNITED STATES AIR FORCE 2 (2)

A survey course designed to introduce students to the United States Air Force and Air Force Reserve Officer Training Corps. Featured topics include: mission and organization of the Air Force, officership and professionalism, military customs and courtesies, Air Force officer opportunities, group leadership problems, and an introduction to communication skills. Leadership Laboratory is mandatory for AFROTC cadets, and it complements this course by providing students with followership experiences and prepares them for Field Training. Classroom activity, one hour per week; Leadership Laboratory two hours per week. Aerospace Studies courses (AES 101 through AES 202) are basic courses designed to acquaint students with the United States Air Force and the opportunities available as an officer. Each semester.

AES 201 EVOLUTION OF USAF AIR & SPACE POWER 1 (2)

A survey course concerned with the beginnings of manned flight and the development of aerospace power in the United States, including the employment of air power in WWI, WWII, Korea, Vietnam, the Gulf War and the peaceful employment of U.S. air power in civic actions, scientific missions and support of space exploration. Leadership Laboratory is mandatory for Air Force ROTC cadets and it complements this course by providing cadets with their first opportunity for applied leadership experiences and prepares them for Field Training. Classroom activity, one hour per week; Leadership Laboratory two hours per week. Aerospace Studies courses (AES 101 through AES 202) are basic courses designed to acquaint students with the United States Air Force and the opportunities available as an officer. Each semester.

AES 202 EVOLUTION OF USAF AIR & SPACE POWER 2 (2)

A survey course concerned with the beginnings of manned flight and the development of aerospace power in the United States, including the employment of air power in WWI, WWII, Korea, Vietnam, the Gulf War and the peaceful employment of U.S. air power in civic actions, scientific missions and support of space exploration. Leadership Laboratory is mandatory for Air Force ROTC cadets and it complements this course by providing them with their first opportunity for applied leadership experiences and prepares them for Field Training. Classroom activity, one hour per week; Leadership Laboratory two hours per week. Aerospace Studies courses (AES 101 through AES 202) are basic courses designed to acquaint cadets with the United States Air Force and the opportunities available as an officer. Each semester.

**AES 301 AIR FORCE LEADERSHIP STUDIES,
PRINCIPLES OF LEADERSHIP & MANAGEMENT 1 (3)**

This course is a study in the anatomy of leadership, the need for quality and management leadership, the role of discipline in leadership situations and the variables affecting leadership. Case studies are used to examine Air Force leadership and management situations as a means of demonstrating and exercising practical application of the concepts. Cadets deal with actual problems and complete projects associated with planning and managing the Leadership Laboratory. A mandatory Leadership Laboratory complements this course by providing advanced leadership experiences in officer-type activities, giving cadets opportunities to apply leadership and management principles of this course. Classroom activity, three hours per week; Leadership Laboratory two hours per week. Aerospace Studies courses (AES 301 through AES 402) are advanced courses designed to improve communication and management skills required of Air Force officers. Each semester.

**AES 302 AIR FORCE LEADERSHIP STUDIES,
PRINCIPLES OF LEADERSHIP & MANAGEMENT 2 (3)**

This course continues the study in the anatomy of leadership, the need for quality and management leadership, the role of discipline in leadership situations and the variables affecting leadership. Case studies are used to examine Air Force leadership and management situations as a means of demonstrating and exercising practical application of the concepts. Cadets deal with actual problems and complete projects associated with planning and managing the Leadership Laboratory. A mandatory Leadership Laboratory complements this course by providing advanced leadership experiences in officer-type activities, giving cadets opportunities to apply leadership and management principles of this course. Classroom activity, three hours per week; Leadership Laboratory two hours per week. Aerospace Studies courses (AES 301 through AES 402) are advanced courses designed to improve communication and management skills required of Air Force officers. Each semester.

**AES 401 NATIONAL SECURITY STUDIES
AND PREPARATION FOR ACTIVE DUTY 1 (3)**

Cadets learn about the role of the professional military leader in a democratic society; societal attitudes toward the armed forces; the requisites for maintaining adequate national defense structure; the impact of technological and international developments on strategic preparedness and the overall policy-making process; and military law. In addition, cadets will study topics that will prepare them for their first active-duty assignment as officers in the Air Force. A mandatory Leadership Laboratory complements this course. Leadership Laboratory provides advanced leadership experiences and gives cadets opportunities to develop and apply fundamental leadership and management skills while planning and conducting corps activities. Classroom activity, three hours per week; Leadership Laboratory two hours per week. Aerospace Studies courses (AES 301 through AES 402) are advanced courses designed to improve communication and management skills required of Air Force officers. Each semester.

AES 402 NATIONAL SECURITY STUDIES AND PREPARATION FOR ACTIVE DUTY 2 (3)

Cadets learn about the role of the professional military leader in a democratic society; societal attitudes toward the armed forces; the requisites for maintaining adequate national defense structure; the impact of technological and international developments on strategic preparedness and the overall policy-making process; and military law. In addition, cadets will study topics that will prepare them for their first active-duty assignment as officers in the Air Force. A mandatory Leadership Laboratory complements this course. Leadership Laboratory provides advanced leadership experiences and gives cadets opportunities to develop and apply fundamental leadership and management skills while planning and conducting corps activities. Classroom activity, three hours per week; Leadership Laboratory two hours per week. Aerospace Studies courses (AES 301 through AES 402) are advanced courses designed to improve communication and management skills required of Air Force officers. Each semester.

ANT 149 INTRODUCTION TO CULTURAL ANTHROPOLOGY (3)

An introduction to the study of cultures and societies examining kinship, the family, child-rearing, marriage, psychology and culture, political organization, economics and subsistence, religion, law, social groups, and cultural change in comparative perspective. Each semester.

ART 101 BEGINNING DRAWING (3)

Introduction to the practice and techniques of drawing with a design emphasis. Concepts explored include space-figure-ground relationships, mass-form relationships, positive-negative space, tensions, equilibrium, stasis, color relativity, imaginative organization of relationships, illusion in line, form and space. A prerequisite for all art majors and others who wish an introduction to the practice and nature of art. Annually, Fall.

ART 111 SURVEY OF ART HISTORY (WESTERN ART – BEGINNING TO END OF GOTHIC) (3)

An introduction to the history of Western art. The interrelationship of art with the fabric of the cultural background of mankind through its function, techniques, materials and subject matter is stressed. This is presented through the most representative work of each age. Annually, Fall.

ART 112 SURVEY OF ART HISTORY (WESTERN ART – RENAISSANCE TO PRESENT) (3)

Critical and historical analysis of art in Europe and America. The art periods known as the Early and High Italian Renaissance, Northern Renaissance, Baroque, Rococo, 19th and 20th Century are discussed and analyzed. Annually, Spring. IAI-F2900

ART 122 BEGINNING FIGURE (3)

Explores the figure through action sketching, contour knowledge, modeling, fore-shortening, anatomy, and the effects of memory and observation. Drawing with charcoal, ink, collages, and other media is explored. Each Semester.

ART 231 SCULPTURE I (3)

Organized as a workshop space where a student is encouraged to branch out into various sculptural media as they become relevant to his/her personal growth. Activities from modeling, carving, lamination, welding, fabrication, etc., to ceramics take place, dictated by growth of students' work as they become acquainted with simpler techniques of object making. Prerequisites: ART 101, 122, or consent of instructor. Annually, Spring.

ART 232 CERAMICS I (3)

Techniques in ceramics with a sculptural emphasis. This will stress idea development, not production pottery. Techniques of hand-building, mold-making, the wheel, glazing, and a variety of other finishing and structural materials will be introduced, with experimentation encouraged. Each semester.

ART 241 2D DESIGN AND LAYOUT I (3)

This course covers the fundamentals of 2D design and layout as applied to fine art, industry and advertising. Emphasis will be placed upon the design process and the application of graphic symbols in print design and advertising. Materials and equipment appropriate to the development of print design will be investigated as students create work leading to production. Annually, Fall.

ART 242 DESIGN AND COLOR II (3)

The relativity of color in its figure-ground relationships will be stressed. Students will be introduced to the relevance of psychology, physiology, and structural awareness of color in the act of seeing. The study of balance, emphasis, mood, gesture, lighting, tonal quality and composition will give students new insight into objects as they translate their own feelings and experiences into color-form relationships. The physics of light and the chemistry of pigments as they relate to visual processes will also be studied as well as the use of color in communication and package media. Annually, Spring.

- ART 360 PRINTMAKING (3)**
Intaglio, woodcuts, silkscreen, and lithography are introduced as primary means of expression. Basic technical and esthetic consideration conducive to student's total involvement as a developing printmaker is emphasized. Prerequisite: ART 101, 122, 251. Each semester.
- ART 380-389 TOPICS IN ART (1-3)**
As needed.
- ART 445 DIGITAL IMAGING (3)**
This course explores the art of image-making in the electronic age. Students will learn to the use of digital image equipment (both hardware and software) and the manipulation of the image in order to produce a visually expressive statement. The course will progress from image recording, adjusting the image through the use of lighting, contrast, and color manipulation editing to printing. A variety of software applications will be used. Pre-requisites: ART 245 Photography I; ART 305 Computer Graphic Design; or consent of instructor. Spring semester.
- ART 470 INTERNSHIP IN ART (3-8)**
- ART 480 INDEPENDENT STUDY IN ART (1-4)**
- ART 490 SEMINAR IN ART (1-4)**
- ATH 100 DIRECTED OBSERVATION IN ATHLETIC TRAINING (.5)**
Designed to give students the opportunity to directly observe the components involved in the field of Athletic Training. Assignment includes attending practices of various athletic teams on campus as well as a minimum of 3 athletic contests. Students are required to accumulate a minimum of 35 hours of clinical observation during this class. All students are under the direct supervision of a certified athletic trainer. All students applying to the athletic training program must complete ATH 100. Each semester.
- ATH 200 MEDICAL TERMINOLOGY (3)**
Students will learn and recognize word roots, prefixes and suffixes used in medical language today. They will learn how to combine words to create meaningful medical conditions as well as comprehend their definition and know the correct spelling. This course will cover medical terms related to all major body systems, including: muscular system, skeletal system, respiratory system, circulatory system, digestive system, reproductive system, and urinary system. Each semester.
- ATH 208 PRINCIPLES OF ATHLETIC TRAINING (3)**
This course provides the foundation for those students pursuing a career in athletic training. Fundamental information regarding prevention, recognition, taping, rehabilitation and modalities appropriate in the care of orthopedic and general medical injuries will be discussed. Laboratory work in the classroom and athletic training room is required. Annually, Spring.
- ATH 230 FIRST MOCK CLINICAL EXAM (0)**
For this clinical exam students are provided with specific information to study in order to better understand the format and concepts of the exam. Students must successfully complete this exam at 70% or better to receive a passing grade. Students may not sign up more than twice in one semester for this exam. Prerequisite: ATH 250, 250A, 251, 251A, 261 and 262. Each semester.
- ATH 250 EVALUATION AND ASSESSMENT OF LOWER EXTREMITY AND LUMBAR SPINE (3)**
The first of two courses designed to teach athletic training students proper injury evaluation techniques. Students will study the lower half of the body (lumbar spine, gait and lower extremities). This course is taken concurrently with ATH 250A. Clinical work in the classroom, sports setting and athletic training room will involve: anatomy, biomechanics, muscle testing, special tests and taping. Prerequisites: PED 158, 206, ATH 208, BIO 307 and admission to the Athletic Training Program. Annually, Fall.
- ATH 250A EVALUATION AND ASSESSMENT I CLINICAL (2)**
Clinical experience involving evaluation and identification of orthopedic injuries of the lower body. Students must complete a minimum of 150 clinical hours and no more than 225 hours during the course. Supervision by ACL. This course is taken concurrently with ATH 250. Annually, Fall.
- ATH 251 EVALUATION AND ASSESSMENT OF UPPER EXTREMITY, HEAD AND C-SPINE (3)**
The second of two courses designed to teach athletic training students proper injury evaluation techniques. Students will study the upper half of the body (head, cervical and thoracic spine and upper extremities). This course is taken concurrently with ATH 251A. Clinical work in the classroom, sports setting and athletic training room will involve: anatomy, bio-mechanics, muscle testing, special tests and taping. Prerequisite: ATH 250. Annually, Spring.

ATH 251A EVALUATION AND ASSESSMENT II CLINICAL (2)

Clinical experience involving evaluation and identification of orthopedic injuries of the upper body. Students must complete a minimum of 150 clinical hours and no more than 225 hours during the course. Supervision by ACL. This course is taken concurrently with ATH 251. Annually, Spring.

ATH 261 THERAPEUTIC MODALITIES (4)

A study of the principles and effects of different modalities used in treatment of orthopedic injuries. Physiological effects, rationale and application of different modalities in the care of patients/athletes will be discussed. Practical examination. Includes lab. Prerequisite: enrolled in ATH 250 and ATH 250A and/or consent of instructor. Annually, Fall.

ATH 262 THERAPEUTIC REHABILITATION (W) (4)

A study of the principles and effects of different rehabilitation techniques used in the treatment of orthopedic injuries. Biomechanics, physiological effects, rationale and application of exercise techniques and devices. Practical examination. Includes lab. All students are required to write one in-depth rehabilitation program. Prerequisite: ATH 250, 250A, enrolled in 251, 251A and/or consent of instructor. Annually, Spring.

ATH 263 THERAPEUTIC REHABILITATION APPLICATION TECHNIQUES (2)

Students will apply skills and rehabilitation techniques learned in ATH 262 to various orthopedic injuries. This includes organization, prevention, immediate care, treatment and rehabilitation of various orthopedic injuries. Prerequisite: ATH 250, 250A, 251, 251A, 262 and/or consent of instructor. Annually, Fall.

ATH 280-289 SPECIAL TOPICS IN ATHLETIC TRAINING (1-4)

As needed.

ATH 300 CASE STUDIES IN ATHLETIC TRAINING (2)

This course provides students with in depth synthesis and evaluation in the areas of ethics, law, assessment and counseling specific to the field of athletic training. Annually, Fall.

ATH 303 OPTIONAL CLINICAL EXPERIENCE (1)

Optional clinical experience for those students who wish to gain additional experience involving evaluation and identification of orthopedic injuries after completing ATH 250A and ATH 251A. Students must complete a minimum of 125 clinical hours and no more than 175 hours during the course. Supervision by ACL. Prerequisite: ATH 250, 250A, 251, and 251A. Annually, Fall.

ATH 304 OPTIONAL CLINICAL EXPERIENCE (1)

Optional clinical experience for those students who wish to gain additional experience involving evaluation and identification of orthopedic and general medical injuries after completing ATH 250A, ATH 251A and ATH 315. Students must complete a minimum of 125 clinical hours and no more than 175 hours during the course. Supervision by ACL. Prerequisite: ATH 250, 250A, 251, and 251A, and ATH 315. Annually, Fall.

ATH 305 OPTIONAL CLINICAL EXPERIENCE (1)

Optional clinical experience for those students who wish to gain additional experience involving evaluation and identification of orthopedic and general medical injuries after completing ATH 250A, ATH 251A and ATH 315. Students must complete a minimum of 125 clinical hours and no more than 175 hours during the course. Supervision by ACL. Prerequisite: ATH 250, 250A, 251, and 251A, and ATH 315. Annually, Spring.

ATH 306 OFF-SITE CLINICAL EXPERIENCE (3)

Clinical experience in a physician's office working with a physician extender. Supervision by ACL. Prerequisite: Junior or Senior standing and consent of Program Director. Students are not allowed to participate in intercollegiate athletics while completing this course. Students must complete a minimum of 200 clinical hours and no more than 350 during the course. Prerequisite: ATH 250, 250A, 251, 251A, 261, 262 315, and 335. Each semester.

ATH 307 OFF-SITE CLINICAL EXPERIENCE (3)

Clinical experience in an off-site College/University setting. Supervision by ACL. Prerequisite: Junior or Senior standing and consent of Program Director. Students are not allowed to participate in intercollegiate athletics while completing this course. Students must complete a minimum of 200 clinical hours and no more than 350 during the course. Prerequisite: ATH 250, 250A, 251, 251A, 261, 262 315, and 335. . Each semester.

ATH 308 OFF-SITE CLINICAL EXPERIENCE (3)

Clinical experience in an off-site clinic/high school setting. Supervision by ACL. Prerequisite: Junior or Senior standing and consent of Program Director. Students are not allowed to participate in intercollegiate athletics while completing this course. Students must complete a minimum of 200 clinical hours and no more than 350 during the course. Prerequisite: ATH 250, 250A, 251, 251A, 261, 262, 315, and 335. Each semester.

ATH 309 OFF-SITE CLINICAL EXPERIENCE (3)

Clinical experience in an off-site high school setting. Supervision by ACL. Prerequisite: Junior or Senior standing and consent of Program Director. Students are not allowed to participate in intercollegiate athletics

while completing this course. Students must complete a minimum of 200 clinical hours and no more than 350 during the course. Prerequisite: ATH 250, 250A, 251, 251A, 261, 262, 315, and 355. . Each semester.

ATH 315 GENERAL MEDICAL CLINICAL (2)

Clinical experience focusing on general medical conditions as well as medical history, taking vital signs, use of stethoscope, otoscope and cheststrip and breathing patterns. Weekly involvement with one of the team physicians and supervision of ACL. Students must complete a minimum of 175 clinical hours and no more than 175 during the course. Prerequisite: ATH 250, 250A, 251, 251A, 261 AND 262. Each semester.

ATH 330 SECOND MOCK CLINICAL EXAM (0)

For this clinical exam any of the psychomotor skills presented in the first three clinical courses as well as any didactic courses may be used. Students must successfully complete this exam at 70% or better to receive a passing grade. Students may not sign up more than twice in one semester for this exam. Pre-requisite: ATH 230, 250, 250A, 251, 251A, 261, 262, 263, and 315. Each Semester.

ATH 335 ATHLETIC TRAINING COMPREHENSIVE KNOWLEDGE EXAM I (0)

Students must register for this course and take the associated exam prior to completing the off-site clinical experience. The exam is a computerized comprehensive multiple choice exam based on knowledge content in courses aligned with the NATA athletic training educational competencies taken in the previous 5 semesters. A score of 70% or better must be achieved on the exam prior to completing the off-site clinical experience. Students who do not successfully pass the exam must postpone their off-site clinical experience and register for ATH 345. Pre-requisite: ATH 200, 208, 250, 250A, 251, 251A, 261, 262, 263, 300, 315, 353, BIO 307, HPE 158, 300, PED 206 and 403. Annually Fall, Spring.

ATH 340 SELF-ASSESSMENT EXAM – INTEGRATED TEST VERSION (0)

Students must register, pay and complete one of the 5 self-assessment exams listed on the Board of Certification (BOC) website prior to the 5th semester in the athletic training education program. Written results of this exam must be reviewed by the Clinical Coordinator and Curriculum Director of Athletic Training to help further prepare students for the Board of Certification Exam required of all candidates seeking the credential of Certified Athletic Trainer. Pre-requisite: ATH 200, 250, 250A, 251, 251A, 261, 262, 263, 300, 315, 353, HPE 300 and PED 403. Annually, Spring.

ATH 345 ATHLETIC TRAINING KNOWLEDGE REVIEW (1-3)

An individualized course plan to work on specific challenges and weaknesses found on the ATH 335 Exam results. Completion of this course will include retaking the ATH 335 exam. As needed.

ATH 349 PHYSIOLOGY OF EXERCISE (3)

An examination of the effects of physical activity on the various systems of the body. Special emphasis on nutrition, energy expenditure, training, performance, environmental stress and body composition. Students will be required to design and perform various exercise prescription techniques. Prerequisite: BIO 101 or 110, 307, and HPE 300. . Same as PED 349. Annually, Fall.

ATH 353 PHARMACOLOGY FOR ATHLETIC TRAINERS (3)

Introduction to the general principles of pharmacology. Prescription and non-prescription drug indications, contraindications, dose information, allergies, precautions of use, and adverse side effects as they relate to the physically active person. Students will also discuss and debate the issues surrounding drug testing. Practical examination. Same as PED 353. Prerequisite: BIO 101 or 110 and 307. Annually, Fall.

ATH 355 ATHLETIC TRAINING KNOWLEDGE REVIEW (1-3)

An individualized course plan to work on specific challenges and weaknesses found on the ATH 370 Exam results. Completion of this course will include retaking the ATH 370 exam. As needed.

ATH 357 ADMINISTRATION AND DEVELOPMENT OF PHYSICAL EDUCATION AND ATHLETIC TRAINING PROGRAMS AND CURRICULA (3)

Theory, practice and examination of the administrative requirements of the physical educator, athletic administrator and athletic trainer relative to organizational structure, facility design, budget, risk management, human resources and curriculum. Same as PED 357. Annually, Spring.

ATH 365 EVALUATION AND ASSESSMENT I TEACHING PRACTICUM (2)

Clinical teaching experience working with ATH 250A students. Supervision by ACL. Prerequisite: Senior standing, minimum major GPA of 3.0 and consent of Program Director. Annually, Fall.

ATH 366 EVALUATION AND ASSESSMENT II TEACHING PRACTICUM (2)

Clinical teaching experience working with ATH 251A students. Supervision by ACL. Prerequisite: Senior standing, minimum major GPA of 3.0 and consent of Program Director. Annually, Spring.

ATH 367 THERAPEUTIC MODALITIES TEACHING PRACTICUM (1)
Clinical teaching experience working with ATH 261 students. Supervision by ACI. Prerequisite: Senior standing, minimum major GPA of 3.0 and consent of Program Director. Annually, Fall.

ATH 368 THERAPEUTIC REHABILITATION TEACHING PRACTICUM (1)
Clinical teaching experience working with ATH 262 students. Supervision by ACI. Prerequisite: Senior standing, minimum major GPA of 3.0 and consent of Program Director. Annually, Spring.

ATH 370 ATHLETIC TRAINING COMPREHENSIVE KNOWLEDGE EXAM II (0)
Students must register for this course and take the associated exam prior to completing ATH 402. The exam is a computerized comprehensive multiple choice exam based on knowledge content in courses aligned with the NATA athletic training educational competencies taken in the previous 6 semesters. A score of 70% or better must be achieved on the exam prior to completing ATH 402. Students who do not successfully pass the exam must postpone enrollment in ATH 402 and register for ATH 355. Pre-requisite: ATH 200, 208, 250, 250A, 251, 251A, 261, 262, 263, 300, 306-309, 315, 335, 353, 357, BIO 307, HPE 158, 300, PED 206 and 403. Annually Fall, Spring.

ATH 402 FOOTBALL CLINICAL (3)
Clinical experience in the daily operation and care of football athletes throughout the season. Supervision by ACI. Students are not allowed to participate in intercollegiate athletics while completing this course. This course begins in mid-August of each year. Students must complete a minimum of 200 clinical hours and no more than 350 hours during the course. Prerequisite: ATH 250, 250A, 251, 251A, 261, 262, 335 and 370. . Annually, Fall.

ATH 404 RESEARCH TOPICS IN ATHLETIC TRAINING (W) (3)
Study of research methods and design applicable to research in athletic training. Students will be expected to organize, write and complete a proposal before the end of the semester. Prerequisite: MTH 310 and Senior standing. Annually, Fall.

ATH 430 THIRD MOCK CLINICAL EXAM (0)
For this clinical exam any of the psychomotor skills presented in the first three clinical courses as well as any didactic courses that have psychomotor skills may be used. Students must successfully complete this exam at 70% or better to receive a passing grade. Students may not sign up more than twice in one semester for this exam. Pre-requisite: ATH 230, 250, 250A, 251, 251A, 261, 262, 263, 315 and 330. Each semester.

ATH 455 CONCEPTS OF RESISTANCE TRAINING (4)
Study of the application of principles of anatomy, physiology and exercise physiology in the recommendation of resistance exercises for the improvement in health and athletic performance. This course also serves as preparation for those students interested in sitting for the CSCS exam given by the NSCA Certification Commission. Same as PED 455. Prerequisite: BIO 101 or 110 and 307, ATH 349 and senior standing. Annually, Spring.

ATH 460 FIRST AID / CPR / AED INSTRUCTOR (3)
Designed to train individuals to become Red Cross Instructors who can teach FirstAid/CPR/AED courses. Completion of Fundamentals of Instructor (FIT) through this course or possession of a current national Health and Safety Instructor Authorization is required. Prerequisite: Minimum age 17 and successful completion of a pre-course session including a written exam (pass 80% or better) and demonstrated competency in the pre-course skills evaluation. Annually, Spring.

ATH 480 INDEPENDENT STUDY (1-4)

ATH 490 SEMINAR IN ATHLETIC TRAINING (3)
A capstone course in Athletic Training focusing on strategies to strengthen athletic training knowledge for success on the Board of Certification (BOC) Exam. All students complete a self-assessment integrated test prior to taking this course. All students must participate in domain testing which takes place no later than the last weekend in January. Additional self-assessment testing takes place during the last 8 weeks of the course. Prerequisites: ATH 200, 250, 250A, 251, 251A, 261, 262, 263, 300, 306-309 (completion of one), 315, 340, 353, 357 and 402. Annually, Spring.

BCH 303 PRINCIPLES OF BIOCHEMISTRY (4)
This course is designed to give an overall understanding and integration of the biochemical principles involved in the structure/function relationships of biological molecules and their interactions in the intermediary metabolism in eukaryotic cells with special emphasis on human metabolism. This course satisfies a requirement for students in pre-professional track. Four hours lecture. Prerequisites: CHE 150 and CHE 151 or CHE 205 and CHE 206. Annually, Fall.

BCH 310 INTRODUCTION TO MOLECULAR MODELING AND BIOINFORMATICS (2)
Through the hands on web-exercises, students will learn to use the Databases (GenBank, OMIM, UniProt,

Course Descriptions

PDB, and PubMed), Search Tools (BLAST and NCBI Map Viewer), Analysis Tools (ExpASY, PROSITE, ClustalW, and Phylip), and Modeling Tools (Swiss-Model and Deep View). Students will apply what they learn during in-class exercises to complete several projects on their chosen protein during the semester. Two hours lecture. Prerequisite: BCH 303 or consent of instructor. Spring, odd years.

BCH 313L CELLULAR BIOLOGY LAB (1)

This course includes only the laboratory portion of BIO 313 Cellular Biology which is a 4 credit-hour course. The laboratory emphasizes the use of a variety of techniques, methods, and equipment as powerful tools for examining cell structure and function. Three-hour lab each week. Prerequisites: BIO 110. Spring, odd years.

BCH 380-389 SPECIAL TOPICS IN BIOCHEMISTRY (1-3)

Detailed investigation of specific topics in biochemistry. Fall, odd years.

BIO 101 INTRODUCTORY BIOLOGY (4)

This course is intended for the non-science major. The principle objectives are to prepare students to be scientifically literate citizens and to introduce them to major themes in the biological sciences. This includes principles of genetics and inheritance, the impact of biotechnology on society, mechanisms of evolutionary change, and principles of ecology and the connectedness of life. This course meets for three hours of lecture each week and one three-hour laboratory each week. A student must pass the laboratory portion of any science course to pass the entire course. Annually, Fall.

BIO 106 INTRODUCTION TO PLANT BIOLOGY (4)

This course is intended for the non-science major. It will introduce students to major themes of plant biology and prepare scientifically literate students across the curriculum. This includes principles of plant form and function, unique aspects of their development, and plant ecology/evolution. This course meets for three hours of lecture each week and one three-hour laboratory each week. A student must pass the laboratory portion of any science course to pass the entire course. Fall, even years.

BIO 110 PRINCIPLES OF CELLULAR AND MOLECULAR BIOLOGY (4)

This course is an introductory biology course for biology majors which emphasizes basic principles of cellular and molecular biology including the biochemical basis of life, cellular structure and function, metabolism, and genetics as well as principles of evolution. The course meets for three hours of lecture each week and one three-hour laboratory each week. Prerequisite: One year of high school biology or consent of instructor. A student must pass the laboratory portion of any science course to pass the entire course. Annually, Fall.

BIO 111 PRINCIPLES OF ORGANISMAL AND POPULATION BIOLOGY (4)

This course is an introductory biology course for biology majors which emphasizes basic principles of organismal and population biology including animal and plant structure and function, evolutionary principles and mechanisms, the diversity of life, and ecology. This course meets for three hours of lecture each week and one three-hour laboratory period each week. Prerequisites: 1 year of high school biology or consent of instructor. A student must pass the laboratory portion of any science course to pass the entire course. Annually, Spring.

BIO 211 GENETICS (4)

Genetics is the study of DNA, the information-bearing material of inheritance, as well as related molecules and processes. This course will examine how DNA is organized, how its information is transmitted from one generation to the next, and how the information it bears is utilized. The study of genetics is foundational to many other biological fields, and this course will provide students with the background they need to go on in such diverse topics as development, physiology, and evolution. This course meets for three hours of lecture each week and one three-hour laboratory period each week. Prerequisites: BIO 110, 111, or consent of instructor. A student must pass the laboratory portion of any science course to pass the entire course. Annually, Fall.

BIO 220 EVOLUTION (W) (3)

This course introduces the major principles of evolutionary biology. Specific topics include a brief history of evolutionary thought, concepts of evolutionary genetics, adaptation and natural selection, origins of biological diversity, and paleobiology and macroevolution. This course meets for three hours of lecture each week. Prerequisites: BIO 110, 111, 211, or consent of instructor. Annually, Spring.

BIO 250 INTRODUCTION TO ENVIRONMENTAL SCIENCE (3)

The major topics of concern in the multifaceted discipline of environmental science will be examined. Emphasis will be placed on the understanding of environmental problems from the societal, biological, economic, and ecological points of view and the potential or actual solutions to these problems. This course meets for three hours of lecture each week. This course satisfies the ecology/evolution elective area. Spring, even years.

BIO 280-289 SPECIAL TOPICS IN BIOLOGY (1-3)

As needed.

BIO 299 PRACTICUM IN BIOLOGY (1-3)

For students at the sophomore level or above who wish to arrange a practicum in the laboratory or other appropriate direct-experience learning situation in biology. Prerequisites: 15 hours of related coursework, grade point average consistent with biology program graduation requirements, and permission of the instructor. No more than eight credit hours combined total for this practicum and any internship may be counted as credit toward the major. As needed.

BIO 303 ECOLOGY (W) (4)

Ecology is the study of the diverse interactions between organisms and their environment, both living and non-living. These interactions drive the organization of life at many levels from individuals to ecosystems. This course examines the connection between ecological interactions and the organization of life, including the evolutionary responses of organisms, population dynamics, energy and nutrient cycling in ecosystems, community structure and global ecology. There will be a required field trip early in the semester. The class meets for three hours of lecture each week and one three-hour laboratory period each week. Prerequisites: BIO 110, 111, 220, and CHE 105, 106, or consent of instructor. A student must pass the laboratory portion of any science course to pass the entire course. Annually, Fall.

BIO 307 HUMAN ANATOMY AND PHYSIOLOGY (5)

This course is an integrated study of basic human anatomy and physiology involving concurrent study of structure and function of human organ systems. Lectures emphasize physiological aspects of organ system function within the context of basic anatomy. Laboratories concentrate on anatomy with an emphasis on dissections and some physiological experimentation. This course satisfies either the cell/molecular or organismal elective area. This course meets for three hours of lecture each week and two two-hour laboratory periods each week. Prerequisites: BIO 101 or 110 or equivalent or consent of instructor. A student must pass the laboratory portion of any science course to pass the entire course. Annually, Spring.

BIO 311 MICROBIOLOGY (5)

This course deals with the morphology, genetics, physiology, and ecology of bacteria and other microbes. In the laboratory microbiological techniques and applications are stressed. This course meets for three hours of lecture each week and two two-hour laboratory periods per week. This course satisfies either the cell/molecular or organismal elective area. Prerequisites: BIO 110, 111 and CHE 105, 106, or consent of instructor. A student must pass the laboratory portion of any science course to pass the entire course. Fall, even years.

BIO 313 CELLULAR BIOLOGY (4)

This course is an introduction to the biology of all cells with an emphasis placed on eukaryotic cells. Organelles will be studied with attention to their composition, organization, and function. Additional topics to be covered are protein structure/function, bioenergetics, protein sorting, cell communication, and regulation of the cell cycle. The laboratory will emphasize various methods used by cell biologists as powerful tools for examining cell function. This course meets for three hours of lecture each week and one three-hour laboratory each week. Prerequisites: BIO 110, 111 and CHE 105, 106 and junior standing, or consent of instructor. A student must pass the laboratory portion of any science course to pass the entire course. Annually, Spring.

BIO 320 CONSERVATION BIOLOGY (3)

This course examines issues related to understanding and preventing the decline of populations and extinction of species. Lectures will discuss fundamental principles of biodiversity maintenance at the level of species, population, and ecosystems. Students will develop knowledge of both ecological and evolutionary principles related to the topic. This course satisfies the ecology/evolution elective area. Spring, odd years.

BIO 325 FIELD BOTANY (4)

This course is an introduction to the biology of local flora. Lectures will emphasize the taxonomy, ecology, and evolution of the vascular plants. Laboratory periods will be used to acquaint students with plant species and communities in the area and to give them experience with plant identification. This course satisfies either the organismal or ecology/evolution elective area. Prerequisites: BIO 110, 111, or consent of instructor. A student must pass the laboratory portion of any science course to pass the entire course. This course satisfies the organismal or ecology/evolution elective area. Fall, odd years.

BIO 330 INVERTEBRATE BIOLOGY (4)

This course provides an in-depth investigation of the morphology, physiology, phylogeny, taxonomy and natural history of the invertebrate animals, more than 95% of animal species. Lectures will highlight the distinctive features of animal phyla with an emphasis on major innovations in the evolution of animal life. Laboratories will examine the structure, function and identification of invertebrates. Students will be required to prepare an insect collection. This course meets for three hours of lecture and one three-hour laboratory period each week. This course satisfies either the organismal or ecology/evolution elective area. Prerequisites: BIO 110, 111, or consent of instructor. A student must pass the laboratory portion of any science course to pass the entire course. Spring, odd years.

BIO 340 DEVELOPMENTAL BIOLOGY (3)

This course focuses on the fundamental events of embryonic development, with an emphasis on genetic and molecular approaches used in modern experimental embryology. As modern developmental biology employs information and techniques from many different fields of biology, this course provides the challenge of learning and integrating diverse topics in biology, including cell biology, genetics, molecular biology, biochemistry, and evolution. We explore the common features of development that are shared by different kinds of organisms and emphasize how diverse organisms use the same signaling and regulatory molecules during embryogenesis. This course meets for three hours of lecture each week. This course satisfies either the cell/molecular or organismal elective area. Prerequisites: BIO 110, 111, 211 and CHE 105, 106, or consent of instructor. Fall, even years.

BIO 350 ANIMAL BEHAVIOR (3)

This course will examine the evolutionary (ultimate) and mechanistic (proximate) underpinnings of animal behavior in a number of contexts, including foraging, fighting, learning, mating, parental care, and social behavior. Throughout this course students will also examine principles and methods of scientific investigation and communication. This course meets for three hours of lecture each week. This course satisfies either the organismal or ecology/evolution elective area. Spring, even years.

BIO 370 PATHOPHYSIOLOGY (4)

This course is an introduction to the causes and mechanisms of disease. Symptomatic recognition and treatment of disease is discussed in reference to underlying biochemical, genetic, and metabolic malfunctions. Topics covered include diseases at the cellular level, neoplasms, inflammation and repair, hematologic and cardiovascular disorders, disorders of immunity, respiratory, and renal pathology, and diseases of the nervous, muscular, and endocrine systems. The course meets for four hours of lecture per week. This course satisfies either the cell/molecular or organismal elective area. Prerequisites: BIO 307 or equivalent. Same as NSG 370. As needed.

BIO 380-389 SPECIAL TOPICS IN BIOLOGY (1-3)

As needed.

BIO 408 PLANT PHYSIOLOGY (4)

This course provides an introduction to the physiology of plants. Topics will include water relations, photosynthesis, as well as light, hormonal and electrical signals involved in plant growth and development. In addition, the student will be introduced to a number of classic and modern techniques used by researchers studying the physiology of plants. The course meets for four hours of lecture per week. This course satisfies the organismal elective area. Prerequisites: BIO 110, 111 and CHE 105, 106, or consent of instructor. CHE 205 recommended. Fall, odd years.

BIO 410 ANIMAL PHYSIOLOGY (4)

This course provides an introduction to the structure and function of physiological systems in animals. The primary emphasis is on vertebrates, with comparisons drawn from the entire animal kingdom. Topics include a general introduction to principles of physiology, an overview of physiological processes, and the integration of physiological systems. This course meets for three hours of lecture and one three-hour laboratory session each week. This course satisfies the organismal elective area. Prerequisites: BIO 110, 111 and CHE 105, 106, or consent of instructor. CHE 205 recommended. A student must pass the laboratory portion of any science course to pass the entire course. Fall, even years.

BIO 420 COMPARATIVE VERTEBRATE ANATOMY (5)

This course examines the anatomical and physiological adaptations of vertebrates from an evolutionary perspective using lectures and laboratory exercises. Vertebrate diversity is studied from examining all major living clades. An organ systems approach is used to illustrate general structural and functional patterns across different vertebrates. The laboratory portion of the course requires of dissection several representative vertebrates. This course meets for three hours of lecture and for two two-hour laboratory sessions each week. This course satisfies either the organismal or ecology/evolution elective area. Prerequisites: BIO 110, 111, or consent of instructor. A student must pass the laboratory portion of any science course to pass the entire course. Fall, odd years.

BIO 430 ADVANCED GENETICS (4)

Modern genetic techniques have revolutionized the biological sciences, and an understanding of genetics is essential to most fields of biology, from wildlife and conservation biology, to biotechnology and medical research. This course builds upon students' basic understanding of genetics to develop new molecular genetic skills, a better understanding of experimental approaches in genetics, and the ability to access and organize genetic information from the burgeoning bioinformatics databases. The class meets for two three-hour periods each week that will be divided between lecture and laboratory work. In addition, students may be required to work in the laboratory outside of scheduled class time, depending on the nature of the experiments conducted. This course satisfies the cell/molecular elective area. Prerequisites: BIO 110, 111, 210 and CHE 105, 106. Recommended: CHE 205. A student must pass the laboratory portion of any science course to pass the entire course. As needed.

BIO 451 READINGS IN BIOLOGY (2)

This course is a guided reading course that allows students to explore a variety of topics and discuss their understanding and interpretation of biological subjects with their peers. The goal of this course is to allow students to pursue specific topics in more detail, and to develop the skills necessary to critically evaluate and discuss technical literature in biology. The course may be taken up to two times for credit towards the major requirements. This course meets for one two hour discussion period each week. Prerequisites: junior standing. Annually, Spring.

BIO 455 BIOLOGY RESEARCH METHODS (2)

This is the capstone course in biology. It will provide an overview of topics important to biological research and allow students to apply information they have learned throughout the biology curriculum in a research setting. This course focuses on critical analysis of primary literature and data, as well as scientific communication in the form of both writing and presentations. Requires senior level standing. Annually, Spring.

BIO 470 INTERNSHIP IN BIOLOGY (3-8)

No more than four hours of internship may be counted toward a major in biology. As needed.

BIO 480 INDEPENDENT STUDY (1-4)

BUS 303 BUSINESS LAW I (3)

An introduction to law including: its foundations, torts, and topics relevant to business. Most of the course is spent studying modern contract law and its effect on business practice. Each semester.

BUS 304 BUSINESS LAW II (3)

An examination of the law related to: accountant's legal liability; negotiable instruments and banking; principal-agent relationship, employment, proprietorship and partnerships; and corporate formation, governance, and LLCs. Each semester.

BUS 305 LEGAL ASPECTS OF SPORT MANAGEMENT (3)

An examination of the law related to practices of sport management. Examples of topics to be included are: agency, contracts, antitrust, labor, torts, workers compensation, and intellectual property. As needed.

BUS 310 QUANTITATIVE ANALYSIS FOR BUSINESS DECISIONS (3)

A course designed to provide the student with the quantitative tools necessary to make effective business decisions. Areas of study will include: statistical and operations research techniques for decision making and predictive modeling. Prerequisite: MTH 310. Each semester.

BUS 380-389 TOPICS IN BUSINESS ADMINISTRATION (1-3)

As needed.

BUS 410 MANAGEMENT INFORMATION SYSTEMS (3)

Provides an overview of management information systems. MIS explores the structure of information systems needed to support routine processes and major organizational functions, and to make informed management decisions. It emphasizes the digital integration of the firm through enterprise applications, i.e., supply chain management, customer relations, enterprise systems, and the development of knowledge. Prerequisite: MGT 204 and CSI 120 or equivalent. As needed.

BUS 450 BUSINESS STRATEGY AND POLICY (3)

A capstone course designed to further develop the business student's decision making ability through the use of case studies, exercises, and simulations. Students are asked to identify problems, develop alternative solutions, and present the results. Prerequisites: Completion of the Business Core and senior status or consent of the instructor. Each semester.

BUS 470 INTERNSHIP IN BUSINESS ADMINISTRATION (3-8)

BUS 480 INDEPENDENT STUDY IN BUSINESS ADMINISTRATION (1-4)

CHE 100 CHEMISTRY IN THE MODERN WORLD (3)

This course provides the chemical principles imbedded in today's technological issues within a conceptual framework of significant social, political, economic, and ethical issues. Technological issues considered include global warming, ozone hole, acid rain, alternative fuels, air and water pollution, thus focus on one theme, 'the environment'. This course satisfies the science and nature core requirement for non-science majors. Each semester.

CHE 102 CHEMISTRY IN THE MODERN WORLD: LABORATORY (1)

Intended for non-science majors enrolled in CHE 100 needing laboratory credit to satisfy the core curriculum requirement in "Science and Nature." Meets for one three hour period per week. Prerequisite: CHE 100 which may be taken concurrently. Annually, Fall.

CHE 105 COLLEGE CHEMISTRY I (5)

Topics covered in this course are: atomic theory and the electronic structure of atoms, molecules and ions; the periodic table, chemical bonding; molecular geometry and molecular orbitals; physical properties in relation to structure; chemical formulas and equations; the ideal gas law and its uses; solutions (concentration units, principles of solubility); and reactions in aqueous solution (acid-base, precipitation, and redox reactions). Laboratory work is integrated with topics covered in lecture. Four lectures and one three-hour laboratory period per week. Not intended for non-science majors seeking fulfillment of the Science and Nature requirements of the General Education Program. Prerequisites: 1) Successful completion of MTH 133 (or equivalent) with a grade of B or better or consent of instructor 2) One year of high school laboratory chemistry or physics with a grade of B or better or consent of instructor. A student must pass the laboratory portion of any science course to pass the entire course. Annually, Fall.

CHE 106 COLLEGE CHEMISTRY II (5)

Topics covered in this course are: thermochemistry, spontaneity and entropy, chemical equilibrium; kinetics; acid-base equilibria; solubility equilibria; liquids, solids, and intermolecular forces; phase behavior; and physical properties of solutions. Laboratory work is integrated with topics covered in lecture. Four lectures and one three-hour laboratory period per week. Not intended for non-science majors seeking fulfillment of the Science and Nature requirements of the General Education Program. Prerequisite: CHE 105 or equivalent with a grade of C or higher. A student must pass the laboratory portion of any science course to pass the entire course. Annually, Spring.

CHE 150 PRINCIPLES OF ORGANIC CHEMISTRY (4)

This course is concerned with the properties and uses of compounds belonging to the major organic chemical families. The functional group approach is used with an emphasis on those of importance in biochemistry. Four one hour lectures per week. Prerequisites: CHE 105, 106. Annually, Spring. Note: If you are planning to take CHE 151, you should take it concurrently with this course.

CHE 151 PRINCIPLES OF ORGANIC CHEMISTRY LABORATORY (1)

In this course students learn routine techniques involved in working with simple organic compounds. They also carry out basic syntheses and investigate the chemistry of functional groups. Designed to complement CHE 150 Principles of Organic Chemistry. Annually, Spring.

CHE 205 ORGANIC CHEMISTRY I (5)

This course is a study of the structure and nomenclature, and the physical and chemical properties of the hydrocarbons and their derivatives. Four lectures and one four-hour laboratory period per week. Prerequisites: CHE 105 and 106 or equivalent. A student must pass the laboratory portion of any science course to pass the entire course. Annually, Fall.

CHE 206 ORGANIC CHEMISTRY II (5)

This course is a continuation of Chemistry 205 with inclusion of special topics as time permits. IR and NMR methods of analysis are covered. Four lectures and one four-hour laboratory period per week. Prerequisite: CHE 205 with a grade of C or higher. A student must pass the laboratory portion of any science course to pass the entire course. Annually, Spring.

CHE 280 SPECIAL TOPICS IN CHEMISTRY (1-3)

As needed.

CHE 299 PRACTICUM IN CHEMISTRY (1-3)

For students at the sophomore level or above who wish to arrange a practicum in a laboratory or other appropriate direct-experience learning situation in chemistry. Prerequisites: 15 hours of related coursework, grade point average consistent with departmental graduation requirements, and permission of the instructor. No more than eight credit hours combined total for this practicum and any internship may be counted as credit toward the major. As needed.

CHE 300 ANALYTICAL CHEMISTRY/CHEMICAL ANALYSIS (5)

Classical and instrumental methods are applied to chemical analysis. Classical methods are gravimetric, volumetric, and chromatographic. Instrumental methods are spectroscopic (IR, UV/VIS, and laser methods), chromatographic (HPLC and GC/MS), and electrochemical (conductometry and potentiometry). Four lectures and one four hour laboratory period per week. Prerequisites: CHE 105, CHE 106, MTH 210. A student must pass the laboratory portion of any science course to pass the entire course. Spring, odd years.

CHE 303 PRINCIPLES OF PHYSICAL CHEMISTRY (4)

This course is designed to give an overview of the fundamental concepts and theories of thermodynamics, equilibrium, kinetics, and quantum mechanics. Four one-hour lectures per week. Prerequisites: CHE 106 and MTH 211 or concurrent enrollment. Fall, even years.

CHE 305 PHYSICAL CHEMISTRY I (5)

A course which develops in detail many of the fundamental concepts used in chemistry. Topics include the study of gases, thermodynamics, thermodynamic properties of liquids and solids, the nature of electrolytes,

phase equilibria, and chemical equilibria. Four lectures and one four hour laboratory period per week. Prerequisite: CHE 105, 106, MTH 211, PHY 211, 212 or concurrent enrollment. A student must pass the laboratory portion of any science course to pass the entire course. Fall, odd years.

CHE 306 PHYSICAL CHEMISTRY II (5)

A continuation of Chemistry 305 discussing theories of chemical bonding and molecular structure, spectroscopy, chemical kinetics, quantum mechanics, and molecular energies. The laboratory component includes laser methods to confirm the predictions of quantum mechanics about chemical bonding and molecular energy levels. Four lectures and one four hour laboratory period per week. Prerequisite: CHE 305, MTH 212 or concurrent enrollment. A student must pass the laboratory portion of any science course to pass the entire course. Spring, even years.

CHE 380-389 SPECIAL TOPICS IN CHEMISTRY (1-3)

Prerequisite: Consent of instructor. Annually, Spring.

CHE 470 INTERNSHIP IN CHEMISTRY (3-8)

CHE 480 INDEPENDENT STUDY IN CHEMISTRY (1-4)

CHE 491 JUNIOR SEMINAR IN CHEMISTRY (W) (3)

Students develop scientific reasoning and critical thinking skills required for writing, presenting and editing research papers. They complete a multifaceted research project using an online virtual lab to provide them with the experience of developing their own research project proposals. After choosing their thesis topic and completing a full literature review, they present their proposed senior thesis projects both in written and oral form with justification of their hypothesis. This course meets for one 2-hour presentation/discussion period. Prerequisites: Chemistry major, junior standing. Annually, Spring.

CHE 493A SENIOR RESEARCH IN CHEMISTRY I (W) (3)

Students design, set up, and carry out laboratory-based research in chemistry on the senior research projects they proposed in the previous semester under the guidance of a faculty member. They report and present both written and oral weekly progress reports on their experimental projects. Prerequisite: CHE 491. The class meets for one 3-hour period. Annually, Fall.

CHE 493B SENIOR RESEARCH IN CHEMISTRY II (W) (2-4)

This course is a continuation of CHE 493A so that students have an opportunity to complete their research projects started the previous semester. They write a research paper based on analysis and interpretation of their experimental results under the guidance of a faculty member. Consideration is given to possible submission to a journal in the field. Oral presentations to the campus community may be given as opportunities arise. Class meets for one 2-hour period. Prerequisite: CHE 493A. Annually, Spring.

CSI 101 INTRODUCTION TO WORD PROCESSING (1)

The fundamentals of word processing will be presented. Different sections will be offered providing students with the opportunity to learn word processing. As needed.

CSI 102 INTRODUCTION TO ELECTRONIC SPREADSHEETS (1)

The fundamentals of electronic spreadsheets will be presented. Different sections will be offered providing students with the opportunity to learn the use of spreadsheets. As needed.

CSI 103 INTRODUCTION TO DESKTOP PUBLISHING (1)

The fundamentals of desktop publishing will be presented. Different sections will be offered providing students with the opportunity to learn desktop publishing techniques. As needed.

CSI 104 INTRODUCTION TO PRESENTATION GRAPHICS (1)

The fundamentals of presentation graphics will be presented. Different sections will be offered providing students with the opportunity to learn presentation graphic production with different software packages. As needed.

CSI 105 INTRODUCTION TO DATABASE MANAGEMENT (1)

The fundamentals of database systems will be presented. Different sections will be offered providing students with the opportunity to learn a database software package. As needed.

CSI 106 INTRODUCTION TO OPERATING SYSTEMS (1)

The fundamentals of operating system use will be presented. Different sections will be offered providing students with the opportunity to learn the use of an operating system with different computer systems such as Windows 95, UNIX, and the Macintosh. As needed.

CSI 107 INTRODUCTION TO COMPUTER NETWORKS (1)

The fundamentals of accessing and using computer networks will be presented. Topics may include software and tools for electronic mail, file transfer, terminal access, web browsing, web page creation, and real-time computer communication. As needed.

- CSI 108 INTRODUCTION TO STATISTICS SOFTWARE (1)**
The fundamentals of using computer statistical software packages will be presented. Different sections will be offered providing students with the opportunity to learn different statistical packages such as Minitab, SAS, and SPSS. As needed.
- CSI 109 SPECIAL TOPICS IN COMPUTER USE (1-3)**
This course addresses topics related to the use of specific software packages and/or systems to explore issues related to a variety of academic disciplines. As needed.
- CSI 110 ADVANCED SPSS (1)**
This course will review basic SPSS analyses including t-tests, correlations, and ANOVAs. Regressions, factor analyses, reliability analyses, and other analyses will be introduced. Students will engage in hypotheses testing and statistical analyses with various data sets. Prerequisite: CSI 108. As needed.
- CSI 111 WEB DESIGN USING MS FRONTPAGE (1)**
The fundamentals of Web Page design are presented using MS FrontPage software. Students will master the basic fundamentals of web site creation and web page design suitable for personal and professional use, as well as how to publish and manage a web site accessible by the Internet. Prerequisites: Consent of Instructor. As needed.
- CSI 120 COMPUTER CONCEPTS AND APPLICATIONS (3)**
This course is intended to provide students with a general perspective on computers and their role and other technology related areas. The course provides an introduction to various common software packages (for example, word processors, spreadsheets and presentation graphics), a history of computers, basic hardware components, commonly used number systems, logic, and algorithmic development. The course includes a required 2 hour laboratory component. Each semester.
- CSI 130 INTRODUCTION TO COMPUTING I (4)**
An introduction to computing, programming and problem solving. Topics to be discussed include computer organization, data and information processing, computer networks, user interfaces, professional disciplines in computing, basic programming and software design techniques. Primary emphasis is on problem solving with computers. This course includes a required 2-hour lab meeting each week. Each semester. Prerequisite: High School Algebra proficiency or any 3 credit hour math course at the level of MTH 133 or higher.
- CSI 140 INTRODUCTION TO PROGRAMMING USING JAVA (4)**
This course focuses on an intense introduction to the practice of programming. Topics discussed include problem solving strategies, algorithmic development, quality programming practices, and the implementation of algorithms using the Java programming language. Constructs of the Java language covered include but are not limited to loops, decision statements and classes. Prerequisite: CSI 121 and MTH 133 or equivalent. As needed.
- CSI 150 COBOL PROGRAMMING I (3)**
The rules for writing programs in the COBOL programming language are introduced. Students will learn a structured approach of program design and will write programs from coding charts that they prepare. Prerequisite: CSI 130. Annually, Fall.
- CSI 201 APPLIED INFORMATION TECHNOLOGY (0--5)**
Description: This course will focus on topics related to the administration of information technology systems. Topics vary each semester. Subjects could include, but not be limited to hardware maintenance, life cycle management of hardware and software, shell scripting, system backup, system replication and basic networking. May be repeated for credit 4 times. Prerequisite: CSI 130 and consent of instructor. As needed.
- CSI 220 INTRODUCTION TO PROGRAMMING LANGUAGE (3)**
This course will introduce and explore the syntactic rules and essential concepts necessary for writing programs in a selected programming language. Specific languages will vary depending upon demand and perceived importance in the fields of computing. Prerequisite CSI 130. As needed.
- CSI 230 INTRODUCTION TO COMPUTING II (4)**
An introduction to software design techniques necessary for writing programs of moderate complexity. The course provides a thorough coverage of control structures, functions and arrays. File input and output, pointers, and recursive functions are introduced. Primary emphasis is on object oriented programming including the development of classes, inheritance, operator overloading and polymorphism. This course includes a required 2 hour lab component. Prerequisite: CSI 130. Each semester. IAI-CS911
- CSI 235 MATHEMATICS OF COMPUTING (3)**
This course covers mathematical topics necessary for understanding concepts in computer science. Topics include sets, relations, functions, Boolean algebras, switching circuits, number theory, induction, recursion, solving recurrences, introduction to pseudo-code, probability, elementary counting techniques, and graphs. May not be taken for credit towards a major in mathematics. Prerequisite:, Any 3 credit hour math course at the level of MTH 133 or higher Annually, Spring. IAI-CS915

McKendree University 2013/2014 Undergraduate Catalog

CSI 240 INTRODUCTION TO COMPUTER SYSTEMS (4)

The course focuses on the operation and administration of the computer and its role in information systems. The course introduces topics common to all operating systems such as CPU scheduling, memory management, and virtual memory. This course covers an introduction to computer architecture and organization including memory organization, processor architecture and instruction sets. This course cannot be used for credit in CS or CIS. Prerequisite: CSI 250 or 230 or 140 or equivalent, and CSI 121. As needed.

CSI 250 COBOL PROGRAMMING II (3)

Advanced COBOL language concepts are studied such as file manipulations and sorting. Students write programs for business-related applications. Prerequisite: CSI 150. Annually, Spring.

CSI 260 EVENT DRIVEN PROGRAMMING (3)

This course is an introductory course in event-driven programming. It focuses on designing programs and systems that contain effective Graphical User Interfaces for computer users. Platforms for development will include the use of tools such as Visual Basic, web based html forms, or the Java Abstract Windowing Toolkit. Prerequisite: CSI 130. Annually spring.

CSI 280-289 SPECIAL TOPICS IN COMPUTING AND INFORMATION SYSTEMS (3)

As needed.

CSI 295 SYSTEMS ANALYSIS (W) (3)

The course presents the concepts, methodologies, and tools required for the successful analysis of information systems. It covers the first half of the systems development life cycle, from determining the systems requirements through selecting the best alternative design strategy. Prerequisite: CSI 250 or 230. Fall, even years.

CSI 299 PRACTICUM IN COMPUTING (1-3)

For students at the sophomore level or above who wish to arrange a practicum in a laboratory or appropriate business learning environment in computer science. Prerequisites: 15 hours of related coursework, grade point average consistent with departmental graduation requirements, and permission of the instructor. Note: No more than 9 credit hours combined total for this practicum, any internship, or any independent study may be counted toward the major.

CSI 300 COMPUTER ORGANIZATION AND ARCHITECTURE (3)

This course concentrates on the relationship between computing hardware and machine language instruction sets as well as introductory digital electronics. The course examines logic gates, machine language and assembly language. Students will also study digital electronics, computer circuit design with small and medium scale integrated circuits. Several computer systems and microprocessors are used as examples. Prerequisite: CSI 230 and CSI 235. Annually, Fall.

CSI 315 SYSTEMS DESIGN (3)

This course continues the discussion of the systems development life cycle begun in CSI 295, and covers the concepts, methodologies, techniques and tools required for the effective development and implementation of information systems. Prerequisite: CSI 295. Spring, odd years.

CSI 320 INFORMATION TECHNOLOGY MANAGEMENT (3)

This course emphasizes special management considerations as they relate to data processing environments. Types of data processing organizations and options for their internal structure will be addressed. Internal functions and related aspects of data processing from planning through the life cycle of an automated facility are addressed. Prerequisite: CSI 295 and MGT 204. As needed.

CSI 325 ELECTRONIC COMMERCE (3)

This course offers a practical review of e-commerce and e-business issues. It covers the infrastructure, alternative business models, opportunities, challenges, and pitfalls. Both the relevant technologies and business issues will be discussed and amply exemplified. Prerequisite: CSI 295 and MGT 204 or consent of instructor. Fall, odd years.

CSI 330 DATA STRUCTURES AND ALGORITHMS (3)

A study of common and useful data structures such as lists, stacks, queues, trees, graphs and variations of these structures along with the essential and necessary algorithms to manipulate these structures. Algorithms to be covered will include searching, and sorting techniques, data traversals, graph algorithms, numerical algorithms, string algorithms and hashing. Prerequisite: CSI 230 and CSI 235 or MTH 375. Annually, Fall. IAI-CS912

CSI 335 ANALYSIS OF ALGORITHMS (3)

This course introduces the student to tools and techniques necessary in the analysis of algorithms. The course includes a systematic study of algorithms and their complexity with application to searching and sorting, pattern matching, geometric and graph algorithms, NP-complete and intractable problems. The

student will study mathematical concepts including summations, recurrence relations, introductory number theory, binomial coefficients, and generating functions. Prerequisite: CSI 330 and MTH 210. Fall, even years.

CSI 345 THE STRUCTURE OF OPERATING SYSTEMS (3)

The hardware and software requirements for modern operating systems is studied. Topics include operating system services, file systems, CPU scheduling, deadlock, memory management, virtual memory, disk scheduling, and concurrent programming. Prerequisite: CSI 300 and CSI 330. Spring, odd years.

CSI 366 NUMERICAL ANALYSIS (3)

An introductory course in numerical methods, including computational techniques for locating roots of equations, interpolation, differentiation, integration, approximation, and systems of linear equations; to include detection, prediction and control of computational errors. Problem solving using mathematical software and the design of algorithms is stressed. Prerequisite MTH 212 and CSI 230; Same as Math 366. As needed.

CSI 369 SOCIAL, LEGAL AND ETHICAL ISSUES OF COMPUTING (W) (3)

This course addresses the ethical, legal and social issues which affect those involved in modern computing. specific topics will vary from semester to semester but general topics will include issues of privacy, security and crime as they relate to computing. Prerequisite: Minimum of 12 hours of completed units in CSI or permission of the instructor. Fall, even years.

CSI 380-389 SPECIAL TOPICS IN COMPUTING AND INFORMATION SYSTEMS (3)

As needed.

CSI 410 SOFTWARE ENGINEERING (W) (3)

This course provides students with an opportunity to work on large-scale, group programming projects. Topics will include tools for large-scale design, documentation techniques, programming paradigms (e.g. Object Oriented Programming) and portability issues. Prerequisite: CSI 330. Fall, odd years.

CSI 415 DATABASE MANAGEMENT SYSTEMS (3)

Database concepts, design, languages, implementation and administration are addressed. Topics will include the hierarchical, network and relational models. Students will explore various operations including creation, retrieval and updates of data. Prerequisite: minimum of 15 credit hours of CSI courses. Annually, Fall.

CSI 420 THEORY OF PROGRAMMING LANGUAGES (3)

This course examines the organization of programming languages, with emphasis on design concepts such as language definition structures, semantics, procedural, functional, object-oriented and logic programming. The major features of several programming languages will also be discussed. Prerequisite: CSI 330. As needed.

CSI 425 WEB PROGRAMMING (3)

This course will investigate the use of programming tools that are useful in developing web-based applications. A portion of the course will examine client side scripting using tools such as JavaScript or Java applets. However, the focus will be on server side tools such as Java servlets, Perl cgi programs or php scripts. The student will study how to use these programs to interact with a database system. Standard encryption methods for web-based applications such as the use of SSL, the secure socket layer, will also be presented. Students will develop various projects that illustrate these points throughout the semester. Prerequisite: minimum of 15 credit hours of CSI courses including CSI 260. Spring, even years.

CSI 430 COMPUTER GRAPHICS AND USER INTERFACE DESIGN (3)

This course will introduce the student to programming techniques necessary for the production of programs which produce graphical images and/or use a graphical interface. Students will produce programs which use interactive graphics and will study the necessary theory which underlies modern graphical programming. Topics will include drawing algorithms, matrix manipulations, 2D and 3D rendering techniques, color models, user interface concepts, interactive graphics and animation techniques. Prerequisite: CSI 330. Spring, odd years.

CSI 435 FORMAL LANGUAGES AND AUTOMATA (W) (3)

This course examines the fundamental limitations and properties of computation. Students will explore various models of computation including regular expressions, finite state machines, context-free grammars, push-down automata and Turing machines. Classes of languages including regular languages, context-free languages, recursive languages and RE languages will also be explored. Same as MTH 435. Prerequisite: CSI 330, MTH 375, ENG 360. As needed.

CSI 440 ARTIFICIAL INTELLIGENCE (3)

A study of the techniques and issues related to the study of Artificial Intelligence. Software design techniques and algorithms specific to AI will be covered including neural networks, decision trees, game trees, probabilistic algorithms, rule-based systems, and search strategies. Applications are examined in game playing, pattern recognition, robotics, machine perception, expert systems, natural language understanding and machine learning. Prerequisite: CSI 330. Spring, even years.

CSI 450 COMPUTER NETWORKING AND COMMUNICATIONS (3)

This course concentrates on typical hardware interfaces, programming methods, and communication protocols. Topics considered in detail include electrical interfaces, data transmission, protocol basics, LAN's, WAN's, bridged networks, interworking, and application support. Prerequisite: CSI 300 or consent of instructor. Annually, Fall.

CSI 451 BUSINESS DATA COMMUNICATIONS (3)

This course presents a survey of fundamental data communications concepts from a business management perspective. Topics covered include networking, distributed applications, network management, security, and the use of the Internet, intranets, and extranets. Prerequisite: BUS 410 and CSI 121. As needed.

CSI 465 COMPILER DESIGN (3)

The analysis of source code, generation of object code, and the techniques of syntax analysis, symbol table construction, and error checking are considered. Students will work on a semester project to produce a high level language compiler. Prerequisite: CSI 345. Spring, even years.

CSI 470 INTERNSHIP IN COMPUTING AND INFORMATION SCIENCE (3-8)

No more than three hours of this course may be applied towards the major.

**CSI 480 INDEPENDENT STUDY IN COMPUTING
AND INFORMATION SCIENCE (1-3)**

No more than three hours of this course may be applied toward the major.

CSI 490 SENIOR SEMINAR IN COMPUTING AND INFORMATION SCIENCE (3)

This capstone course requires that students design and implement a project. Projects will involve current topics in computing and information science and incorporate material from several of the courses required for their major. Projects will be researched and documented. Each student will lead a class discussion and make a formal presentation about their project. Prerequisites: Senior standing in Computing and 21 CSI credit hours. Annually, Spring.

DAN 110 BEGINNING MODERN DANCE (3)

Beginning modern dance will focus on presenting the fundamental terminology, philosophy, and basic movement required for the modern dance style. The course also introduces developing a system of fundamental movements to prepare the body for other types of dance. A brief overview of the evolution and history of modern dance will also be presented. As needed.

DAN 120 BEGINNING BALLET (3)

This course will present the fundamental terminology, philosophy, and basic movement required for the novice student to participate in ballet. A brief overview of the evolution and history of ballet will also be presented. As needed.

DAN 130 BEGINNING JAZZ DANCE (3)

This course will present the fundamental terminology, philosophy, and basic movement required for the novice student to participate in basic jazz dance. A brief overview of the evolution of jazz dance will also be presented. As needed.

DAN 180-189 SPECIAL TOPICS IN DANCE (1-3)

As needed.

DAN 200 DANCE ENSEMBLE (0-1)

Dance Ensemble is a performance-based ensemble which will incorporate ballet, jazz, modern dance and other dance styles. Students will play a role in the choreography, staging and other creative elements included in the planning and preparing to present a dance concert. Prerequisite: Permission of instructor. As needed.

DAN 210 INTERMEDIATE / ADVANCED MODERN DANCE (3)

Intermediate / Advanced Modern Dance is an in-depth study of the terminology, philosophy, and more advanced movement required for the modern dance style. The focus of this course will be the performance of modern dance techniques and styles. Current practices and trends involving modern dance will also be studied. Prerequisite: DAN 110. As needed.

DAN 220 INTERMEDIATE / ADVANCED BALLET (3)

Intermediate/Advanced Ballet is an in-depth study of the terminology, philosophy, and more advanced movement required for the ballet. This course will focus on the performance of ballet techniques and styles. Past and current practices and trends involving ballet will also be introduced. Prerequisite: DAN 120. As needed.

DAN 280-289 SPECIAL TOPICS IN DANCE (1-3)

As needed.

Course Descriptions

- DAN 350 DANCE COMPOSITION (3)**
Dance Composition delves deeply into kinesiology, choreography, staging, and the theory associated with the creation of a dance routine. Students will be required to create and teach a portion of the dance concert. Students are required to take DAN 200 at the same time as DAN 350. Prerequisites: DAN 200, DAN 210, DAN 220. As needed in conjunction with DAN 200.
- DAN 380-389 SPECIAL TOPICS IN DANCE (1-3)**
As needed.
- DAN 480 INDEPENDENT STUDY IN DANCE (1-4)**
As needed.
- ECO 211 PRINCIPLES OF MICROECONOMICS (3)**
Analysis of individual decision making and the firm's decision making regarding the allocation of resource inputs and pricing of outputs. Each semester. IAI-S3902
- ECO 212 PRINCIPLES OF MACROECONOMICS (3)**
Introduction to major areas of macroeconomic theory and policy. Topics include national income, fiscal policy, monetary policy, international trade and economic growth. Prerequisite: ECO 211. Each semester.
- ECO 309 MONEY AND BANKING (3)**
An introduction to monetary standards and theories, commercial banking structure and operations, monetary and fiscal policy implementation, central banking and the Federal Reserve System. Prerequisites: ECO 211 and 212. Same as FIN 309. Annually, Fall.
- ECO 320 ECONOMICS OF SPORT (3)**
A course in the principles of the economics of sport. Typical topics include: the relationship of sports to the economy; an examination of demand, revenue, and profit; the market for sports broadcast rights; franchise issues; athlete pay; and labor disputes. Prerequisite: ECO 211. Fall, odd years.
- ECO 333 ENVIRONMENTAL ECONOMICS (3)**
Description: This course applies economic principles to issues pertaining to natural resources and the environment. This is accomplished through the analysis of existing and proposed policies and regulations on the use of natural resources as well as their effects on the environment. Prerequisite: ECO 211. Fall, even years.
- ECO 351 LAW AND ECONOMICS (3)**
The focus of this course is the intersection between principles of economics and the role of law as a guiding force for human behavior. The approach is to consider various legal topics from a microeconomic point of view. Legal topics are selected from among regulation of markets, legal procedure, tort, criminal, property, contract, tax, and corporate law. Prerequisite: Econ 211. As needed.
- ECO 352 LABOR ECONOMICS (3)**
Modern labor issues like labor markets, wages and fringe benefits, human capital, income distribution, labor unions and collective bargaining are studied. Prerequisite: ECO 211. Annually, Spring.
- ECO 353 MANAGERIAL ECONOMICS (3)**
Application of microeconomics to managerial and organizational decision making. Strong emphasis is placed on student problem solving and case analysis. Prerequisites: ECO 211 and 212. It is desirable for students to have completed MTH 310. Annually, Fall.
- ECO 380-389 TOPICS IN ECONOMICS (1-3)**
As needed.
- ECO 410 ECONOMETRICS (3)**
This course is an introduction to quantitative modeling of economic and financial information. The course will teach modeling techniques with an emphasis on applying these tools to make informed business and economic decisions. The course will include a discussion of statistical models, their underlying assumptions and properties, how to test whether these assumptions are met and how to address violations of these assumptions. Prerequisites: MTH 310 and either ECO 211 or ECO 212. Spring, odd years.
- ECO 450 CURRENT ECONOMIC ISSUES (W) (3)**
Focus on the role of markets in guiding human behavior. Emphasis will be on the market view point of selected issues such as Social Security, minimum wage, outsourcing, alternative energy, and education vouchers. This is a capstone course for all economics majors in the College of Arts and Sciences. Prerequisites: ECO 211 and 212. As needed.
- ECO 470 INTERNSHIP IN ECONOMICS (3-8)**

ECO 480 INDEPENDENT STUDY IN ECONOMICS (1-3)

EDU 115 TECHNOLOGY IN THE CLASSROOM (3)

This course provides an overview of computer applications and models of educational technology uses for the classroom. Students will be able to integrate the use of technology in the K-12 curriculum. Course activities include the use of word processing, spreadsheet, and presentation programs, educational software, and Internet research. This course includes two lecture and two lab hours. This course fulfills the general studies technology requirement only for teacher education students. Each semester.

EDU 210 FOUNDATIONS OF AMERICAN PUBLIC EDUCATION (W) (3)

This course is an introduction to the foundations of American education and the profession of teaching. School organization, history and philosophy of education, and legal issues are explored through classroom discussion and direct observation in K-12 school settings. This course includes a 24 hour eight-week field component that requires weekly observations in assigned school settings. Prerequisite: Sophomore standing and completion of ENG 112. Each semester.

EDU 309 METHODS OF TEACHING IN ELEMENTARY SCHOOLS (ELEMENTARY) (3)

This course prepares elementary school teachers with strategies to organize classes and foster learning. These include effective teaching models, classroom management strategies, teacher expectations, research, inquiry learning, learning and teaching styles, development of lessons and strategies to meet the Illinois Goals and Assessment Program, parent involvement strategies, and conflict resolution models. A 36 hour six-week field experience is a course requirement. Prerequisite: Admission to Teacher Education. Prerequisite or concurrent enrollment in EDU 358 and EDU 429. Each semester.

EDU 310 METHODS OF TEACHING IN SECONDARY SCHOOLS (SECONDARY) (3)

This course prepares middle and secondary school teachers with strategies to organize classes and foster learning. These include effective teaching models, classroom management strategies, teacher expectations, research, inquiry learning, learning and teaching styles, development of lessons and strategies to meet the Illinois Goals and Assessment Program, parent involvement strategies, and conflict resolution models. A 36 hour six-week field experience is a course requirement. Prerequisite: Admission to Teacher Education. Prerequisite or concurrent enrollment in EDU 358. Each semester.

EDU 311 METHODS OF TEACHING IN SPECIAL AREAS (SPECIAL K-12) (3)

This course prepares teachers in Special K-12 content areas with strategies to organize classes and foster learning. These include effective teaching models, classroom management strategies, teacher expectations, research, inquiry learning, learning and teaching styles, development of lessons and strategies to meet the Illinois Goals and Assessment Program, parent involvement strategies, and conflict resolution models. A 36 hour six-week field experience is a course requirement. Prerequisite: Admission to Teacher Education. Prerequisite or concurrent enrollment in EDU 358. Each semester.

EDU 350 EDUCATIONAL PSYCHOLOGY (3)

An examination of the major theories of teaching, learning, classroom management strategies, assessing student variability and cultural diversity. Students explore the practical applications of the major theories at the elementary, middle school and secondary school levels. Same as PSY 350. Prerequisite for all majors: PSY 153 and junior standing. Each semester.

EDU 355 PSYCHOLOGY OF INSTRUCTIONAL STRATEGIES (3)

An examination of a variety of instructional strategies, the purposes they serve, and the psychological foundations on which they were formulated. There is an emphasis on the way in which these strategies interact with cognitive thinking, personality preferences, course content, and learning styles. Same as PSY 355. As needed.

EDU 358 TESTS AND MEASUREMENTS (3)

Classroom application of theory relating to the foundations of testing and measurement. Includes instructional objectives, cognitive taxonomy, test construction, analysis and reporting of test results, basic educational statistics, and performance-based assessment and the use of tests and assessments in education. Strategies to meet the needs of the culturally different student will be addressed. Concurrent enrollment in EDU 210 or EDU 309/310/311. Each semester.

EDU 380-389 TOPICS IN EDUCATION (1-3)

This course addresses special topics in education that are not ordinarily covered by other courses offered by the division. Courses offered may include current issues in education such as assessment, evaluation, gifted education, multi-cultural diversity, etc. Prerequisite: Admission to the Teacher Education Program or consent of the instructor. As needed.

EDU 401 METHODS OF TEACHING FINE ARTS (ELEMENTARY) (3)

This course prepares students with the understanding, concepts, techniques and materials of the visual arts, music, drama and dance. Students understand the cultural dimensions of the arts and the interrelationships among the art forms. Students are given the tools to promote artistic development, appreciation and performance. Students will be able to use various tools, including technology, to create, analyze and perform works of art. Prerequisite: EDU 309, Completion of General Studies Fine Arts Requirement and Admission to the Teacher Education Program. Each semester.

EDU 402 METHODS OF ART EDUCATION (SPECIAL K-12) (3)

This course is designed to introduce the prospective art teacher to the methods and materials used in art instruction in grades K-12. Sequential development of skills in various media and appreciation of artistic expression is emphasized. Teaching strategies and behavior management programs will be shared. Ways to approach instruction for the culturally diverse student and exceptional child are discussed and demonstrated. This course should be taken during the semester preceding student teaching. A 48 hour eight-week field experience is a course requirement. Prerequisite: EDU 311, Admission to the Teacher Education Program. Fall semester.

EDU 403 MIDDLE SCHOOL: PHILOSOPHY AND PRACTICES (3)

Examines ideas and practices pertaining to middle school teachers. Required course for the Illinois middle school endorsement on elementary and/or secondary certificate. Focuses on middle school philosophy, curriculum and instruction, and current practices. Includes instructional methods for designing and teaching developmentally appropriate content programs in middle schools including content area reading instruction. Examines organization and scheduling procedures as well as team teaching components. Complements knowledge acquired from methods courses and examines their application to middle school ideas and practices or upper elementary grades and junior high schools. Scheduled visits to area middle schools may be included as part of the course activities. Prerequisite: Admission to the Teacher Education program. Each semester.

EDU 404 EARLY ADOLESCENTS AND SCHOOLING (W) (3)

Focuses on the developmental characteristics of early adolescents, the nature and needs of early adolescents. Includes the advisory role of the middle grade (5-8) teacher in providing appropriate guidance as well as in assessing, coordinating and referring students to health, social services and other related services. Study the development of youth of the middle school grades (5-8) and ages (10-14). Required course for the Illinois middle school endorsement on elementary and/or secondary certificate. Complements the knowledge acquired from Education 350 Educational Psychology and Psychology 406 Psychology of the Exceptional Child. Same as PSY 404. Prerequisite for Education majors: Admission to the Teacher Education Program, PSY 153, and junior standing. Each semester. (NOTE: EDU 404 meets one of the two I.S.B.E. requirements for the Middle School Endorsement. PSY 404 may be applied as part of a psychology major or concentration. This cross-listed course cannot be counted for both areas.)

EDU 407 WORKSHOPS (1)

An intensive course for 5 days (or equivalent) presented by guest instructors and regular staff members. Does not count toward a major. As needed.

**EDU 412 METHODS OF TEACHING READING IN THE CONTENT AREA
(SECONDARY/SPECIAL K-12) (3)**

This course focuses on methods to enable interaction with content texts. Emphasis is on strategies for teaching vocabulary, concepts, comprehension, reasoning, and organization in specialty subject areas at the secondary and special (K-12) levels. Prerequisite: Admission to the Teacher Education Program.

EDU 418 INTRODUCTION TO DRIVER EDUCATION (3)

This course will present the content for the classroom phase of Driver Education as well as materials and methods for instruction. Prerequisite: Admission to the Teacher Education Program. Summer.

EDU 419 ADVANCED DRIVER EDUCATION (2)

This course will have a 15 hour behind-the-wheel (BTW) observation requirement with a qualified driver education instructor. Methods for BTW instruction using dual control vehicle in variety of driver training lessons. Prerequisite: Admission to the Teacher Education Program and EDU 418. Summer.

EDU 429 CHILDREN'S LITERATURE (3)

A thorough foundation of the genres of children's literature is taught as a basis for literacy and curriculum in the elementary classroom. Particular emphasis is given to the various reader response methods associated with using children's literature in the classroom. In addition, the Caldecott, Newbery, and Coretta Scott King award winners are explored while other pieces are evaluated in terms of selecting high quality literature for the classroom. The history of children's literature, censorship and the use of multicultural literature are just a few of the additional topics covered in this course. Students are expected to implement new knowledge during the field experience portion associated with EDU 309. Concurrent enrollment in EDU 309. Prerequisite: Admission to the Teacher Education Program. Each semester.

EDU 430 METHODS OF TEACHING READING (ELEMENTARY) (W) (3)

This course is designed to familiarize future teachers with the theoretical background, research base, and practical information needed to provide for a balanced perspective in the teaching of reading. Students will learn and practice the major approaches to reading instruction and assessment. Emergent literacy and content area reading strategies will be included. Methods for adapting instruction for the exceptional, disadvantaged and culturally different child will be included. A 48 hour eight-week field experience for the EDU 430/445/446 block is a course requirement. Prerequisite: Admission to the Teacher Education Program and EDU 441 and 442. Concurrent enrollment in EDU 445/446 block. Each semester.

EDU 441 METHODS OF TEACHING MATHEMATICS (ELEMENTARY) (3)

Students will learn and practice the basic techniques of teaching mathematics to children in grades K-6. Diagnostics, remediation, and sequential development of concepts will be stressed. Effective use of instructional materials, including the computer and calculator, will be emphasized. Methods of teaching mathematics to the exceptional, disadvantaged, and culturally different child will be included. Prerequisite: Admission to the Teacher Education Program and EDU 309. Concurrent enrollment in EDU 442. Each semester.

EDU 442 METHODS OF TEACHING SCIENCE (ELEMENTARY) (3)

Students will examine the basic areas of physical and biological science through inquiry, experimentation and demonstrations that can be used in the elementary classroom to explore scientific concepts. Methods of teaching science to the exceptional, disadvantaged, and culturally different child will be included. Prerequisite: Admission to the Teacher Education Program and EDU 309. Concurrent enrollment in EDU 441. Each semester.

EDU 445 METHODS OF TEACHING LANGUAGE ARTS (ELEM) (3)

This course acquaints teacher candidates with the theory and practice of the elementary language arts through exploration of instructional strategies for communication skills: listening, speaking, reading, and writing. An emphasis on developing certain strategies for oral and written language across the curriculum through theme cycles is emphasized. Technology and multicultural infusion are stressed. Strategies for teaching these subject areas to the exceptional, disadvantaged and culturally different child are included. Prerequisite: Admission to the Teacher Education Program and EDU 441 and 442. Concurrent enrollment in EDU 446 and EDU 430. A 48 hour eight-week field experience for the EDU 430/445/446 block is a course requirement. Each semester.

EDU 446 METHODS OF TEACHING SOCIAL SCIENCE (ELEM) (3)

This course is designed to introduce teacher candidates to social science education in the elementary school. Through a variety of models, with an emphasis on the discovery methods, candidates will explore various techniques of teaching social sciences. Candidates will discover strategies for problem solving using guided research, technology, questioning processes, and trial and error methods by exploring a social or community issue. Prerequisite: Admission to the Teacher Education Program and EDU 441 and 442. Concurrent enrollment in EDU 445 and EDU 430. A 48 hour eight-week field experience for the EDU 430/445/446 block is a course requirement. Each semester.

EDU 451 METHODS OF TEACHING PHYSICAL EDUCATION (K-12) (3)

Physical Education candidates develop knowledge and skills for planning, implementing and evaluating appropriate effective physical education progressions and programs for grades K-12. The course will focus on knowledge skills related to effective instructional strategies, efficient management and organizational principals, and motivational techniques specific to teaching physical education. Does not count toward a major in Physical Education. A 48 hour eight-week field experience is a course requirement. This course should be taken during the semester preceding student teaching. Prerequisite: EDU 311, Admission to the Teacher Education Program. Annually, Fall.

EDU 452 METHODS OF TEACHING SCHOOL HEALTH (6-12) (3)

An introduction to current teaching methods, strategies, and materials for use in grades 6-12 health education. Instructional strategies appropriate for the exceptional, disadvantaged, and culturally different learner are included. A 48 hour eight-week field experience is a course requirement. This course should be taken during the semester preceding student teaching. Prerequisite: HPE 158, Admission to the Teacher Education Program, EDU 310. Fall, odd years.

EDU 460 MOVEMENT CONCEPTS FOR ELEMENTARY TEACHERS (2)

This course provides elementary education majors with exposure to movement and physical fitness concepts as well as to types of individual and team activities which help elementary students develop active life styles and an improved quality of life. Prerequisite: Admission to the Teacher Education Program. Each semester.

EDU 471 METHODS OF TEACHING SOCIAL STUDIES (SECONDARY) (3)

A discussion of current methods, trends and concepts in teaching the social sciences. Emphasis is given to the development of appropriate objectives and to reviewing curricular and instructional materials for teaching of the disciplines of the social sciences. Required of all teaching majors in history and social science. Instructional methods appropriate for the exceptional, disadvantaged, and culturally different learner will be included. Knowledge of and appreciation for cultural diversity is stressed. Does not count toward a

major, and cannot be used to satisfy a core curriculum requirement. This course should be taken during the semester preceding student teaching. A 48 hour eight-week field experience is a course requirement. This course should be taken during the semester preceding student teaching. Prerequisite: EDU 310, Admission to the Teacher Education Program. Annually, Fall.

EDU 472 METHODS OF TEACHING SCIENCE (SECONDARY) (3)

A review of current teaching methods and strategies of science programs at the secondary level. Emphasis is placed upon inquiry approaches and appropriate curricular and instructional materials. Required of all teaching majors in Science Education. Instructional methods appropriate for the exceptional, disadvantaged, and culturally different learner are included. Does not count toward a major in the sciences or the core curriculum requirement in science. A 48 hour eight-week field experience is a course requirement. This course should be taken during the semester preceding student teaching. Prerequisite: EDU 310, Admission to the Teacher Education Program. Annually, Fall.

EDU 473 METHODS OF TEACHING MATHEMATICS (SECONDARY) (3)

An introduction to current methods, concepts and curricular materials appropriate for use in secondary mathematics. Required of all teaching majors in mathematics. Instructional methods appropriate for the exceptional, disadvantaged and culturally different learner are included. Does not count toward a mathematics major. May not be used as a core curriculum requirement for graduation. This course should be taken during the semester preceding student teaching. A 48 hour eight-week field experience is a course requirement. This course should be taken during the semester preceding student teaching. Prerequisite: EDU 310, Admission to the Teacher Education Program. Annually, Fall.

EDU 474 METHODS OF TEACHING MATHEMATICS (GRADES 6-8) (3)

Introduction to and practice of current methods, concepts, and curricular materials appropriate for use in middle school mathematics. Emphasis is placed on implementing goals of the NCTM Standards. Includes use of calculators, computers, and manipulatives as tools for learning mathematics. Methods of instructing the exceptional, disadvantaged, and culturally different child are also included. Required for a Middle School Mathematics endorsement, but does not count toward a major or area of specialization and cannot be used for meeting core curriculum requirements. Prerequisite: EDU 309 or 310, Admission to the Teacher Education Program. Annually, Fall.

EDU 475 METHODS OF TEACHING ENGLISH (SECONDARY) (3)

A survey of appropriate methods and materials useful in teaching English in the secondary schools including: evaluation of written compositions and an introduction to current approaches to literary analysis. The students will develop at least one teaching unit. Instructional methods appropriate for the exceptional, disadvantaged, and culturally different learner are included. Required of all teaching majors in English. Does not count toward the English major, and may not be used to satisfy a core curriculum requirement. This course should be taken during the semester preceding student teaching. A 48 hour eight-week field experience is a course requirement. Prerequisite: EDU 310, Admission to the Teacher Education Program. Annually, Fall.

EDU 476 METHODS OF TEACHING BUSINESS AND MARKETING (SECONDARY) (3)

Special emphasis on current methods, problems, and trends in teaching business, as evidenced in current journals and appropriate curricula, and on instructional materials. Required of all teaching majors in business education. Instructional methods appropriate for the exceptional, disadvantaged, and culturally different learner are included. This course should be taken during the semester preceding student teaching. A 48 hour eight-week field experience is a course requirement. Prerequisite: EDU 310, Admission to the Teacher Education Program. Annually, Fall.

EDU 479 INSTRUCTIONAL STRATEGIES FOR ADULT LEARNERS (3)

Principles and practice of adult learning and instruction; selection and use of appropriate instructional design strategies and materials in a variety of work contexts. Traditional methods, as well as innovative approaches, will be included. Prerequisite: Completion of EDU 210/510. As needed.

EDU 480-489 TOPICS IN EDUCATION (1-3)

This course addresses special topics in education that are not ordinarily covered by other courses offered by the division. Courses offered may include current issues in education such as assessment, evaluation, gifted education, multi-cultural diversity, etc. Prerequisite: Admission to the Teacher Education Program or consent of the instructor. As needed.

EDU 494 INTERNSHIP IN EDUCATIONAL SERVICES (3)

Practical experience applying professional field work skills in an appropriate work environment. Limited to Educational Studies majors. Must be taken during the final semester of the program. Each semester.

EDU 495 STUDENT TEACHING (ELEMENTARY) (14)

Field experience in a selected classroom of local elementary schools under the guidance and supervision of an experienced teacher and clinical supervisor. Full-time student teaching for fall or spring session (16

weeks). Prerequisite: Completion of all coursework, a passing score on the Elementary Content Test, and admission to Student Teaching. Concurrent enrollment in EDU 498. Each semester.

EDU 496 STUDENT TEACHING (SECONDARY) (14)

Field experience in a selected classroom of local secondary schools under the guidance and supervision of an experienced teacher and the clinical supervisors. Full-time student teaching for fall or spring session (16 weeks). Prerequisite: Completion of all coursework, a passing score on the appropriate Content test, and admission to Student Teaching. Concurrent enrollment in EDU 498. Each semester.

**EDU 497 STUDENT TEACHING
(SPECIAL: ART, MUSIC or PHYSICAL EDUCATION) (14)**

Field experience in selected schools under the guidance and supervision of experienced teachers and clinical supervisors. Full-time student teaching for the fall or spring session with time divided equally between elementary and secondary schools (8 weeks each). Prerequisite: Completion of all coursework, a passing score on the appropriate Content test, and admission to Student Teaching. Concurrent enrollment in EDU 498. Each semester.

EDU 498 PORTFOLIO ASSESSMENT (1)

Candidates submit the final teacher education portfolio via LiveText. Materials are reviewed in light of required McKendree University and Illinois standards for initial teaching licensure. Concurrent enrollment: EDU 495, 496, or 497. Each semester.

EDU 499 ASSESSMENT OF PROFESSIONAL TEACHING (APT) EXAM (0)

This is the final state licensure examination needed for elementary, secondary and special areas (k-12) licensure in the state of Illinois. Requires registration on the (www.icts.nesinc.com) website. Co-requisite EDU 495/496/497 Student Teaching. Each semester. Registration information and study guides for the examinations are available on the Illinois Certification Testing System web site (www.icts.nesinc.com).

ENG 109 BASIC WRITING (3)

This course requires extensive writing, revision, reading, and discussion about the cultural and linguistic conventions of academic writing. Individual and group conferences help students formulate, structure, and communicate ideas effectively. Because problems with essay structure and with grammatical and mechanical errors vary widely from person to person, each student will work individually with the instructor to learn to recognize and correct his or her particular error patterns. This course does not fulfill any part of the 6 hr. English core curriculum requirement. Students who successfully complete English 109 may enroll in English 111. (Note: Students must earn a grade of C- or higher in this course in order to be eligible to take ENG 111.) Annually, Fall or as needed.

ENG 111 ENGLISH I (4)

English 111 is a process-oriented writing course designed to introduce students to college writing. During the course, students will develop analytical thinking skills and knowledge of the conventions of written academic discourse by responding critically and creatively to theme-based class readings in a variety of disciplines, including literature. Students will engage successfully in pre-writing techniques, to revise and reorganize both the content and structure of their essays, and to edit and polish their own work. Students will also be introduced to the use of library resources and will develop basic research skills. Each semester. IAI-C1900

ENG 112 ENGLISH II (4)

English 112, which follows English 111 in the first-year composition sequence, is a process-oriented writing course designed to further develop students' abilities to engage in extensive pre-writing, writing, revising, editing, and polishing. Using theme-based readings, this course emphasizes expository and persuasive analytical writing assignments and offers students further opportunities to strengthen their skills as critical thinkers, readers, and writers in response to readings in literature as well as other disciplines. Students continue to develop their abilities to use library resources, applying research techniques to a research paper. Prerequisite: ENG 111. Each semester. IAI-C1901R

ENG 114 ELEMENTS OF COMPOSITION (2)

This course is designed to assist those students needing extra help in sentence structure and composition to pass the Writing Proficiency Examination. It concentrates on the skills necessary for writing complete sentences and unified paragraphs with sufficient content development. The WPE is the final examination for the course. Pass/Fail only. As needed.

ENG 205 INTRODUCTION TO WRITING POETRY (3)

This is a workshop course designed to help students develop an understanding of the basic artistic principles involved in poetry writing and to give them the opportunity to apply these principles in writing several poems. Prerequisites: ENG 111 & ENG 112. Annually, Spring.

ENG 206 INTRODUCTION TO WRITING FICTION (3)

This is a workshop course designed to help students develop an understanding of the basic artistic principles involved in fiction writing and to give them the opportunity to apply these principles in writing short fiction and plays. Prerequisites: ENG 111 & ENG 112. Annually, Fall or as needed.

ENG 212 ADVANCED COMPOSITION (W) (3)

This course presents advanced rhetorical strategies for the development of successful written communication, especially in regard to the argumentative, persuasive, and problem-solving modes. In addition, the course content will reflect the individual needs of the students based on their chosen fields of study. Prerequisites: ENG 111 & ENG 112. Annually, Fall.

ENG 220-229 TOPICS IN WRITING, LANGUAGE, AND RHETORIC (W) (3)

These courses are fieldwork practicums which examine a particular subject not ordinarily treated in detail in other writing or language courses offered regularly by the department. Course topics might include areas such as: gender and writing, autobiographical and biographical writing, tutoring in writing, or an introduction to rhetorical theory. Prerequisites: ENG 111 & ENG 112. As needed.

ENG 235 GENDER IN LITERATURE (3)

A study of the literary presentation of women and men in fiction, drama, and/or poetry. This course examines gender as it relates to authors, readers, and the literary canon. Focusing predominantly, but not exclusively, on literature by women, the course explores the ways women and men are represented. Attention is paid to traditional depictions of women and to those reflecting contemporary changes as well as to social, political and psychological contexts. Prerequisites: ENG 111 & ENG 112. Annually, Fall.

ENG 236 YOUNG ADULT LITERATURE (3)

This course is a study of literature for young adults from grades 6 through 12. The course examines classic and contemporary works from a variety of fictional genres, including realism, fantasy, and science fiction, as well as poetry. By critically reading, analyzing, and writing about the selected texts, students will hone their ability to interpret literature designed for this unique audience. Some time will be devoted to studying the criteria for selecting and evaluating young adult literature as well as developing the best methods of sharing this literature with adolescents. The course is required for all English secondary education majors. Prerequisites: ENG 111 and ENG 112. Spring, odd years, as needed.

ENG 247 MODERN NOVEL (3)

The course examines the development of the novel in the twentieth century. In addition to the modern period, novels from the post-modern and contemporary periods may be studied as well. Novels are selected on the basis of their literary merit as well as their impact on the form, content, and development of the novel. Prerequisites: ENG 111 & ENG 112. Spring, even years.

ENG 250 DRAMATIC LITERATURE (3)

A survey of the world's dramatic masterpieces tracing the evolution of the theater from the Greeks to the contemporary theater. Emphasis is on dramatic literature in performance, and the survey includes the development of the theater as a historical institution. Same as THE 250. Prerequisites: ENG 111 & ENG 112. Annually, Fall.

ENG 252 ETHNIC LITERATURE (3)

A representative number of works by authors representing the diversity of American society are read. African-American, Asian-American, Jewish-American, and Native-American authors are among those investigated. Works by foreign authors may also be read in translation. Prerequisites: ENG 111 & ENG 112. Annually, Fall.

ENG 253 THE LITERATURE OF POSTCOLONIAL CULTURES (3)

Representative works from post-colonial Africa, Asia, Australia/New Zealand, the Caribbean, and/or Latin America, occasionally in conjunction with colonial works, are studied in their cultural contexts. Class discussion and written work focus on social, political, religious, and historical issues reflected in the literature. Prerequisites: ENG 111 & ENG 112. Annually, Spring.

ENG 254 AFRICAN AMERICAN LITERATURE (3)

This course will examine African American novels, short stories, essays, music, and poetry written from the mid-eighteenth century to the present. Themes discussed may include constructions of racial identity, social consciousness, and race, class, and gender relations. Writers may include the following: Frederick Douglass, Nella Larsen, Langston Hughes, Ralph Ellison, James Baldwin, Gwendolyn Brooks, Michael Harper, and Toni Morrison. Prerequisites: ENG 111 & ENG 112. Spring, even years.

ENG 255 LITERATURE AND THE ENVIRONMENT (3)

This course will explore literature that focuses on the environment and environmental issues. Spring, odd years.

ENG 261 POETRY (3)

Works of early to contemporary poets are studied. Discussion focuses on how the poet's vision finds expression through poetic form and language, as well as on how the various poetic forms have developed through history. Prerequisites: ENG 111 & ENG 112. Annually, Spring.

ENG 271 SHORT FICTION (3)

The works of some of the major writers of short stories and short novels are studied. Class discussions will focus on gaining a critical understanding of the works and their influence on the development of short fiction. Prerequisites: ENG 111 & ENG 112. Annually, Fall.

ENG 280-289 TOPICS IN LITERATURE (3)

Topics courses examine a particular topic, genre, or subject in literature not ordinarily treated in detail in other literature courses offered regularly by the department. Prerequisites: ENG 111 & ENG 112. As needed.

ENG 290 INTRODUCTION TO LITERARY THEORY (W) (3)

The purpose of this course is to introduce English majors to the principal approaches to literature. Primary emphasis will be given to the application of current critical approaches to selected works as well as to research methods within the discipline. Secondary emphasis will be given to selected topics currently under debate in the field. For English majors/minors. NOTE: The course does NOT count as a general education course fulfilling literature core requirement. Prerequisites: ENG 111 & ENG 112. Annually, Fall.

ENG 300 THE NATURE OF LANGUAGE (3)

This course is an introduction to the linguistic aspects of language, including phonology, morphology, and the structure, meaning, and history of language, with a particular emphasis on semantics. Additional topics may include language acquisition (including how the brain processes language), dialects, dictionaries, communication, and language and society (the language of politics, advertising, and gender, as well as taboo words, jargon, and more), among others. Prerequisites: ENG 111 & ENG 112. Fall, odd years.

ENG 301 SHAKESPEARE'S COMEDIES AND HISTORIES (3)

This course consists of a study of representative comedies and histories of Shakespeare. Emphasis is on reading and understanding Shakespeare's language, as well as on the theatrical and cultural contexts of the plays. Prerequisites: ENG 111 & ENG 112. Spring, even years.

ENG 302 SHAKESPEARE'S TRAGEDIES AND ROMANCES (3)

This course consists of the study of representative tragedies and late romances of Shakespeare. Emphasis is on reading and understanding Shakespeare's language, as well as on the theatrical and cultural contexts of the plays. Prerequisites: ENG 111 & ENG 112. Spring, odd years.

ENG 303 AMERICAN LITERATURE TO 1900 (4)

The course includes a survey of early American writers from the Puritan period to the end of the nineteenth century. Emphasis is placed on the growth of Romanticism and the development of realism and naturalism in American literature. Prerequisites: ENG 111 & ENG 112. Annually, Fall.

ENG 304 AMERICAN LITERATURE FROM 1900 TO PRESENT (4)

The course is designed to help students appreciate some of the major American writers of the twentieth century. Besides discussing the works individually, the class analyzes some of the important historical and literary movements that influenced their content and form. Prerequisites: ENG 111 & ENG 112. Annually, Spring.

ENG 305 ADVANCED WRITING OF POETRY (3)

This is a workshop course designed for students who have had previous course work in poetry writing, or other comparable experience and who wish substantial additional training in poetry writing beyond the introductory level. Pre-requisite: English 205, or approved equivalent. English 205 and 305 will be offered concurrently. Prerequisites: ENG 111 & ENG 112. Annually, Spring.

ENG 306 ADVANCED WRITING OF FICTION (3)

This is a workshop course designed for students who have had previous course work in fiction writing or other comparable experience and who wish substantial additional training in fiction writing and play writing beyond the introductory level. Pre-requisite English 206, or approved equivalent. English 206 and 306 will be offered concurrently. Annually, Fall.

ENG 307 ENGLISH GRAMMAR (3)

This course is a study of English grammar, including phonology (sound system), morphology (word structure), and syntax (sentence structure) with an emphasis on structural and transformational grammars. Prerequisites: ENG 111 & ENG 112. Fall, even years.

ENG 309 WORLD LITERATURE I (4)

This course surveys literature (primarily but not exclusively western) from the ancient period, the medieval period, and the Renaissance. Writers may include the following: Homer, Aeschylus, Sophocles, Euripides, Virgil, Valmiki, Dante, Marie de France, and Cervantes, among others. The course emphasizes historical and cultural contexts, as well as major literary texts. Prerequisites: ENG 111 & ENG 112. Fall, even years.

ENG 310 WORLD LITERATURE II (3)

This course surveys literature (primarily but not exclusively western) from the seventeenth century into the twenty-first century, including the following literary periods and movements: Enlightenment, Romanticism, realism and naturalism, modernism, and post-modernism. The course emphasizes historical and cultural contexts, as well as major literary texts. Prerequisites: ENG 111 & ENG 112. Fall, odd years.

ENG 311 MEDIEVAL AND RENAISSANCE ENGLISH LITERATURE (3)

This course surveys major works of poetry, prose, and drama from pre- and post- Norman Conquest England through the death of Elizabeth I. Authors and works may include Beowulf, Sir Gawain and the Green Knight,

Course Descriptions

Chaucer, cycle and morality plays, Sidney, Spenser, and Marlowe. Emphasis is placed on cultural and historical contexts, as well as the texts themselves. Prerequisites: ENG 111 & ENG 112. Fall, odd years.

ENG 315 SEVENTEENTH CENTURY ENGLISH LITERATURE (3)

This course surveys major literary works in poetry, prose and drama of the Jacobean period through the English Civil War and Restoration. Authors may include Donne, Jonson, Herbert, Marvell, Philips, Milton, Dryden, Wycherley and Behn. Emphasis is placed on cultural and historical contexts, as well as the texts themselves. Prerequisites: ENG 111 & ENG 112. Fall, even years.

ENG 316 EIGHTEENTH CENTURY ENGLISH LITERATURE (3)

This course surveys major literary works in poetry, fiction, and drama of the Eighteenth Century and examines topics such as satire and the rise of the novel. Authors may include Swift, Pope, Defoe, Johnson, Richardson, Fielding, Sheridan and Sterne, among others. Emphasis is placed on cultural and historical contexts, as well as the texts themselves. Prerequisites: ENG 111 & ENG 112. Spring, odd years.

ENG 317 ROMANTIC ENGLISH LITERATURE (3)

This course surveys literature of the English Romantic Period (1790-1832) in the major genres, of poetry, non-fiction prose, and prose fiction. Authors may include Wollstonecraft, Burns, Blake, Wordsworth, Coleridge, DeQuincey, Byron, Percy and Mary Shelley, Keats, Austen, and the Brontes, among others. Emphasis is placed upon cultural and historical contexts as well as on the texts themselves. Prerequisites: ENG 111 & ENG 112. Spring, odd years.

ENG 318 VICTORIAN ENGLISH LITERATURE (3)

This course surveys literature of the English Victorian Age (1832-1901) in the major genres of poetry, non-fiction prose, drama, and prose fiction. Authors may include Carlyle, Dickens, J.S. Mill, Tennyson, Robert and Elizabeth Barrett Browning, Arnold, Dante and Christina Rossetti, Swinburne, Morris, Wilde, George Eliot, and Hardy, among others. Emphasis is placed upon cultural and historical contexts as well as on the texts themselves. Prerequisites: ENG 111 & ENG 112. Spring, even years.

ENG 319 TWENTIETH CENTURY ENGLISH LITERATURE (3)

This course surveys selections of English and Irish literature from 1900 to the present. Authors include, but are not limited to, Yeats, Joyce, Eliot, Lawrence, and Woolf. Emphasis is placed on cultural and historical contexts as well as on texts. Prerequisites: ENG 111 & ENG 112. Spring, even years.

ENG 320-329 TOPICS IN WRITING, LANGUAGE, AND RHETORIC (W) (3)

These theoretically-informed courses examine a particular subject not ordinarily treated in detail in other writing or language courses offered regularly by the department. Course topics might include areas such as the construction of gender in writing, pedagogical theory and writing, or classical or contemporary rhetorical theory. Prerequisites: ENG 111 & ENG 112. As needed.

ENG 330 LATIN AMERICAN AND CARIBBEAN LITERATURE (3)

This class explores a wide range of Latin-American and Caribbean literature, studying the history and culture of the countries from which the literature comes. Prerequisite: ENG 111 & ENG 112. Each semester.

ENG 360 TECHNICAL WRITING (W) (3)

Emphasizes the strategies and formats required for effective written communication in professional and technical fields. The course requires clear, concise writing in various formats (memos, reports, etc.) geared to appropriate audiences as well as the use of graphics. Prerequisites: ENG 111 & ENG 112. Each semester.

ENG 361 WRITING PEDAGOGY (W) (3)

This course will introduce students to writing pedagogy from both a theoretical and practical perspective. Students will trace historical changes in writing pedagogy from classical to contemporary and will develop a teaching philosophy grounded in pedagogical theory and individual tutoring experience. Students will practice responding to student writing, and designing effective assignments for a writing course. Required for English/Secondary Education track. Prerequisites: ENG 111 & ENG 112. Spring, odd years, as needed.

ENG 380-389 TOPICS IN LITERATURE (3)

This course examines a particular theme, genre or subject in literature, not ordinarily treated in detail in other literature courses offered regularly by the department. Courses offered include such topics as Women in Literature, Gothic and Mystery Literature and Film, Science Fiction, and The Comic Tradition. Prerequisites: ENG 111 & ENG 112. As needed.

ENG 390 MAJOR AUTHORS (W) (3)

This course is an intensive study of one major author (or in some cases two closely connected authors). Students will examine a substantial body of the work of the author selected and may examine biographical and critical materials as well. A literary research paper is required. Because the author varies from year to year, ENG 390 may be taken more than once for credit. Students who are not English majors, English minors, or Elementary Education majors (with English concentration) must obtain permission of the instructor to take English 390 Major Authors. Annually, Spring, as needed.

McKendree University 2013/2014 Undergraduate Catalog

- ENG 460 CREATIVE WRITING THESIS (1)**
Intended for students minoring in creative writing, ENG 460 is designed to help students develop and polish a substantial sample of original poetry or fiction. Working independently with the creative writing instructor, students will create a thesis collecting a substantial body of their own poetry or fiction, revised to publishable quality. Pre-requisite: Permission of instructor and senior status. As needed.
- ENG 470 INTERNSHIP IN ENGLISH (3-8)**
Prerequisite: Consent of the instructor. No more than three hours may be counted toward the required total for the major.
- ENG 480 INDEPENDENT STUDY IN ENGLISH LANGUAGE AND LITERATURE (1-4)**
Prerequisite: Consent of the instructor.
- ENG 490 SEMINAR IN ENGLISH (W) (4)**
Research approaches, resources and methods in literature and criticism are taught in connection with a selected topic. Prerequisite: English major with senior status or permission of instructor. Annually, Fall, as needed.
- ENS 280-289 SPECIAL TOPICS IN ENVIRONMENTAL STUDIES (3)**
As needed.
- ENS 380-389 SPECIAL TOPICS IN ENVIRONMENTAL STUDIES (3)**
As needed.
- ENS 470 INTERNSHIP (3-8)**
- ENS 480 INDEPENDENT STUDY (1-4)**
- ENS 490 SEMINAR IN ENVIRONMENTAL STUDIES (3)**
This course is a guided course that will present students with a variety of topics and engage them in discussion and interpretation of current topics in environmental studies. A primary goal of this course is to allow students to develop their critical thinking and communication skills while exploring specific environmental issues in more detail. Prerequisite: Permission of instructor. As needed.
- ES 105 INTRODUCTION TO EARTH SCIENCE (4)**
This course is an introduction to the Earth in space, the structure of the Earth, the geological processes which control the development of the Earth's surface, and weather and climate. The class meets for three one-hour lectures and one two hour laboratory per week. A student must pass the laboratory portion of any science course to pass the entire course. Annually, Fall.
- FA 202 INTRODUCTION TO THE FINE ARTS (3)**
This course is designed to develop a general knowledge and appreciation of the arts without consideration of more technical phases. Attention is given to the history and development of architecture, music, painting and sculpture. Special emphasis is given to the place of the arts in man's social development. It is suggested that HIS 162 be taken prior to this course, but it is not required. As needed.
- FA 280-289 SPECIAL TOPICS IN FINE ARTS (1-3)**
As needed.
- FIN 306 CONSUMER FINANCE (3)**
A basic course in personal finance. Topics include: financial planning, establishing credit, purchasing a home and planning an insurance program. Open to all majors. Prerequisite: ECO 211. As needed.
- FIN 308 PRINCIPLES OF BUSINESS FINANCE (3)**
Basic financial management of the business firm involving procurement, allocation and control of funds with the objective of maximizing shareholder wealth. Prerequisites: ACC 262 and ECO 211. Each semester.
- FIN 309 MONEY AND BANKING (3)**
An introduction to monetary standards and theories, commercial banking structure and operations, monetary and fiscal policy implementation, central banking and the Federal Reserve System. Prerequisites: ECO 211 and 212. Same as ECO 309. Annually, Fall.
- FIN 320 BUDGETING AND FINANCING OF SPORT (3)**
This course examines the principles involving the procurement, allocation, and control of funds used to support sport programs. Prerequisites: FIN 308. Alternate years, Spring.
- FIN 355 INVESTMENTS (3)**
This course studies financial assets and their allocation in efficient portfolios with emphasis on equities and fixed income securities. Major topics include financial asset valuation, risk and return, market efficiency and asset allocation. Prerequisite: FIN 308. Annually, Fall.

Course Descriptions

- FIN 357 INTERNATIONAL FINANCE (3)**
This course explores the special issues that arise in connection with international financial transactions. Topics examined include the international monetary system, world financial markets, the balance of payments, global corporate governance, the foreign exchange market, international parity relationships, and the management of foreign exchange exposure. Prerequisite: FIN 308 or consent of the instructor. Annually, Spring.
- FIN 360 FINANCIAL MANAGEMENT-APPLICATIONS & CASES (3)**
Application of basic financial techniques and principles in financial administration, policy, and decision making. The case-study method is used. Prerequisites: FIN 308, MTH 310. Annually, Spring.
- FIN 380-389 TOPICS IN FINANCE (1-3)**
As needed.
- FIN 470 INTERNSHIP IN FINANCE (3-8)**
- FIN 480 INDEPENDENT STUDY IN FINANCE (1-3)**
- FLS 180-189 FOREIGN LANGUAGE SPECIAL TOPICS (3-4)**
- FLS 280-289 FOREIGN LANGUAGE SPECIAL TOPICS (3-4)**
- FLS 380-389 FOREIGN LANGUAGE SPECIAL TOPICS (3-4)**
Special topics in foreign language, such as Latin or other languages that are not ordinarily offered through minor programs, are offered under this heading. Offerings for such topics are dependent on student demand and instructor availability. As needed.
- GLS 101 INTRODUCTION TO GLOBAL STUDIES (3)**
This course examines modern globalization and the interdependence that characterizes contemporary global issues, including migration, climate change, economic stability, hunger, disease, war, terrorism, migration, cultural diversity, and poverty. Annually, Spring.
- GLS 498 SENIOR SEMINAR IN GLOBAL STUDIES (3)**
Selected topics to change yearly. Offers students a capstone experience in which students do an extensive research project and present their findings in a seminar setting. Annually, Spring.
- GRK 370 NEW TESTAMENT GREEK I (4)**
An introductory course designed for the student with no knowledge of the Greek language. Primary attention is given to learning the grammar and vocabulary of biblical (Koine) Greek, in order to prepare the student for working independently in the Greek New Testament. This course can be used toward fulfillment of the foreign language requirement. As needed.
- GRK 371 NEW TESTAMENT GREEK II (4)**
A continuation of GRK 370. This course continues the formal study of Greek grammar and vocabulary, and gives increasing attention to translation and study of the Greek New Testament. This course can be used toward fulfillment of the foreign language requirement. As needed.
- GRK 375 READINGS IN NEW TESTAMENT GREEK (1-4)**
A guided study of specific texts from the New Testament in the original Greek. Students will develop their ability to work in the Greek New Testament through extensive translation of individual passages. Advanced elements of grammar and syntax will also be covered. Prerequisites: GRK 370, 371. As needed.
- GRN 322 PSYCHOLOGY AND SOCIOLOGY OF HUMAN AGING (4)**
Prerequisite: PSY 153. Same as PSY 322. Spring, odd years.
- GRN 470 INTERNSHIP IN GERONTOLOGY (3-8)**
Same as PSY 470 except that the following prerequisites are required in addition to those required for PSY 470: PSY 321 and 322. Depending on arrangements that can be made and student's interests, internships will take place in mental health clinics, state mental hospitals, medical hospitals, nursing homes, day care centers, government, senior centers, retirement homes, etc.
- GRN 480 INDEPENDENT STUDY IN GERONTOLOGY (1-4)**
- GRN 490 SEMINAR IN GERONTOLOGY (1-4)**
As needed.
- GRN 495 SENIOR ESSAY IN GERONTOLOGY (W) (3-4)**
As needed.
- HIS 161 WORLD CIVILIZATION TO 1450 (3)**
A comparative survey of early civilizations in Asia, Africa, and Europe from prehistory to the fifteenth century. Annually, Fall.

McKendree University 2013/2014 Undergraduate Catalog

- HIS 162 WORLD CIVILIZATION SINCE 1450 (3)**
A comparative survey of world civilization from the fifteenth century to the outbreak of World War I. Annually, Spring.
- HIS 163 TWENTIETH CENTURY WORLD HISTORY (3)**
A comparative history of world civilizations from World War I to the present. Each semester.
- HIS 242 AFRICAN CIVILIZATIONS (3)**
A survey of African history and cultures from prehistory to recent developments in modern Africa. As needed.
- HIS 261 UNITED STATES HISTORY TO 1865 (3)**
A survey of American history from prehistory through the Civil War. Every semester.
- HIS 262 UNITED STATES HISTORY SINCE 1865 (3)**
A survey of American history from the Civil War to the present. Every semester.
- HIS 271/371 UNITED STATES WOMEN'S HISTORY (3)**
The course examines the way in which women have shaped the American past and the ways in which large historical forces have influenced women's lives. (Those students taking the course as HIS 371 will be required to write a major research paper, in addition to other required writings. Students may elect to take it at one level, but not both.) Annually, Spring.
- HIS 276/376 MINORITIES IN THE AMERICAN EXPERIENCE (3)**
A survey of minorities in American history, this course will compare and contrast the histories of the various ethnic groups that make up the American population. (Students taking this course as HIS 376 will be required to write a major research paper in addition to other required writings. Students may elect to take this course at one level, but not both.) Annually, Fall.
- HIS 277/377 AFRICAN AMERICAN HISTORY (3)**
An introduction to the study of African American History, including the history and culture of Western Africa, the Atlantic slave trade, slavery and its effects, as well as the roles, lifestyles, problems and accomplishments of African Americans from the Colonial period until the present. The course will focus on the African American community analyzing major political, social, economic, religious, cultural, and intellectual trends, patterns, and leaders. (Those students taking the course as HIS 377 will be required to write a major research paper, in addition to other required writings. Students may elect to take this course at one level, but not both.) Spring, even years.
- HIS 280-284 TOPICS IN AMERICAN HISTORY (1-3)**
Studies in specialized areas of American History. This course will cover topics or areas not included in the regular curriculum. As needed.
- HIS 285-289 TOPICS IN WORLD HISTORY (1-3)**
This course will be of a topical nature or cover regions or nations not included in the regular curriculum. As needed.
- HIS 309 HISTORICAL METHODS AND REGIONAL INQUIRY (W) (3)**
This course is designed to acquaint students with the various research methodologies used to write about the past. It merges these practical skills with the study of local and regional history. Attention will be given to Illinois history and the study of particular localities. Additionally, the course will consider key regions in the United States: New England and the Northeast, the Midwest, the South, and the West. Students will use the methodological skills gained in the course to write a research paper. Annually, Spring.
- HIS 310 SEMINAR IN HISTORICAL RESEARCH (1)**
Students will define individual topics for their senior research paper after completing a historiographical survey on the proposed topic and identifying major research sources available. This course will lead to the writing of a research proposal to be carried-out in HIS 410. Required of all history majors. Annually, Spring.
- HIS 311 ANCIENT CIVILIZATIONS (W) (3)**
A study of the ancient civilizations of the Near East, Greece, and Rome from prehistory to the fall of the Roman Empire. Fall, even years.
- HIS 312 MEDIEVAL HISTORY (W) (3)**
A study of the period between the fall of the Roman Empire and the Renaissance with a major emphasis on the analysis of primary source materials. Spring, even years.
- HIS 313 EARLY MODERN EUROPE: 1450-1815 (W) (3)**
A study of the development of European civilization from the Renaissance through the Napoleonic Era. Annually, Fall.

Course Descriptions

- HIS 314 MODERN EUROPE: 1815-1945 (W) (3)**
A study of European civilization from the Congress of Vienna to 1945. Annually, Spring.
- HIS 321 AMERICAN COLONIAL HISTORY (W) (3)**
A study of Colonial America from its origins in North American pre-history and European expansion through the English Colonies to about 1770. Prerequisite: HIS 261 or consent of instructor. Fall, odd years.
- HIS 322 THE NEW NATION: 1781-1801 (W) (3)**
A study of the early development of the United States from the Confederation Period, through the adoption of the Constitution, to the Presidencies of George Washington and John Adams. Prerequisite: HIS 261 or consent of instructor. Fall, even years.
- HIS 323 DIVISION AND REUNION: 1836-1890 (3)**
A study of Manifest Destiny, rising sectional tensions, the Civil War, and the Reconstruction Era. Spring, odd years.
- HIS 324 THE EMERGENCE OF MODERN AMERICA: 1890-1945 (3)**
A study of the emergence of modern America as a major industrial and world power from the end of Reconstruction to the outbreak of World War I. Fall, even years.
- HIS 326 AMERICA SINCE 1945 (3)**
A study of the history of the United States from the end of World War II to the present. Fall, odd years.
- HIS 327 REVOLUTIONARY AMERICA: 1763-1783 (W) (3)**
A study of the revolutionary period from the Treaty of Paris in 1763 through the repeated crises with Britain, the Revolutionary War, the Treaty of Paris of 1783. Prerequisite: HIS 261 or permission of instructor. Spring, even years.
- HIS 328 THE DEMOCRATIC REPUBLIC: 1800-1836 (W) (3)**
A study of the development of the United States from the election of Thomas Jefferson through the Jacksonian period. Prerequisite: HIS 261 or permission of instructor. Spring, odd years.
- HIS 329 HISTORY OF THE VIETNAM WAR (3)**
This course will examine the long-term causes and consequences of the Vietnam War from a political and a diplomatic perspective. It will also assess the social and cultural turmoil wrought by the war on the American homefront. Spring, even years.
- HIS 343 HISTORY OF LATIN AMERICA (3)**
A survey of Latin American history from pre-colonial Indian cultures to recent developments in modern Latin America. As needed.
- HIS 358 HISTORY OF THE SOVIET UNION (W) (3)**
A history of Russian development with a major emphasis on the period from the Revolutions of 1917 to the end of the twentieth century. As needed.
- HIS 363 HISTORY OF THE MIDDLE EAST (3)**
A study of the Middle East from earliest times to the present, with major attention being given to the Islamic era. As needed.
- HIS 372 AMERICAN ECONOMIC HISTORY (3)**
This course surveys the economic history of the United States from the colonial era to the present. Among the topics to be considered are the mercantile economy of British North America, the economics of slavery, the Industrial Revolution, the cycles of boom and bust, the rise of the service economy in the information age, and the globalization of American economic influence. Annually, Spring.
- HIS 373 HISTORICAL GEOGRAPHY (3)**
This interdisciplinary course explores employs the methodologies of Human Geography and History to study the manner in which place had influenced human development in past societies. The emphasis will be place on North America, but examples from the rest of the world will be studied. Annually, Fall.
- HIS 380-84 TOPICS IN AMERICAN HISTORY (1-4)**
Studies in specialized areas of American History. This course will cover topics or areas not included in the regular curriculum. As needed.
- HIS 385-89 TOPICS IN WORLD HISTORY (1-4)**
This course will be of a topical nature or cover regions or nations not included in the regular curriculum. As needed.

HIS 410 SENIOR THESIS IN HISTORY (W) (3)

This course focuses on the writing of a professional quality research paper based on primary source materials. Students will also be involved in a seminar situation requiring scholarly criticism of each other's papers on a chapter by chapter basis. Completed papers will be presented orally before the campus community. Prerequisite HIS 110 & HIS 310. Required of all history majors. Annually, Fall.

HIS 480 INDEPENDENT STUDY IN HISTORY (1-4)

Individual research in specialized topic areas. Offered only to advanced students on a contractual basis, with consent of history faculty.

HON 380-389 HONORS SEMINARS (1)

These seminars vary widely in substance and are mutually developed by both students and faculty in the honors program. As needed.

HON 401 HONORS THESIS I (2)

Students develop a thesis proposal and write a first draft of a research topic in their field of interest. The thesis may be related to a senior thesis within certain majors. Annually, Fall.

HON 402 HONORS THESIS II (2)

Students complete a final draft of the senior thesis and present it to the campus community. The thesis may be related to the senior thesis within certain majors. Annually, Spring.

HON 480 INDEPENDENT STUDY (1-3)

HPE 158 HEALTH AND WELLNESS (3)

The Health and Wellness course will afford students the opportunity to reinforce the basics in all eight dimensions of wellness for promoting a healthy lifestyle in addition to exploring the most current thinking on health and wellness topics and related controversial issues. Students will learn practical ways in which to integrate positive health and wellness behaviors into their lifestyle to become a healthy student and citizen. Each semester.

HPE 159 INTRODUCTION TO HEALTH PROFESSIONS (2)

This course is designed to introduce the student to the various employment opportunities in the healthcare professions. The ethical, legal and professional considerations involved in health occupations will be explored. Communication, professional memberships, certification requirements, resume and cover letter writing as well as decision making required in the health professions will be explored. Local professionals will be invited to share their career choices in order to assist the student in making informed decisions regarding their future career choices. These fields include but are not limited to: athletic training, physical education - k-12 teaching, health education - 5-12 teaching, health promotion and wellness, physical therapy, occupational therapy and physician's assistant. Pre-requisite: HPE 158. Annually, Fall.

HPE 200 FOUNDATIONS OF HUMAN MOVEMENT (3)

This course will introduce the composition and function of the musculoskeletal system with principles and mechanical concepts for human movement, functional anatomy of the skeletal, connective tissue, articular and neuromuscular systems. Students will also learn the structural adaptation of musculoskeletal components during aging as well as the etiology of the musculoskeletal disorders and injuries. Annually, Fall.

HPE 210 TECHNOLOGY IN HEALTH AND WELLNESS (3)

An overview of computer applications and models in health education and wellness promotion appropriate for use in teaching, lifestyle, and other health and wellness assessments. Basic computer and internet research skills will be presented. Students will learn how to integrate the use of technology in tracking student progress or lifestyle behaviors. Each semester.

HPE 212 DRUG EDUCATION (3)

Examines a variety of teaching strategies and materials appropriate to the teaching of drug and alcohol use and abuse information in grades 6-12. An examination of the drug abuse from psychological, historical, and legal perspectives. The effects of drug use on the health and social function of the individual will be reviewed as well as drug abuse programs, teaching curricula, drug testing, and other related issues. Prerequisite: HPE 158. Annually, Spring.

HPE 214 PRINCIPLES AND FOUNDATIONS OF HEALTH EDUCATION AND WELLNESS (3)

An introduction to the theories and concepts of health, health education, and wellness that guide the practice of professionals in the field. Also examines the role of the professional in a variety of health and wellness work settings through service hours in the urban, suburban, and rural districts of the county. Students will be introduced to the professional arena by becoming a member in both the student and national professional organization. Prerequisites: HPE 158, HPE 210 or EDU 115. Annually, Fall.

HPE 250 TESTS AND MEASUREMENTS FOR HEALTH PROFESSIONS (2)

This course is designed to provide the foundational skills necessary for effective assessment of the multiple dimensions of health and wellness in a variety of health and wellness settings, including schools (physical education and health education), worksites and fitness facilities and with diverse populations. Emphasis will be given to principles governing assessment, basic statistical procedures required to make meaningful conclusions from data, specific fitness and skills tests and test batteries, lifestyle behavior assessments, and skills related to data presentation and reporting. Annually, Spring.

HPE 281 HUMAN DISEASES (3)

A study of key communicable and non-communicable diseases and related disease agents that are of concern to health educators in a variety of settings. In addition, the course will examine the history of disease, the principles of disease occurrence, and human defense mechanisms against disease. Prerequisites: HPE 158, HPE 214 or consent of instructor. Spring, even years.

HPE 300 HUMAN NUTRITION (3)

An examination of basic principles of nutrition, the role of nutrients in maintaining health and wellness, the relationship of nutrition to diseases and disorders, as well as consumer issues such as using nutritional tools (i.e. guidelines, recommendations, and food labels) and integrating healthy nutritional practices into the lifestyle. Prerequisites: HPE 158, HPE 210 or EDU 115. Annually Spring.

HPE 301 ADVANCED HUMAN NUTRITION (W) (3)

Incorporates the basic principles of nutrition to explore nutritional practices and recommendations across the lifespan, specific nutritional concerns (i.e. weight management, cultural and lifestyle nutritional differences), food safety, and global hunger issues. Prerequisites: HPE 158, HPE 220. Annually, Spring.

HPE 325 SUPPLEMENTS AND SPORTS NUTRITION (W) (3)

The course will review the role of food constituents in the body, especially as it relates to active people. In this course we will examine the relationships among energy production, nutrient utilization, and various types of supplements and their effects or lack thereof. The course will also provide the opportunity to examine hydration issues, functional foods, nutraceuticals, ergogenic aids, and other current nutritional trends. Prerequisites: HPE 158, HPE 220. Annually, Fall.

HPE 370 HEALTH CARE IN THE U.S. (3)

This course will examine the history of health care in the United States, as well as how the health care system is organized and financed. Issues regarding delivery of care, access to care, and types of care will be discussed. Contemporary topics such as treatment versus disease prevention, research, pharmaceuticals, and reimbursement systems will be explored. Prerequisites: HPE 158, HPE 214. Fall, even years.

HPE 375 THE BRAIN AND LEARNING (3)

This course will be an introduction to understanding the brain by investigating the structures and related functions of the brain, how learning and memory is established in the brain, and the effects of various health, wellness, and lifestyle behaviors on learning and brain function. Prerequisite: HPE 158. Fall, even years.

HPE 379 EMPLOYEE HEALTH AND WORKSITE WELLNESS (3)

This course is designed to prepare students to work in a corporate wellness setting. It will provide the student with the opportunity to study issues related to worksite wellness that affect employees, employers, health benefits, productivity, absenteeism and presenteeism. Students will explore various corporate wellness models and programs and key concepts related to return on investment (ROI). They will learn the role of needs assessment and cultural and environmental assessments in worksite wellness programming. The course will address health risk appraisals, biometrics, and other screenings that are tools for making appropriate programming decisions in worksite wellness programs. Overall, students will learn how to plan, develop, implement, and evaluate corporate health and wellness programs. Spring, odd years.

HPE 380-389 SPECIAL TOPICS IN HEALTH PROMOTION AND WELLNESS (1-3)

Consent of Instructor. As needed.

HPE 390 ADMINISTRATIVE SKILLS IN HEALTH AND WELLNESS (3)

This course is designed to help the health and wellness student prepare for administrative responsibilities that are inherent in a job setting. The course will offer the student the opportunity to learn and practice leadership skills in a variety of program and administrative areas. Students will learn what health literacy is and incorporate the concepts into assignments. How to identify potential funding sources and grant writing skills will be learned and practiced. Fall, even years.

HPE 400 THE SCHOOL HEALTH PROGRAM (W) (3)

An examination of the role of the health educator in the school setting regarding the delivery of health education curriculum, health services, a safe and healthy environment, liaison strategies, and other related responsibilities to support coordinated school health programs and wellness planning. Membership in both student health and wellness campus organization and a national professional association required. Prerequisites: HPE 158, HPE 214. Annually, Spring.

HPE 410 EVALUATION IN HEALTH EDUCATION AND WELLNESS (3)

This course will investigate assessment and evaluation techniques used to measure the impact of health education and wellness strategies in a given sample or population. Discussion will include selection and development of valid and reliable measures, use of appropriate statistical procedures for school and community settings and evaluation tools currently used in health and wellness disciplines. Students will continue to explore professional venues through service hours in a variety of settings and by maintaining membership in both the student and a national professional organization. Prerequisites: HPE 158 and HPE 214. Annually, Fall.

HPE 417 SAFETY EDUCATION/CRASH PREVENTION (3)

This course is designed to examine safety issues in modern society. Various safety considerations will be discussed with emphasis given to vehicle safety issues and crash prevention. Prerequisite: Admission to the Teacher Education Program. Summer.

HPE 420 PLANNING AND IMPLEMENTATION IN HEALTH PROMOTION AND WELLNESS (W) (3)

This course will prepare the health and wellness professional to plan and implement effective health programs for diverse populations and settings. Aspects of program planning and implementation including intervention strategies, identifying needs of the targeted population, development of the program and related materials, marketing the program, delivering and implementing the program, and assessing the outcomes of the program will be addressed. Students will continue to explore professional venues through service hours in a variety of settings and by maintaining membership in both the student and a national professional organization. Prerequisites: HPE 158, HPE 214, HPE 410. Fall, odd years.

HPE 430 HEALTH AND WELLNESS COACHING (3)

This course will present a review of theories of health behavior and behavior change and introduce theories of counseling to examine how they might be used to support health and wellness-related lifestyle modifications. Strategies for decision-making and problem-solving will also be examined. Membership in both student health and wellness campus organization and a national professional association required. Prerequisites: HPE 158, HPE 214. Annually, Spring.

HPE 435 READINGS IN HEALTH PROMOTION AND WELLNESS (3)

This course is designed to offer students an opportunity to explore current, controversial, or other issues of interest in depth. Students will be encouraged to draw upon previously learned material and concepts to further examine and analyze the issues. Prerequisites: HPE 158, HPE 214, and consent of instructor. Fall, odd years.

HPE 450 PROGRAMS IN COMMUNITY HEALTH (3)

Organization and administration in local, state, and national official and non-official health agencies, their purposes, functions, and an overview of methods for meeting community health needs and for solving community health problems. Prerequisites: HPE 158, HPE 214, HPE 410, HPE 400 or HPE 420. Spring, even years.

HPE 460 CURRICULUM DEVELOPMENT IN HEALTH EDUCATION (W) (3)

This course is designed to prepare the health educator to be able to plan and implement content, as well as achieve a basic understanding in the evaluation of health and wellness curricula. A historical approach to theoretical models of curriculum development in Health Education will be explored, as well as current policies and legislation that affect health and wellness instruction and programming. Membership in both student health and wellness campus organization and a national professional association required. Prerequisites: HPE 158, HPE 214, HPE 400 and HPE 410. Fall, odd years.

HPE 470 INTERNSHIP IN HEALTH PROMOTION AND WELLNESS (8)

Enrollment in this course will provide an opportunity to apply professional skills and knowledge in a related work environment while gaining practical experience. The internship is limited to Health Promotion and Wellness majors and minors and must be taken during the final semester of the program. Prerequisites: HPE 158, HPE 214, HPE 410, HPE 420 or 460, HPE 450 and consent of instructor. Every semester.

HPE 480 INDEPENDENT STUDY IN HEALTH EDUCATION (1-3)

HPE 490 SEMINAR IN HEALTH EDUCATION (3)

A capstone course in Health Promotion and Wellness to review theories and concepts, explore current developments in the field, and prepare for entering the profession. Requires service hours to explore professional venues and gain practical experience in a variety of settings and continued membership in both the student health and wellness campus organization and a national professional association. Annually, Spring.

HRM 410 DIVERSITY AND CHANGE MANAGEMENT (W) (3)

Course objectives include a comprehensive view of cultural, generational, racial, and religious diversity from a global perspective. Socio-economic, immigration and legal aspects of workforce development will also be explored. Special attention will be focused on managing the changing workforce.

HRM 430 BENEFITS AND COMPENSATION (4)

This course will identify and develop key items and factors involved in the areas of benefits and compensation. Students will develop a benefits portfolio and a communication strategy for its implementation into the organization. Compensation structures and influential topics related to compensation will also be included.

HRM 440 EMPLOYMENT LAW (4)

This course is designed to build upon the basic principles of Human Resources covered in MGT 334 Human Resource Management. Upon completion of this course, students will be expected to demonstrate competency in the intensive area of employment law. Subjects to be covered include Title VII, the Bill of Rights, FMLA, FLSA, United States Department of Labor, whistle blowing, OSHA, wage regulations, immigration, and employee termination. (Prerequisite: BUS 303 or BUS 304)

JRN 215 MEDIA PRACTICUM I (1-2)

Students working on The McKendree Review, campus radio outlet, or other University-based media will receive classroom support and feedback on how to best approach specific media duties, from reporting to editing to shooting photos. Prerequisite: JRN 351 or consent of instructor. As needed.

JRN 216 MEDIA PRACTICUM II (1-2)

Students working on The McKendree Review, campus radio outlet, or other University-based media may do advanced work for additional credit. Prerequisite: JRN 351 or consent of instructor. As needed.

JRN 237 INTRODUCTION TO MASS COMMUNICATIONS (3)

This course focuses on the complex history and powerful effects of the mass media, including the guiding philosophies and societal effects of rapidly changing media. Lecture, media experiences, guest speakers. Annually, Fall.

JRN 280-289 SPECIAL TOPICS IN JOURNALISM (3)

Covered topics include editing for the media, press and society, and investigative reporting. Prerequisites: JRN 237 and consent of instructor. As needed.

JRN 351 WRITING FOR THE NEWS MEDIA (W) (3)

Students learn how to write news stories, features, and editorials for a wide range of media. This course also covers how to structure articles, incorporate photography, conduct meaningful interviews, and follow ethical guidelines. Students will gain the reporting and other skills required to work for most news media outlets, from newspapers to websites. Prerequisite: ENG 111 and ENG 112 or consent of the instructor. Annually, Fall.

JRN 353 FEATURE WRITING (W) (3)

Students learn to create specialized stories while improving copy-editing and headline-writing skills. This course features an introduction to investigative reporting and helps students further develop editorial- and feature-writing abilities. Prerequisites: JRN 351 or consent of the instructor. Annually, Spring.

JRN 372 WEB AND PRINT PUBLICATION DESIGN (3)

Students learn to prepare editorial copy, graphics, photographs, and other material for print and online media. Class will evaluate current and historical publications to aid in the creation of the best possible layouts. Annually, Spring.

JRN 375 TRAVEL WRITING (W) (3)

Students will read a wide range of travel writings – from poetry to articles to books – and then create their own travel writings. As needed.

JRN 380-389 SPECIAL TOPICS IN JOURNALISM (3)

Covered topics include editing for the media, interpretive reporting, and writing critical reviews. As needed.

JRN 470 INTERNSHIP IN JOURNALISM (3-8)

Journalism minors will intern at a newspaper, website, radio station, or other media outlet. This hands-on training markedly increases the potential for professional employment in journalism and many other fields. Prerequisite: consent of instructor. Each semester.

JRN 480 INDEPENDENT STUDY IN JOURNALISM (1-3)

Individual research in specialized topic areas. Offered only to advanced students on a contractual basis, with consent of journalism faculty.

LDR 101 RECOGNIZED LEADERSHIP (3)

This course is designed to offer undergraduate students the opportunity to explore their values, beliefs, and attitudes as a first step toward understanding themselves and their potential for leadership. This course introduces students to the academic study of leadership theory and research. Annually, Spring.

Course Descriptions

- MGT 350 SMALL BUSINESS MANAGEMENT (3)**
 Application of the principles of marketing and management to the small business environment. This course includes the development of a business plan for a small business startup. Prerequisites: MKT 205 and MGT 204. Same as MKT 350. Annually, Spring.
- MGT 354 MANAGEMENT COMMUNICATIONS (W) (3)**
 An in-depth analysis of communication systems in business. The objective is to develop written, oral and listening skills within the context of acquiring and holding a job. Other topics include resume format, cover letters, and interviews. Prerequisite: MGT 204. Annually, Fall.
- MGT 376 OPERATIONS MANAGEMENT (3)**
 A survey of the primary decision areas critical to the production of goods and services within organizations. Topics include product and process design, quality control, inventory management, logistics. The differences between operations management requirements of manufacturing and service operations are examined. Prerequisite: MGT 204, BUS 310. Each semester.
- MGT 380-389 TOPICS IN MANAGEMENT (1-3)**
 As needed.
- MGT 424 BUSINESS ETHICS AND SOCIAL RESPONSIBILITY (W) (3)**
 This course addresses the importance of ethical considerations in business decisions. Topics include schools of ethical thought, the impact of competing stakeholder groups, and the creation of ethics enforcement systems. Students will refine their personal ethical standards and learn to apply ethical decision models to the resolution of business dilemmas. Prerequisite: MGT 204 and MKT 205 or consent of instructor. Same as MKT 424. Each semester.
- MGT 470 INTERNSHIP IN MANAGEMENT (3-8)**
- MGT 480 INDEPENDENT STUDY IN MANAGEMENT (1-4)**
- MGT 490 SEMINAR IN MANAGEMENT (1-4)**
 As needed.
- MKT 205 PRINCIPLES OF MARKETING (3)**
 The course focuses on an analysis of the four strategic elements of marketing – product, price, promotion, and distribution – and the environmental factors that affect the market. The basic theories and examples of marketing practices which this course comprises will prepare the student for further study in marketing and other business fields. Each semester.
- MKT 305 CONSUMER BEHAVIOR (3)**
 This course examines the purchase decision situation and the processes that influence it. Basic concepts from the field of cognitive psychology form the theoretical foundation of the course. Applications of the theories to the practice of marketing are developed. Prerequisite: MKT 205. Annually, Fall.
- MKT 310 MARKETING RESEARCH (W) (3)**
 The course introduces the scientific method as it is applied in marketing. Quantitative and qualitative research methods are studied and an original research project is undertaken. Students gain experience in developing research questions, selecting appropriate methods, using analytical tools, and interpreting and presenting research findings. Prerequisite: MKT 205, MTH 310. As needed.
- MKT 315 MARKETING CHANNELS (3)**
 The course focuses on the network of intermediaries that producers use to make their products available to consumers and industrial users. Among the business entities studied are wholesale and retail intermediaries and other firms that support the distribution function. Prerequisite: MKT 205. As needed.
- MKT 316 SUPPLY CHAIN MANAGEMENT (3)**
 This course addresses the importance of supply chain management in improving an organization's profitability and ensuring its survival. It analyzes the relationship to and impact on marketing through the quality of a firm's products, the firm's ability to launch new products in a well-timed manner, the pricing of a firm's product based on its internal cost structure, and its ability to meet demand and generate sales. It addresses key management concepts such as cross-functional teams, team building, decision making goals, and more. Further, it addresses the supply chain's contribution to the total value provided to the customer. Prerequisite: MKT 205 or MGT 204. As needed.
- MKT 320 PERSONAL SELLING (3)**
 This course examines the personal selling communication process: how information is used to persuade and to satisfy individual needs. Emphasis is placed on preparation for a sale, presentation, closing, handling objections, and follow-up after the sale. Opportunity is provided to study different types of sales environments. Prerequisite: MKT 205. As needed.

- MKT 325 SPORT MARKETING (3)**
 This course explores the world of sports and entertainment from the perspective of marketing. All aspects of marketing, distribution, marketing information system, pricing, promotion, selling, and product/service management, are addressed from the perspective of how they are used in the sports and entertainment industries. Prerequisite: MKT 205. Annually, Fall.
- MKT 330 PRINCIPLES OF RETAILING (3)**
 This course introduces the student to the basic concepts of retail store management. Topics covered include facility and financial management, staffing, location, merchandising, strategies, inventory controls, pricing, and promotion in the retail environment. Prerequisite: MKT 205. As needed.
- MKT 340 INTERNATIONAL BUSINESS (3)**
 This class examines how cultural and social values influence management and marketing practices throughout the world. Work related activities, norms, standards, and expectations of the U.S. are compared with those of other countries. Cross cultural business ventures are examined with particular reference to potential influences of the ventures on the cultures involved. Prerequisites: MGT 204 and MKT 205. Same as MGT 340. Each semester.
- MKT 350 SMALL BUSINESS MANAGEMENT (3)**
 Application of the principles of marketing and management to the small business environment. This course includes the development of a business plan for a small business startup. Prerequisites: MKT 205 and MGT 204. Same as MGT 350. Annually, Spring.
- MKT 354 ADVERTISING AND PROMOTION (3)**
 A course focusing on the communications functions of marketing. Topics include public relations, merchandising, sales promotion, advertising management, and marketing communications theory and research. Prerequisite: MKT 205. As needed.
- MKT 380-389 TOPICS IN MARKETING (1-3)**
 As needed.
- MKT 424 BUSINESS ETHICS AND SOCIAL RESPONSIBILITY (W) (3)**
 This course addresses the importance of ethical considerations in business decisions. Topics include schools of ethical thought, the impact of competing stakeholder groups, and the creation of ethics enforcement systems. Students will refine their personal ethical standards and learn to apply ethical decision models to the resolution of business dilemmas. Prerequisite: MGT 204 and MKT 205 or consent of instructor. Same as MGT 424. Each semester.
- MKT 470 INTERNSHIP IN MARKETING (3-8)**
- MKT 480 INDEPENDENT STUDY IN MARKETING (1-4)**
- MKT 490 SEMINAR IN MARKETING (1-4)**
- MSC 101 INTRODUCTION TO MILITARY SCIENCE (2)**
 Introduction to contemporary military issues and role of the U.S. Army in national defense systems. Review of time management, goal setting, and motivational leadership.
- MSC 102 INTRODUCTION TO MILITARY OPERATIONS (2)**
 Study of the modern battlefield and its relationship to leadership, team building, and stress management. Individual communication skills and group dynamics are stressed.
- MSC 122 SURVIVOR TRAINING (2)**
 Students learn survival and leadership skills to include: finding food/water, shelter construction, land navigation, climate adjustment, first aid, rappelling, and water survival.
- MSC 201 APPLIED MILITARY SKILLS (3)**
 Detailed instruction and practical exercises in military writing, briefing, and decision making. Extensive instruction and practice in map reading and use of a compass.
- MSC 202 SMALL UNIT LEADERSHIP (3)**
 Basic background in first aid and individual field-movement skills. Instruction in use of analytical aids in planning, organizing, and controlling a changing environment.
- MSC 222 THE ART OF WAR (3)**
 Covers the history and evolution of warfare from the ancient Greeks to Operation Desert Storm. Key military leaders and campaigns will be analyzed using the US Army 'Principles of War' and 'Principles of Leadership.'
- MSC 301 ADVANCED LEADERSHIP AND MANAGEMENT (3)**
 Review of skills, techniques, and concepts required by the small-unit combat leader: troop-leading procedures, land navigation skills, tactical organization, and offensive tactics.

Course Descriptions

- MSC 302 SMALL-UNIT TACTICS (3)**
Review of skills, techniques, and concepts required by the small-unit combat leader: troop-leading procedures, fire-control skills, tactical analysis, and defensive tactics.
- MSC 401 LEADERSHIP AND MANAGEMENT (3)**
Examination of organization, responsibilities, administration, and management of the military unit staff. Explores practical aspects of military law and how it influences leadership.
- MSC 402 OFFICERSHIP (3)**
Development of interpersonal skills required for effective management with particular emphasis on the military environment. Reviews various roles of the newly commissioned Army officer.
- MTH 105 INTERMEDIATE ALGEBRA (3)**
This course is for students who have had no more than one year of high school algebra or who have not had mathematics for some time. The course consists of a review of elementary algebra and additional work in linear and quadratic equations, factoring, exponents, polynomials, graphing and linear systems. Students may not apply credit for both MTH 105 and MTH 111 toward fulfillment of the core curriculum requirements. Each semester.
- MTH 111 MATHEMATICS FOR EDUCATORS (3)**
Elementary topics and fundamental concepts studied from a modern point of view. Real number system developed carefully. This course is designed to be a review for the Illinois Basic Skills Test required for admission to the Teacher Education Program. Each semester.
- MTH 131 COLLEGE ALGEBRA (3)**
A study of algebraic concepts including topics related to the real numbers, systems of linear equations, radicals, quadratic equations, inequalities, inverse functions, exponentials, and logarithms as well as other topics included at the discretion of the instructor. This course does not fulfill the mathematics general education requirement. As needed.
- MTH 133 PRECALCULUS (3)**
The study of linear, quadratic, exponential, logarithmic, trigonometric, and inverse trigonometric functions and applications of such functions. These functions will be studied from a numerical, graphical, and analytical approach. A brief general study of functions will also be included. Prerequisite: MTH 105 or equivalent. Each semester.
- MTH 142 FINITE MATHEMATICS (3)**
Introduction to elementary combinatorial mathematics. Topics to be discussed include logic, sets, relations and functions, number systems, matrices, finite probability, mathematics of computer computation, and linear programming. Prerequisites: One and one half units of algebra and one unit of geometry or MTH 105 or consent of the instructor. Each semester.
- MTH 210 CALCULUS I (4)**
The calculus of single variable algebraic, exponential, logarithmic, and trigonometric functions culminating in the Fundamental Theorem of Calculus. Prerequisite: MTH 133, high school precalculus with at least a C, or consent of the instructor. Each semester. IAI-M1900
- MTH 211 CALCULUS II (4)**
Techniques of integration, applications of integration, parametric equations, polar coordinates, and infinite sequences and series. Prerequisite: MTH 210. Each semester. IAI-M19002
- MTH 212 CALCULUS III (4)**
The calculus of vector functions and functions of several variables. Prerequisite: MTH 211. Annually, Fall. IAI-MTH903
- MTH 220 SURVEY OF CALCULUS (3)**
An introductory survey of the essential ideas of calculus. Topics are drawn from the differential, integral, and multivariate calculus. Historical considerations are discussed as appropriate. This course is appropriate for elementary education majors concentrating in mathematics, but does not fulfill the calculus requirement for mathematics majors in any track. Prerequisite: College algebra or consent of the instructor. May not be taken for major credit. Annually, Fall, or as needed.
- MTH 280-289 SPECIAL TOPICS IN MATHEMATICS (1-3)**
As needed.
- MTH 300 TRANSITION TO ADVANCED MATHEMATICS (3)**
Introduction to the methods of proof through the study of sets, logic, relations, mappings, cardinality, and elementary structures. Prerequisite: MTH 210 or consent of the instructor. Annually, Fall.

McKendree University 2013/2014 Undergraduate Catalog

MTH 301 COLLEGE GEOMETRY (3)

The study of geometry including a review of elementary geometry, Euclidean, non-Euclidean, and transformational geometries. Prerequisite: MTH 210 or MTH 220. Annually, Fall.

MTH 310 STATISTICS (4)

This is an introductory course in descriptive and inferential statistics, approached through intuition, algebra, and problem solving. Understanding of central concepts and methods is stressed. Practical applications in the fields of social and physical sciences are studied. Real-world problems are solved through use of statistical computer packages such as SPSS, SAS, or MINITAB. Prerequisites: MTH 105 and computer literacy. Each semester.

MTH 320 FINANCIAL MATHEMATICS (3)

Interest rate measurement, annuities, loan repayment, bond valuation, measuring rate of return of investment, term structure of interest rates, cash flow duration and immunization, and other topics as found on Actuarial Exam FM/2. Prerequisite: MTH 211. Fall, even years.

MTH 330 COMPLEX VARIABLES (3)

Introduction to the study of holomorphic functions of one complex variable. Cauchy-Riemann equations, elementary functions, Laurent series, integral theorems, mappings, applications. Prerequisite: MTH 212. Annually, Spring.

MTH 340 PROBABILITY (3)

Probability axioms, random variables, commonly used discrete and continuous distributions, expectation, moment generating functions, transformations, multivariate distributions. Prerequisite: MTH 212 or consent of the instructor. Annually, Fall.

MTH 341 APPLIED STATISTICS (3)

Regression analysis (least square estimates of parameters, single and multiples linear regression, hypothesis testing) and time series (linear time series models, moving average, autoregressive and/or ARIMA models, estimation, data analysis and forecasting with time series models, forecast errors and confidence intervals). Prerequisite: MTH 212 or consent of the instructor. Spring, odd years or as needed.

MTH 343 NUMBER THEORY (3)

Introduction to the study of the integers. Topics include: well-ordering, divisibility, Euclid's Algorithm, primes, linear and polynomial congruences, arithmetic functions, primitive roots and indicies, quadratic reciprocity, sums of squares. Other topics chosen based upon instructor or class interest. Prerequisite: MTH 212 or consent of the instructor. MTH 300 recommended. Spring, odd years.

MTH 360 LINEAR ALGEBRA (3)

An introduction to the techniques of linear algebra. Topics include vector spaces, linear independence, basis, dimension, linear transformations, eigenvalues, and eigenvectors. Prerequisite MTH 300 or consent of the instructor. Annually, Spring.

MTH 366 NUMERICAL ANALYSIS (3)

An introductory course in numerical methods, including computational techniques for locating roots of equations, interpolation, differentiation, integration, approximation, and systems of linear equations; to include detection, prediction, and control of computational errors. Problem solving using mathematical computer programs and computer programming of algorithms is stressed. Prerequisite: MTH 212 and CSI 230; same as CSI 366. As needed.

MTH 370 DIFFERENTIAL EQUATIONS AND MODELING (3)

An introductory course in the solutions of elementary differential equations and of their applications in a variety of real world contexts. A general study of mathematical modeling is included. Prerequisite: MTH 211 or consent of the instructor. Spring, even years. IAI-MTH912

MTH 372 PARTIAL DIFFERENTIAL EQUATIONS (3)

This course presents a study of hyperbolic, parabolic, and elliptic partial differential equations through analysis of the wave, heat, and potential equations on finite, semi-infinite, and infinite domains. Solution techniques include separation of variables, eigenfunction expansions, Fourier series, and transform methods. Applications to problems of wave propagation, heat conduction, potential flow, and quantum mechanics will be included. Prerequisites: MTH 212 or permission of the instructor. MTH 370 is strongly recommended. As needed.

MTH 375 DISCRETE MODELS (3)

An introduction to the methods of discrete mathematics. Topics include linear and non-linear models. With a focus on recurrence relations, long term behavior, and the use of technology to model real world phenomena. Prerequisite: MTH 210 or consent of the instructor. Annually, Spring.

MTH 376 GRAPH THEORY (3)

Introductory concepts and definitions, trees, planar graphs, chromatic numbers, matchings, and Ramsey theory. Prerequisite: MTH 211. Fall, odd years.

Course Descriptions

MTH 380-389 SPECIAL TOPICS IN MATHEMATICS (1-3)
As needed.

MTH 392 INTRODUCTION TO ANALYSIS (3)
Introduction to analysis on the real line with emphasis on careful development of limits, continuity, and differentiation. Prerequisite: MTH 212 and MTH 300. Spring, odd years.

MTH 393 MODERN ALGEBRA I (3)
With MTH 394 an introduction to the basic notions of modern algebra. Topics covered include: the integers, groups, rings, fields, homomorphisms, and related notions. Prerequisite: MTH 300. Fall, even years.

MTH 394 MODERN ALGEBRA II (3)
A continuation of MTH 393. Prerequisite: MTH 393. Spring, odd years or as needed.

MTH 470 INTERNSHIP IN MATHEMATICS (3-8)

MTH 480 INDEPENDENT STUDY IN MATHEMATICS (1-4)

MTH 490 SEMINAR IN MATHEMATICS (3)
Topics drawn from a variety of advanced topics in mathematics. Prerequisite: Permission of the instructor. Annually, Fall.

MUE E56 MARCHING BAND (0)
The Marching Bearcat Band marches and performs at all home regular season and playoff season football games and special events. The MBB provides a wide variety of entertainment including performances with guest artists. Music performed ranges from pop, rock, country, Broadway, jazz, and classical. Must be taken P/C-/D/F. Annually, Fall.

MUE 148 JAZZ ENSEMBLE (0-1)
This ensemble performs standard jazz arrangements as well as the newest contemporary jazz publications. Performance opportunities include concerts, tours, and special events. The ensemble may also perform with the jazz faculty and/or special guest artists during the year. Each semester.

MUE 154 CONCERT CHOIR (0-1)
Open to all students. Programs are chosen from the best in choral literature. Each semester the choir performs both on and off campus, and prepares a major work which is performed with an instrumental ensemble. Limit of three credits toward core General Education requirements. Additional credits may be used for elective requirements. Each semester.

MUE 155 VOCAL JAZZ ENSEMBLE (0-1)
This ensemble performs standard vocal jazz arrangements as well as pop vocal and swing choir arrangements with and without instrumental accompaniment. Concert opportunities include performing in on-campus concerts, at special events and occasionally off-campus. Must be taken P/C-D/F. Each semester.

MUE 156 CONCERT BAND (0-1)
Students who play brass, woodwind, and percussion instruments are invited to join this ensemble. The band will give a concert each semester and perform at special events on and off campus. Limit of three credits toward General Education requirements. Additional credits may be used for elective requirements. Each semester.

MUE 157-158 PERCUSSION ENSEMBLES (0-1)
Open to all percussion students. Programs will include selected music from large and small percussion ensemble literature. Pre-requisite: Permission of the instructor. As needed.

MUE 157 Percussion Ensemble I

MUE 158 Percussion Ensemble II

MUE 159-168 CHAMBER MUSIC ENSEMBLES (0-1)
These courses offer students the experience of playing in a smaller instrumental ensemble. Prerequisite: Permission of instructor. As needed.

MUE 159 Brass Ensemble

MUE 160 Low Brass Ensemble

MUE 161 Woodwind Ensemble

MUE 162 Piano Trio

MUE 163 Piano Quartet

MUE 164 Piano Quintet

MUE 165 String Ensemble

MUE 166 Flute Ensemble

MUE 167 Clarinet Ensemble

MUE 168 Saxophone Ensemble

MUE 254 CHAMBER CHOIR (0-1)

This is select choral ensemble drawn from the Concert Choir which performs vocal chamber music from all time periods. A limit of 3 credits may be used to fulfill the General Education Fine Arts requirement. Additional credits may be used for elective requirements. Prerequisite: Audition and permission of the instructor. Each semester.

MUE 257 WIND ENSEMBLE (0-1)

A select instrumental ensemble drawn from the Concert Band, students who play woodwind, brass and percussion instruments may audition for this ensemble. This advanced ensemble performs at special events both on and off-campus. The literature to be performed will include advanced collegiate and professional literature. Prerequisite: Audition and permission of instructor. As needed.

MUE 258-261 JAZZ COMBOS (0-1)

Students who play brass, woodwind, and percussion instruments or sing are invited to join a jazz combo. This ensemble will focus on the fundamentals of improvisation and will perform small group jazz literature including blues, swing, bebop, cool, hard bop, fusion, and alternative jazz. Prerequisite: Permission of the instructor. Each semester.

MUE 258 Jazz Combo I

MUE 259 Jazz Combo II

MUE 260 Jazz Combo III

MUE 261 Vocal Jazz Combo

MUE 280-289 SPECIAL TOPICS IN MUSIC ENSEMBLES (0-1)

MUE 380-389 SPECIAL TOPICS IN MUSIC ENSEMBLES (0-1)

MUED 200 MUSIC CLASSROOM TECHNOLOGY (3)

A computer applications course directed to the music teacher, including the use of word processing, databases, spreadsheets, and specialized applications for music education and multimedia production. Required for admission to the Teacher Education Program. Prerequisite: declaration of Music Education Major. As needed.

MUED 304 METHODS OF TEACHING WOODWIND INSTRUMENTS (3)

Group instruction on each instrument, including pedagogical principles and playing techniques. Individuals will be expected to demonstrate basic proficiency on each instrument. As needed.

MUED 306 METHODS OF TEACHING BRASS INSTRUMENTS (3)

Group instruction on each instrument, including pedagogical principles and playing techniques. Individuals will be expected to demonstrate basic proficiency on each instrument. As needed.

MUED 308 METHODS OF TEACHING PERCUSSION INSTRUMENTS (2)

Group instruction on each instrument, including pedagogical principles and playing techniques. Individuals will be expected to demonstrate basic proficiency on each instrument. As needed.

MUED 310 METHODS OF TEACHING STRINGED INSTRUMENTS (2)

Group instruction on each instrument, including pedagogical principles and playing techniques. Individuals will be expected to demonstrate basic proficiency on each instrument. As needed.

MUED 336 MARCHING AND JAZZ BAND TECHNIQUES (3)

Explores teaching materials, techniques of teaching, and organizational systems as they relate to marching and jazz ensembles. The course emphasizes the fundamental development of the teacher candidate as both a performer and teacher through application of teaching techniques in a controlled environment. Prerequisite: Admission to the Teacher Education Program and MUL 198. As needed.

MUED 353 METHODS OF TEACHING GENERAL MUSIC K-12 (4)

Introduces music as a curriculum area in primary and upper elementary grades, including knowledge and skills of reading, playing and singing melodies. This course prepares music teachers with strategies to organize classes and foster learning. These strategies include effective teaching models, classroom management strategies, teacher expectations, research, inquiry learning, learning and teaching styles, development of lessons and strategies to meet the Illinois Goals and Assessment Program, parent involvement strategies and conflict resolution models. Music is also addressed as a component of curriculum integration, enriching the learning experience in language development, social science, and mathematics. A 36-hour field experience is required. Co-requisite: Concurrent enrollment in EDU 358. Prerequisite: Admission to the Teacher Education Program and MUL 198. As needed.

MUED 357 CLASSROOM VOCAL METHODS (2)

Identifies the goals of the K-12 vocal music program and provides techniques and materials for effective vocal teaching. Attention is given to elementary, middle school, and high school choral groups as well as general classroom singing. Prerequisite: MUED 353 or consent of instructor and Admission to the Teacher Education Program. As needed.

MUED 410 BAND AND CHOIR ORGANIZATION (3)

Prepares the teacher candidate to administer and organize a music program. Topics will include, but not be limited to, booster organizations, fundraising, budgeting, and program development. As needed.

MUED 423 CHORAL CONDUCTING AND SECONDARY METHODS (3)

Identifies the goals of choral musicianship in the school curriculum and develops techniques of conducting young singers in both large and small ensembles. Includes an in-depth survey of graded choral music appropriate for treble, male, and mixed voicing at the upper elementary through high school levels. A 32 or 48 hour field experience, dependent on the area of emphasis, is required. This course also includes a lab experience; students will conduct a university ensemble as part of their coursework. Co-requisite: EDU 412. Prerequisite: MUL 198, MUS 322, and admission to the Teacher Education Program. Annually, Fall.

MUED 424 INSTRUMENTAL CONDUCTING AND SECONDARY METHODS (3)

Presents specific techniques for teaching and conducting instrumental ensembles, including a survey of literature appropriate for school bands and wind ensembles. The refining of teaching and conducting techniques associated with instrumental ensembles will be emphasized. Score study, transpositions, and rehearsal techniques are covered in depth. A 32- or 48-hour field experience, dependent on the area of emphasis, is required. This course also includes a lab experience; students will conduct a university ensemble as part of their coursework. Prerequisite: MUS MUL 198, 322, and admission to the Teacher Education Program. Annually, Spring.

MUSIC APPLIED LESSONS

Any student attending McKendree University may take applied music lessons. Students may take lessons for 1 credit (30 minute weekly lesson), 1.5 credits (45 minute weekly lesson) or for 2 credits (60 minute weekly lesson). To register for lessons, students must obtain permission from the Music Department.

 MUL 367-368, 467-468 ADVANCED CONDUCTING (pre-requisite MUS 322)

MUL 198 FIRST YEAR GATE JURY (0)

All first year music majors are required to take this gate. This adjudication of the student by the music faculty is designed to assist the student in assessing his/her skills and abilities as a music major. May be taken only twice. Must be taken Pass/Fail. Prerequisite: Permission from the Music Department. Each semester.

MUL 298 PIANO PROFICIENCY GATE (0)

This Gate is required of all Music Education, Church Music, Vocal and Keyboard Performance majors. Students who are required to take this exam must enroll in applied piano lessons every semester until this requirement is passed. Music Education majors must pass this exam before enrolling in Student Teaching. Must be taken Pass/Fail. Prerequisite: Permission from the Music Department. Each semester.

MUL 398 JUNIOR RECITAL (0)

This recital is required of all music performance majors. An audition must be passed before the recital date is determined. The recital should last 35-40 minutes of primarily solo repertoire on the primary instrument. Pre-requisite: MUL 198 and consent of instructor. Must be taken Pass/Fail. Prerequisite: Permission from the Music Department. Each semester.

MUL 498 SENIOR RECITAL (0)

This recital is required of all music performance and music education majors. An audition must be passed before the recital date is determined. The recital should last 45-50 minutes of primarily solo repertoire on the primary instrument. Pre-requisite: MUL 398 and consent of instructor. Must be taken Pass/Fail. Prerequisite: Permission from the Music Department. Each semester.

MUS 100 PERFORMANCE LAB (0)

This course is intended for those completing a minor or major in music. The requirements for the course will include attending department performance classes, attending professional and student concerts, and participating in master classes. This course is required of all music students who are enrolled in private applied lessons which are required for the completion of their major or minor. Must be taken for a grade. Each semester.

MUS 101 CLASS PIANO I (1)

A practical course for elementary education majors and other students who have had little or no keyboard instruction. The student will be introduced to basic keyboard skills, including the ability to read notes, rhythms, fingering, dynamics and other musical terms and symbols needed to play simple piano pieces. Each semester.

MUS 102 CLASS PIANO II (1)

A continuation of MUS 101. Skills include a survey of MUS 101 with emphasis on harmonization of folk popular, patriotic and children's songs for the purpose of accompanying classroom or group singing. Also covered are basic knowledge and notational skills in music and the ability to write and build chords and scales. Prerequisite: MUS 101 or consent of instructor. As needed.

MUS 103 CLASS PIANO III (1)

A continuation of MUS 102 including more advanced piano literature, ensemble playing, score reading, accompanying, and advanced transposition and sight reading. Prerequisite: MUS 102 or consent of instructor. As needed.

MUS 104 CLASS VOICE (1)

This course is designed for the development of confidence and strength in the young adult voice. Both male and female students will work with the instructor through small groups and individual instruction. Students meet once a week to learn singing techniques and improve sight reading skills. Students are encouraged to sing together and for one another in class, but no solo performance is required. As needed.

MUS 110 FUNDAMENTALS OF MUSIC (3)

Fundamentals of music is designed to cover basic music theory. It includes scales, intervals, keys, triads, and simple harmony. Each semester.

MUS 165 MUSIC APPRECIATION (3)

An introduction to music, this course will enable students with various backgrounds in music to listen to music more intelligently. Students will learn about the historical-cultural aspects of music as an art and its development in the great style periods, along with the lives of the leading figures and the world they inhabited. There will be an emphasis on musical styles, forms and media. This course will encompass music from the medieval period through the twentieth century. Each semester.

MUS 180-189 SPECIAL TOPICS IN MUSIC (1-3)

This course will cover topics or areas not included in the regular curriculum. As needed.

MUS 210 FUNDAMENTALS OF DANCE (2)

Same as PED 210. Annually, Spring.

MUS 255 MUSIC THEORY I (3)

This course reviews the fundamentals of music including the study of intervals, scales, and keys; it continues with extensive reading and writing of rhythm, melody, triads, and the beginning of functional harmony and part-writing. This course is specifically designed for music majors and traditional music minors. Pre-requisite: MUS 110 or consent of instructor. Annually, Fall.

MUS 255L AURAL SKILLS LAB I (1)

To be taken concurrently with Theory I, this performance skills lab provides concentrated practice in sight-singing, melodic and rhythmic dictation and keyboard skills as reinforcement for concepts given in lectures. Meets two hours weekly. Annually, Fall.

Course Descriptions

- MUS 256 MUSIC THEORY II (3)**
This is a continuation of Theory I, including common practice voice leading in four parts, harmonic dictation, and analysis of primary and secondary progressions. Prerequisite: MUS 255. Annually, Spring.
- MUS 256L AURAL SKILLS LAB II (1)**
To be taken concurrently with Theory II. This two hour lab will include melodic and harmonic dictation, advanced sight-singing and a continuation of the development of the development of keyboard skills. Meets two hours weekly. Prerequisite: MUS 255L. Annually, Spring.
- MUS 265 MUSIC IN WORLD CULTURES (3)**
An introduction to the diversity of musical cultures found in Africa, North and South America, Eastern Europe, Asia and the Pacific. Each semester.
- MUS 280-289 SPECIAL TOPICS IN MUSIC (1-3)**
Each semester.
- MUS 301 INTRODUCTION TO MUSIC BUSINESS (3)**
An introduction to the music business industry, this course will include discussion of career opportunities, copyright issues, publishing, the recording industry and media elements of the music industry. This course does not fulfill the General Education Aesthetic Expression requirement. As needed.
- MUS 304 WOODWIND PEDAGOGY (3)**
A survey of methods and music materials which may be used at the beginning and intermediate levels of woodwind study. Observation, participation in and evaluation of individual and group instruction required. As needed.
- MUS 306 BRASS PEDAGOGY (3)**
A survey of methods and music materials which may be used at the beginning and intermediate levels of brass study. Observation, participation in and evaluation of individual and group instruction required. As needed.
- MUS 308 PERCUSSION PEDAGOGY (3)**
A survey of various methods and music materials which may be used at the beginning and intermediate levels of percussion study. Observation, participation in and evaluation of individual and group instruction required. As needed.
- MUS 310 BASS AND GUITAR PEDAGOGY (3)**
A survey of methods and music materials which may be used at the beginning and intermediate levels of bass and guitar study. Observation, participation in and evaluation of individual and group instruction is required. As needed.
- MUS 318 PIANO PEDAGOGY (3)**
A survey of methods and music materials to be used at the beginning and intermediate levels of piano study. Observation, participation in and evaluation of individual and group instruction included. As needed.
- MUS 322 INTRODUCTION TO CONDUCTING (2)**
Study and practice in the basic techniques of leading choral and instrumental ensembles, including discussion of rehearsal procedures, concert preparation and baton technique. Prerequisite: MUS 110 or consent of instructor. As needed.
- MUS 328 VOCAL DICTION (3)**
This course is an intensive study of the physiological processes of vowel and consonant production, their interaction with breathing and phonation, and their representation by standard International Phonetic Alphabet (IPA) symbols. Students will apply the IPA in the study of Italian, German, and French pronunciation as well as English. As needed.
- MUS 329 VOCAL PEDAGOGY (3)**
This course will cover the theory and technique of healthy voice development for children and youth, as well as use of the adult voice. It will include methods of correcting faulty or insecure singing habits, application of teaching strategies in group and individual lesson settings, and some literature selection. As needed.
- MUS 335 ORGAN PEDAGOGY (3)**
A survey of methods and music materials to be used at the beginning and intermediate levels of organ study. The course includes observation, participation in and evaluation of individual instruction. As needed.
- MUS 353 MUSIC AND THE CHILD (4)**
This course explores some of the ways children develop their skills in musical creativity. Lecture, discussion, anecdotal observation, and direct participation in creative activities will lead the student to an understanding of the cognitive and affective processes at work in imaginative play and the value of those processes in overall development. As needed.

McKendree University 2013/2014 Undergraduate Catalog

MUS 355 MUSIC THEORY III (3)

This course introduces the study of form and analysis, more advanced studies in part-writing and dictation and the study of all tertian and seventh chords. The study of orchestration and advanced aural skills will be included. Prerequisite: MUS 255-256 sequence or consent of instructor. Annually, Fall.

MUS 355L AURAL SKILLS LAB III (1)

To be taken concurrently with Theory III, this lab includes advanced sight-singing, three- and four-voice dictation and score reading. Meets two hours weekly. Prerequisite: MUS 256L or consent of the instructor. Annually, Fall.

MUS 356 MUSIC THEORY IV (3)

The continuation of writing and analysis skills, this course will include quartal, "stacked", and other 20th century materials, as well as appropriate practice in aural and keyboard applications. An introduction to the composition of counterpoint will also be included. Prerequisite: MUS 355 or consent of instructor. Annually, Spring.

MUS 356L AURAL SKILLS LAB IV (1)

To be taken concurrently with Theory IV. A continuation of Theory Lab III. Meets 2 hours weekly. Prerequisite: MUS 355L or consent of the instructor. Annually, Spring.

MUS 357 DEVELOPING THE VOICE (2)

The course explores how young people may develop their singing voices and their musical abilities within the classroom environment. Students will learn various techniques, and become familiar with resources and materials, which will be helpful for effective vocal teaching. Prerequisite: MUS 353 or consent of instructor. As needed.

MUS 358 SACRED CHORAL LITERATURE (3)

This course is a survey of sacred choral literature, including liturgical and concert literature, from the middle ages to the twenty-first century. Note: This class will not fulfill the General Education Religion/Philosophy requirement. As needed.

MUS 364 MUSIC HISTORY I (W) (4)

An examination of the music of the Western World from the Greek period through the Renaissance, including the study of music's relationship with the other arts, the lives of its leading figures and the world they inhabited, and the materials and structural elements by which a musical work is fashioned. Special attention is paid to the development of clear stylistic concepts through the use of scores and recordings. This course will include lectures and supervised listening exercises. Pre-requisite: MUS 256 or consent of instructor. Annually, Fall.

MUS 365 MUSIC HISTORY II (W) (4)

A continuation of Music History I. This course will focus upon music and styles of the Baroque and Classical period. Pre-requisite: MUS 256 or consent of instructor. Annually, Spring.

MUS 366 MUSIC HISTORY III (W) (4)

A continuation of Music History II. This course will focus upon the musical styles of the 19th, 20th and 21st centuries. Prerequisite: MUS 365 Annually, Fall.

MUS 367 MUSIC OF THE CHURCH (3)

A study of the music of the Church focusing on the history of hymnody, this course will explore the relationship between hymns and the history of the church and its theology. Important major works written for the church by composers such as Bach, Mozart, Beethoven, Brahms and Schubert may also be studied. Same as REL 367. Note: This course does not fulfill the general education Religion/Philosophy requirement. As needed.

MUS 369 HISTORY OF JAZZ (3)

This course will cover the history of jazz from its inception through current artists. Specific time periods will include blues, ragtime, Dixieland, swing, bebop, cool, hard bop, fusion, smooth, and alternative jazz. Specific artists will include Louis Armstrong, Miles Davis, Charlie Parker, Count Basie, John Coltrane, Dizzy Gillespie and others integral to the history of jazz. As needed.

MUS 372 ARRANGING (3)

This course involves the application of theory and score reading skills to the task of adapting a piece of music for various combinations of voices and instruments. The study of orchestration will also be included. Prerequisite: MUS 356 or consent of instructor. As needed.

MUS 375 HISTORY OF THE AMERICAN MUSICAL (3)

This course will explore the European roots of the musical and trace its development in America and on Broadway. The focus will be on musical developments within the form as well as on how each musical reflects societal issues. As needed.

- MUS 376 BROADWAY: A REFLECTION OF AMERICA (3)**
This course will explore how the musicals of Broadway reflect the history, the people and social development of America. Discussion regarding compositional techniques and how musicals are unified through musical motives will also be discussed. This course is a continuation of MUS 375. Students are encouraged, but not required, to take MUS 375 before enrolling in this course. As needed.
- MUS 380-389 SPECIAL TOPICS IN MUSIC (1-4)**
As needed.
- MUS 400 MUSIC TECHNOLOGY (3)**
A computer applications course which will go beyond the technology taught in MUS 356 (Theory IV) and will include learning the concepts of specialized programs for multimedia production, digital audio, MIDI and basic recording. This course does not fulfill the General Education Aesthetic Expression requirement. As needed.
- MUS 402 RECORDING TECHNIQUES (3)**
This course will include learning advanced techniques of recording, placement of microphones, enhancement and important facets of professional recording. The student will work with university personnel who oversee the recording of university concerts. A general introduction to the recording studio, this course will include learning about recording, editing and mastering, production and graphic design. This course does not fulfill the General Education Aesthetic Expression requirement. Pre-requisite: MUS 400 or consent of instructor. As needed.
- MUS 422 ADVANCED CHORAL CONDUCTING (2)**
A study of advanced choral conducting, including advanced techniques, rehearsal procedures, historical style, performance practices, and programming. Prerequisite: MUS 322 or consent of instructor. As needed.
- MUS 470 INTERNSHIP IN MUSIC (3-6)**
As needed.
- MUS 480 INDEPENDENT STUDY IN MUSIC (1-4)**
As needed.
- MUS 481-489 SPECIAL TOPICS IN MUSIC (1-4)**
As needed.
- MUS 490 SEMINAR IN MUSIC (1-4)**
As needed.
- NSG 302 BODY FLUIDS AND ELECTROLYTES (1)**
This course will be accepted for competency in chemistry. The focus in this web-based course is on the chemistry of fluid, electrolyte, and acid-base balance. Students identify basic physiological processes responsible for maintaining balance. Major causes and signs and symptoms of imbalance are included, as well as nursing assessment and management or persons with imbalances. Each semester.
- NSG 303 INFECTIOUS DISEASES (1)**
The focus of this course is on the identification, treatment and control of selected infectious diseases. Students explore a variety of both commonly occurring as well as infrequently occurring communicable diseases in mankind. Using current professional literature, students describe the development of a selected drug resistant pathogen. Each semester.
- NSG 304 ANTIMICROBIAL PHARMACOLOGY (1)**
In this web-based course students will engage in an in-depth study of commonly prescribed antimicrobials, their administration, and their implications for patient care in the treatment of bacterial, viral, fungal, and mycobacterial infections. Drug resistant pathogens and their treatment will also be examined. Annually, Fall, Summer.
- NSG 305 CARDIOVASCULAR AND RENAL PHARMACOLOGY (1)**
In this web-based course students will engage in an in-depth study of medications commonly prescribed for patients with alterations in renal and/or cardiovascular function. Emphasis is placed on nursing implications for administration of medications, care of patients receiving them and education of patients and families related to safe and effective use of these medications. Annually, Fall, Summer.
- NSG 306 CENTRAL NERVOUS SYSTEM PHARMACOLOGY (1)**
In this web-based course students will engage in an in-depth study of medications commonly prescribed for patients requiring pain management and/or those with disorders of CNS function. Emphasis is placed on the nursing implications for administration of medications, care of patients receiving them and education of patients and families related to safe and effective use of these medications. Annually, Spring, Summer.

NSG 307 WRITING FOR NURSES (3)

This course is designed specifically for nursing majors to be the equivalent of English 112, which follows English 111 in the first year composition sequence. The class is a process-oriented writing course designed to further develop students' abilities to engage in extensive pre-writing, revising, editing and polishing. Using disciplinary readings in nursing and medicine, this course emphasizes expository and persuasive analytical writing assignments and offers students further opportunities to strengthen their critical thinking skills. Students develop their abilities to use library resources and apply research techniques to a paper related to a nursing topic. As needed.

NSG 308 ANATOMY AND PHYSIOLOGY REVIEW (1)

This course will be accepted for competency in anatomy and physiology. In this web-based course students focus on the structure and function of the human body using the systems model. Because nurses base much of their practice on the understanding of anatomy and physiology, practice related information will be explored. Annually, Fall, Spring.

NSG 309 SPIRITUALITY IN NURSING (3)

This course provides an opportunity for students to investigate the importance of spirituality in nursing and in the lives of the patients. Using reading assignments and classroom discussions, students will explore the relationship between nursing and spirituality, including assessment of patients' spiritual needs, the nurse's role in the provision of spiritual care, the spiritual nature of the nurse-patient relationship, the spiritual history of nursing, and the contemporary interest in spirituality within the nursing profession. Annually, Spring.

NSG 310 INTRODUCTION TO NURSING BUDGETS (3)

In this course, students develop an understanding of the healthcare budgeting process. Development of a budget and a business plan will be emphasized. Prioritization of health care needs and services will be considered. Annually, Fall.

NSG 311 NURSING CARE OF THE OLDER ADULT (3)

This course provides students with a basic understanding of the effects of social trends on the structure of aging families and their needs. Students will be able to recognize and describe the effects of such phenomena as estrangement, blended families, socioeconomic status, perceptions of entitlement, role loss and change on families as they age. Students will learn assessment skills that assist in identifying specific needs of aging caregiver families. Annually, Spring.

NSG 312 HOLISTIC NURSING (3)

This course introduces students to the concepts of Holistic Nursing. Particular attention will be given to demonstrating how Complementary and Alternative Modalities (CAM) may benefit the current financial concerns in health care. Students will discuss selected nursing models, as related to holistic and CAM therapy. They will be introduced to the basic principles of Holistic Nursing, Herbal Medicine usage, and CAM. As needed.

NSG 314 NURSING RESEARCH (W) (3)

The focus of this course is on the nurse as an evaluator of research. Students are able to describe basic research concepts and techniques and appreciate the ethics of nursing research. Evaluative skills are developed by critiquing current nursing research. Using peer-reviewed research articles, students analyze and summarize nursing research on a selected topic. Pre- or corequisite: MTH 310. Annually, Spring.

NSG 315 THEORETICAL MODELS OF NURSING PRACTICE (2)

This course introduces students to the use of a theoretical model to guide nursing practice. Selected theoretical frameworks and the contribution of nursing theorists are examined. Concepts of the individual, health, nursing and environment are explored in the context of various theories with students encouraged to examine the application to their own practice. Each semester.

NSG 316 CRITICAL THINKING FOR NURSES (3)

Critical Thinking is an integral part of clinical decision making for all nurses. This course is designed to bring critical thinking into the real world of health care through activities and exercises. Annually, Fall.

NSG 320 EVIDENCE BASED PRACTICE (2)

In this course students will explore evidence based approaches to frequently encountered clinical questions. Through an in-depth evaluation of current research literature, students investigate best practice nursing interventions. Prerequisite: NSG 314. Annually, Fall, Summer.

NSG 321 HOLISTIC NURSING (3)

This course introduces students to the concepts of Holistic Nursing. Particular attention will be given to demonstrating how Complementary and Alternative Modalities (CAM) may benefit the current financial concerns in health care. Students will discuss selected nursing models, as related to holistic and CAM therapy. They will be introduced to the basic principles of holistic nursing, Herbal Medicine usage, and CAM. Annually, Spring.

NSG 330 COUNSELING FOR HEALTH PROFESSIONALS (3)

In this course, students develop interpersonal communication techniques essential for the practice of nursing. Specifically, students practice active listening techniques to provide emotional care to clients in a variety of health care settings. Annually, Spring.

NSG 335 METHODS OF TEACHING IN NURSING PRACTICE (3)

Students in this course will develop a basic understanding of the principles of teaching and learning. Students will develop skills in identifying needs and characteristics of learners as well as in assessing learner readiness, motivation and compliance. Techniques and strategies for effective teaching and learning will be explored. While the course focuses primarily on the role of the nurse as patient educator in a health care setting, teaching in an academic setting will be addressed. As needed.

NSG 345 TRANSCULTURAL NURSING (3)

In this course, students develop cultural sensitivity by exploring and analyzing cultural beliefs, attitudes, and values of clients and health care providers. Students describe the health care practices of various cultures and subcultures and identify methods of delivering culturally competent care to clients of nursing. Annually, Summer.

**NSG 350 HEALTH ASSESSMENT
30 hours lecture and 30 hours clinical (clock) hours (3)**

The health assessment course facilitates the student's development of the health assessment techniques of interview, inspection, palpation, percussion, auscultation. Students perform health assessments in a laboratory situation and/or a variety of clinical settings. Annually, Fall.

NSG 355 HEALTH POLICY AND ECONOMICS (3)

This web-based course introduces students to basic concepts and principles of health policy, healthcare economics, and healthcare delivery in the climate of managed care. Public and private funding of healthcare will be discussed. Students will examine the history and evolution of healthcare in America and the impact of the current system on cost, availability, access, and quality of healthcare. The United States system of healthcare delivery will be compared to those of other nations. Future trends in healthcare will be discussed. Each semester.

NSG 360 FRONTIER NURSING (1-2)

This course explores the role of Mary Breckenridge in establishing the Frontier Nursing Service (FNS) in the Appalachian Mountains of Kentucky. The social changes that resulted from improved maternal-infant care to the families in Eastern Kentucky are identified. Students examine the past and current role of nurse midwives and family nurse practitioners as primary health care providers in rural areas of Eastern Kentucky. Students also identify common cultural mores that influence health practices of the Appalachian people. A field experience to Frontier Nursing Service in Hyden, Kentucky is required. As needed.

NSG 361 NURSING AND THE LAW (3)

In this course, students analyze current and emerging nursing practice liabilities. Topics discussed include issues involving malpractice, documentation, and staffing. Students review and analyze case law that has played a major role in shaping the nursing profession. Annually, Summer.

NSG 370 PATHOPHYSIOLOGY (4)

Pathophysiology introduces students to the causes and mechanisms of disease. Students will recognize the symptoms of diseases in relation to the underlying biochemical, genetic and metabolic malfunctions. Students will be able to describe the pathogenesis of neoplasms, inflammatory disorders, disorders of the immune system, and specific hematologic, cardiovascular, respiratory, renal, neurological, muscular, and endocrine disorders. Annually, Fall.

NSG 380-389 SPECIAL TOPICS IN NURSING (1-4)

Studies in current topics or specialized areas of nursing practice. Prerequisite: Admission to the nursing program or consent of instructor. As needed.

NSG 400 LEADERSHIP AND MANAGEMENT IN NURSING (3)

This course provides an opportunity for students to investigate theories of leadership and management. Using classroom exercises, students develop management skills in the areas of communication, time management, decision making, performance appraisal, risk management, resource allocation, and change. Students develop citizenship skills by participating in sociopolitical activities. Annually, Spring.

NSG 405 ETHICAL / LEGAL ISSUES IN NURSING (3)

In this course, students discuss legal issues impacting current nursing practice. Students explore historical and social factors influencing the development of ethics in nursing practice and analyze ethical problems inherent in contemporary practice of nursing. Students analyze emerging professional roles in nursing, paying particular attention to the advocate component of these roles. Annually, Spring.

- NSG 420 FAMILY HEALTH NURSING (3)**
The focus of this course is on health promotion and illness prevention in families. Theoretical foundations and conceptual frameworks of family nursing practice are explored. Factors that influence family development are examined. The effects of social, cultural and economic factors that influence family health behaviors and health risks are studied. Students complete a comprehensive family assessment and explore strategies to assist families to make positive changes in response to family health issues. Annually, Fall.
- NSG 430 HISTORICAL DEVELOPMENT OF NURSING (3)**
The focus of this web-based course is on analyzing historical events of the nursing profession and their relationship to current issues in nursing. Students will investigate the origins of the profession, the evolution of nursing practice, and the development of nursing education. Exploring historical perspectives will enable students to project future trends in the practice of nursing.. Each semester.
- NSG 450 COMMUNITY HEALTH NURSING (4)**
In this course, students develop knowledge of health promotion and disease prevention concepts, as well as differentiate various levels of health care in the community. Factors which influence the health status of groups and communities are examined. Students develop beginning level skills in community assessment, epidemiological investigation and community health education. Students complete an in-depth study of the health needs of selected vulnerable populations and groups within the community and develop appropriate nursing interventions. Students examine the role of the community health nurses in a variety of practice settings. Annually, Fall.
- NSG 470 CLINICAL PRACTICUM IN COMMUNITY HEALTH (W)
120 clinical (clock) hours; includes 40 hour mentorship and 80
hours project development, implementation, and evaluation (4)**
This capstone clinical course is designed to apply principles of community health nursing, case management, leadership and change in a community setting. Expanding upon current knowledge and experience base, students will participate in a variety of clinical activities in the community. Students will design, implement and evaluate a project focusing on community health. This project will challenge critical thinking skills as students analyze and synthesize data to develop nursing interventions for population groups. Prerequisite: NSG 450. Pre- or co-requisite: NSG 314 and NSG 400. . All coursework required for graduation must be completed prior to or in conjunction with this course. Each semester.
- NSG 480 INDEPENDENT STUDY IN NURSING (1-4)**
- PED 108 MOVEMENT, BALANCE, AND FLEXIBILITY (.5)**
This course is designed to introduce the student to safe body positions and normal ranges of body movement. Students will learn the basics of gait analysis and posture evaluation, and consider the impact of their findings on different body movements. The course will also develop students balance and proprioception through therapeutic balance activities and sports skills like the low balance beam. Flexibility will be developed through multiple techniques including static and ballistic stretching. All three concepts will be covered individually and then used in combination to perform basic gymnastic skills which require movement, balance and flexibility. Annually, Fall.
- PED 109 YOGA I (.5)**
A half-semester recreational activity course in Hatha Yoga designed to introduce students to yoga and improve their physical well-being. Each semester.
- PED 110 YOGA II (.5)**
A half-semester second course in Hatha Yoga designed to follow PED 109. As needed.
- PED 114 GOLF (.5)**
A half-semester recreational activity class designed to provide students with fundamental skills and strategies of golf. A fee is charged for this course. Each semester.
- PED 115 BOWLING (.5)**
A half-semester recreational activity class designed to provide students with fundamental skills and strategies of bowling. A fee is charged for this course. Each semester.
- PED 116 BADMINTON (.5)**
A half-semester recreational activity class designed to develop fundamental skills and strategies of badminton. Annually, Fall.
- PED 117 TENNIS (.5)**
A half-semester recreational activity class designed to develop fundamental skills and strategies of tennis. Each semester.

- PED 118 VOLLEYBALL (.5)**
A half-semester recreational activity class designed to develop basic skills employed in volleyball. Annually, Spring.
- PED 121 PRINCIPLES OF STRENGTH TRAINING (.5)**
This course will introduce general muscular endurance and general muscular strength training. Students will learn how to perform circuit weight training and traditional weight training techniques while utilizing both free weights and machines. Additionally, students will be introduced to training periodization, the Oxford training method (descending or reverse pyramid), the Delorme training method (incremental progression or ascending pyramid), and triangle pyramid training. Each semester.
- PED 122 SOCCER (.5)**
A half-semester recreational activity class designed to provide students with fundamental skills and knowledge. Annually, Fall.
- PED 123 BASKETBALL (.5)**
A half-semester recreational activity class designed to provide students with fundamental skills and knowledge. Annually, Fall.
- PED 124 AEROBICS (.5)**
A half-semester activity class designed to provide students with the opportunity to improve cardiovascular endurance and develop basic aerobic dance movements. Annually, Fall.
- PED 125 PRINCIPLES OF ENDURANCE TRAINING (.5)**
This course will introduce several components of cardiovascular endurance training. Students will learn how to utilize aerobics, pulse, target heart-rate, and VO₂ max within endurance training. Additionally, students will be introduced to training periodization. Annually, Fall.
- PED 126 ADVANCED STRENGTH TRAINING (.5)**
A half semester recreational activity class designed to introduce specific muscular development through the development of individual strength training programs. Students will learn how to utilize hypertrophy, strength, and power phases of strength training within a training program that is designed specific to the individual student. Techniques utilized within the program may involve the utilization of free weights, machines, and other functional strength training equipment. Annually, Spring.
- PED 127 CROSS TRAINING (.5)**
A half semester recreational activity designed to introduce several components that determine a performer's ability to increase speed, agility, and quickness. Students will learn how to perform specific drills and how to fit speed, agility, and quickness training into an overall training program. This course is offered through the YMCA and a fee is charged for the course. Each semester.
- PED 130A-Z SELECTED RECREATIONAL ACTIVITIES (.5)**
Special activities not given on a regular basis.
- PED 157 FOUNDATIONS OF PHYSICAL EDUCATION (3)**
The student is provided the opportunity to develop a concept of physical education through discussion of historical, philosophical, sociological, and professional issues in physical education. in total. This survey course is directed toward a basic understanding of the function of physical education in public the schools and the elements involved in the professional preparation of teachers. The function of physical educators in other professional settings will also be examined. Annually, Spring.
- PED 202 PSYCHOLOGY OF COACHING (3)**
Psychology concepts related to the field of coaching, including human development, motivation, values, personal and group dynamics. Special emphasis concerning techniques of coaches and responsiveness of athletes to varying coaching styles. Annually, Spring.
- PED 206 FIRST AID (2)**
This is an American Red Cross First Aid, Professional Rescuer and AED course the successful completion of which will result in the student qualifying to receive American Red Cross First Aid and Professional Rescuer & AED cards. Each semester.
- PED 207 ESSENTIALS OF ATHLETIC TRAINING (3)**
This course provides the foundation for those students pursuing a career in physical education as well as for those students seeking a coaching minor. Fundamental information regarding prevention, recognition, rehabilitation and general modality usage appropriate in the care of athletic injuries. Annually, Spring.
- PED 210 FUNADMENTALS OF DANCE (2)**
This course is designed to offer students the opportunity to experience and teach fundamentals of line, folk, square, and modern dance. Annually, Spring.

McKendree University 2013/2014 Undergraduate Catalog

- PED 280-289 TOPICS IN PHYSICAL EDUCATION & COACHING (1-4)**
As needed.
- PED 301 TRACK AND FIELD THEORY (3)**
Track and Field events are taught from the standpoint of preparing the student to coach track and field. Classes will utilize both theoretical and practical methodologies. Annually, Spring.
- PED 302 VOLLEYBALL THEORY (3)**
Theory and practice in the fundamentals and techniques of volleyball with emphasis on the execution of skills, theory and techniques of coaching volleyball. Fall, even years.
- PED 303 BASKETBALL THEORY (3)**
For students interested in teaching and coaching basketball. Philosophy, style of play and strategy of selected coaches are studied. Annually, Fall.
- PED 304 SOFTBALL THEORY (3)**
Instruction in fundamental and advanced skills of softball with special reference to the coaching of softball. Spring, odd years.
- PED 305 BASEBALL THEORY (3)**
Theory and practice of the basic fundamentals, rules and training required for the coaching of baseball. Fall, even years.
- PED 306 FOOTBALL THEORY (3)**
For students interested in coaching football. Philosophy, strategy, offensive concepts, defensive concepts, and kicking game strategy are covered. Annually, Spring.
- PED 307 SOCCER THEORY (3)**
This course is designed for students who would like to teach and coach soccer. Students will build their own coaching philosophies, styles of play, and learn strategies used by many successful coaches. Through lectures, research, and practical application of skill, the instructor aims to prepare students with the fundamental and technical knowledge necessary to teach and coach the game of soccer. Annually, Spring.
- PED 311 ATHLETIC EQUIPMENT MANAGEMENT (3)**
An examination of the theory and practice of storage, security, management, fitting, maintenance, repair and purchasing of sport equipment for various sports and activities; sport start-up cost will be a major focus. Annually, Fall.
- PED 312 ADVANCED ATHLETIC EQUIPMENT MANAGEMENT (3)**
This course focuses on putting theories of equipment management to practice; specifically focusing on how accountability, maintenance, purchasing, and the storage equipment vary from sport to sport. The course will examine budgetary strategies, storage construction, and equipment facility set-up. Pre-requisite: PED 311. Fall, odd years.
- PED 348 ADAPTIVE PHYSICAL EDUCATION (W) (3)**
The student will learn how to adapt physical activities to enable children and youth (k-12) with disabilities to realize skills and abilities. Disability legislation, disability categories, inclusion and least restrictive environment will be discussed; students will learn about and complete authentic assessments, a Physical Education IEP, lesson plans, and participate in activities adapted for individuals with disabilities. Prerequisite: PED 157. Annually, Spring.
- PED 349 PHYSIOLOGY OF EXERCISE (3)**
An examination of the effects of muscular activity on the various systems of the body. Special emphasis on nutrition, energy expenditure, training, performance, environmental stress and body composition. Prerequisite: BIO 101 or 110, 307, and HPE 300. Same as ATH 349. Annually, Fall.
- PED 353 PHARMACOLOGY FOR ATHLETIC TRAINERS (3)**
This course will introduce students to the general principles of pharmacology. Indications, contraindications, allergies, precautions of use, adverse side effects as they relate to physical exercise, dose information and information for prescription and non-prescription drugs will be addressed. Prerequisite: Bio 101 or 110 and 307. Same as ATH 353. Annually, Fall.
- PED 354 INDIVIDUAL & LIFETIME ACTIVITIES IN PHYSICAL EDUCATION (3)**
Rules, skills, history and developmentally appropriate practices for individual and lifetime activities. Prerequisite: PED 157. Annually, Fall.
- PED 355 TEAM ACTIVITIES IN PHYSICAL EDUCATION (3)**
Rules, skills, history and developmentally appropriate practices for team activities and sports. Prerequisite: PED 157. Annually, Spring.

Course Descriptions

- PED 357 ADMINISTRATION AND DEVELOPMENT OF PHYSICAL
EDUCATION AND ATHLETIC TRAINING PROGRAMS (3)**
Theory, practice and examination of the administrative requirements of the physical educator, athletic administrator and athletic trainer relative to organizational structure, facility design, budget, risk management, human resources and curriculum. Annually Spring – same as ATH 357.
- PED 365 MOTOR DEVELOPMENT (3)**
This course is designed to introduce the student to the phases of human development as related to gross and fine motor skills and abilities. The student will gain an understanding of typical benchmarks from birth to adulthood for motor skill acquisition and motor skill proficiency of a range of human skills and abilities. Annually, Fall.
- PED 403 KINESIOLOGY (W) (3)**
Analysis of human motion based on anatomic and mechanical principles and the application of these principles in the teaching of physical education activities, including body mechanics. Prerequisite: BIO 101 or 110 and 307. Annually, Fall.
- PED 404 MOTOR LEARNING (3)**
An examination of the process of motor skill acquisition from psychological, biomechanical, and physiological perspectives; skill and motor acquisition across the lifespan will be presented. Prerequisite: PED 157, 403. Annually, Fall.
- PED 450 SOCIOLOGY OF SPORT (3)**
A sociological examination of sports and sport-related behaviors as they occur in social and cultural contexts. Same as SOC 450. Annually, Spring.
- PED 455 CONCEPTS OF RESISTANCE TRAINING (4)**
Study of the application of principles of anatomy, physiology and exercise physiology in the recommended of resistance exercises for the improvement in health and athletic performance. This course also serves as preparation for those students interested in sitting for the CSCS exam given by the NSCA Certification Commission. Same as ATH 455. Prerequisite: BIO 101 or 110 and 307, ATH 349 and senior standing. Annually, Spring.
- PED 460 FIRST AID/CPR/AED INSTRUCTOR (3)**
The course is designed to train individuals to become Red Cross Instructors who can teach First Aid/CPR/AED Programs courses. Completion of Fundamentals of Instructor Training (FIT) through this course or possession of a current national Health and Safety Services Instructor Authorization is required. Prerequisite: Minimum age 17 and successful completion of a pre-course session including a written exam (pass 80% or better) and demonstrated competency in the pre-course skills evaluation. Same as ATH 460, Annually, Spring.
- PED 465 SPORT AND HEALTH PSYCHOLOGY (3)**
This course will cover primary theories and applications in sport and health behaviors. Theories will be drawn from social psychology, health psychology, cognitive psychology, exercise psychology, and sports psychology. Specific topics will include personality characteristics, motivation, goal-setting, attributions, concentration, imagery, aggression, group dynamics, communication and counseling techniques, research methodologies, and behavior modification. An extensive research paper, group presentation, and individual behavior modification project will be included in the course. Same as PSY 465. Annually, Fall.
- PED 466 CLINICAL PRACTICUM IN ATHLETIC EQUIPMENT MANAGEMENT (8)**
Student will participate in the day to day operation of a high school, college/university or professional athletic equipment room setting learning and applying the skills and knowledge that is necessary to keep athletic teams operational. Clinical exposure will also include facility set-up and take-down for athletic events, the steps needed to host various athletic events and athletic team travel preparation. Pre-requisites: PED 202, 206, 207, 311, 312, 403 and BIO 307 and Senior Standing. Annually, Spring.
- PED 470 INTERNSHIP FOR NONTEACHING
PHYSICAL EDUCATION MAJORS (3-8)**
- PED 480 INDEPENDENT STUDY (1-4)**
- PED 490 SEMINAR IN PHYSICAL EDUCATION (1-4)**
- PED 491 SEMINAR IN ATHLETIC EQUIPMENT MANAGEMENT (3)**
Capstone course in athletic equipment management which focuses on review and integration of sport equipment knowledge. This course includes preparation for the National Certification Exam in Athletic Equipment Management. Students are required to become members of the Athletic Equipment Managers Association. This course is taken concurrently with PED 466. Annually, Spring.

PED 492 SEMINAR IN LEADERSHIP IN SPORT & EXERCISE SCIENCE (2)

A capstone course in Leadership in Sport and Exercise Science designed to review and integrate knowledge, principles, and skills related to certification exams. Taken concurrently with PED 470 (Internship in Leadership in Sport and Exercise Science). Annually, Spring.

PHI 201 INTRODUCTION TO PHILOSOPHY (4)

This is an introductory course dealing with the purposes, problems and methods of philosophical thinking. It aims to lead students to organize their own world-view and life-view in the light of a critical examination of their own ideas and of typical philosophical positions. Each semester.

PHI 202 INTRODUCTION TO PHILOSOPHIES OF ASIA, AFRICA AND LATIN AMERICA (3)

A survey course focusing on central philosophical traditions of Asia, Africa and Latin America. The course focuses on philosophical themes, theories and debates within each tradition, as well as the relation of these non-Western perspectives to Western philosophy. Central themes addressed include self-knowledge, self-cultivation, the nature of reality, the relation of the individual to society and the good life. Each semester.

PHI 204 LOGIC (4)

The aim of this course is to give the student a general knowledge of the fundamental laws of correct deductive and inductive reasoning. Emphasis is placed on practical exercise and the detection of formal and informal fallacies. Annually, Spring.

PHI 206 INTRODUCTION TO ETHICS (3)

This course is an introduction to thinking about the ethical life from the perspective of philosophy. Ethical principles, virtues, and rights are linked to concrete situations of everyday moral decision-making. Each semester.

PHI 208 ENVIRONMENTAL ETHICS (3)

This course examines diverse conceptions of nature and a range competing ethical theories about the relationship of humans to nature. Readings are drawn from historically significant ethical theories as well as contemporary philosophical writings. Philosophical questions addressed include: Is nature intrinsically valuable? Is nature a mere raw resource for meeting human needs? What are rights? Do non-humans (e.g. other animals, natural objects) have rights? What responsibilities do we have to future generations and their environment? What is the role of the environment in shaping a person's identity and conception of the "good life"? Contemporary environmental issues addressed include: biodiversity, global warming, species preservation, population policy, animal experimentation, and sustainable development. As needed.

PHI 280-89 TOPICS IN PHILOSOPHY (1-4)

Studies in topical or specialized areas of Philosophy not included in the regular curriculum. As needed.

PHI 325 PHILOSOPHY OF RELIGION (W) (3)

This course explores traditional and recent, philosophical and theological thinking in such areas as arguments for the existence of God, the nature of religious knowledge, the problem of evil, the question of human destiny, and the nature of religious language, etc. Same as REL 325. Spring, odd years.

PHI 331 SOCIAL AND POLITICAL PHILOSOPHY (W) (3)

This course examines a number of critical issues at the intersection of ethical theory, political thought and social life. Among the subjects of special concern are the concepts of political freedom, the grounds of coercion, the acceptability of the "harm principle," the notion of legal rights, the concept of human rights and theories of social justice. Same as PSI 331. Fall, odd years.

PHI 332 ETHICAL THEORY (W) (3)

This course explores major questions in the area of ethical theory including ethical relativism and moral objectivism, what is intrinsically good, consequentialist and deontological thinking about right actions, virtue ethics, the relation of religion and ethics and other issues. Spring, even years.

PHI 333 METAPHYSICS AND HUMAN NATURE (W) (3)

This course focuses upon some recent answers to the question 'What is a human being?' noting questions about such concepts as 'person,' 'body,' 'freedom,' 'determinism,' 'causation' and matters such as the relation of mind and body, as these issues are raised in the thinking of prominent natural and social scientists. Fall, odd years.

PHI 334 PHILOSOPHY OF ART (W) (3)

This course is an occasion for reflection on what it is one does when one 'does art.' It will focus on such issues as the nature of art, the relations of the various 'arts,' the relevance of such notions as 'expression,' 'creativity,' 'truth,' 'form,' to the doing of art and problems in interpreting and criticizing art. Spring, even years.

PHI 336 EXISTENTIALISM (W) (3)

This course centers upon representative members of that group of modern philosophical thinkers called 'existentialists,' and upon the themes which these thinkers have made central to their work. As needed.

PHI 345 PHILOSOPHY OF SCIENCE (W) (3)

This course explores major philosophical problems raised by modern science including such issues as the distinction between science and non-science, the nature of scientific explanation, the confirmation and acceptance of hypotheses and the relevance of values to scientific inquiry. As needed.

PHI 363 HISTORY OF PHILOSOPHY: GREEK AND MEDIEVAL (W) (4)

This course is a historical survey of the great movements of philosophic thought from the Greek period to Scholasticism. The great philosophers of history are studied from the point of view of their own particular philosophy and their influence on the thinking of their own and subsequent periods. Fall, even years.

PHI 364 HISTORY OF PHILOSOPHY: RENAISSANCE AND MODERN (W) (4)

This course presents a survey of the period of thought from Scholasticism to modern critical philosophy. Special attention will be given to Descartes, Spinoza, Locke, Kant, Hegel, Schopenhauer, Nietzsche, Kierkegaard and major twentieth century thinkers. Spring, odd years.

PHI 380-389 TOPICS IN PHILOSOPHY (W) (1-4)

Studies in topical or specialized areas of Philosophy not included in the regular curriculum. As needed.

PHI 390 ETHICS AND PUBLIC POLICY (W) (3)

This course examines recent philosophical thinking about such fundamental ethical and social issues as racial and sexual discrimination, criminal punishment and the death penalty, civil disobedience, the morality of war, the enforcement of morals and abortion. Spring, odd years.

PHI 391 BIOMEDICAL ETHICS (W) (3)

This course explores the ethical implications of recent developments in biological research and medical practice, including experimentation with human subjects, biological engineering, death, transplantation and resource allocation, behavior control, and health care delivery. Fall, even years.

PHI 480 INDEPENDENT STUDY IN PHILOSOPHY (1-4)**PHI 490 SEMINAR IN PHILOSOPHY (1-4)**

Prerequisite: junior or senior standing as a philosophy major.

PHY 101 ASTRONOMY (4)

This is a basic course in astronomy dealing with the historical development of astronomy, the elements of positional astronomy, the solar system, stars and galaxies and cosmology. The course meets for three hours of lecture and one laboratory period per week. A student must pass the laboratory portion of any science course to pass the entire course. Annually, Fall.

PHY 211, 212 GENERAL PHYSICS (4,4)

These courses are introductory courses in mechanics, heat, and sound (PHY 211) and electricity, magnetism and optics (PHY 212). Each course meets for three one hour lectures and one two hour laboratory period per week. Prerequisite: MTH 133. A student must pass the laboratory portion of any science course to pass the entire course. Alternating annually: 211, Fall, even years; 212, Spring, odd years.

PHY 221 UNIVERSITY PHYSICS I: MECHANICS (4)

This course is the first course in the calculus-based physics sequence intended for math, science, and computer science majors. The topics covered include: vectors; Newton's Laws; circular motion; work and energy; linear momentum; rotation of a rigid bodies; angular momentum; static equilibrium; gravitation; and fluid mechanics. The course meets for three hours of lecture each week, and one three-hour laboratory each week. Prerequisite: MTH 211 or concurrent enrollment. A student must pass the laboratory portion of any science course to pass the entire course. Annually, Fall. IAI-PHY911

PHY 222 UNIVERSITY PHYSICS II: ELECTRICITY AND MAGNETISM (4)

This course is the second course in the calculus-based physics sequence intended for math, science, and computer science majors. The topics covered include: electric fields; Gauss's Law; electric potential; capacitance and dielectrics; current and resistance; circuits; magnetic fields; Faraday's Law; inductance; and electromagnetic waves. The course meets for three hours of lecture each week, and one three-hour laboratory each week. Prerequisite: PHY 221 and MTH 212 or concurrent enrollment. A student must pass the laboratory portion of any science course to pass the entire course. Annually, Spring. IAI-PHY912

PHY 223 UNIVERSITY PHYSICS III: THERMAL AND QUANTUM PHYSICS (4)

This course is the third course in the calculus-based physics sequence intended for math, science, and computer science majors. The topics covered include: wave motion; temperature; heat; thermodynamics; the kinetic theory of gases; the nature of light; geometric optics; interference; diffraction; polarization; introduction to quantum physics; and quantum mechanics. The course meets for three hours of lecture each week, and one three-hour laboratory each week. Prerequisite: PHY 222. A student must pass the laboratory portion of any science course to pass the entire course. Annually, Fall. IAI-PHY913/914

PHY 251 ENGINEERING MECHANICS I: STATICS (3)

This course is an introduction to static mechanical systems. The topics covered include: forces; moments; couples; resultants of force systems; equilibrium analysis; free-body diagrams; analysis of forces on members; trusses; frames; shear-force; Coulomb friction; centroids; center of mass; moment of inertia; product of inertia; virtual work; hydrostatic pressure; and applications of statics in design. The course meets for three hours of lecture each week. Prerequisite: PHY 221. Alternate years, Spring.

PHY 252 ENGINEERING MECHANICS II: DYNAMICS (3)

This course is an introduction to dynamic mechanical systems. The topics covered include: kinematics; dynamics of three-dimensional motion of particles; rigid body motion; methods of work, energy, momentum, and impulse; moving frames of reference. The course meets for three hours of lecture each week. Prerequisite: PHY 251. Alternate years, Fall.

PHY 253 ELECTRONIC CIRCUITS (4)

This course is an introduction to the basic principles of circuit analysis. The topics covered include: circuit analysis; transient analysis, AC steady-state analysis; introduction to semiconductor devices and fabrication; digital logic circuits; op-amps; and analog to digital or digital to analog conversion. The course meets for three hours of lecture each week and one three-hour laboratory each week. Prerequisite: PHY 222. A student must pass the laboratory portion of any science course to pass the entire course. Alternate years, Spring.

PHY 299 PRACTICUM IN PHYSICS (1-3)

For students at the sophomore level or above who wish to arrange a practicum in a laboratory or other appropriate direct-experience learning situation in physics. Prerequisites: 15 hours of related coursework, grade point average consistent with departmental graduation requirements, and permission of the instructor. No more than eight credit hours combined total for this practicum and any internship may be counted as credit toward the major.

PSI 101 AMERICAN POLITICS (3)

A survey course focusing on the development, organization and dynamics of American political processes and institutions. This course examines how the public, interest groups, the media, political parties and the constitutional branches of government work together to produce public policies. Each semester. IAI-55900

PSI 102 STATE AND LOCAL GOVERNMENT (3)

Introductory course providing an understanding of the way in which state and local governments function and their place within the American political system. Annually, Spring.

PSI 201 INTRODUCTION TO POLITICAL SCIENCE (3)

A comprehensive introduction to the discipline of political science, including political theory, American politics, comparative politics and international relations. Recommended for Social Science Education majors. Spring, odd years.

PSI 210 INTRODUCTION TO WORLD POLITICS (3)

A study of the dynamics of the modern nation state in its relationships with other members of the international community. Annually, Fall.

PSI 220 INTRODUCTION TO COMPARATIVE POLITICS (3)

A comparative study of the organization and operation of both Western and non-Western governments. Fall, odd years.

PSI 230 INTRODUCTION TO POLITICAL THEORY (3)

An introduction to the classical theorists, including Plato, Machiavelli, Hobbes, Locke, Mill and Marx. Spring, even years.

PSI 280-289 SPECIAL TOPICS IN POLITICAL SCIENCE (1-3)

As needed.

PSI 300 CONGRESS (W) (3)

A study of the organizational structure of Congress, the nature of its processes, and the behavior of its members. Specific topics include Constitutional powers, the role and importance of the committee and party systems, congressional decision making, and Congressional interaction with other parts of the political system. Prerequisite: PSI 101. Fall, odd years.

PSI 301 THE PRESIDENCY (W) (3)

This course examines the historical development, organizational structure, and function of the Presidency. Specific topics include presidential leadership in foreign and domestic policy and the relationship between the President and other political actors, including the public, the media, Congress and the bureaucracy. Prerequisite: PSI 101. Spring, even years.

PSY 211 STRESS MANAGEMENT (3)

An introduction to psychological aspects of stress – the etiology and the physiological and psychological consequences of stress. Practical and theoretical experience in a variety of stress management techniques (stress management planning, progressive relaxation, autogenic training, hypnosis, systematic desensitization and implosive therapy). Annually, Fall.

PSY 250 INTRODUCTION TO CHILD ADVOCACY (3)

This course covers the history of child welfare, defining and recognizing child maltreatment, professional responses to child maltreatment, the skills necessary to work with child victims, and child abuse prevention. The course is designed for students pursuing careers in criminal justice, education, social work, sociology, psychology, nursing, paralegal, and other areas where knowledge of child maltreatment and advocating for children might be necessary. As needed.

PSY 259W CHILD AND ADOLESCENT PSYCHOLOGY (W) (4)

A study of the development of the individual from infancy through adolescence with emphasis on major developmental theories, specifically as related to psychosexual, psychosocial, cognitive, moral, and physical development. Methodologies in child research are also explored. Requires systematic observation of children and adolescents. Each semester. IAI-S6904

PSY 265 PSYCHOLOGY OF GENDER (3)

A psychological examination of the individual development of gender. Findings from psychological research on gender will be reviewed including: interpersonal relations, stereotypes of men and women, physical and mental health, media portrayals, educational biases, career decisions, and individual differences in abilities and personalities. Spring, even years.

PSY 275 BIOPSYCHOLOGY (4)

This course is intended to provide an overview of physiological psychology. The course will cover the structure and function of neurons and the brain. The course will further explore the biological foundations of behavior and personality including such topics as genetics, brain damage, sensation and perception, eating, sex, sleep, drug addiction, memory, lateralization, emotions, stress, and mental health. Annually, Fall.

PSY 280-289 SPECIAL TOPICS IN PSYCHOLOGY (1-4)

As needed.

PSY 302 ADULT DEVELOPMENTAL PSYCHOLOGY (3)

An exploration of the development of the adult over the following periods of adulthood: the young adult, middle adult years, maturity, and old age. The nature of stability and changes experienced across adulthood in physical, mental and social life will be examined. The influence of gender and cultural differences in adult developmental trajectories will also be considered. Prerequisite: PSY 259 or consent of instructor. Each semester.

PSY 304 CROSS CULTURAL PSYCHOLOGY (3)

This course will provide an overview of the impact of cultural effects on human behavior by focusing on similarities and differences from a global perspective utilizing theories of personality. The purpose of this course is to enhance student sensitivity and awareness of diversity aimed at reducing ethnocentric thinking while sharpening critical thinking skills. Annually, Fall.

PSY 315 ABNORMAL PSYCHOLOGY (4)

A study of the development and characteristics of anxiety disorders, personality disorders, psychoses, psychosomatic disorders, and mood disorders. Various treatment modalities will also be considered. Each semester.

PSY 321 PSYCHOLOGY AND SOCIOLOGY OF DEATH AND DYING (4)

A study of death and dying which may include but is not limited to the following: death and self-concept, fear of death, death as becoming, care of the dying, grief, suicide, euthanasia, acceptance of death, funerals, children and death, the law and death and death education. Clinical approaches to dealing with death are also considered. Prerequisite: junior or senior standing or consent of instructor. Annually, Fall.

PSY 322 PSYCHOLOGY AND SOCIOLOGY OF HUMAN AGING (4)

A study of human aging with the goal of developing more fully-functioning persons. Consideration may be given to but not limited to the following: theories of aging; the psychological, sociological, and biological aspects of human aging; the effects of aging on work, intellectual and athletic achievements; personality and adjustment in old age; the psychopathology of human aging; research relating to old age; human sexuality in old age; retirement, successful aging; leisure in old age; and the terminal stage of old age. Field study component is required. Prerequisite: junior or senior standing or consent of instructor. Same as GRN 322. Spring, odd years.

PSY 350 EDUCATIONAL PSYCHOLOGY (3)

Same as EDU 350. Each semester.

Course Descriptions

- PSY 355 PSYCHOLOGY OF INSTRUCTIONAL STRATEGIES (3)**
An examination of a variety of instructional strategies, the purposes they serve, and the psychological foundations on which they were formulated. There is an emphasis on the way in which these strategies interact with cognitive thinking, personality preferences, course content, and learning styles. Same as EDU 355. As needed.
- PSY 370 PSYCHOLOGY OF HUMAN SEXUALITY (3)**
An investigation of human sexual behavior, including but not limited to sexuality in its cultural, biological, and social contexts. Examined will be such topics as conception and contraception, physiological and anatomical factors, sexual dysfunction, and variations in sexual behavior. Annually, Spring.
- PSY 375 PSYCHOLOGICAL TESTING AND MEASUREMENT (3)**
This course will cover the basic theories relating to the foundations of testing and measurement. The purpose of this course is to help students understand the use of testing, reliability, validity, designing tests and surveys, and gaining an understanding of the many psychological tests currently used in counseling, education, and the workplace. Annually, Fall.
- PSY 380-389 SPECIAL TOPICS IN PSYCHOLOGY (1-4)**
As needed.
- PSY 401 SOCIAL PSYCHOLOGY (3)**
An examination of social interactions, the impact of the group on the individual and the impact of the individual on the group. Focus is on interpersonal behavior and feelings – liking, love, aggression, conformity, communications and attitude formation and change. Same as SOC 401. Annually, Spring.
- PSY 404 EARLY ADOLESCENTS AND SCHOOLING (W) (3)**
Same as EDU 404. Each semester.
- PSY 405 INDUSTRIAL/ORGANIZATIONAL PSYCHOLOGY (3)**
The application of psychological methods and techniques to the solution of human problems in industry and business. Topics considered are behavior in organizations, environments and behavior, the organization complex, group behavior and individual adjustment, organizational climates, motivation and supervision of employees, and selection of and development of employees. Spring, even years.
- PSY 406 PSYCHOLOGY OF THE EXCEPTIONAL CHILD (4)**
The identification and characteristics of the various classes of exceptional persons, including those with physical, mental, emotional and social conditions, as well as those of superior ability. Emphasis is placed upon the needs of exceptional persons, and attention is given to the modification of the environment and teaching techniques to meet those needs. The “culturally different” child is also studied. At discretion of instructor, a field study component is required observing exceptional children in the public or parochial schools. Each semester.
- PSY 408 DIFFERENTIAL DIAGNOSES IN FILM (3)**
In this course, students will apply their knowledge of psychological theories to popular culture and film. They will research the epoch and the authenticity of data regarding each movie to gain a more thorough understanding of the sociopolitical climate and its psychological impact on human behavior. In addition, students will be introduced to graduate level critical thinking and differential diagnoses of behavior. Prerequisite: PSY 302 or consent of instructor. Annually, Spring.
- PSY 417 THEORIES OF PERSONALITY (4)**
A systematic review of the major personality theories, emphasizing a study of the development and dynamics of personality and its measurement, specifically as related to the individual student. Prerequisite: PSY 315. Annually, Spring.
- PSY 450 CLINICAL AND COUNSELING PSYCHOLOGY (4)**
Introduction to the various techniques of counseling. Course will include an overview of humanistic, psychoanalytic, behavior and cognitive therapy approaches. Prerequisites: PSY 315 and 8 additional credits in psychology. Each semester.
- PSY 465 SPORT AND HEALTH PSYCHOLOGY (3)**
This course will cover primary theories and applications in sport and health behaviors. Theories will be drawn from social psychology, health psychology, cognitive psychology, exercise psychology, and sport psychology. Specific topics will include personality characteristics, motivation, goal-setting, attributions, concentration, imagery, aggression, group dynamics, communication and counseling techniques, research methodologies, and behavior modification. An extensive research paper, group presentation, and individual behavior modification project will be included in the course. Same as PED 465. Annually, Fall.
- PSY 470 INTERNSHIP IN PSYCHOLOGY (W) (3-8)**
- PSY 480 INDEPENDENT STUDY IN PSYCHOLOGY (1-4)**

PSY 490 SEMINAR IN PSYCHOLOGY (1-4)
As needed.

PSY 494 STATISTICS AND STATISTICAL SOFTWARE FOR THE BEHAVIORAL SCIENCES (4)

This course provides an in-depth overview of statistical analyses, including descriptive, graphic, and inferential techniques, bivariate correlation, linear regression analysis, non-parametric chi square, as well as hypothesis testing with z-tests, t-tests, and analysis of variance (ANOVA). Real world social science problems are solved through the application of analytical procedures using SPSS statistical computer software. Prerequisite: Junior or Senior standing and MTH 310 or consent of the instructor. Each semester.

PSY 496 EXPERIMENTAL PSYCHOLOGY AND RESEARCH METHODS (W) (4)

Research methods and laboratory experimentation in psychology with an emphasis on a senior thesis involving a research project that includes design, implementation and data analysis. Prerequisite: PSY 494. Each semester.

PSY 498 SENIOR SURVEY IN PSYCHOLOGY (3)

This course is designed for psychology majors to prepare them for graduate school and also for the professional field. The course will include a review of the history of psychology, psychological theories, and current research in the field. There will be an emphasis on transfer of this knowledge to both the graduate school and the professional field. Prerequisite: Junior/Senior Standing. Annually, Fall.

REL 210 LIVING RELIGIONS OF THE EAST (3)

An introduction to the indigenous religions of India, China and Japan, including the traditions of Hinduism, Buddhism, Taoism and Confucianism. The course includes analysis of important beliefs, practices and historical developments within each tradition, readings of classic and contemporary literature from the traditions, and visiting of religious sites. Annually, Fall.

REL 211 LIVING RELIGIONS OF THE WEST (3)

An introduction to the monotheistic religions of Judaism, Christianity, and Islam. The course includes analysis of important beliefs, practices and historical developments within each tradition, readings from classic and contemporary literature from the traditions, and visiting of religious sites. Annually, Spring.

REL 215/315 RELIGION IN THE UNITED STATES (3)

An overview of the history, character, and variety of religion in the United States. Elements of the course include summarizing historical developments in religion, analyzing constitutional issues regarding the separation of church and state, and examining the distinctive characteristics of denominational and religious groups, including the way they respond to important contemporary issues. Annually, Spring.

REL 230 INTRODUCTION TO CHRISTIANITY (3)

An overview of the Christian tradition, including its roots in Judaism and its growth and development through the centuries. Special attention is given to critical analysis of significant issues Christian churches face in the contemporary world. Annually, Fall.

REL 235 RELIGION AND GENDER (3)

An exploration of the diverse experiences of women and men in a variety of religious traditions. Issues to be treated include beliefs about women and men in the major world religions; the role of religion in determining gender roles in human society; the relation between gender and spirituality; and the contemporary feminist challenge to male-dominated forms of religion. Fall, odd years.

REL 240 RELIGION AND RACE (3)

A broadly interdisciplinary study of the historic and contemporary relation between religion and racial ideologies in the United States and around the globe. The course will focus on the many ways in which religion has been used both to support and to combat racism in the modern world. Special attention will be given to the history of black-white relations in America and the rise of anti-Semitism in Europe. Spring, even years.

REL 250 RELIGIONS OF THE WORLD (3)

A historical and comparative study of the world's living religions, including their beliefs, practices, literature, and influence in the world today. As needed.

REL 280-89 TOPICS IN RELIGION (3)

Focused study of a particular topic, theme, or issue in Religious Studies that is meant to be accessible to general education students. Topics will be announced in the course schedule each semester. As needed.

REL 310 INTERFAITH EXPLORATIONS (3)

This course explores issues surrounding interfaith relations in the United States, including interfaith dialogue, service and advocacy, politics, theology and worship, personal issues, and available resources for interfaith engagement. The course includes applying theory through case studies, engaging in dialogue with students

McKendree University 2013/2014 Undergraduate Catalog

REL 490 SEMINAR IN RELIGIOUS STUDIES (W) (1-4)

Intensive study of a current topic in Religious Studies. Seminar topics will be announced in the course schedule as they are offered. Prerequisite: Major or minor in Religious Studies, or permission of instructor. As needed.

SCE 205 EARTH AND ASTRONOMICAL SCIENCE (3)

This course will cover principles of modern geology and astronomy. Topics will include the origin and structure of the universe, as well as the origin of the solar system. Other topics will include plate tectonic theory, the geological history of the earth and the fossil records. This course counts as general education, non-lab science and nature credit. Three one hour lectures per week. Annually, Fall.

SCE 210 CONCEPTS IN SCIENCE (3)

This course will explore the major unifying concepts of all sciences and how these concepts relate to other disciplines. In addition, the course will investigate the accepted practices of science and their implications. Within this context the course will then discuss the interaction among science, technology, and society. This course counts as general education, non-lab science and nature credit. Three one hour lectures per week. Annually, Spring.

SOC 150 PRINCIPLES OF SOCIOLOGY (3)

An introduction to sociology with an emphasis on basic concepts and theoretical perspectives, and their application to an understanding of social organization and social processes. Each semester. IAI-S7900

SOC 170 INTRODUCTION TO CRIMINAL JUSTICE (3)

An introduction to the criminal justice system with an emphasis on the structure and functioning of law enforcement agencies, the courts, and correctional institutions. Annually, Spring.

SOC 190 INTRODUCTION TO SOCIAL WORK (3)

An overview of the historical development of social work in the United States. An introduction to the values and principles of social work along with the settings where social workers practice. Pre- or co-requisite SOC 150 or consent of instructor. Annually, Fall.

SOC 220 JUVENILE DELINQUENCY (3)

An introduction to the study of juvenile delinquency and a survey of the history and operations of the juvenile justice system. Annually, Fall.

SOC 240 CROSS CULTURAL PRACTICUM (1 or 3)

An analysis of contemporary social issues through a combination of community service and classroom sessions. Students enrolled in this course must participate in an extended field experience. No more than four credit hours of credit for this class may be applied toward the major. Pass/Fail only. Prerequisite: Consent of instructor. As needed.

SOC 250 INTRODUCTION TO CHILD ADVOCACY (3)

This course covers the history of child welfare, defining and recognizing child maltreatment, professional responses to child maltreatment, the skills necessary to work with child victims, and child abuse prevention. The course is designed for students pursuing careers in criminal justice, education, social work, sociology, psychology, nursing, paralegal, and other areas where knowledge of child maltreatment and advocating for children might be necessary. As needed.

SOC 260 SOCIOLOGY OF FAMILIES (3)

A study of the institutions of marriage and the family with an emphasis on the family in the U.S. Specifically, students will investigate the origin and evolution of the family, human sexuality, love and marriage, sex roles, parent/child interactions and the relationship between the family and other cultural institutions. Fall, even years.

SOC 270 SOCIAL PROBLEMS (3)

A sociological analysis of the social problems confronting contemporary societies, particularly the United States, and the processes by which they become identified as social problems. Each semester. IAI: S7901

SOC 279 COMMUNITY ACTION/ORGANIZATION (3)

Macro social work deals with organizing the effective delivery of services, strengthening community life, and preventing social problems. An introduction to community organization, locality development, social planning, and social action models. Prerequisite: SOC 190 or consent of instructor. Fall, even years.

SOC 280-289 SPECIAL TOPICS IN SOCIOLOGY (1-4)

Special topics courses allow offerings not regularly scheduled to be taught. These may be offered by the faculty or students may request courses in areas of their interest and faculty expertise. Depending on the subject matter, this may be cross listed with courses in other disciplines. As needed.

SOC 330 POPULAR CULTURE (3)

Pop-culture artifacts and practices are vital cultural spaces for the articulation of our social, political, and

personal identities. Focusing on popular culture, the course will examine the communicative roles of cultural artifacts and practices. Sites of interrogation will include pop culture texts, locales, practices and actors. Prerequisite: SOC 150 or consent of instructor. As needed.

SOC 350 SOCIOLOGY OF GENDER (3)

A sociological examination of the social creation of gender and how that concept is transmitted and maintained. The implications of gender will be studied in relation to social, economic and political stratification. Prerequisites: Soc 150 or consent of instructor. Annually, Fall.

SOC 354 URBAN SOCIOLOGY (3)

An introduction to the study of urban areas. The history and development of urbanization, processes of urban change and conflict, and social and psychological effects of urban life will be examined. Prerequisite: SOC 150 or consent of instructor. Spring, odd years.

SOC 355 RURAL SOCIOLOGY (3)

An introduction to the study of rural areas in contemporary U.S. and global society. Key topics explored include: the meaning of rural in contemporary society, measurements of rurality, social change within U.S. and world society, diversity within rural areas in the U.S., agriculture and natural resource use, and challenges facing rural society. Prerequisite: SOC 150 or consent of the instructor. Spring, even years.

SOC 360 RACE AND ETHNIC RELATIONS (3)

A study of race and ethnic relations in the United States and other countries. The course examines the origins of ethnic conflict, the establishment of ethnic group stratification and the factors that perpetuate ethnic group conflict. Special emphasis will be given to the experience of African Americans. Prerequisite: SOC 150 or consent of instructor. Annually, Spring.

SOC 371 SOCIOLOGY OF DEVIANCE (3)

An analysis of the sociological theories of deviant behavior. The social construction of deviance will be examined along with an analysis of some of the actions identified as deviant in our society. Prerequisite: SOC 150. Annually, Fall.

SOC 375 SOCIAL WORK PRACTICUM (3)

An introduction to social work practice through a combination of community service and classroom sessions. Extended field observation required. Consent of instructor required. Prerequisite: SOC 190 or consent of instructor. Spring, odd years.

SOC 380-389 SPECIAL TOPICS IN SOCIOLOGY (1-4)

As needed.

SOC 390 SOCIAL WELFARE POLICY (3)

This course focuses on the process of social welfare policy formation at the state and federal level. Reviews the history of social welfare policy in the United States and the impact changing policy has on clients, social services and social work roles. Prerequisite: SOC 190, SOC 395 or consent of instructor. Fall, odd years.

SOC 395 CLASSICAL SOCIAL THEORY (W) (3)

An overview of the development of sociological theory with an emphasis on classical theory. This course is designed to cultivate in students the analytical skills they will need to be good social thinkers. Prerequisite: SOC 150. or consent of instructor. Annually, Fall.

SOC 401 SOCIAL PSYCHOLOGY (3)

Same as PSY 401. Prerequisite: consent of instructor. Annually, Spring.

SOC 410 CONTEMPORARY SOCIAL THEORY (3)

A critical examination of the major developments in contemporary sociological theory. Prerequisite: SOC 150, SOC 395 or consent of instructor. Annually, Spring.

SOC 420 SOCIAL STRATIFICATION (3)

An examination of the relationship between inequality and the historical development of societies. Various theoretical perspectives on social stratification will be discussed, as will the concept of class conflict and the role of ideology in the maintenance of inequality. Prerequisite: SOC 150 or consent of instructor. Spring, even years.

SOC 440 POLICE AND URBAN SOCIETY (3)

An examination of the social and historical origins of the police and the changing nature of police organizations in contemporary urban society. Prerequisite: SOC 170. Annually, Spring.

SOC 445 CORRECTIONAL INSTITUTIONS (3)

An examination and analysis of contemporary correctional systems. Consideration will be given to such issues as the goals of incarceration, prisoner's rights, prison violence, treatment and rehabilitation programs, and parole. Prerequisite: SOC 170 or consent of instructor. Annually, Fall.

McKendree University 2013/2014 Undergraduate Catalog

- SOC 450 SOCIOLOGY OF SPORT (3)**
A sociological examination of sports and sport-related behaviors as they occur in social and cultural contexts. Same as PED 450. Prerequisite: SOC 150 or consent of instructor. Annually, Spring.
- SOC 470 INTERNSHIP IN SOCIOLOGY (3-8)**
- SOC 480 INDEPENDENT STUDY IN SOCIOLOGY (1-4)**
- SOC 490 SEMINAR IN SOCIOLOGY (2-4)**
Selected topics. As needed.
- SOC 496 METHODS OF SOCIAL RESEARCH (W) (4)**
An introduction to social science writing and research skills. This course is designed to cultivate the student's skills in evaluating the significance of published research findings and in designing original research. Topics include the interdependence of theory and research, hypothesis formation, research design, sampling techniques, and various methods of observation. Prerequisite: Senior status and 12 completed hours in sociology. Each semester.
- SOC 498 SOCIOLOGICAL ANALYSIS (3)**
A senior capstone course for sociology majors focusing on a review and integration of sociological knowledge. Students will explore career and graduate school opportunities. Prerequisite: Senior status, SOC 496, MTH 310, and CSI 108. Annually, Spring.
- SPA 101 SPANISH LANGUAGE AND CULTURE I (3)**
An introductory course designed for the student with no knowledge of the Spanish language. Emphasis is placed on listening, speaking, and writing skills as well as an introduction to Spanish culture and history. Annually, Fall.
- SPA 102 SPANISH LANGUAGE AND CULTURE II (3)**
A continuation of SPA 101. The course emphasizes speaking and understanding of conversational Spanish with a continued development of writing and vocabulary skills. Prerequisite: SPA 101 or placement test. Annually, Spring.
- SPA 150 SPANISH LANGUAGE FOR HEALTH PROFESSIONS I (3)**
An introductory course designed for students no knowledge of the Spanish language. Emphasis is placed on listening, speaking, writing, and developing awareness and understanding of native Spanish-speakers' culture. This course focuses on vocabulary and discourse necessary in Health professions. Fall, odd years.
- SPA 160 SPANISH LANGUAGE FOR HEALTH PROFESSIONS II (3)**
A continuation of SPA 150. Emphasis is placed on listening, speaking, and writing and developing an awareness and understanding of Spanish-speakers' culture. This course focuses on vocabulary and discourse necessary in Health Care field. Spring, odd years.
- SPA 220 SPANISH LANGUAGE AND CULTURE III (3)**
This course focuses on developing the students' skills to an intermediate level of proficiency. Emphasis is placed on the development of the spoken language, original composition, and knowledge of the culture through readings in Spanish and in translation. Prerequisite: SPA 102 or placement test. Annually, Fall.
- SPA 300 SPANISH/LATIN AMERICAN CULTURE
AND BEGINNING CONVERSATION (3)**
This course introduces students to the culture of Spain and Latin America, especially through the discussion of modern issues. Students will develop a fluency in the spoken language. Prerequisite: SPA 220 or consent of instructor. As needed.
- SPA 301 ADVANCED GRAMMAR AND COMPOSITION (3)**
This course reviews and reinforces the knowledge of Spanish grammar and develops writing fluency in the language. Prerequisite: SPA 220 or consent of instructor. As needed.
- SPA 302 ADVANCED CONVERSATION (3)**
A continuation of SPA 300. This course reinforces speaking abilities in the language and students learn more about the Spanish culture. Prerequisite of 301 or consent of instructor. As needed.
- SPA 303 ADVANCED GRAMMAR AND COMPOSITION II (3)**
This course reviews and reinforces the knowledge of Spanish grammar. It develops writing fluency in the language developed in Spanish 301 and requires longer compositions. Prerequisite: SPA 301 or consent of instructor. As needed.
- SPA 310 SPANISH/LATIN AMERICAN HISTORY AND CIVILIZATION (3)**
This course focuses on the history of Spain, the discovery of the New World, and the history of Latin America. Students will gain a better understanding of the origins of the language and its native speakers. Prerequisite of 301 or consent of instructor. As needed.

Course Descriptions

- SPA 311 SPANISH/LATIN AMERICAN FILMS (3)**
This course introduces student to the history, culture, and language of Spain and Latin American through films. Prerequisite of 301 or consent of instructor. As needed.
- SPA 312 LATIN AMERICANS IN THE U.S. (3)**
This courses focuses on the history, current issues, culture, and literature of Hispanics in the U.S. Students will gain a better understanding of the Hispanic population in the U.S. Students will have to complete 10 hrs of practicum within the Hispanic community in the area. Practicum hours for this class can be double counted if the other party agrees as well. Prerequisite: SPA 301 or consent of instructor. As needed.
- SPA 320 SPANISH/LATIN AMERICAN LITERATURE AND CULTURE (3)**
Study of Spain and Latin America through art, history and literature from early ages to the present. Pre-requisite of 301 or consent of instructor. As needed. May be repeated.
- SPA 330 ADVANCED BUSINESS SPANISH (3)**
This course prepares students to use Spanish in the Business field. Prerequisite: SPA 301 or consent of instructor. As needed.
- SPA 350 LANGUAGE EXPERIENCE IN A SPANISH SPEAKING COUNTRY I (3)**
A six to eight week period of intensive language and cultural study during a summer session in Spain or other Spanish-speaking country. Credit is determined through arrangement with the instructor for projects in Spanish history and culture. As needed.
- SPA 351 LANGUAGE EXPERIENCE IN A SPANISH SPEAKING COUNTRY II (3)**
A six to eight week period of intensive language and cultural study during a summer session in Spain or other Spanish-speaking country. Credit is determined through arrangement with the instructor for projects in Spanish history and culture. As needed.
- SPA 380-389 TOPICS IN SPANISH/
LATIN AMERICAN LANGUAGE AND CULTURE (3)**
The focus on this course is the development of speaking competency. The course will be taught in the Spanish language; various methodologies will be used to further social and linguistic interaction in the classroom. Students should realize an appreciable growth in oral comprehension and expression in the language. Prerequisite of SPA (or concurrent enrollment). Pre-requisite of 301 or consent of instructor. As needed.
- SPA 480 INDEPENDENT STUDY IN SPANISH (3)**
Prerequisite: Consent of instructor and academic advisor. As needed.
- SPC 100 FUNDAMENTALS OF SPEECH COMMUNICATION (3)**
This course provides an introductory survey of communication topics such as nonverbal communication, interpersonal communication, small group communication and public speaking. The course is designed to help students understand and apply basic communication theories and skills. Each semester.
- SPC 115 FORENSIC ACTIVITIES (.5 or non-credit)**
Participation as a member of Forensic Team. Students may work with individual events, debate, or both. Students on team will research materials, prepare for competition, and practice performances/debates. Travel is required. Must have consent of instructor to enroll. Each semester.
- SPC 200 SMALL GROUP COMMUNICATION (3)**
Principles and practical application of group discussion processes, decision making, problem solving, and leadership techniques. Annually, Spring.
- SPC 210 ARGUMENTATIVE COMMUNICATION (3)**
Study of the principles and practice of argumentation as applied to debating issues within different communication contexts, such as interpersonal or public. Annually, Fall.
- SPC 220 PUBLIC SPEAKING (3)**
Study of the research, organization, writing, delivery, and critical analysis of selected forms of public address. Each semester. IAI-C2900
- SPC 252 INTERPERSONAL COMMUNICATION (W) (3)**
Examination of person-to-person communication with specific emphasis on such daily communication aspects as self-concept, perception, language, nonverbal communication, and listening. Annually, Fall.
- SPC 280-289 TOPICS IN SPEECH COMMUNICATION (3)**
This course introduces topics or areas in Speech Communication that are not generally included in the regular curriculum. As needed.

McKendree University 2013/2014 Undergraduate Catalog

SPC 300 COMMUNICATION THEORY (3)

Study of the many facets of human communication and how to best utilize them for personal and professional futures. Specific emphases will include the symbolic and motivational bases, functions, and contexts of communication. Fall, odd years.

SPC 310 BUSINESS AND PROFESSIONAL PRESENTATIONS (3)

This course provides students with knowledge of and practice in the varied presentational skills required in the workplace. Students gain experience in presenting briefings, proposals and group project reports. Prerequisite: SPC 220 or permission of instructor. Annually, Spring.

SPC 351 ORGANIZATIONAL COMMUNICATION (W) (3)

Examines communication theories and principles as they relate to organizations. Communication rules, communication networks, managerial communication, organizational cultures and small group communication are some of the topics explored. Annually, Spring.

SPC 353 INTERCULTURAL COMMUNICATION (3)

In this course, students will examine the influences between culture and communication upon human interaction. The course analyzes communication of people from different cultures and provides students with an analytical framework for understanding intercultural exchanges. Annually, Spring.

SPC 370 TRAINING AND DEVELOPMENT (3)

Explores the role of communication in training and development. The nature of communication in organizations, characteristics of the adult learner, needs assessment, training programs, teaching models and ethical considerations in training and development are some of the areas examined. Fall, odd years.

SPC 372 ETHICS AND COMMUNICATION (3)

Ethics and Communication explores the critical relationship between ethics and communication. Students are introduced to a variety of ethical perspectives and their relationship to different communication contexts. Students will explore these relationships, as well as assess them regarding their ethical choices when communicating. As needed.

SPC 375 GENDER AND COMMUNICATION (3)

This course offers students the opportunity to explore the influence gender has on communication in various contexts. It traces the cultural communication patterns of males and females from birth, with special emphases on classroom and workplace settings. Fall, odd years.

SPC 380-389 TOPICS IN SPEECH COMMUNICATION (3)

This course introduces topics or areas in Speech Communication that are not generally included in the regular curriculum. As needed.

SPC 391 PERSUASION (3)

The theory and practical application of rhetorical skills as they relate to the motivation and change of individuals and groups. Annually, Spring.

SPC 401 FREEDOM OF SPEECH (3)

Examines topics relevant to the right of free speech. Historical development of the First Amendment, communication models and freedom of expression, artistic freedom, academic freedom, provocation to anger and nonverbal acts of expression are some of the topics explored. Annually, Fall.

SPC 470 INTERNSHIP IN SPEECH COMMUNICATION (3-8)

SPC 480 INDEPENDENT STUDY IN SPEECH COMMUNICATION (1-4)

SPC 490 SEMINAR IN SPEECH COMMUNICATION (3)

Special topics in speech communication will be developed in seminar fashion. Annually, Spring.

SPM 320 PRINCIPLES OF SPORT MANAGEMENT (3)

The management of sport-related businesses will be examined by applying key concepts of management to sporting events and programs. Topics may include: strategic planning; facility and event planning; organizing and delegation; the financing and economics of sport; managing change; behavior in organizations; and quality control. The course may be taught from a case perspective and will cover a broad base of businesses involved in sports. Prerequisite: MGT 204 or ATH/PED 357. Annually, Spring.

SPM 376 SPORT FACILITIES AND EVENT MANAGEMENT (W) (3)

A course covering the theoretical foundations and practical applications for understanding the management of facilities and sporting events. Typical topics include: key strategies for managing event logistics; critical planning techniques; and a review of negotiations and contracts with sponsors, suppliers, and insurance companies. Prerequisites: FIN 320, MGT 376, SPM 320. As needed.

SPM 470 INTERNSHIP IN SPORT MANAGEMENT (3-8)

Internship in sport management will focus on experiences that enable the student to synthesize and apply knowledge from the core and specialized courses. It is suggested that the internship be taken with MGT 450 as the capstone experience for the program. Prerequisites: ECO 320, SPM 376. As needed.

SSC 100 MODEL UNITED NATIONS (0.5 or non-credit)

This course provides students with opportunities to write policy papers in preparation for Model United Nations activities. For elective credit only. Consent of the instructor is required. May be repeated for up to 4 credits. Each semester.

SSC 280–289 TOPICS IN SOCIAL SCIENCE (1-4)

As needed.

STA 380 STUDY ABROAD (3)

This course includes both on-campus study and travel abroad. Students will experience cultural, social, economic and political aspects of life in a foreign country. Fulfills cross-cultural general education requirement. A fee is charged for this course. Prerequisite: Consent of the instructor. As needed.

THE 100 INTRODUCTION TO THEATER (3)

An introductory course designed to acquaint the student with the basics of theatrical production. The course will cover the basics of acting, directing, technology, and design elements. This course is intended both for general education student and theater minors. Each semester.

THE 111 ACTING I (3)

This introductory course explores the idea of acting, with work in the basics of voice, movement, and characterization. Students will do exercises, improvisations, monologues, and duet scenes. Annually, Fall.

THE 212 ACTING II (3)

This course is a continuation of Introduction to Acting, with more advanced work in voice, movement, and characterization, as well as some work with classic texts. Students will do exercises, improvisations, monologues, and duet scenes. Prerequisite: THE 111 or equivalent. Annually, Spring.

THE 215 THEATER PRACTICUM (1-2)

The student will participate in the semester's theater production, receiving instruction within that framework and in regular meetings with the instructor. Additional work will be required, assigned according to the number of hours taken and student's duties in the production. One credit hour per semester, two with consent of major advisor. No more than three hours may be applied to the major or minor. Does not fulfill the General Education Aesthetic Expression requirement. Pre-requisite: Consent of Instructor. Each semester.

THE 219 PLAY PRODUCTION – SETS AND LIGHTING (3)

This course introduces students to the theory, technique, and practice of scene design and construction, lighting design, and stage electrics. Students may do some hands-on work in campus theater productions. Alternate years, Fall, even years.

THE 221 PLAY PRODUCTION – COSTUME AND MAKEUP (3)

This course introduces students to the theory, technique, and practice of costume design and construction, and makeup design and execution. Students may do some hands-on work in campus theater productions. Alternate years, Spring, odd years.

THE 250 DRAMATIC LITERATURE (3)

A survey of the world's dramatic masterpieces tracing the evolution of the theater from the Greeks to the contemporary theater. Emphasis is on dramatic literature in performance, and the survey includes the development of the theater as a historical institution. Same as ENG 250. Prerequisite: ENG 112 or equivalent. Annually, Fall.

THE 280-289 TOPICS IN THEATER (3)

This course introduces topics or areas in theater that are not generally included in the regular curriculum. As needed.

THE 313 ACTING WORKSHOP (1)

This course continues the student actor's work on the craft of acting. Each semester will focus on a single topic in acting technique. Potential subjects include auditioning, classical works, acting styles, improvisation, training techniques or other topics. This course may be repeated. No more than three credit hours may be applied as elective hours for a theater major. Prerequisite: THE 212. As needed.

THE 320 DIRECTING (3)

This course introduces students to the directing process through observation and practice. Topics include script analysis, casting, production coordinating, and rehearsing with actors. Course will culminate in the student's direction of a short one-act play. THE 320 and 420 will be run concurrently Prerequisite: THE 111. Alternate years, Spring, even years.

THE 330 MOVEMENT (3)

This course focuses on the physical skills needed for performance. Students will learn skills in mask work, tumbling, mime, juggling and basic stage combat, both hand-to-hand and armed. This course will also introduce students to the basics of combat choreography. Through work on specific skills, students will explore how the actor uses his or her body to communicate with the audience. THE 330 and 430 will be run concurrently. Prerequisite: THE 111 or consent of instructor. As needed.

THE 340 STAGE SPEECH (3)

This course focuses on the vocal skills needed for performance. Each student will explore his or her own voice, its connection to emotion, how it is used for communication and how the voice is used on stage for speaking performance. The International Phonetic Alphabet will be introduced. This course will also cover basic dialect work. Through work on specific skills, students will explore how the actor uses his or her voice to communicate with the audience. THE 340 and 440 will be run concurrently. Prerequisite: THE 111 or consent of instructor. As needed.

THE 350 THEATER HISTORY I (W) (3)

A study of the history of theater and its development as an art form. Course will discuss performance spaces, technical development, acting styles, playwriting, and how social and cultural dynamics have influenced theatrical performance from the beginnings of the art to the Renaissance. Alternate years, Fall, odd years.

THE 351 THEATER HISTORY II (W) (3)

A study of the history of theater and its development as an art form. Course will discuss performance spaces, technical development, acting styles, playwriting, and how social and cultural dynamics have influenced theatrical performance from the Renaissance to the present. Alternate years, Spring, even years.

THE 380-389 TOPICS IN THEATER (3)

This course introduces topics or areas in theater that are not generally included in the regular curriculum. As needed.

THE 390 JUNIOR PROJECT IN THEATER (2-4)

For this course individual students will conduct a major theater project from planning to completion and final review of the process. The requirements will include such assignments as creating and maintaining a project timeline, doing background research, conducting the project, completing a production notebook (or equivalent), and submitting a final paper assessing the process. Prerequisite: Consent of instructor and academic advisor. As needed.

THE 420 ADVANCED DIRECTING (3)

This course continues the study of directing. Topics include script selection and analysis, auditions, casting, production coordination, scheduling, publicity, budgeting, rehearsing with actors and working with designers. Students will produce and direct a full-length production or a large cast one-act. THE 320 and 420 will be run concurrently. Prerequisite: THE 320. Alternate years, Spring, even years.

THE 430 ADVANCED MOVEMENT (3)

This course focuses on the physical skills needed for performance. Students will refine their skills in mask work, tumbling, mime, juggling and stage combat, both hand-to-hand and armed. Students will continue to develop their understanding of combat choreography. Through work on specific skills, students will continue to explore how the actor uses his or her body to communicate with the audience. THE 330 and 430 will be run concurrently. Prerequisite: THE 330. As needed.

THE 440 ADVANCED STAGE SPEECH (3)

This course focuses on the vocal skills needed for performance. Each student will continue to explore his or her own voice, its connection to emotion, how it is used for communication and how the voice is used on stage for speaking performance. Study of the International Phonetic Alphabet will continue. This course will also cover additional aspects of dialect work such as collection of primary sources, transcription and analysis of source material for use. Through work on specific skills, students will continue to explore how the actor uses his or her voice to communicate with the audience. THE 340 and 440 will be run concurrently. Prerequisite: THE 340. As needed.

THE 480 INDEPENDENT STUDY IN THEATER (1-4)

Prerequisite: Consent of instructor and academic advisor. As needed.

THE 490 SENIOR PROJECT IN THEATER (3-4)

For this course individual students will conduct a major theater project from planning to completion and final review of the process. The requirements will include such assignments as creating and maintaining a project timeline, doing background research, conducting the project, completing a production notebook (or equivalent), and submitting a final paper assessing the process. Prerequisite: Consent of instructor and academic advisor. As needed.

UNI 101 UNIVERSITY 101 (1)

Serves to ease the transition to McKendree University while stressing critical thinking skills in the context of personal and civic responsibility. Centered on the following Core Commitments put forth by the Association of American Colleges and Universities: Striving for excellence; cultivating personal and academic integrity; contributing to a larger community; taking seriously the perspective of others; and developing competence in ethical and moral reasoning. This course may only be repeated once in the semester immediately following the semester in which the student first enrolls in McKendree University. In addition, a student may only repeat the course if at least a "D" is not earned upon the first attempt. Each Semester.

UNI 105 ORIENTATION TO MCKENDREE ONLINE (0)

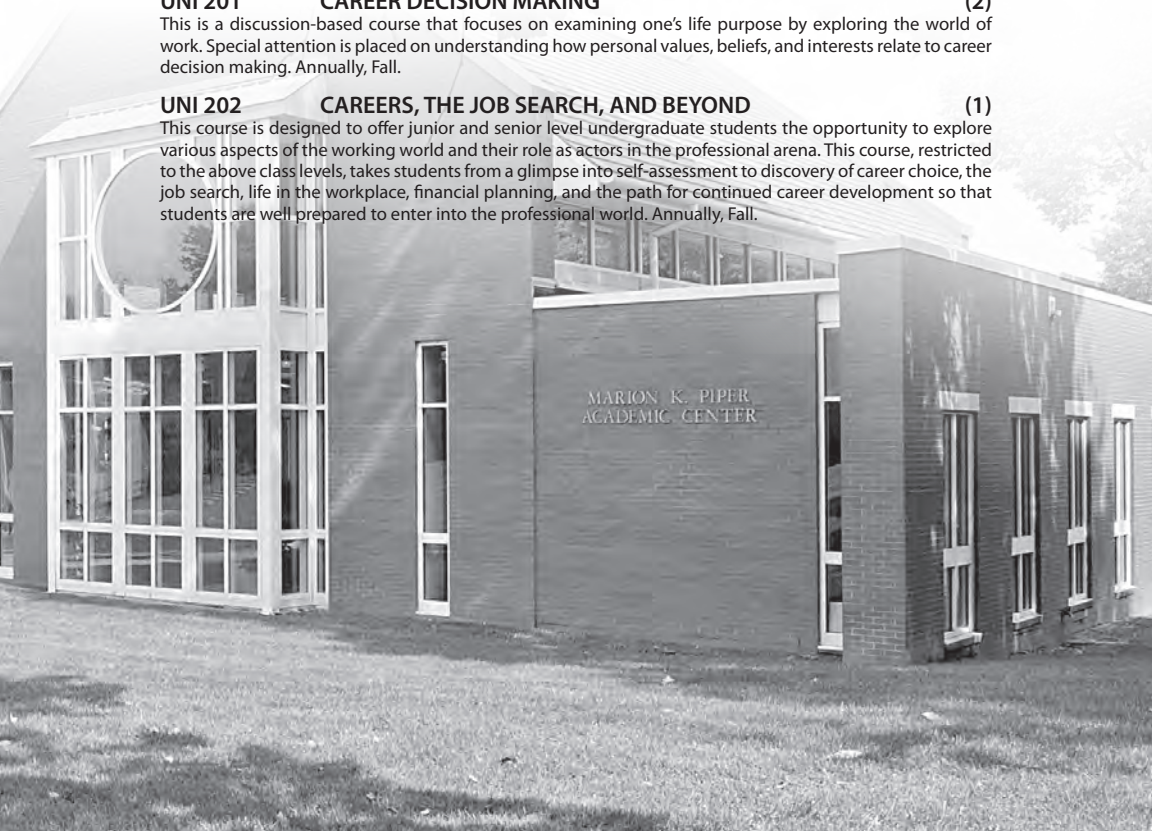

This course is required of all students entering an online program. Students will be introduced to McKendree University resources and provide assistance in establishing various accounts. Blackboard, WebAdvisor, Webmail, and library services will be introduced. Each orientation will also provide information specific to the student's major. As needed.

UNI 201 CAREER DECISION MAKING (2)

This is a discussion-based course that focuses on examining one's life purpose by exploring the world of work. Special attention is placed on understanding how personal values, beliefs, and interests relate to career decision making. Annually, Fall.

UNI 202 CAREERS, THE JOB SEARCH, AND BEYOND (1)

This course is designed to offer junior and senior level undergraduate students the opportunity to explore various aspects of the working world and their role as actors in the professional arena. This course, restricted to the above class levels, takes students from a glimpse into self-assessment to discovery of career choice, the job search, life in the workplace, financial planning, and the path for continued career development so that students are well prepared to enter into the professional world. Annually, Fall.
